

Number of days in each month of the year in a Luni-Solar Bible calendar

Metonic Year No.	1	2	3	4	5	6	7	8	9	10	11	12	13	Total months in the Year
Year 1	30	29	30	29	30	29	29	30	29	30	29	30	—	12 (Apr 4 2011)
Year 2	30	29	30	30	29	29	30	29	30	29	30	29	—	12
Year 3	30	29	30	30	29	30	29	30	29	30	29	30	29	13
Year 4	30	29	30	29	30	30	29	30	29	30	29	30	—	12
Year 5	29	30	29	29	30	30	29	30	30	29	30	29	—	12
Year 6	30	29	30	29	29	30	29	30	30	30	29	30	30	13
Year 7	29	29	30	29	29	30	29	30	30	29	30	30	—	12
Year 8	29	30	29	30	29	29	30	29	30	29	30	30	30	13
Year 9	29	30	29	30	29	29	30	29	30	29	30	30	—	12 (started Apr 6 2019)
Year 10	30	29	30	29	30	29	29	30	29	30	29	30	—	12
Year 11	30	29	30	29	30	29	30	29	30	29	30	29	30	13
Year 12	29	30	30	29	30	29	30	29	30	29	30	29	—	12
Year 13	30	29	30	29	30	29	30	30	29	30	29	30	—	12
Year 14	29	30	29	29	30	29	30	30	30	29	30	29	30	13
Year 15	29	30	29	29	30	29	30	30	29	30	30	29	—	12
Year 16	29	30	29	29	30	29	30	30	29	30	30	29	—	12
Year 17	29	30	29	30	29	29	30	29	30	29	30	30	30	13
Year 18	29	30	29	30	29	29	30	29	29	30	30	30	—	12
Year 19	29	30	30	29	29	30	29	30	29	30	29	30	29	13 (Apr 2 2030)

Gregorian calendar dates for any given year

Year	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec	Jan	Feb	Mar	Apr	May	Jun
2019 to 2020	30	31	30	31	31	30	31	30	31	31	28/29	31	30	31	30

Calendar before the Noah's Flood time

Months	1	2	3	4	5	6	7	8	9	10	11	12
No. of Days	30	30	30	30	30	30	30	30	30	30	30	30

IS IT NOT WRITTEN?

As I was reading the excerpt from the Thompsons KJV Bible version on page 1800 which I have shared severally on various media, a certain statement forced me to write this document. It's their statement concerning the 13th month in the Bible. *This bible version says in its entry number 4451 about the Hebrew Calendar, that the month VeAdar is not mentioned anywhere in the Bible.*

In this study today I want to demonstrate the existence of a 13th month in the bible and go further to show how we came to have a 13th month.

Before we go to the verses, let me draw your attention to the tabulations on page 1. Every calendar has a way in which it operates. Some formulae on how the calendar gets where it says. The bible calendar has been discovered to have its formula as well. While the months of a Gregorian calendar play between 30 and 31 days year in year out, and sometimes having 29 days in February, regardless of the moons cycle. The calendar of the bible was discovered to have a 19 year cycle named the Metonic Cycle after the man who made the discovery. In the first long table is a display of the 19 year cycle for this period which started with the new moon of April 4th 2011 and will reach its climax at the end of the last month in the nineteenth year on April 2nd 2030. In the current cycle, by the time of writing of this document, we are in Year 9 the 8th month which started on Oct, 29th 2019.

By understanding this 19 year cycle, the bible calendar can be overlaid on any other calendar to know when Gods Sabbath aligns with that calendar as has been done with the Gregorian calendar. Meton found out that after every 235 lunations, the Earth, Sun and Moon go back to a straight line alignment for a new set. The days of each month can also be determined from this cycle. Before the flood of Noah's time, months consisted of a constant 30 day cycle and a year of 12 months. This has ever changed since that time from the evidence of the cycles we have in the post Noah times.

(Make more studies about Metonic cycle on your own and get more of what I haven't mentioned in my summary here)

That said, lets go on to study the reality of the 13th month with several verses which I request that you shall take your time to study as I pick a few verses which are useful to this demonstration.

Study by yourself in the book of Ezekiel from chapter 1 to chapter 8. Then I will pick the following verses.

Eze 1:1-2 Now it came to pass in the thirtieth year, in the fourth [month], in the fifth [day] of the month, as I [was] among the captives by the river of Chebar, [that] the heavens were opened, and I saw visions of God.

1:2 In the fifth [day] of the month, which [was] the fifth year of king Jehoiachin's captivity

Eze 3:13-17 [I heard] also the noise of the wings of the living creatures that touched one another, and the noise of the wheels over against them, and a noise of a great rushing.

3:14 So the spirit lifted me up, and took me away, and I went in bitterness, in the heat of my spirit; but the hand of the LORD was strong upon me.

3:15 Then I came to them of the captivity at Telabib, that dwelt by the river of Chebar, and I sat where they sat, and remained there astonished among them seven days.

3:16 And it came to pass at the end of seven days, that the word of the LORD came unto me, saying,

3:17 Son of man, I have made thee a watchman unto the house of Israel: therefore hear the word at my mouth, and give them warning from me.

Eze 4:4-9 Lie thou also upon thy left side, and lay the iniquity of the house of Israel upon it: [according] to the number of the days that thou shalt lie upon it thou shalt bear their iniquity.

4:5 For I have laid upon thee the years of their iniquity, according to the number of the days, three hundred and ninety days: so shalt thou bear the iniquity of the house of Israel.

4:6 And when thou hast accomplished them, lie again on thy right side, and thou shalt bear the iniquity of the house of Judah forty days: I have appointed thee each day for a year.

4:7 Therefore thou shalt set thy face toward the siege of Jerusalem, and thine arm [shall be] uncovered, and thou shalt prophesy against it.

4:8 And, behold, I will lay bands upon thee, and thou shalt not turn thee from one side to another, till thou hast ended the days of thy siege.

4:9 Take thou also unto thee wheat, and barley, and beans, and lentiles, and millet, and fitches, and put them in one vessel, and make thee bread thereof, [according] to the number of the days that thou shalt lie upon thy side, three hundred and ninety days shalt thou eat thereof.

Eze 8:1 And it came to pass in the sixth year, in the sixth [month], in the fifth [day] of the month, [as] I sat in mine house, and the elders of Judah sat before me, that the hand of the Lord GOD fell there upon me.

In the highlighted verses above, you find that Ezekiel was to lie on his left side for a period of 390 days then turn to his right side for another 40 days. This gives us a total of 430 days for lying on both sides. This period is said to have started in the Twelfth day of the Fourth month in the FIFTH YEAR of Jehoiachin's captivity until we find Ezekiel SITTING in his house

on the Fifth day of the Sixth month in the SIXTH YEAR of Jehoiachin’s captivity.

This period must therefore without doubt have crossed two years. Finding Ezekiel seated in his house and not lying on either side means he must have accomplished God’s command of lying on both the left and right side.

So we go the calendar part of it. We start asking ourselves which calendar gives us the correct timing whereby the command of God will fit rightly and find Ezekiel on the safe side with God. Its fair to start with the known towards the unknown and I will start counting using the common Roman Catholic Gregorian Calendar to see if it shall give us this timeframe and keep Ezekiel within God’s command by ensuring he lies on his left side and right side for at least 430 days.

On the 5th day of the fourth month, God shows Ezekiel a vision which amazes him for another 7 days. That’s date 11 of the fourth month (The month called Tammuz). On this 11th day, God appears to him again with further directions and after this day nothing more is said. So Ezekiel must have taken the instructions and started the execution. He was to bake bread which was to be eaten for 390 days. The verse doesn’t say that the bread will be sufficient for the 430 days.

So from the 11th day of the fourth month we have another 19 days to end the Gregorian month of 30 days. Then the last sixth month we add 5 days because it didn’t end. As follows given that the period would have occurred during the Gregorian leap year which has its February with 29 days.

apr	may	jun	jul	aug	sep	oct	nov	dec	jan	feb	mar	apr	may	jun	Total
19	31	30	31	31	30	31	30	31	31	28/29	31	30	31	5	420 or 421

Gregorian gives us a total of at most 421 days for this period. If Ezekiel had followed this calendar, he would have disobeyed God by not lying on either side for the allotted time. The whole period has to add up to 430 days but this calendar is less to that period by 9 or 10 days. So right away, the Gregorian calendar misses the mark as it has always done.

Lets use the Pre-Flood Luni-Solar calendar which had a constant month of 30 days and 12 month years

4	5	6	7	8	9	10	11	12	1	2	3	4	5	6	Total
19	30	30	30	30	30	30	30	30	30	30	30	30	30	5	414

This calendar too misses the mark. If this is what was in use during Ezekiel's time, then he would have disobeyed God by doing less to what the command said. He would have been short by 16 days. So this is not the one.

Last but not least, allow me to demonstrate with the Bible Calendar that is in use today and one which was in use also during Ezekiel's time all through to the time of Jesus and which was nullified by the Roman Catholic through their leader the Pope Gregory XIII in a last bid to detach humanity from the way of God. It is the calendar on the long table at the beginning of this document and for the purposes of demonstration, I will pick one year with the 12 month cycle and another with a 13th month cycle also known as VeAdar. I will use the longest 12 month cycle and the shortest 13th year cycle then leave the rest of the computation to you for homework as I call it a day.

Months	4	5	6	7	8	9	10	11	12	13	1	2	3	4	5	6	Total
12 month year	19	29	29	30	29	30	29	30	30	0	30	29	30	29	30	5	408
13 month year	18	29	30	29	30	30	30	29	30	30	29	29	30	29	29	5	436

The computation in the table above combines a normal year of 12 months and one of 13 months in the current Bible calendar to unlock the mystery of the 13th month which couldn't be done by any other calendar. If the 430 days are counted from the fourth month in a common year to the sixth month dates of the following common year, the days can't add up to 430 or more. But if the count starts the fourth month of a leap year then ends in the sixth month of a common year, the 430 days are realized. Meaning that the Fifth year upon which the vision was given was a leap year with 13 months followed by a common year the Sixth year as usual, so as to get us to the fifth day of the sixth month the following year and find the order safely carried out.

Except the current Bible calendar, there is no other that has the leap year with a 13th month and which if used we can arrive accurately to the period written in the verses as shown. This outstanding feature and accuracy is only found with things of our God. Praise be to Him.

This is the greatness of our God of whom it is written in **1 Cor 3:19 For the wisdom of this world is foolishness with God. For it is written, He taketh the wise in their own craftiness.**

This also tells us that Ezekiel had at least six days in his business after accomplishing what God ordered him to do.

WHERE DID THIS 13TH MONTH COME FROM?

This is also another important question to handle. Yet another story is taught in the bible. In the book of 2 Kings chapter 20. it's the great story of how king Hezekiah was healed and the sign of this.

We find God giving Hezekiah an option of how he wants the suns shadow to move. In other words how he wants the sun to be moved. It reads as follows;

2 Kings 20:4-11 And it came to pass, afore Isaiah was gone out into the middle court, that the word of the LORD came to him, saying, 5 Turn again, and tell Hezekiah the captain of my people, Thus saith the LORD, the God of David thy father, I have heard thy prayer, I have seen thy tears: behold, I will heal thee: on the third day thou shalt go up unto the house of the LORD. 6 And I will add unto thy days fifteen years; and I will deliver thee and this city out of the hand of the king of Assyria; and I will defend this city for mine own sake, and for my servant David's sake. 7 And Isaiah said, Take a lump of figs. And they took and laid [it] on the boil, and he recovered. **8 And Hezekiah said unto Isaiah, What [shall be] the sign that the LORD will heal me, and that I shall go up into the house of the LORD the third day?** 9 And Isaiah said, **This sign shalt thou have of the LORD, That the LORD will do the thing that he hath spoken:** shall the shadow go forward ten degrees, or go back ten degrees? 10 And Hezekiah answered, It is a light thing for the shadow to go down ten degrees: nay, but let the shadow return backward ten degrees. 11 And Isaiah the prophet cried unto the LORD: and he brought the shadow ten degrees backward, by which it had gone down in the dial of Ahaz.

The question we need to answer here is how much time is 10 degrees and how does it affect the Moon cycles since it was only the sun that moved backwards, not the moon. In fact the moon was still moving forward.

It has been proven that one hour is equal to 15 degrees turn. If 60 minutes is equal to 15 degrees, how much is 10 degrees?

15 degrees = 60 min
10 degrees = ? Min Cross multiplication gives us 10 x 60 divided by 15 which equals to 40 min.

So the sun was turned backwards by 40 min that day. The moon gained 40 min into its cycle as well and since the moon reflects light from the sun, the position of reflection changed. Every time you see the moon shining, understand that it is shining at a point which is 40 min ahead of the sun.

This alteration has been carried into all days thereafter till this day. So for the moon and the sun to come back to that alignment where they were we have to get into another math.

40 min a day for 30 days gives us **1200 min difference per month.**
1200 min a month for 12 months a year gives us 14400 min a year
14400 min for 3 years we come to 43200 min
CONVERTING this to hours it gives 43200 divide by 60 = 720 hours
720 hours divided by 24 hours a day gives us **30 days lost in three years**

This is why after every 3 or 2 years, the bible calendar has to add an extra month called VeAdar to compensate for the cycle lost by the Hezekiah's sign.

That's the God we worship. What He does lives forever and we have the evidence of the 13th month as a sign of healing. If God had given Hezekiah the opportunity to choose how many degrees the sun was to be turned back, maybe we could be having a very disorganized time, but it having been a fixed choice gave God an opportunity to teach us a lifetime lesson.

PLEASE CONTINUE STUDYING ABOUT THE CALENDAR OF THE BIBLE IN THE BIBLE AND SPREAD THE TRUTH ALL OVER. BE BLESSED AS YOU DO SO.
