CONMIS INSTALLATION PROCEDURE

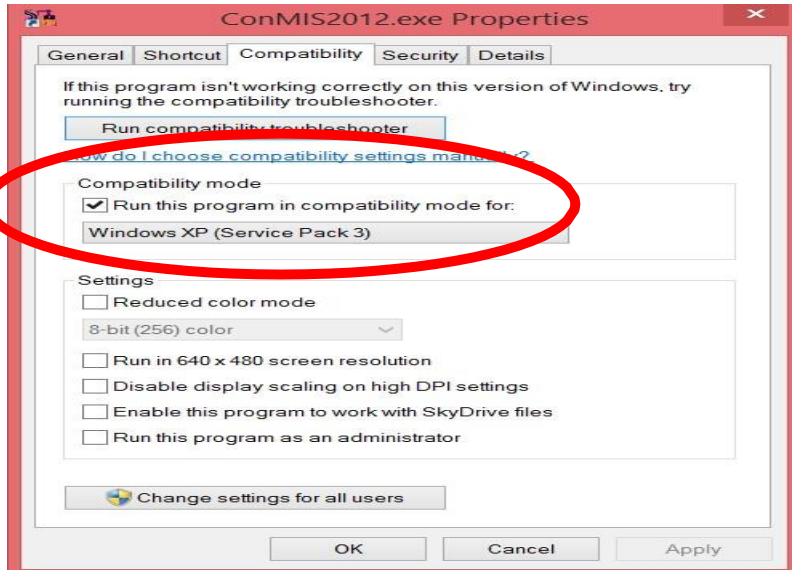

0920933016 / 0901088027

1. Extract the setup from the zip folder .
2. Choose and open set up package folder.
3. Click on " **conmis****.msi**."
4. Click on "**Install" button**.
5. Select **'every one'** option.
6. Click **next** ,then wait until the installation is successful.

7. After the installation is successful "**Conmis.exe**" short cut will be created on the **desktop.**

8. For windows 7/8 /10 **right click** on this short cut of "**Conmis.exe**" and select " **Properties**" then "**Compatibility**" button then check at **run this program in compatibility mode for** " **windows service pack 3**" then click '**apply**' button and click 'OK' to exit and as shown in the figure below.

Note: Windows should have**.net framework** if not install a net framework.

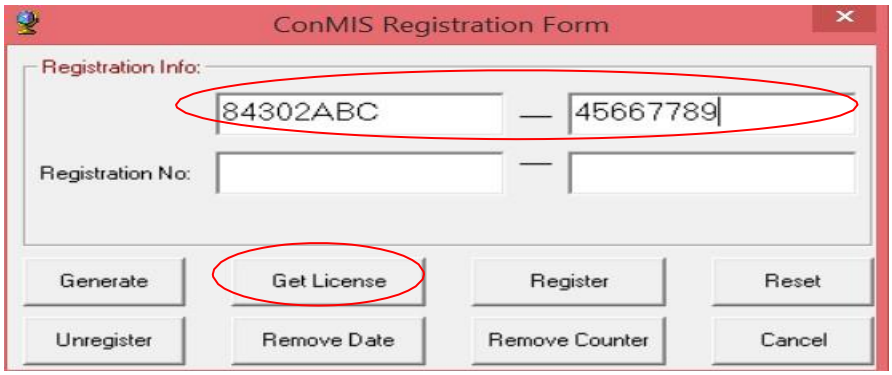

9. And then go back to the desktop and again Click on the shortcut "**Conmis.exe**".(

)

10. In order to activate conMIS

a)Type the upper case **8 alphanumeric** registration info on ConMIS Actn.exe (on the ConMIS
package flolder)

b)get the upper case **8 alphanumeric license key by Clicking "Get License"**

c) And write it on the blank box (at Step 9) and then click on "**register button**".

Note: **it is case sensitive**

11. After a registration, is successful write a user name " ***admin***" and with **blank pass word** click
'Ok' you to log in to ConMIS.

And then cheers….
