 # Which Indian state is the leading producer of coffee?

A. Meghalaya

B. Andhra Pradesh

C. Karnataka

D. Tamil Nadu

E. Kerala

Correct Answer – C. Karnataka

Explanation: Coffee production in India is dominated in the hill tracts of South Indian states, with Karnataka accounting for approximately 71%, followed by Kerala with 21% and Tamil Nadu 5%.

 # What is the name of the system in which stocking of fishes of different habits in the same pond is done?

A. High land Fish Culture

B. Sharing Fish Culture

C. Composite Fish Culture

D. Mixed Fish Culture

E. Hybrid Fish Culture

Correct Answer - C. Composite Fish Culture

Explanation: The composite fish culture system is a technology developed in India by the Indian Council of Agricultural Research in the 1970s. In this system, of both local and imported fish, a combination of five or six fish species is used in a single fish pond. These species are selected so that they do not compete for food among them by having different types of food habitats. As a result, the food available in all the parts of the pond is used.
