The Psychology of Prosperity II

2 Chronicles 29:1-14; Psalm 112:1-3

Psalm 112:3 "Wealth and riches shall be in his house: and his righteousness endureth forever."

We started yesterday by examining the Psychology of prosperity and I trust you were blessed. Today, we'll be considering the second part which focuses on the need to yield your mind to God for an inflow of creative ideas that make for a permanent wealth shift. Are you aware that God can give you one idea and your life is changed forever? The moment you yield to the temptation to settle for the status quo, you just plateau in the security & safety of playing it small. Beloved, God is calling you out of that familiar country of thought flow. You are the Abraham of your lineage, industry, and whatever community you have identified with and God is calling you out from among them to trailblaze a new reality of wealth by changing your perspective of possible dimensions of prosperity.

God does not have a problem with giving you creative ideas that will cause an entire overhaul of your prosperity pedigree. When he does, will you demonstrate worthiness of such a privilege by taking corresponding actions of faith to translate the revelations of God to you such as waking up in the middle of the night, pacing the floor, praying in tongues, thinking, putting pen to paper, reading books, strategizing, and executing with boldness. When you can see with your mind, what God is showing you as your unique pathway to prosperity, it will affect your thought patterns. Up your game, beloved. Change your mindset. The limitation is no longer in the spirit realm, Christ has done his own part to change the way you think. Gd bless you.

Scriptures for Meditation Deuteronomy 28:1-14; Exodus 35:30-34

My Solid Front (Confession)

Heavenly Father I thank you for the substitutionary work of redemption brought me into prosperity and affluence so that I can be a blessing to others. Therefore, I open up my mind today as stakeholder in partnership with God, to receive abundance of creative ideas to impact the world through the abundant riches of the glory of God's kingdom.
