Student Nutrition Support Project

Student Social Development is launching a student nutrition support project to assist students who cannot afford food on a daily basis. The aim of the project is to provide access to basic nutrition and food for food insecure students to make sure that no student goes hungry while studying at Unisa. The project will be a pilot with limited beneficiaries and will be phased in as needed.

If you meet the following criteria, you are more than welcome to send your application to be considered as a project beneficiary, namely, if you

- are unemployed and are struggling to afford food on a daily basis.
- receive financial aid (NSFAS or other loans that do not cover meals).
- do not receive any bursary that covers meals.
- experience circumstances that prevent you from accessing food on a daily basis.

In order to be considered, please complete the application on page 2 and send it to studenthealth@unisa.ac.za

Please include your proof of registration and a letter of motivation stating why you should be considered for this project. The deadline for submissions is 7 May 2018.

Please note that the project is currently being implemented in Gauteng only and distribution will take place at the Florida and Sunnyside Campuses. Please only apply if you can collect in these areas.

For any enquiries, please contact the student health and wellness practitioner as follows: Ms XF Mahlori (studenthealth@unisa.ac.za).

INVITATION

Unisa Student Nutrition support project: Application Form
