20, AYODELE AYENI STREET, IKORODU, LAGOS

**MARCH, 2021**

## ARTS, DESIGNS & CRAFTS AS AN IMPORTANT ELEMENT FOR CREATIVITY

The purpose to conduct Arts & Crafts club is initiated to enhance students' talents in crafting and to develop skills for individual students to be self-sufficient.

The course would teach students to experiment, take ideas from what they see and adapt it to make use of what is available to them. Thus, giving them an opportunity to create trendy items by themselves to present as gifts for Family, Friends, Teachers as well as their loved ones.

The club will be called **“CREATIVE HANDS”**. Members of this club will be taught different kinds of Arts/craft works such as:

Art of Creative writing & Painting, Drawings, Motif & pattern designs, Paper crafting, Printing, Painting, 3D art, Stenciling, land/sea scape arts, silhouette & chiaroscuro arts, Pattern weaving and Recycling.

These highlighted topics shall be divided into three parts, each for a term, we intend to introduce others with more varieties as we continue with the club.

Club membership is open to all students and will be conducted afterschool once or twice a week.

An exhibition will be held before the end of school year to showcase and sell the products prepared by our creative hands club members only.

## BENEFITS OF ARTS, DESIGNS AND CRAFTS CLUB TO THE STUDENTS

Students benefit through Arts and Crafts in so many ways:

1. Intellectually
2. Emotionally &
3. Socially

Each term, children will experience using a wide range of art materials and learn new techniques. From watercolors to pastels and mixed media, they will be inspired to develop their creativity, stimulate their mind, and put their own mark in masterpieces they take home – in a warm, relaxed, and welcoming environment.

- Art activities allow students express themselves better than in mathematics or science. Honestly, children who actively do art are better at creative thinking and problem solving. It is an important tool for developing their motor skills, holding paintbrush, scissors, pencils or using clay.
- Arts builds children's confidence, visual learning, and focus.
- Promotes curiosity and encourages knowledge gathering Improves their social skills, making friends and getting on with other children.

- Helps them express their emotions.
- Builds problem-solving skills.
- Teaches them how to search for solutions.
- Sees other point of views.

## BENEFITS TO THE SCHOOL

- Yearly Art Exhibition will be held to showcase and sell the products prepared by the students. Like other international schools on the island, this obviously goes a long way in advertising your school, as such events are usually “all over” the media.
- Willingness to design/decoration of one major display board at the beginning of each term to beautify your learning environment (materials for this to be provided by the management)

## TRAINERS' ROLES

- Trainers to conduct training.
- Provide crafting equipment (Paper, wool, needles, t-shirts, hooks, sponges, etc.) All materials for class work and projects will be provided.
- Arts and Crafts classes will be conducted after school once/twice a week for one or one and half hours.

## SCHOOL MANAGEMENT'S ROLES

- Provide Studio or classroom to conduct the club.
- Provide storage cupboard for completed items and equipment.

## . PROGRAMME FEE

- Each student is expected to pay a stipulated amount **per term**.
- 70% percentage of the total amount will be remitted to the instructors in the first half of the term as this enables logistics as well as purchase of art/crafts materials.
