Be Careful Of The World

The streets, is a parade of spirits, though you are seeing human flesh walking, but it is a parade of spirits. In the spiritual realm you see a mix up of different spirit of darkness in their numbers and also same spirit of Christ in those born of God. They walk, communicate, and even at times war, but you don't know, you just go on with your daily lives.

It can be likened also to a parade of cars, because we in flesh have a soul, and in every soul there is a spirit, either of sin or of Christ which drives us like a vehicle into acts of sin or of Holiness.

However, that's not where I'm getting at, we're getting somewhere. When you walk in the streets as a child of God you come in contact with so many spirit of sin living in the hearts (souls) of men, they'll always want to war against you, but if you're shielded in the word, that is; if you've grown in Christ, being prayerful also, their attacks will prove meaningless. That's why a child of God can walk in the streets and see people dress naked, but still not affected because of his coverage by the word of God based on his spiritual height.

I mean also, it depends on how much the word (which is Jesus in personality) is dominating his heart. Also at times, these spirits might not care, because to some, are assigned a different job, that is we children of God are not their aim, we just cross path and nothing happens.

In this we see that there are spirits which functions for a particular purpose and those who you just meet and just decide to touch you spiritually if you're not burning with fire. The ones you encounter in the streets, might not be harmful for a child of God, because they're shielded, but the ones with a purpose if you're not careful as a child of God they'll cut you down. Example of a spirit with a purpose, are those projected into symbols of sin like the worldly music most people who even claim to be born again listen to and watch. This is the main reason I'm writing this. I simply can't neglect what God has shown me.

Most of us claim to be Christians but still listen to worldly songs, sing them and watch them, and sell them, sharing them via sender applications, there by multiplying sin. Well you might think it's normal, but it's not. You see it normal, because you've been blinded by the devil. Anyone still in the bondage of the world won't enter into the kingdom of God.

Don't get offended, but it's the truth, I too was once there, i did listen to foreign songs, at least not Nigerian songs because they're the worst kind of bondage in the music sector, but through the power of the word at work in me i can't even listen to them for five seconds. It's not impossible, you just have to pay the price.

As I was saying, spirits you encounter in the streets might seem harmless if you've grown in Christ, but those set for a purpose can be dangerous if you're not careful. The lord gave me a revelation after this happened;

I went to a Barber's shop, waiting my turn. The TV was on playing worldly songs, in my curiosity I said " I haven't seen this in a long time, " so out of my curiosity i just look for less than two minutes and then got back to my phone, nothing happened even with all the than half naked girls, I wasn't moved, because of the holy spirit in me that compels a man to holiness.

However, the lord gave me a revelation, the spirit of lust projected by that music came, she tried to seduce me, let me not go into details before I'm destroy some weak minded. She tried, but nothing happened, I wasn't moved even though she said enchantments i couldn't get, because of the power of Christ in me nothing happened. Then i said to her

" what's this one doing,"

Then I took a clothing and covered her with it.

There the revelation ended. If i wasn't prayerful, if I wasn't burning spiritually, surely something would have happened. Though the victory had already been won right from the beginning I saw the song playing, but the Lord showed me this in order to warn those who listen to worldly songs. Watching and listening to the things of the devil, projects evil spirit to attack you so you won't be born again or to hinder your growth in Christ.

You now see that, giving your heart to all these worldly songs and all, is like a bullet fired at you, compared to what you saw by mistake. If done on purpose or out of curiosity, It's like challenging someone to shoot you. if you're not strong enough in Christ, you'll be driven to sin, and that's why some people still masturbate even though you don't fornicate, some people smoke, drink, steal, anger, why? because these worldly things are intoxicating and are feeding the spirit of sin in them, thereby choking the spirit of God deposited in them.

Some of people have let sin encroach into their heart to an extent that there is no more room for Jesus to take over. Why not feed the spirit of Christ in you with things of Christ, like spiritual songs, the word in obedience and prayers.

One can be in Christ and be protected by his angels when spirit of sin comes around, but just as we born of Christ can be subject to the holy spirit, so also is the holy spirit subject to us. If the spirit says; " don't look at this," we can also say; " no! no! I want to look " and this is where you get attacked because he has left you, if you're strong in Christ, well, but if you're not you're in big trouble. With this you now see that most people who profess to be born again aren't.

But in the end you can't be free from bondage of the world if you're not free from bondages of sin to have the spirit of Christ, because the bondages of sin keeps man in the bondage of the world, and only one with the spirit of Christ can be free form the bondage of the world. I've talked on how to have the spirit of Christ a lot, I won't write it here, if not this write up will get too lengthy.

He that is wise should be wise, and treasure wisdom like gold, but he that is foolish should continue in his foolishness, but I pray that our Lord Jesus Christ will do His work through the word, in Jesus name Amen!
