Question Type	Question	A	B	C	D	Answer	Remark
☐ FBQ	A cell address is also called a cell	Identifier					eExam
☐ FBQ	A rectangular point of a row and a column is called a	Cell					eExam
☐ FBQ	A worksheet is arranged in rows and	columns					eExam
☐ FBQ	Every Electronic spreadsheet software uses a rectangular grid of cells called a	worksheet.					eExam
☐ FBQ	Microsoft is the office application used for database	Access					eExam
☐ FBQ	E in Microsoft excel stands for	Autosum					eExam
☐ FBQ	menu provides options for editing and manipulating text	Edit					eExam
☐ FBQ	option saves your document, using the current filename or the one given to it by	Save					eExam
☐ FBQ	Selecting in word simply opens a blank screen for you to create a new	New					eExam

☐							
☐ FBQ	screen allows you to see how your document will appear on paper before printing it.	Preview					eExam
☐ FBQ	simply means Treasury of Synonym and Antonyms where you can select alternative words for same words.	Thesaurus					eExam
☐ FBQ	involves changing the appearance of a document	formatting					eExam
☐ FBQ	In Word Processing environment, the is very similar to the tip or point of a pen and it indicates where text will appear next when it is entered from the keyboard.	cursor					eExam
☐ FBQ	is the term for changing of a document.	Editing					eExam
☐ FBQ	Oracle provides application	Database					eExam
☐ FBQ	Microsoft project is an application used for	Project management					eExam
☐ FBQ	The application used for easier calculation is Microsoft	Excel					eExam
☐ FBQ	Microsoft is an application used for text preparation	word					eExam
☐ FBQ	Microsoft is an application used for presentations	powerpoint					eExam
☐ FBQ	A very good example of Desktop Publishing packages is the Microsoft	Publisher					eExam

☐								
☐ FBQ	_____ packages are used for creating published materials such as Newsletters, Brochures and Flyers.	Desktop Publishing						eExam
☐ FBQ	Database Management packages are the applications that computerize the routine tasks of recording and filing of _____	information						eExam
☐ FBQ	Electronic Spreadsheet application is majorly used in business by accounting professionals to perform _____	financial						eExam
☐ FBQ	A modeling software simply uses the power and _____ of a computer machine to perform some mathematical _____	speed						eExam
☐ FBQ	Editing is simply defined as Text _____	Manipulation						eExam
☐ FBQ	A compiler translates the original program, called the Source Program into what is called the _____	Object Program						eExam
☐ FBQ	_____ languages are the machine- independent languages	High Level						eExam
☐ FBQ	_____ language was developed to use symbolic names or mnemonics to alleviate some of the difficulties in using Machine	Assembly						eExam
☐ FBQ	A _____ language is the only language the computer actually understands.	Low level						eExam

☐								
☐ FBQ	The phase of computer programming consists of debugging or removing the program errors and the program testing.	Fourth						eExam
☐ FBQ	The third phase of computer programming is also called the starting point of	Implementation						eExam
☐ FBQ	In computer programming the stage is where you as a programmer, plan the logic of the solution.	Design						eExam
☐ FBQ	In phase of computer programming the problem is described and fully analysed.	First						eExam
☐ FBQ	The file extension for Bitmap or Graphic Image is	.bmp						eExam
☐ FBQ	Letter "A" is usually used by the OS to Identify drive	Floppy						eExam
☐ FBQ	Information created by using an application is stored in	Data Files						eExam
☐ FBQ	Every drive has what is called a Root	Directory						eExam
☐ FBQ	The instructions meant to run an application are stored in	Program Files						eExam
☐ FBQ	 simply a graphical representation of a program, a file or a program activity which you can just double-click to run or open	Icon						eExam

FBQ	A OS supports many users to share the same resources or devices of the computer system simultaneously.	Multi-user						eExam
FBQ	An is a collection of computer programs that helps you to run other programs and manage other devices on the computer.	Operating System	OS					eExam
FBQ	 key creates a space character.	Spacebar						eExam
FBQ	The four arrow keys on the keyboard are used for	Navigation						eExam
FBQ	The layout of most electronic keyboards closely follows that of the keyboard.	QWERTY						eExam
FBQ	The keys carrying digits on the keyboard are called the	Numeric keys						eExam
FBQ	Keys with the combination of alphabets and numbers on the keyboard are called the	alphanumeric						eExam
FBQ	The most common display device is the	Monitor						eExam
FBQ	Joysticks are also input devices specifically used for some . They are of different designs and colours.	computer games						eExam
FBQ	The is generally called the Standard Input Unit.	keyboard						eExam

☐							
☐ FBQ	A terminology used for the combination of the Input and Output devices is called the	Transport Devices	Transport device				eExam
☐ FBQ	A Peripheral is any that is connected to a computer.	Device	Devices				eExam
☐ FBQ	1 Kilobyte (KB) =	1024 bytes					eExam
☐ FBQ	1 BYTE =	8 BITS	Eight Bits				eExam
☐ FBQ	The smallest unit measurement in the computer memory is the	BYTE					eExam
☐ FBQ	The brain of the whole computer system is known as the	Central Processing Unit	CPU				eExam
☐ FBQ	provides the computer with the ability to interconnect directly or indirectly all the other computer devices.	Motherboard					eExam
☐ FBQ	The 2nd generation computers used .	Transistors	Transistor				eExam
☐ FBQ	are computers specially housed in big buildings are very large and majorly owned by large organisations in the past decades.	Mainframe computers	Mainframe computer				eExam
☐ FBQ	The 1st generation computers used .	vacuum tubes	vacuum tube				eExam
☐ FBQ	EDVAC stands for Electronic Discrete Automatic	Computer					eExam
☐ MCQ	Microsoft excel has what type of file extension	.xls	.docx	.ppt	.lsx	A	eExam

☐							
☐ MCQ	Microsoft powerpoint has what type of _____	.xls	.docx	.ppt	None of the above	C	eExam
☐ MCQ	RAM stands for Random _____Memory	Assess	Access	And	Acquired	B	eExam
☐ MCQ	A projector is also an example of output _____	Agree	Disagree	Usure	None of the options	A	eExam
☐ MCQ	The control panel option can be located under which button	Menu	File	Start	None of the options	C	eExam
☐ MCQ	Joystick is considered as an_____device	Input	Output	All of the above	None of the options	A	eExam
☐ MCQ	Expert systems are programmed to imitate human thought by comparing facts	Agree	Disagree	Unsure	None of the options	A	eExam
☐ MCQ	Having access to a collection of information in a given field of study is a feature of an expert _____	Agree	Disagree	Unsure	None of the options	A	eExam
☐ MCQ	Which of these is not an example of a publishing software	Microsof t Publishe _____	Core Draw	PageMaker	None of the options	D	eExam
☐ MCQ	Word Processing software are generally designed to make text preparation very easy	Agree	Disagree	Unsure	None of the options	A	eExam
☐ MCQ	one of these is an example of integrated application suit	Microsoft Office	Lotus Smart	Corel Word Perfect	All of the options	D	eExam
☐ MCQ	_____is said to be recognised for converting analog signals received by a computer into digital forms via the telephone _____	Modem	Interpreter	Assembler	Compiler	A	eExam
☐ MCQ	An_____simply translates the source program to machine language as the program is being _____	Compiler	Interpreter	Assembler	None of the options	B	eExam
☐ MCQ	A_____translates the original program, called the Source Program into what is called the Object Program	Compiler	Interpreter	Assembler	None of the options	A	eExam
☐ MCQ	Computer languages can be translated by one of the following	Compiler	Interpreter	Assembler	All of the options	D	eExam

☐							
☐ MCQ	Problem - Oriented languages, programmers specify what to be accomplished without the development of procedures, which is left to the language	Agree	Disagree	Unsure	None of the options	A	eExam
☐ MCQ	Procedure-oriented languages help programmers to solve a problem by indicating the procedures to be used by the computer.	Agree	Disagree	Unsure	None of the options	A	eExam
☐ MCQ	One of these is an example of a high level language except	Fortran	Basic	C++	None of the options	D	eExam
☐ MCQ	The mouse is a member of the group called _____ Devices	Pointing	Showing	FloppyDisk	Descriptive	D	eExam
☐ MCQ	which of these is not a type of computer?	Midi Computer	Main frame computer	Mini computer	Personal computer	A	eExam
☐ MCQ	_____is called the worhorse of a computer's CPU	Control unit	Main memory	Arithmetic logic unit	Monitor	C	eExam
☐ MCQ	One of these does not help in computer processing	Process Unit	Arithmetic logic unit	Control unit	Main memory	A	eExam
☐ MCQ	Which of these is not a type of output device?	SpeedJet Printer	DotMatrix Printer	Inkjet Printe	LaserJet Printer	A	eExam
☐ MCQ	One of these converts computer digital information into what we can understand	CPU	Display devices	Keyboard	Main memory	B	eExam
☐ MCQ	_____is considered as a computer peripheral	ROM	Control unit	Mouse	Main memory	C	eExam
☐ MCQ	A memory of 2 bytes is equivalent to how many bits?	6bits	12bits	16 bits	48 bits	C	eExam
☐ MCQ	In an effort to sort the allowance of staff using a computer, what part of the CPU is responsible for that?	System unit	Binary unit	Control unit	Arithmetic Logic unit	D	eExam
☐ MCQ	One of these is a trend type when plotting trend lines of a graph	Linear	Logarithmic	Polynomial	All of the options	D	eExam
☐ MCQ	There are _____types of statistical analysis	5	4	3	2	D	eExam

MCQ	One of these is considered as a computer standard input device	Keyboard	Joystick	Mouse	Scanner	A	eExam
MCQ	Which of these is not a type of printer?	RunJet Printer	DotMatrix Printer	Inkjet Printer	LaserJet Printer	A	eExam
MCQ	One of these is a type of statistical analysis	Descriptive	Incremental	Differential	Logical	A	eExam
MCQ	One of these is not a component of a computer's CPU	Execute Unit	Arithmetic logic unit	Control unit	Main memory	A	eExam
MCQ	Invitation and greeting cards can be best created using ____	Graphic card	Publication applications	Word application	Picture manager	B	eExam
MCQ	Desktop publishing applications can be used to design one of the following except _	Newsletter	Brochures	Flyers	None of the options	D	eExam
MCQ	Common storage devices used by the computer are called_	FlashDisk	Memory stick	FloppyDisk	Drives	D	eExam
MCQ	An excel worksheet can be used as a tool to monitor and keep of patient temperature	Agree	Disagree	Unsure	None of the options	A	eExam
MCQ	Control panel window can be opened using _____	Desktop window	Desk menu	Start bar	Panel bar	C	eExam
MCQ	These are options of functions that can be performed using control panel except_	Add new hardware	Mouse/ Keyboard	Uninstall a program	None of the options	D	eExam
MCQ	The task of editing consists of the following: <u>except the</u>	Spell checking	Deletion	Insertion	None of the options	D	eExam
MCQ	Normally, the _____ cannot store all the data it requires at the same time as running a program	System	Processor	Program	Unit	B	eExam
MCQ	One of these is not contained in the computer memory	RAM	ROM	Main memory	Partial memory	D	eExam
MCQ	Which of the following mouse keys, plays the same role as the Option key on the keyboard?	Special key	Back space	Tab key	Secondary key	D	eExam
MCQ	All the following are input devices except the _____	Keyboard	Scanner	Joystick	None of the options	D	eExam

MCQ	A processor cannot store all the data it requires at the same time as running a _____	Process	Program	Byte	Unit	B	eExam
MCQ	Which of the following mouse keys, plays the same role as the ENTER key on the keyboard?	Primary key	Special key	Tab key	Secondary key	A	eExam
MCQ	The mouse_____is often used to prevent the mouse from gathering dust	Pad	Cloak	Stick	None of the options	A	eExam
MCQ	_____components and speakers are basic requirements for going through electronic tutorials	Sound	Video	Liquid displays	Recyclers	A	eExam
MCQ	Which of the following could be classified as an impact printer?	Laserjet	Bit Milieu	Inkjet	None of the options	D	eExam
MCQ	The sole purpose of Word Processing software is to make _____	Tag	Data	Program	None of the options	D	eExam
MCQ	The major merit of integration is the ability to exchange data between _____	Loose	Applications	Rip	Zip	B	eExam
MCQ	Which of these is a word file extension?	doc	.docx	dox	None of the options	B	eExam
MCQ	Which of these is not a trend type when plotting trend lines of a _____?	Linear	Logarithmic	Polynomial	None of the options	D	eExam
MCQ	Which of these is not a property of fields used in database?	Field name	Field data type	Field maximum size	None of the options	D	eExam
MCQ	which of these is not a common type of data used in field types in a database application?	Numeric	Character	Logical	None of the options	D	eExam
MCQ	Which of these is not an example of database application?	Microsoft access 2000	Lotus approach	Quatro pro	None of the options	D	eExam
MCQ	These are the steps of opening MS-Access <u>except</u>	Click start	Select control panel	Select program	Select Access s	B	eExam
MCQ	Microsoft access uses one of these design _____	Columnar	Tabular	Data sheet	All of the	D	eExam

☐								
☐	MCQ	One of these is a method of searching of database	Filtering of data and replace	Sorting a	Filter	All of the options	D	eExam
☐	MCQ	Computer digital information understand using	CPU converted into display devices	Keyboard	Main memory	B		eExam
