Experiência com mistura de cores.

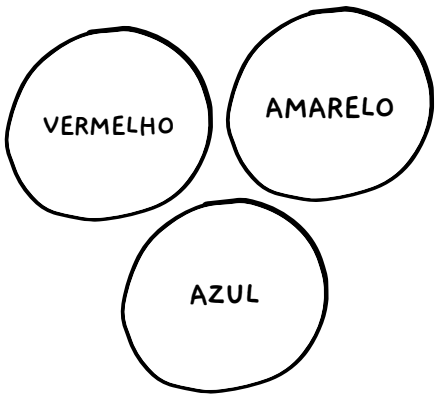

NOME: PROFESSOR:

TURMA: DATA:

MISTURANDO CORES

Use sua tinta para colorir os círculos!

EXISTEM 3 CORES PRIMÁRIAS

Quando você as combina, cria novas cores chamadas de cores secundárias! Experimente misturá-las para ver as cores que consegue obter.

VERMELHO + AZUL =

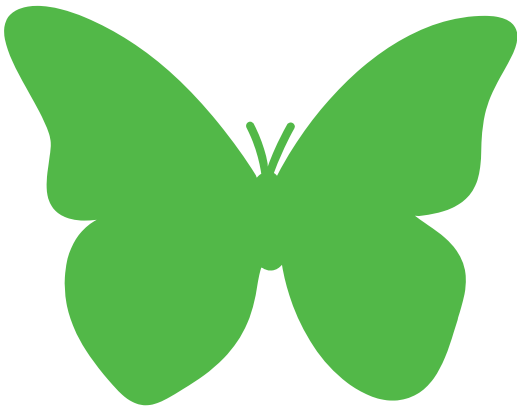

AMARELO + VERMELHO =

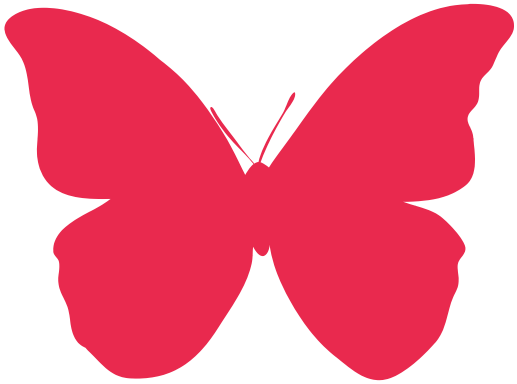

AZUL + AMARELO =

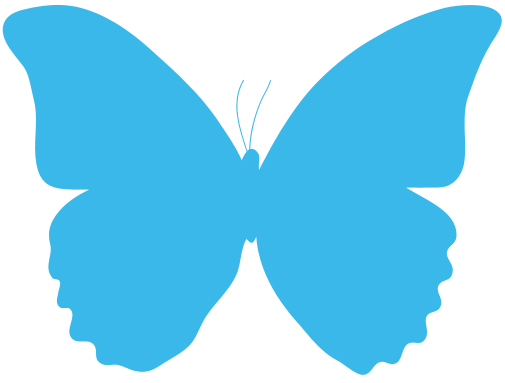

NOME: DATA:

Borboletas

Escreva no espaço abaixo a cor de cada borboleta:

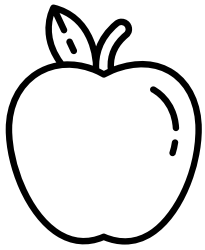

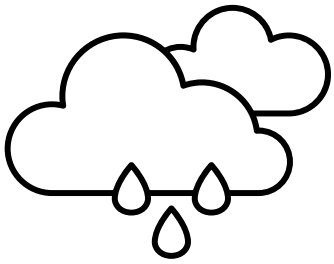

misturando cores

Use tinta para colorir as frutas

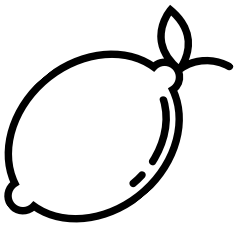

Pinte estes desenhos com cores primárias

vermelho

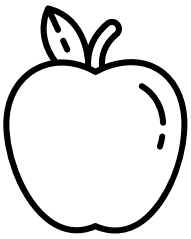

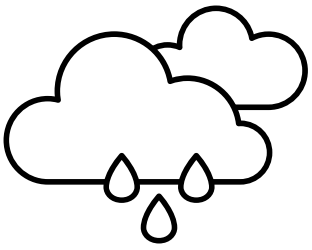

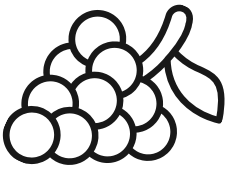

azul

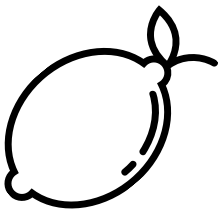

amarelo

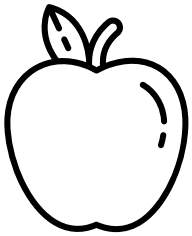

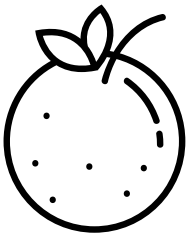

Faça combinações entre elas para criar novas cores chamadas de cores secundárias! Experimente as misturas abaixo.

vermelho +  azul = 

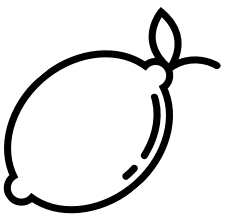

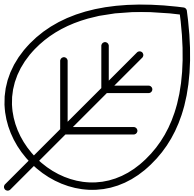

violeta

amarelo +  vermelho = 

laranja

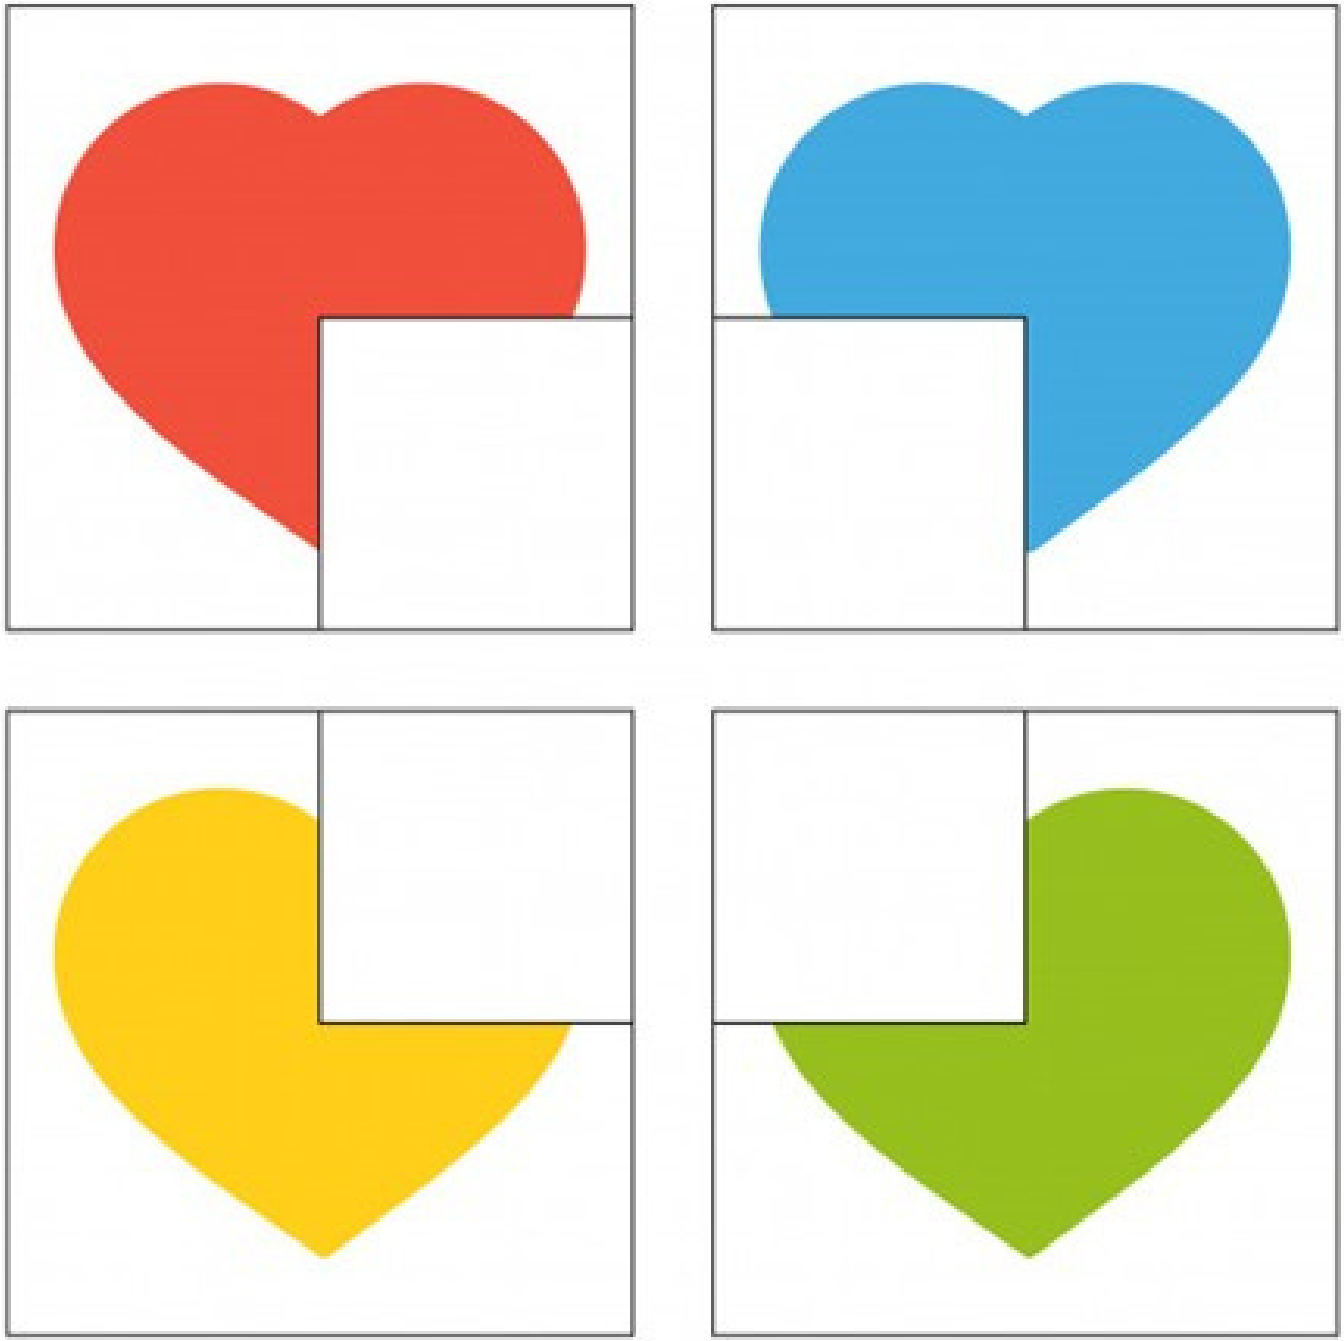

azul +  amarelo = 

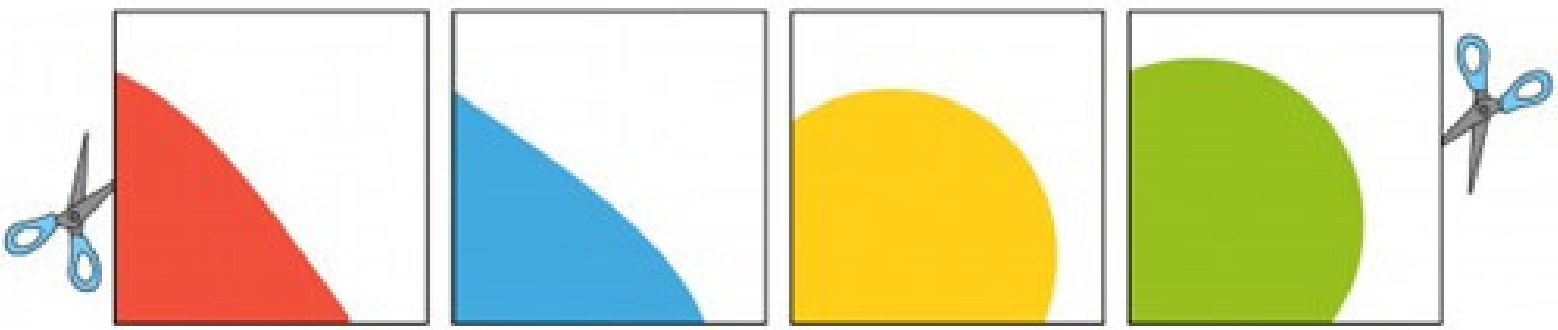

verde
