Announcement for enrollment to different Fellowship programsPosted on July 23, 2021 by biruk0

St. Paul's Hospital Millennium Medical College (SPHMMC)

Department of Obstetrics and Gynecology

Announcement for enrollment to different Fellowship programs

The department of Obstetrics and Gynecology, SPHMMC, kindly invites all qualifying candidates to apply for maternal fetal medicine, gynecologic oncology, reproductive endocrinology and infertility, and family planning fellowship programs for the year 2021/2022 G.C.

Background and General Information

The Department of Obstetrics and Gynecology, SPHMMC, as mandated by the Academic Commission of the college has started the above mentioned fellowship programs at different academic years. The primary goal of these fellowship programs is to produce physicians who are competent clinicians, trainers, researchers, advocates and leaders in all issues related to respective sub-specialty disciplines and broader reproductive health

These are a minimum of two years programs at the end of which candidates will become subspecialists in respective fellowship programs. The training will involve clinical attachments, deductive training (seminars, tutorials, online lectures, research training and mentorship), with possible attachments abroad depending on the availability of financial resources (on a competitive basis, attending various local and international relevant conferences, and taking a supervisory role in the training of residents, undergraduate medical students and related in-service training. Family planning Fellows will be given an opportunity to earn a Master of Public Health (MPH) degree, through sponsored enrollment into extension MPH

program at SPHMMC. Fellows are also expected to conduct high-standard research in their respective programs as part of a requirement for completion of the fellowship.

Tentative time of enrollment

September 2021 for family planning fellowship

November 2021 for maternal fetal medicine, gynecologic oncology , reproductive endocrinology, and infertility

Two fellowship positions are available for enrollment ineach program Additional positions can be considered for FP program through south-to-south collaboration.

Admission Requirements

The candidate should be a graduate from a recognized Medical School with a Doctor of Medicine and specialty in Obstetrics and Gynecology.

The candidate must complete the screening process for admission to be conducted by the SPHMMC Obstetrics and Gynecology department.

The candidate should produce two recommendation letters from their respective institutions.

The candidate should be registered and licensed to practice obstetrics and gynecology by the relevant authority in Ethiopia.

The candidate should have adequate mental and physical health.

Female applicants are encouraged.

Queries regarding the fellowship can be addressed to Birhan Wale , +251923044123 , Dr. Abdulfetah via email (chechera68@gmail.com) or Dr. Delayehu Bekele via e-mail (delayehu@gmail.com)
