PASSION

JOHN2:17.:And his disciples remembered that it was written, The zeal of thine house hath eaten me up.

_____

There was a day I met a guy on campus,this guy can spend and do any thing to smoke some sticks of cigarette every day,I interviewed him with a little question about what he was doing,all he could gave me was,he just have passion for it and he find pleasure in smoking...I met some related guys who will drink alcohol to stupor and must sleep with a lady almost every day,the question I kept asking them was why did you act the way you do always,the answer was,i just like it and find pleasure in it,some times I will just hang around them on campus,enter them with questions from their experience and the manner of life they were living to know what they were really doing,though I was never a part of their movement.but remember Jesus was called the friend of sinners,He need to mingle with them for a while in other to preach to them.

In all these ramification,the question I kept asking my self is,why will some one will find pleasure and passion in that which is prohibited.

Because today we see some people who just have passion for some many thing like,Sex,cigarette of all kind ,marijuana,pornography,raping,living permanently on hard drugs,stealing,gambling,alcoholism,gluttony,lying. etc.why? all this is a question,because some people can not stop what they are doing any more and they don't like it again.

The question is what was the reason for the first passion they had for it.

They had passion for it at first because they thought it is some thing they can do for ever,they don't like it any more because that act is causing pain and they discovered is not part of their journey in life,so they want to do without it in which the force behind it will not let them to go free.

Now ask your self. what is your passion, what did you love doing,what use to recycle in your imagination consistently,what use to take your time,what is your zeal,what did you have appetite for..what did you use to find your self doing without knowing and you are happy about it,what use to give you joy..."Jesus said the zeal of my father's house has eaten me up"

That is the zeal of His calling, the passion of His assignment, the thought of His purpose had consumed Him..

What is your zeal and instinct?

Some body will be saying I will like to fulfill destiny and purpose, but I don't know how to start or go about it,I don't know my gift or my calling"scripture said for this one thing I do,forgetting other things

that are behind " which one thing did you have passion for? Which one thing did you love doing,which one thing did you hate, which one thing did you want to stop or make happen,which one thing is pulling,turning,prompting& tugging your heart with joy,what is that one thing that is making you to be restless to make a difference,which one thing is driving your attention for Good(pay attention to your self and condition your heart in retreat ..Find out where your purpose lies,it must start with your passion and what you like." scripture said, The gift and your calling is without repentance",that is no one is left behind from birth. You are either gifted or called. The issue is you have to identify one and work it out. your passion is the key to the identification of your gift.

"Your passion is a pointer to your purpose"

Some people have passion for pressing phone in chatting always,others on system with their Game pad, some people have passion for latest movies and celebrities Gossip,others for football and traveling...".destiny is like a plant,it have it season of planting in other to enhance it quality growth"

Any thing you spend much of your time,energy and money on which is not adding value to you and your society have the ability to limit your destiny" people of one thing of value are the people that are changing the world today.

P.s game can't change your world,gambling can not change your world,eye lashes and make up of all kind are good but they can not change your world,watching some body on television in the name of I like adventure film while he is deploying his natural flaws and fulfilling his purpose can never make yours,..you have to know your passion and work it out" we heard of people like Thamos Edison who discovered Electric bulb and Michael Faraday the father of electricity" these are the example of men of like passion who have passion for one thing and they put all their time and interest in that one thing to make it work." study about them you will know how they were made through passion.

You are too busy with many things.

In the world today some people are users while some people are producers..those who produce we called them science,those who consume only which name or group did they belong to?.who are those people we called science today,because science is not an animal or any big engine that produce like miracle.

You too can make a difference as science is doing,and they will value you and name you after it.

i have a Muslim friend who like listening to a particular music always, one day I asked him,you do love this guy music,why? Can you sing,No! Can you imitate him,No! Then what can you do,nothing. Then I said to my self,you won't be relevant with time,and that guy gift will not make him either.."you will just be making a living without make a difference if you can't find where you belong and fix your self there,life will look like a burden to you .But it all start with what you have passion for....

Any thing you have passion for..you can go about it and develop that passion into realty. e.g by purchasing a book in that direction,watching movies that will expand your passion,visiting conference and attending an event that will trigger your passion for next level.

" I read a book called "THE ASSIGNMENT" by Dr Mike Murdock that change my life for ever.

If you don't know where you are going,any body or any thing can give you direction which will not help,our world is full of people that add sorrow to life today,like Gun men,political thugs,drug Barons,

arm rubbers,assassins,kidnappers,prostitution,Internet frauds,etc. All of this exist in the name of they want to make a living or they want to live large.you can not live large until you are fulfilling destiny.now all their did to make a living look like what is prohibited,but they still find pleasure in it, all started with their passion for what they thought is right...All of these exist because thousands of people refuse or lack the ability to identify with purpose and their life assignment ."Jesus said the zeal of my father's house has consume me" if any thing of purpose is consuming your time,i believe you won't have time for what is prohibited or nonchalant

Some of you can talk,can write,can dance and can sing...make use of your gift in an appropriate manner to the level that some body have to need it to exist or depend on it to make his life possible and you will see how that gift will begin to make a room of increase for you.you are wired with some thing for me,i am wired with some thing for you,as I value it,it must cost me to get it,that is the beginning of your income.

Do what it takes to get your destiny activate within the boundary of righteousness..it may be costly, pay for it,..it will pain you,but it won't swell up.._____ finally No man can know what he was made for,or how he was made, until it is reveal to you by your maker" ask God to reveal you to you. .."Jesus said.FOR THIS END WAS I BORN,FOR THIS CAUSE CAME I INTO THE WORLD.john18:37"...every man was born by God for a purpose " before I formed you,I knew you .jeremiah 1:5"_____

When ever you get a man alien with God, the Job is done,you can not go far until you start with Christ,every man destiny today began at salvation.peter and Andrew his brother were an empty fisher men,confused and about to give up in life until they met christ,mattew was a tax collector sitting down waiting to dope men to earn a living until he met christ and His life was a turn around for Good

will you like to receive Christ today and begin the journey of a new day?.

CONFESS THIS ALOUD TO YOUR HEARING.

Lord Jesus,i believe in you, I believe you died for my justification,help me to fulfill your plan and purpose for my life,thank you for saving me.

_____

We will like to hear from you,your testimony and your experience.
