Vacancy Announcement: Doctor – Office Practice

Location: Ayat Office, Addis Ababa
Salary: 21,000 ETB (Including Transport)
Employment Type: Full-time

Job Summary

Rohobot Home-Based Health Care Service is looking for a dedicated and versatile **Doctor** to join our team. The ideal candidate will provide medical consultations, physical assessments, and health education through multiple platforms, including in-person, phone, video, and social media. This role also involves working with partner organizations to deliver health campaigns and on-site checkups.

Key Responsibilities

1. Medical Consultations

- Provide consultations in-person and through virtual platforms (phone/video).
- Address patient health concerns, offer medical recommendations, and ensure effective follow-up care.

2. Physical Assessments & Examinations

- Conduct thorough checkups for visitors, referred patients, and scheduled appointments.
- Manage and document patient health records accurately.

3. Health Checkup Campaigns

- Organize and conduct screenings and assessments at partner organizations, corporate events, and community campaigns.
- Collaborate with partners to ensure smooth execution of health initiatives.

4. Health Education & Public Awareness

- Develop and share health-related content via social media.
- Respond to public health inquiries through phone, video, and online platforms.

5. Partnership & Outreach Support

- Work with partner organizations to provide checkups and health assessments for employees and stakeholders.
- Serve as a medical resource for corporate and community health projects.

6. Compliance & Licensing

- Ensure compliance with medical licensing and regulatory requirements.
- Oversee licensing processes and assist in inspections as needed.

7. Additional Responsibilities

- Perform any additional organizational tasks assigned by the supervisor.

Work Environment

- This role involves both in-office duties and occasional travel for health campaigns.
- The candidate must be proactive in using social media and digital tools for patient care and health education.

Requirements

✅ **Education & Experience:**

- **Licensed Doctor** with a **minimum of 1 year of work experience**.

✅ **Skills & Attributes:**

- Strong communication and consultation skills.
- Ability to work independently and collaborate with partners.
- Proficiency in using digital platforms for virtual consultations and health education.

Work Environment

- This role involves both in-office duties and occasional travel for health campaigns.
- The candidate must be proactive in using social media and digital tools for patient care and health education.
