

ΜΑΠΓΔΣ Ψ ΛΙΒΡΩΣ :v

LOOKING AT A FINISHED COMPOSITION OF AN EYE IT CAN BE A BIT CONFUSING TO GET TO A SIMILAR RESULT WHILE DRAWING. BUT IF YOU BUILD IT UP STEP BY STEP IT'S MUCH EASIER TO UNDERSTAND AND TO BECOME FAMILIAR WITH.

AT FIRST WE CONCENTRATE ON OUR BASIC SHAPE. YOU CAN USE MULTIPLE STROKES TO GET A NICE CURVE.

A BIG SHAPE FOR OUR EYE GIVES US MORE ROOM FOR DETAILS LATER ON. ALSO DRAW IN THE FOLD OF THE UPPER EYELID.

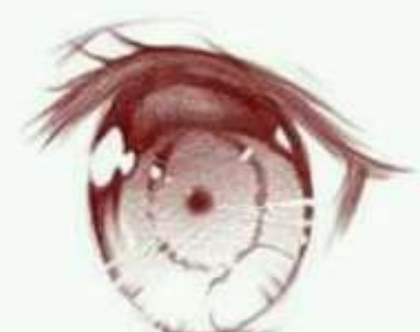

DEFINE THE SHAPE OF YOUR HIGHLIGHT BEFORE YOU START TO WORK OUT THE DETAILS LIKE IRIS SHADOW AND CONTRAST. DON'T FORGET THE LASHES :D

MAKE USE OF A GRADIENT TO GET SOME DEEPNESS HERE. IF YOU USE CROSS-HATCHING TRY LOWERING THE PEN PRESSURE FROM TOP TO BOTTOM.

WORK IN MORE CONTRAST AT THE TOP OF THE EYE. SOFTEN THE EDGE TO MAKE IT LOOK MORE NATURAL.

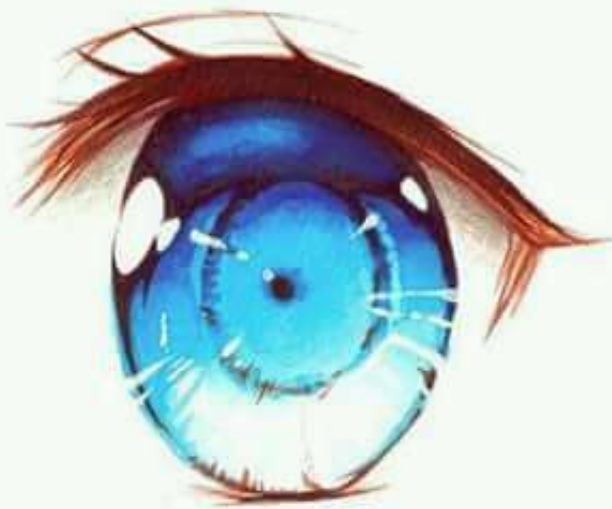

THE LAST STEP IS TO PUT IN SOME MORE HIGHLIGHTS LIKE DOTS OR LINES TO MAKE IT LOOK MORE GLOSSY.

TO GET THE MOST OUT OF OUR SHAPES WE USE CONTRAST IN COLOR, BRIGHTNESS, SOFT AND HARD EDGES AND VOLUMES HERE. I USED WATERCOLORS AND INKS BUT YOU CAN USE THE MEDIUM OF YOUR CHOICE OR EVEN WORK DIGITAL. FOR THE BASE SHAPE START AT OUR PREVIOUS EYE TUTORIAL FROM STEP 1-3 SO LETS GET STARTED! 

COLOR RANGE

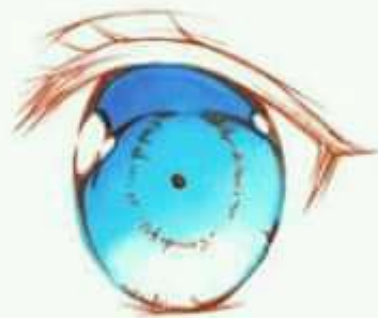

PURPLE

BLUE

CYAN

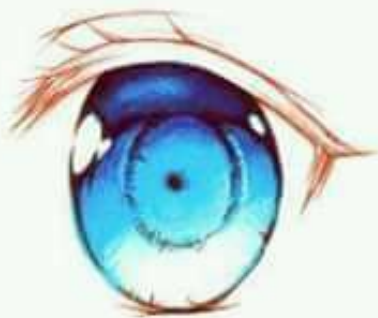

STARTING FROM OUR PREVIOUS TUTORIAL THE ONLY DIFFERENCE HERE IS THAT THE UPPER EYELID HAS AN EMPTY INNER SURFACE AND THE LINE COLOR IS BROWN.

TO MAKE THE EYE SHINE WE USE A SOFT GRADIENT GETTING BRIGHTER FROM TOP TO BOTTOM. ALSO GET FROM A BLUE TONE INTO CYAN AND SPARE OUT THE WHITE AREA AT THE BOTTOM.

A DARKER BLUE MIXED WITH PURPLE GIVES GOOD CONTRAST FOR THE SHADOW UNDER THE LID. ALSO START TO WORK IN SOME HARD EDGES AROUND THE IRIS WITH CYAN.

SLOWLY ADD MORE AND MORE CONTRAST BELOW THE EYELID WITH DARKER VALUES. ALSO WORK IN A SHADOW AROUND OUR PUPIL.

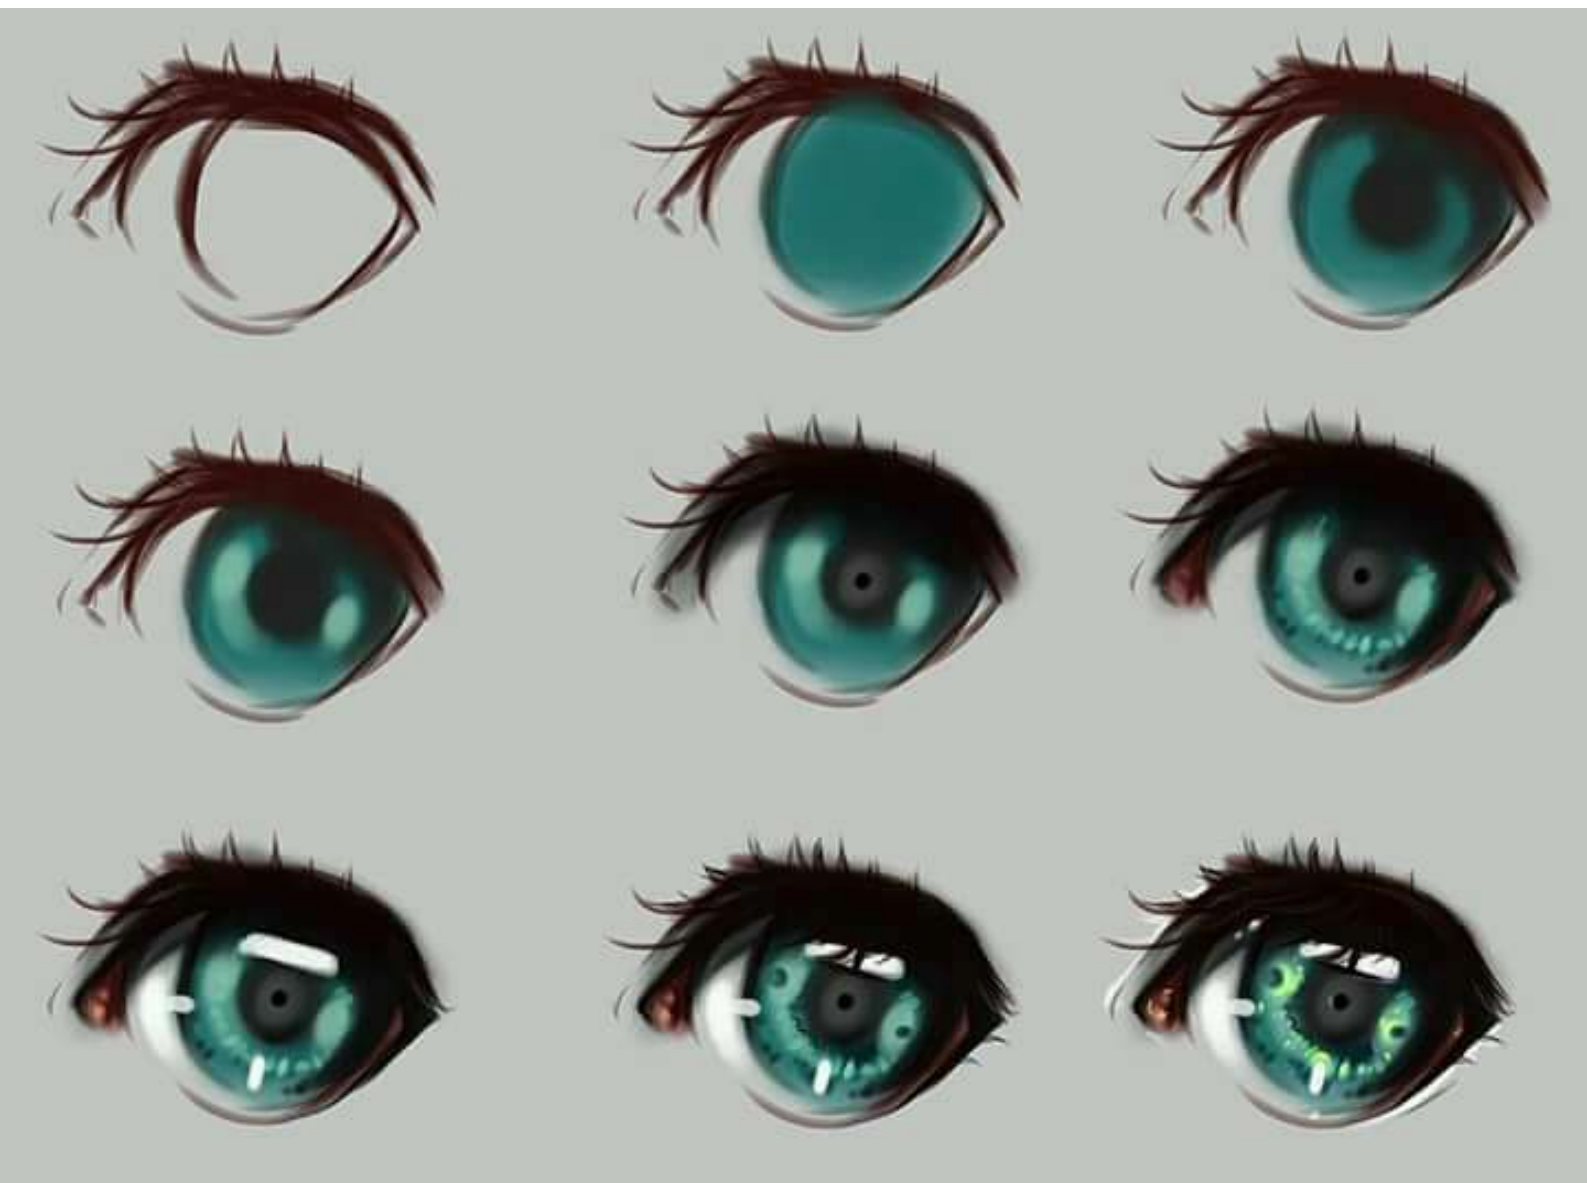

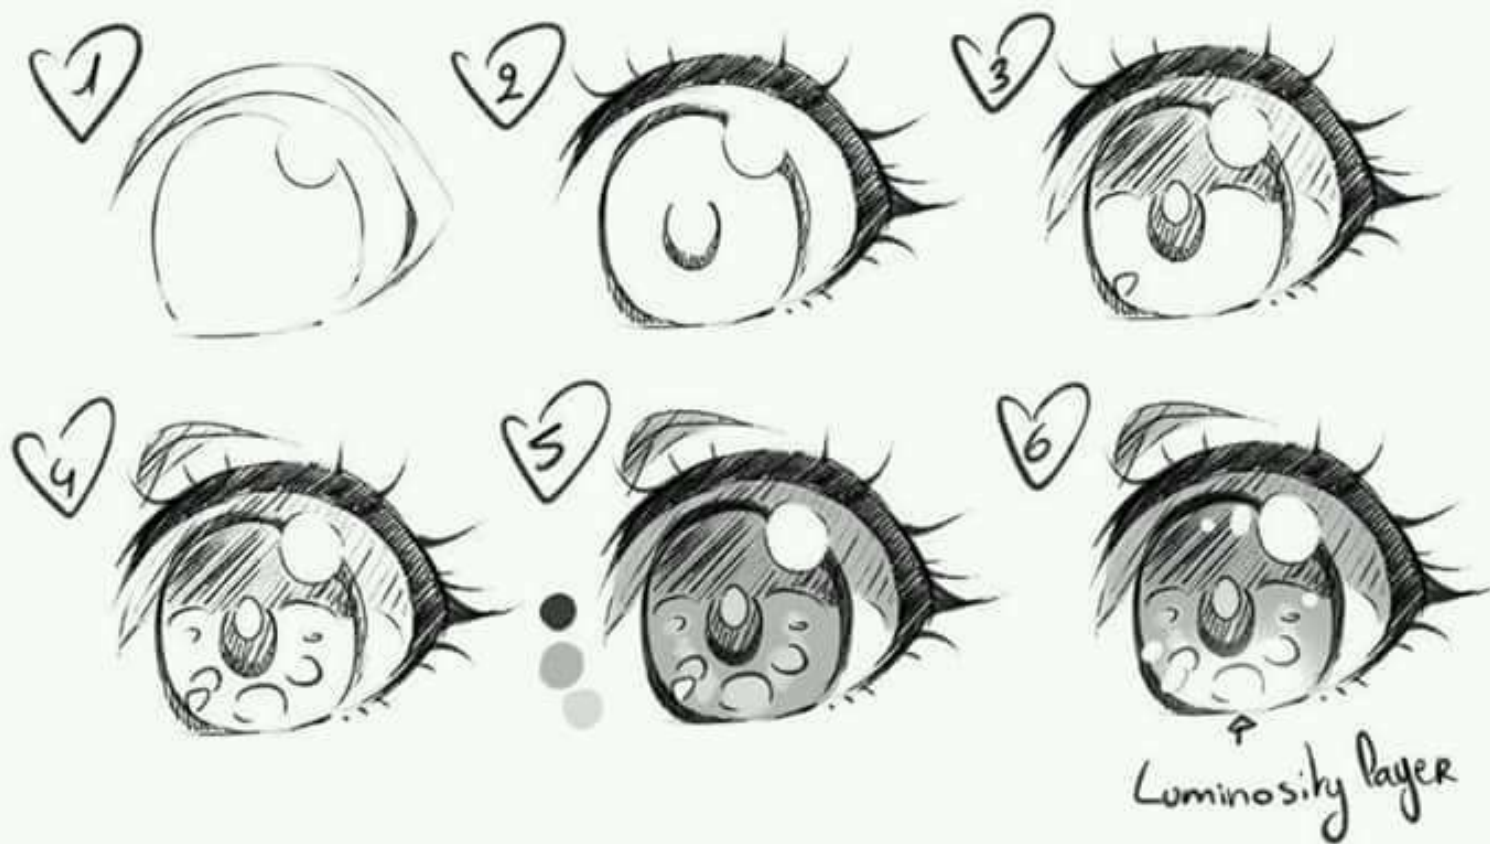

FOR THE LID I USE A DARKER BROWN. IT GIVES A NICE AND WARM CONTRAST TO OUR COLD HUES. I WORK VERY ROUGH SO THE BRIGHTER LINES CAN SHINE THROUGH AND GIVE US A NICE EFFECT.

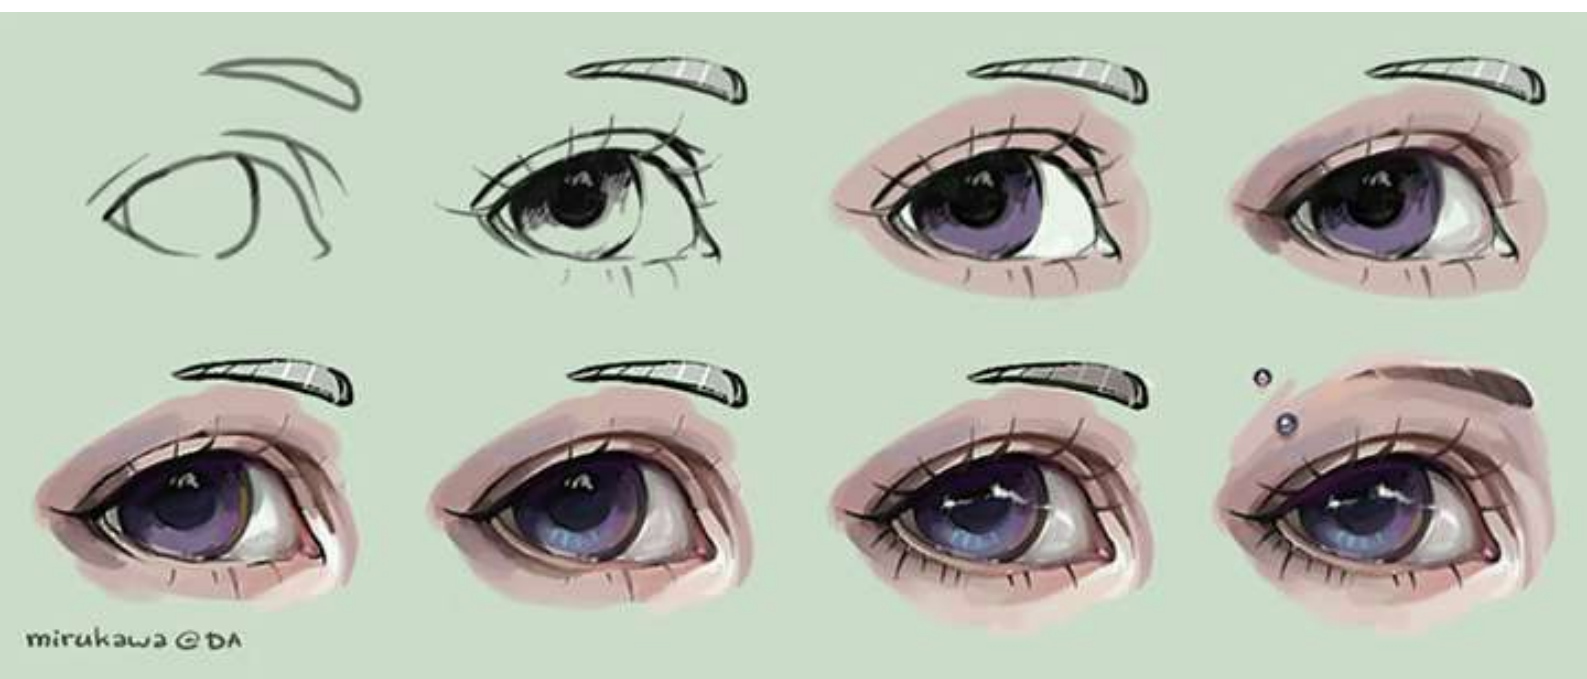

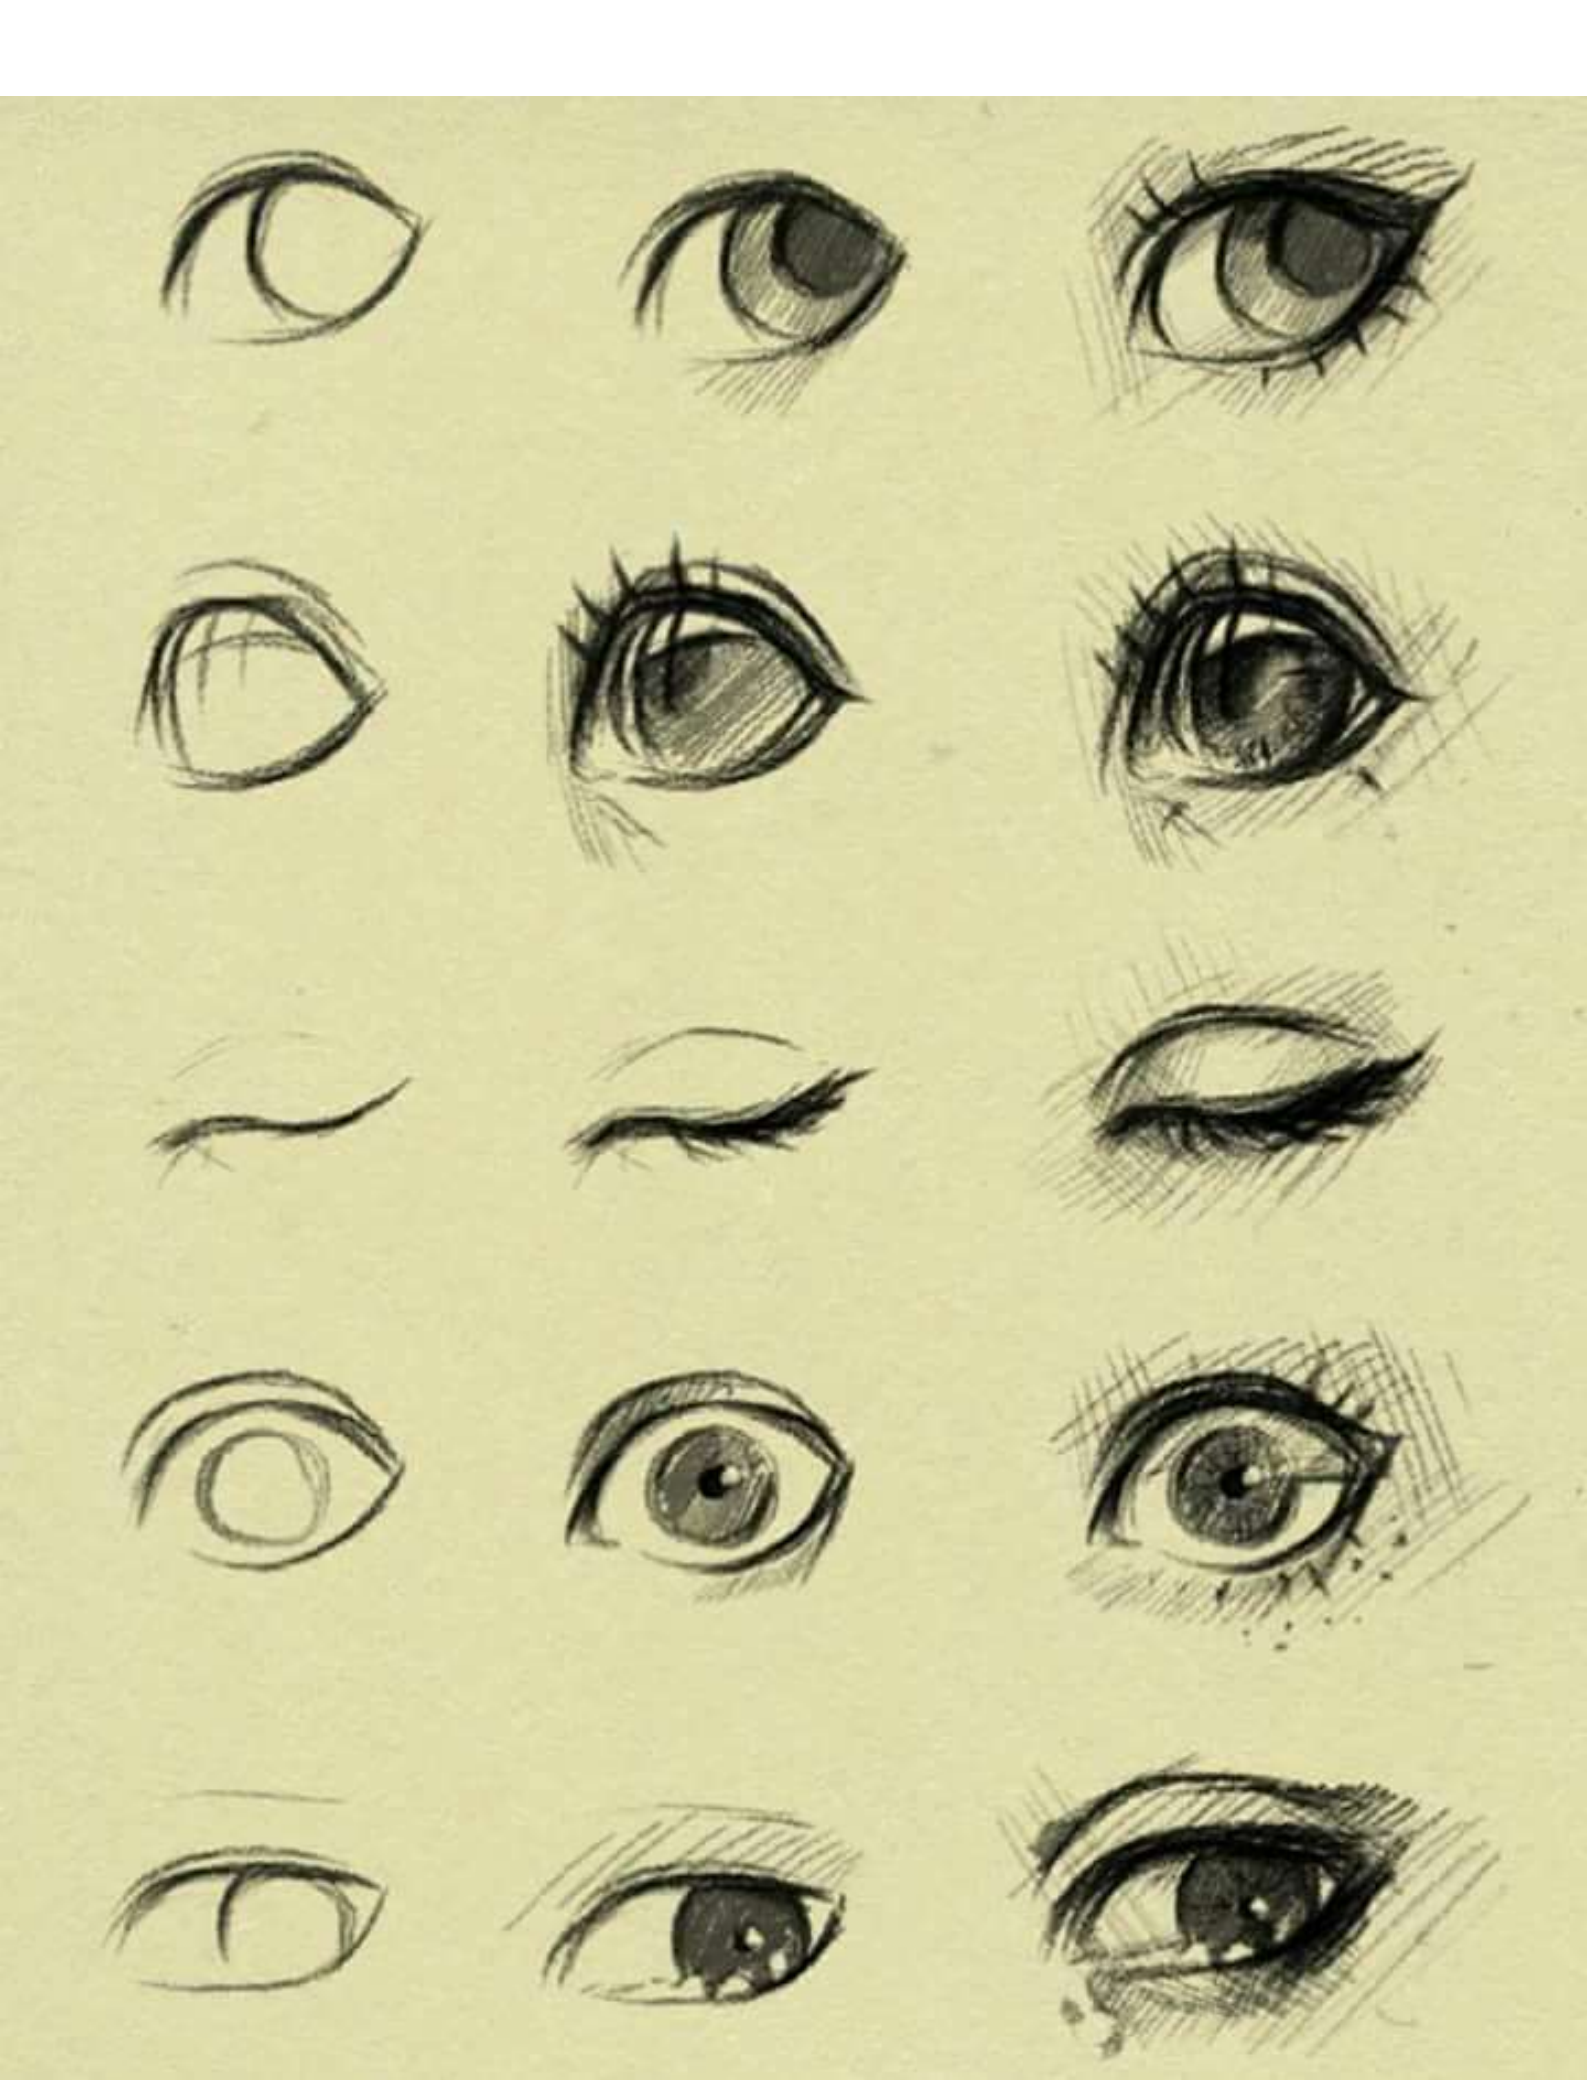

FOR THE HIGHLIGHTS WE USE SOME HARD EDGED LINES. MAKE SURE TO DRAW THEM IN THE DIRECTION OF OUR PUPIL. THE LAST THING IS A SOFT SHADOW IN THE WHITE AREA OF OUR EYE.

PASO 1: SE HACE UN BOCETO PARA TENER UNA REFERENCIA DEL TIPO DE OJO QUE QUEREMOS

PASO 2: DIBUJAMOS LA CEJA, REGULARMENTE LA PUNTA MAS DELGADA VA HACIA EL EXTERIOR DEL ROSTRO

PASO 3: DIBUJAMOS EL CONTORNO SUPERIOR E INFERIOR DEL OJO, SIENDO EL SUPERIOR MAS GRUESO (CON DOBLE LINEA) TAMBIÉN SE DIBUJA EL PÁRPADO

PASO 4: RELLENAMOS EL PÁRPADO SUPERIOR Y DIBUJAMOS LA PUPILA

PASO 5: AGREGAMOS LOS ULTIMOS DETALLES EN LA PUPILA Y LISTO

DE IGUAL FORMA SE PUEDE APLICAR A OJOS DE MUJER, NIÑO Y NIÑA
