

MSC 20~~7~~ 10/10

- 1) Transcription (DNA to RNA)
- 2) Uracil (not found in genetic)
- 3) Thymine
- 4) Uracil (predominantly found in RNA)
- 5) ~~Which of the following is incorrect about enzymes activities?~~
↓ ~~most enzymes are protein~~ ~~it~~
6) 5 Catalysis takes place at the active site
Hydrogen bond
- 7) mt RNA (all these are RNA except)
- 8) They have a very long life span
- 9) Lyases (incorporate double bond)
- 10) Uracil (not found in DNA)
