1 .The book “Annals of Agriculture” is published by;-

a) Arthur Young

b) Van Helmont

c) Jethro Tull

d) Blackman

2 .In India, first separate department of agriculture was established in;-

a) 1881

b) 1900

c) 1801

d) 1985

3. Yellow revolution is associated with;-

a) Pulse production

b) Milk production

c) Fruit production

d) Oilseeds production

4. Secondary consequences of increasing elevation, both agronomically and economically significant are ___ .

a) Decreased temperature

b) Decreased precipitation

c) Decreased wind velocity

d) Increased soil fertility

5. The net assimilation rate is express in terms of ;-

Agrilearner Paid Whattsup Group

a) g cm-2 day-1

b) g g-1ha-1

c) g g-1day-1

d) g cm-2 ha-1

6. Which of the following crop geometry ensures uniform solar radiation availability to crop?

a) Rectangular

b) Random

c) Square

d) None of these

7. North of the equator, surface winds are known as __ .

a) Northeast trade winds

b)Southeast winds

c) Westerlies

d) Easterlies

8. Conservation tillage tends to encourage ____.

a) Higher microbial population

b) Lower number of earthworms

c) Reduced soil fauna

d) None of these

9.Though tilth is dynamic in nature, can be measured by ___ .

a)Aggregate analysis

b)Chemical analysis

Agrilearner Paid Whattsup Group

c)Biological analysis

d)None of these

10. Capillary movement of water is complemented by____.

a)Stem elongation

b)Root extension

c) Leaf orientation

d) None of these

11. A soil absorbs about __ of incoming solar radiation.

a) 5 Percent

b) 10 Percent

c) 15 Percent

d) 20 Percent

12. Nitrate levels in drinking water above __ mg per litre are considered as a human health hazard.

a) 5

b) 10

c)15

d) 20

13.Wavelength longer than __ m/µ is not visible to the eye, and are called infrared.

a)450

b) 550

c) 650

Agrilearner Paid Whattsup Group

d) 750

14. The spray drift of 2,4 D (ester form) can cause considerable damage in __
a) Maize

b) Rice

c) Sorghum

d) Cotton

15.Heavy infestation of which of the following causes poor ploughing performance-

(A) E. Colonum

(B) Cyprus rotundus

(C) Cynodon dactylon

(D) None of these

Correct Answer :-Cynodon dactylon

16. Based on morphology, the weed is classified into-

(A) Grass

(B) Sedge

(C) Broad leaved weeds

(D) All of these

Correct Answer :-All of these

17) Examples of broad leaved weed is-

(A) Flavaria australacica

(B) Digeria arvensis

(C) Abutilon indicum

Agrilearner Paid Whattsup Group

(D) All of these

Correct Answer :-All of these

18) Which of the following is not a indigenous weed?

(A) A. indica

(B) A. indicum

(C) P. hysterophorus

(D) None of these

Correct Answer :-P. hysterophorus

19) Total root parasite on tobacco is-

(A) Parthenium

(B) O. Cermua

(C) D. Stramonium

(D) W. Somnifera

Correct Answer :-O. Cermua

20) Eichhornia crassipes is-

(A) Submerged weed

(B) Marginal weed

(C) Floating weed

(D) All of these

Correct Answer :-Floating weed

21) Zygogramma bicolorata beetle feed on leaves of-

(A) Water hyacinth

(B) Parthenium

Agrilearner Paid Whattsup Group

(C) Lantana

(D) All of these

Correct Answer :-Parthenium

22) Phytophthora palmivora causes root rot in-

(A) Morrenia Odorata

(B) A. Virginica

(C) S. Halepense

(D) All of these

Correct Answer :-Morrenia Odorata

23) Application of volatile chemical on confined spaces to produce gas that will destroy weed seeds is called-

(A) Fumigation

(B) Herbigation

(C) Band application

(D) All of these

Correct Answer :-Fumigation

24)A herbicide which kills some species in a mixed growth plant species are termed as-

(A) Selective herbicides

(B) Non-selective

(C) Contact

(D) None of these

Agrilearner Paid Whattsup Group

Correct Answer :-Selective herbicides

25) Which element is a part of cytochrome oxidase?

(A) Mg

(B) Fe

(C) Mo

(D) All of these

Correct Answer :-Fe

26) In an average well decomposed FYM(Farmyard manure) contains-

(A) 0.5% N2

(B) 0.2% P2O5

(C) 0.5% K2O

(D) All of these

Correct Answer :-All of these

27) Which of the following contains highest nutrients?

(A) FYM

(B) Compost

(C) Droppings of sheep & goat

(D) None of these

Correct Answer :-Droppings of sheep & goat

28) What is the drawback of poultry manure?

(A) It ferments very quickly

(B) It has less nutrient content

(C) It smells badly

Agrilearner Paid Whattsup Group

(D) None of these

Correct Answer :-It ferments very quickly

29) Trench method of FYM preparation is also known as-

(A) Pit method

(B) Dr. C. N. Acharya method

(C) Heap method

(D) None of these

Correct Answer :-Dr. C. N. Acharya method

30)Linolenic acid content in linseed

a)66%

b)56%

c)46%

d)36%

correct answer:66%
