Dear <first name>

Notice

Electoral Register

Please remove my details, and those of my family, from the Electoral Register. That is, all the names listed at the above address. I/We now stand under the jurisdiction of the Common Law Court and statutory legislation no longer applies. In addition, as the details were obtained by criminal coercion, i.e. threat of harm or loss, your own data protection rules must be applied, i.e. the data must be removed, on request.

You may keep historical data and historical financial records, but you no longer have permission to use my/our legal fiction(s) or my/our power(s) of attorney. I/We no longer consent to be governed. Proof of my/our standing is enclosed. <copy of CLC card and legal fiction information enclosed>

You will find supporting laws and legislation here:

The reason I/we feel this is essential to our continued wellbeing, is as follows:

I/We can no longer support a government who do not represent my/our views and who abuse the authority given to them. I/We do not agree with decisions that have been made on my/our behalf including:

- An unlawful system of taxation relying on the use of the legal fiction. Assumed consent for this was obtained by criminal coercion and entrapment.

- The lack of transparency and accountability within government. Confidentiality has been used as an excuse to cover up corruption, lies, bribes and other underhand behaviours.

- Covid-19 lockup – too little, too late, draconian measures, inconsistently applied, and fear fuelled by constant media lies. Advice from the real scientists has been ignored.

- Covid-19 lockup - Complete isolation of the elderly leaving them with little emotional or physical support. The policy of dumping elderly patients in care homes has increased their risk of dying from the virus. Too much reliance has been placed on input by the World Health Organisation and Public Health, rather than using common sense and a more measured response. The World Health Organisation and Public Health are not fit for purpose in my/our opinion.

- Covid-19 lockup - The policy of enforce social distancing and isolation has increased suicides, mental health issues, domestic abuse whilst doing little to reduce the risk of Covid-19.

- Covid-19 lockup - Complete shutdown of other medical services leaving thousands in pain and discomfort whilst waiting for essential surgery or treatment. Throughout the world deaths have been incorrectly recorded as Covid-19 and this has exacerbated fear.

- Governments have allowed and indeed, encouraged Pharmaceutical monopolies to hijack our health services. They have now become very expensive sickness management services. Effective natural cures and treatments have been supressed and drug treatments are being promoted instead. This must stop. The use of true evidence-based medicine must resume, and pharmaceutical industry interference must cease.

- Vaccination policy – no real discussion or debate and absolutely no safety studies. I/We certainly DO NOT CONSENT to a mandatory vaccine or ID chip. Any attempt to instigate this would be criminal coercion. The HPV vaccine has already been banned in the British Isles by a Common Law Court. No vaccine to date has been proven to be ‘safe and effective’. Vaccine companies have been allowed to pedal products with no safety testing and no liability.

- Governments have allowed technology industries to flourish without adequate monitoring, consultation, and safety checks, e.g. 5G, WiFi, Smart meters and so on. In many cases there has been no real discussion or debate, and absolutely no safety studies conducted. There has been no consideration of the negative consequences of surveillance technologies.

- The current Justice system requires radical changes to stop government fraud and abuses from within the system. How can anyone receive justice when the system is stacked against the electorate and rules in favour of government and large financial organisations? The judiciary elect themselves and all work to create profits for the court system. This is not justice.

- The police service has now deteriorated to such a point that the police have become bullying, glorified tax collectors. I/We would like to see a return to the police constables of old, who served the public.

- The prison service is no longer fit for purpose and has become a revolving door for criminals. Other alternatives should be examined.

- Chemtrails are being sprayed over our heads. We did not consent to this and we were not consulted. I/we have a right to fresh air and access to sunshine.

- Over recent months and years most of our unalienable rights have been removed or abused. Unalienable rights are the inherent, sovereign, natural rights that existed long before the creation of the State. These can never be taken away, diminished, altered, or levied by the State, except by due process

or law. Nor can any unalienable right be fundamentally removed or waived by contract, whether by non-disclosure, which is fraud and unenforceable in law, or knowingly by sufferance, which is contrary to the spirit of the law and prejudicial to sovereignty. These rights must be restored in full.

I/We do not consent to any of the above practises. To try to force these things on an unwilling electorate is acting ‘ultra vires’, i.e. outside of the authority given. Retaining my/our details on the electoral register against my/our wishes would be malfeasance in public office for which you would be held liable in your private, individual capacity. Any attempt to try to force me/us to accept the position of a legal fiction would be fraud and criminal coercion.

I/We are sovereign individuals, and we deserve better from our elected representatives and civil servants. We do not consent to these abuses. We the people, are the creator of the government and as such, its master - not the other way around.

Please confirm that you have removed my/our details from the current Electoral Register within 14 days. Thank you.

Yours sincerely

Joe CLC
