Avril Lavigne

Avril Lavigne was born on 27 September 1984 in Ontario, Canada. She began writing and playing music at an early age and managed to win a trip to New York. There she met Antonio Reid of Arista Records who offered her a contract. That's when Avril's musical dreams came true!

Avril decided to go to Los Angeles in the USA. She worked hard and recorded her first album *Let Go* and released it in June 2002. That year it sold over 4.1 million copies in the USA.

By February 2003, her single *I'm With You* was at the top of the charts. Then in May 2004, Avril released a new album, *Under My Skin*. That same year, she had another number one single, *My Happy Ending*, which quickly went platinum in January 2005.

Avril is one of the most talented singers of all time. After selling over 14,000,000 albums, everyone is amazed at her success. I am sure that her music will last forever.

Robbie Williams

Robbie Williams was born on 13 February 1974 in Stoke-on-Trent, England. He was talented from a very early age. When he was just three, he sang in front of a thrilled audience in Spain.

In the early 90's he joined a new band called *Take That*. They were one of the most successful bands of the 90's. A few years later, Robbie decided to leave the group to find success on his own.

The first few years by himself did not go very well. However, in 1997 he released his first album, *Life Thru a Lens*, which became a big hit in the UK. A year later, his single *Millennium* reached the top of the UK charts. Many other albums followed which also topped the US and UK charts for weeks.

Robbie's ability to make great music and his terrific sense of humour are what make him the success that he is today. I am sure that his music will last forever.

Homes of the future

What will our homes be like 100 years 0) now? In my opinion, where and how we live will change a lot 43) the future.

I 44) that we will have homes that are more environmentally friendly. 45) this happens, we will use alternative 46) of energy such as wind and solar power.

I also believe that we will have houses that we can control with our voices. 47) way, life will be easier, 48) lights will go on and windows will open when we ask them to. In the future, there will be underwater cities. In my 49), there will be so many people by then that there will be no land to build houses on.

No one really knows what the future 50) for us, so we need to try our best to make it a better one. After all, as Lyndon B. Johnson once said, "Yesterday is not ours to recover, but tomorrow is ours to win or lose."

Dear Julia,

I'm really sorry to hear you've got money problems. Here's what you can do.

Have you thought of looking for a part-time job? You could work at a supermarket, for example, for just a few hours a week. By doing this, you could make extra money and still have time to study. You could also baby-sit at the weekends. That way, it would be less tiring than working in a supermarket or a shop.

I hope I've been of some help. Let me know how you're getting on.
