APPLEPAY METHOD 2024

whatsapp +918954133645

WHAT'S NEEDED:
➢ CC {Non VBV}: Low security cards, they have to be checked and verified as "Auto-Add cards" before being sold out, I also gives walkthroughs.
➢ An iPhone or iPad
➢ Common Sense

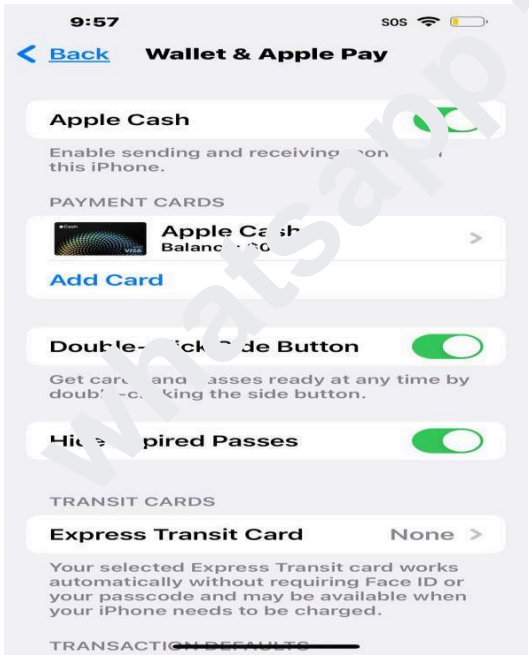

HOW TO GO ABOUT IT

First go to your wallet app on your iPhone and click on it. Before doing this, you should have gotten a Non VBV CC that looks like this:
4154178722541265:12:25:406:JasonWolterman:3101North SideAve.:Henrico:VA::23228

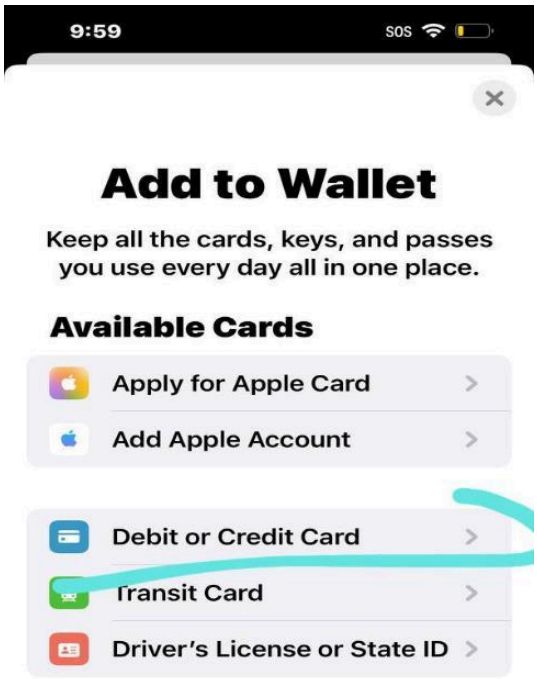

Now once its open it looks like the pi t e above, click on the "+" icon top right corner to add card info

Now click on "Add Card.

Now click on "Debit or Credit Card"

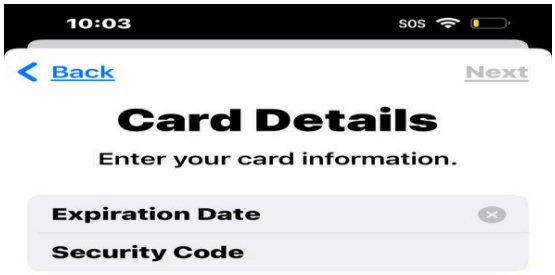

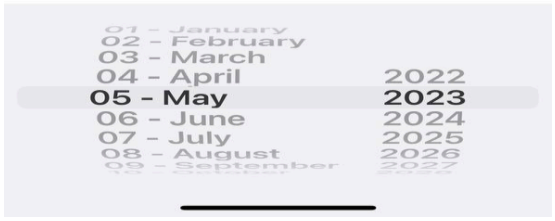

Then the next page pops up and you input the Full name and card number on the CC info you bought.

On the next page you will input the Expiration date and Security Code (CVV) on the card.

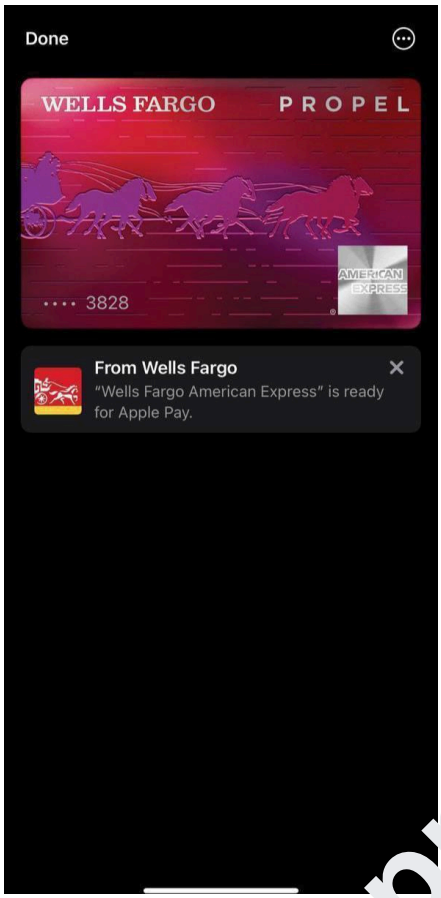

Then click "Next" and then it brings you to the next page to accept "Terms and Conditions", click on "AGREE", Since the card is a non vbv there's no need for OTP, or verification from bank, it adds to your Apple Pay

NOW ONCE IT LINKS ITS BEST TIME TOWIPE THE CARD (CASHOUT)
THERE AREMANYMETHODS OF CASHING OUT:
- **P2P- SEND TO ANOTHER APPLE PAY**
- **TAP AND PAY AT STORES OR ATM**
- **USE TO BUY THINGS ONLINE etc.**

Message me to get your logs, cards, methods, checks, glass, tutor you in spamming and so on
