

Q. which eminent personalities has inspired you the most in the context of ethical conduct in life? Give the gist of his/her teachings for your own ethical development.

I have looked upto Raja Harischandra, Prahlad, Lord Rama & Vikram-betal stories while growing up. However I was able to relate most with ms Dhoni in my later years.

His teachings through his actions

- ① Emotional intelligence - amid sledging staying cool.
- ② Dedication to work - known for taking home the team despite being in precarious condition
- ③ Nurturing talent - future generation like Zaheer Khan & Yuvraj Singh given faith despite initial lack of success.
- ④ Course of conviction - winning T20 world cup with newbies.

⑤ ethical conduct

S-1 Not promoting sin goods like alcohol

S-2 stepping down voluntarily when not  
able to perform

I have internalised these qualities and when  
in difficult situations I remind myself what he  
would have done and how he would have handled.  
Through this I had ~~an~~ a compass whose true  
North was Dhoni.

However, he is also not perfect. Recent  
revelation of his income from sale heavens  
& is a case in point. I try to account for  
these and emulate the better part of his  
conduct.
