TMA2 ACC419

Gross Margin is given as â€¦â€¦â€¦ EXCEPT

- Net Income / Average Total Assets

â€¦â€¦â€¦..ratio is the standard ratio to evaluate working capital

- Current

is acquired when premium is paid above the fair value of the net assets acquired over a subsidiary

- Equity

The Non-controlling interest in a subsidiary consists of â€¦...who are not part of the parent company and they are totally unaffected by any distinction between pre- and post- acquisition profits.

- shareholders

The following are common profitability ratios exceptâ€¦â€¦â€¦.

- Acid test

â€¦â€¦â€¦..are recognized in the Statement of Financial Position (SFP) when and only when it is likely that the outflow of future economic benefits related thereto would arise and the value of the assets can be reliably measured

- Assets

A â€¦â€¦â€¦â€¦..expresses a mathematical relation between two quantities or variables.

- ratio

â€¦â€¦â€¦â€¦.is the sum of share capital and reserves.

- Equity

In the purchase method of consolidation, assets and liabilities of the subsidiaries are measured atâ€¦...value at the date of acquisition

- fair market

TMA BUS401

Software is developed by using ----------or other software development tools.

- programming languages

Debit cards, credit cards and direct deposits are variants of---------- within banks

- ETFs

Which of the options is not one of the main steps used for processing files.

- Delete the file

Which of the options is not an examples of event.

- Moving from one office to another.

A cultural system may be defined as the interaction of different ----------of culture

- elements

A pneumatic system is a system that uses compressed air to transport and ----------

- control energy

NITDA, 2007 means ----------

- National Information Technology Development Agency Act of 2007,

A standard IT infrastructure consists of the following components except

- drive

Which of the options does not include principal duties of computer programmers

- Maintains log of computer operations for audit trails

TMA3 ACC204

The difference between the sales revenue and cost of sales is knomn as â€¦â€¦..

- Gross profit

Information that must be capable of being compared from period to period within the same entity or in a single period across entities is known as what?

- Comparability

bank reconciliation statement is done using two basic transactions namely

I AND III Only

One of these is not an advantage of computerised accounting system.

- Inaccurate data entry

The cheques in which an entity may issue to the third party and have been credited to the cash book but not yet debited by the bank in the bank statement because the bearers have not presented them to the bank for payment is known asâ€¦â€¦.

- Unpresented cheques

One of these is not of accounting estimates;

- Allowances for cost

The total amounts an entity owed its suppliers at a particular date is referred to as what?

- Purchase ledger control account

IFRS stands for-----.

- International financial reporting standard

TMA3 ACC204

Which of the following is an advantage of control account.

- It is a useful instrument of fraud prevention and control

The process of allocating the cost of a wasting assets to the different accounting periods that are expected to benefit from it is calledâ€¦â€¦..

- Depletion

The basic three types of inventories are; I)Raw materials II)Work-in-progress Finished goods Iv)Opening stock V)Closing stock

- I,II,II only

The cash that is received by an entity for services they are to render or goods they are to deliver in a future accounting period is termed as what?

- Income in advance

Profit and loss account is prepared to determine.

- Strength of the company

An approach that maintains inventory record on a continous basis whenever there is movement in the level of inventory whether through purchases or sales isâ€¦â€¦.

- Perpetual inventory approach

Non-current assets acquired by a business entity are treated as a?

- Capital expenditure

TMA3 ACC206

Fixed cost are cost which does not vary but remains constant within a given period of time and a range of activity in spite of the fluctuation in production. Such exampl is.

- Insurance charges

The charging of the apportioned cost center overhead to cost units is referred to as?

- Overhead absorption

One of these is an example of indirect labour.

- Salary paid to the driver of the delivery van used for distribution product

The process of tracking the expenses incured on a job against the revenue produced by that job is known as;

Job costing

If the total factory overhead for the period was N50,000 and the total machine hours used was N40,000hrs; Calculate the overhead rate per machine hour

N1.25hrs

All materials which become an integral part of the finished products, the cost of which are directely and completely assigned to the specific physical units and charged to the prime cost are known as what?

Direct materials

An additional stock held by an organization over and above the minimum stock is regarded as?

Buffer stock

The three elements of cost are;

I,II,III, only

One among these is an example of unit cost.

Electrical companies

The assignment of overheads to cost centers directly without sharing but is specifically incurred in respect of a particular cost center is wholly assigned to the cost center is known as?

Overhead allocation

TMA3 CIT202

Computers are connected to other peripheral devices by cables using plugs and sockets called what?

Port

Which device makes it possible for computer to display video and animation?

Video Cards

What is a multitasking operating system intended for applications with fixed deadlines ?

A real-time operating system (RTOS)

which board with series of electronic path ways and connections allowing the CPU to communicate with the other components of the computer?

Motherbboard

Which input device is used for the same purposes as a mouse and is popular on laptop computers?

Track Ball

Which input device is used as a pointing device and to select options from menus?

Mouse

Devices that return processed data, that is information back to the user is called what devices?

Output

The work that is produced using an application or program is also software and is usually referred to as what?

file

TMA2 ENT204

: _____change takes place within the context of the external competitive economic and social environment

Strategic

Manipulation involves providing incorrect or false _____

information

The need for formal _____ structure and the division of work

organization

firm can perform effectively only through interactions with the broader external environment on which it is part.

business

Team _____ is the process of helping the work team become more effective in accomplishing its tasks/roles and in satisfying the needs of the team members.

Building

can be used in conjunction with the cause and effect tool.

brainstorming

An appropriate _____ programme can help in overcomingresistance to change.

communication

The team building cycle starts with the _____ of the problem.

identification

True large scale organizational changes may require the use of threats or_____

force

TMA3 ENT204

The essence of_____ is to enhance skills necessary for improved job performance.

training

Organizations especially large-scale ones, pay much attention to maintaining stability and _____

predictability

can be creative. Many entrepreneurs use their own creative ideas to make a product or offer a service.

Entrepreneurs

may develop a company to a mature phase and then hire a good team of managers to run the business on a daily basis.

Entrepreneurs

Entrepreneurship and ____ growth take place when the economic conditions are favourable.

economic

is the ability to excel at one or more output goals.

Effectiveness

Effective financial management practice is necessary for____ of any firm.

sustained growth

According to Bowen, Marara and Mureithi _____ high production cost can result from over employment of both human and material resources.

2009

entrepreneurs have a strong social ____ They are able to meet challenges, social needs and in so doing create significant new social capital

facet

The accurate description of Weberâ€™s paradigm might be â€œthe development ethics and the spirit ____ ethic.

protestant

PHY 261 TMA 2

1)In oceanic crust layer1 the thickness form between ——— to——km
Ans:0.3 - 0.8

2)The semi-mobile region are formation of——— basin?
Ans:sedimentary

3)The formation of oceanic crust are mostly—— and —— rock?
Ans:basalt and gabbro

4)The mobile belts are characterized by ——— deformation?
Ans:strong

5)The oceanic crust thickness of layer 2 is —— to ——km?
Ans:1-2

6)The ocean crust has——km thickness?
Ans:5-11km

7)The semi-mobile region are characterized by differential———movement?
Ans:vertical

8)In oceanic crust layer1,the seismic velocity form between—— to——km/s
Ans:1.5 - 1.8

9)Geologically,crust has — formation based on geologic history?
Ans:three

10)In layer 1, oceanic crust layer is a non ——— sediment?
Ans:consolidated

1. Potassium permanganate can be used to estimate the ____of a substance

Valency

water of hydration

reactivity

--->> percentage purity

2. IO$${3}{^2-}$$ + SO{_3}{^2}$$+ the oxidation state of oxygen in the equation is ___

-2

-4

--->> +4

+2

3. CO + H$${2}$$SO$${_4}$$ â†’ CO$${_2}$$ + SO$${_2}$$ + H$${_2}$$O The element(s) which undergo change in oxidation state from the reactants to the products is(are)____

--->> Carbon and Sulphur

Hydrogen and Sulphur

Hydrogen and Oxygen

Oxygen only

4. The colour changes accompanying the varying change in oxidation states of iodine and its ion can be used to indicate the____

Iodine complexity

ioniyial point

--->> end point

colourless point of titration

5. Potassium permanganate is a self-indicating reagent because of its different characteristic ___ in either the acidic or basic medium

--->> Colour change

Colour stability

solubility

oxidation state

6. IO$${3}{^2-}$$ + SO$${_3}{^2+}$$ Â-Â-â†’ I +SO$${_4}{^2-}$$ The oxidation state of oxygen in the productâ€™s equation is___

+3

--->> +6

-3

+6

7. Which of the following options is an indicator use for acid-base titration?

Methylbenzene

Bromohexane

phenol

--->> Methyl orange

8. In redox titration involving potassium permanganate, if the contents of the conical flask turn brown, it means ___was added

--->> Insufficient acid catalyst

Insufficient base catalyst

Insufficient catalyst

insufient base

9. The point at which stoicheometrically equivalent quantities of substance have been brought together is known as?

--->> Equivalence point of titration

Saturated point of titration

End point of titration

Neutralization point of titration

10. Volumetric analysis involving iodine are usually referred to as_____

iodotitration

iodine acid titration

halogenmetry

--->> iodometry
