FORM 3 MIDTERM 1 EXAMS

ALL SUBJECTS

Compilation of Standard set of Mid-Term 1 Questions for the Current Class. Contains both Paper 1,2 & 3 where necessary.

SUBJECTS COMPILED;

Mathematics, English, Kiswahili, Biology, Chemistry, Physics, CRE, Geography, History, Business Studies &Agriculture

---

SERIES 1

For Marking Schemes

BIOLOGY

PAPER 1

TIME: 2 HOURS

NAME……. ADM NO; …….

CLASS…… DATE…….

INSTRUCTIONS TO CANDIDATES:

- *Answer **ALL** the questions*
- *Answers should be written in the spaces provided*

QUESTIONS

1. **(a)** What is the formula of calculating linear magnification of a specimen when using a hand lens? **(1mk)**

……

……

(b) Give a reason why staining is necessary when preparing specimens for observation under the microscope **(1mk)**

……

……

2. State two functions of Golgi apparatus. **(2mks)**

……

……

3. State the importance of the following processes that take place in the nephrons of a human kidney **(1mk)**

……

……

4. (a) Name a disease of the liver whose symptom is jaundice **(1mk)**

……

(b) State the causative agent of:

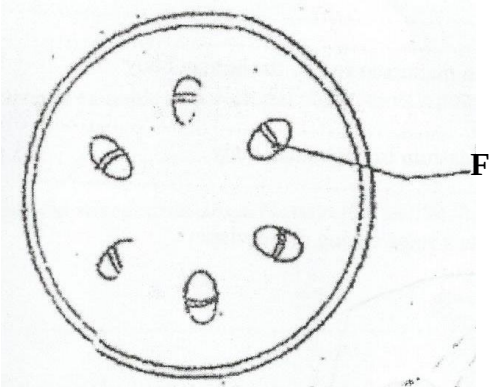

(i) Cholera **(1mk)**

……

(ii) Amoebic dysentry **(1mk)**

……

5. The diagram below shows a section through a plant organ

(i) Name the class of the plant which the section was obtained **(1mk)**

……

(ii) Give a reason for your answer in (a) (i) above **(1mk)**

……

……

iii) State the functions of the part labeled F **(1mk)**

……

……

6. Describe what happens during the light stage of photosynthesis **(2mks)**

……

……

……

7. Name a support tissue in plants that is not thickened with lignin **(1mk)**

……

8. (a) In which part of the cell do the following stages of respiration take place. **(2mks)**

(i)Glycolysis**.....**

(ii) Kreb's Cycle **.....**

(b) In which of the two stages above is most energy produced? **(1mk)**

……

9. Explain why drug addicts are prone to HIV infection. **(2mks)**

……

……

……

10.(a) (i)A man's urine gave positive reaction with Benedict's solution. Name the disease he was suffering from. **(1mk)**

……

(ii) State **two** ways in which the symptoms of the condition in (a) above can be controlled.**(2mks)**

……

……

……

(b) Name the hormones involved in regulating glucose level in blood. **(2mks)**

……

……

11.(a) Name **two** structures for gaseous exchange in aquatic plants. **(2mks)**

……

……

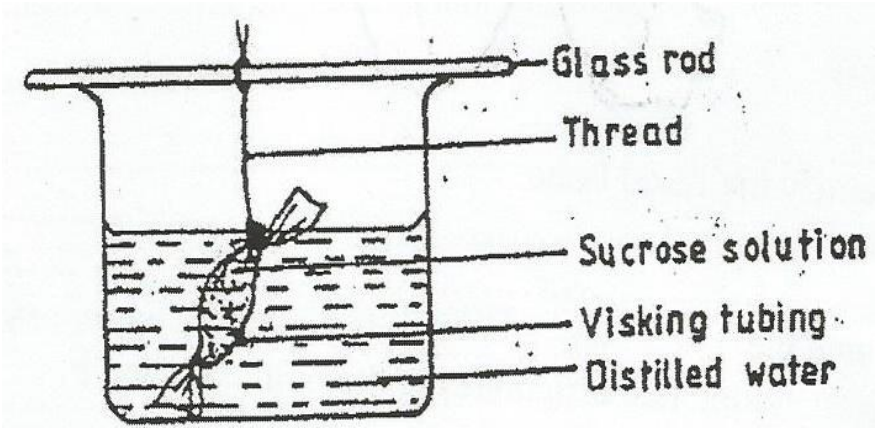

(b) What is the effect of contraction of the diaphragm muscles during breathing in mammals? **(3mks)**

……

……

……

12. An experiment was set up in the experiment as shown below.

The set up was left for 30 minutes. State the expected results. **(1mk)**

……

……

b) Account for your answer in (a) above **(2mks)**

……

……

……

13. State **two** structural modifications of nephrons found in desert mammals **(2mks)**

……

……

14.(a) State **two** characteristics of Monera that are not found in other kingdoms **(2mks)**

……

……

(b) Name the class to which a termite belongs **(1mk)**

……

15.(a) Distinguish between population and community **(2mks)**

……

……

……

(b) Name the method that can be used to estimate the population size of the following organisms

(i) Fish in a pond **.....(1mk)**

(ii) Black jack in a garden**.....(1mk)**

16. Explain how an increase in temperature affects the rate of active transport. **(2 marks)**

……

……

……

17. Give the synthesis role of smooth endoplasmic reticulum. **(1 mark)**

……

……

18. State **two** functions of bile juice in the digestion of food. **(2 marks)**

……

……

19. Name the features that increase the surface area of small intestines **(2 marks)**

……

……

20. Explain what happens when there is oxygen debt in human muscles **(2 marks)**

……

……

……

21. State **two** ways in which the root hairs are adapted to their function **(2 marks)**

……

……

22. Name **two** factors that affect transpiration and absorption at any given time **(2 marks)**

……

……

23. State **two** functions of blood in a human body. **(2 marks)**

……

……

24. State **two** differences between open and closed circulatory systems **(2 marks)**

……

……

25. State **two** ways in which the leaf is suited to gaseous exchange **(2 marks)**

……

……

26. State **four** ways in which respiratory surfaces are suited to their function. **(4 marks)**

……

……

……

……

27. What are the **three** end products of anaerobic respiration in plants **(3 marks)**

……

……

……

28. What is oxygen debt? **(1 mark)**

……

……

29. Explain what happens to excess amino- acids in the liver of humans **(3 marks**

……

……

……

……

30. (a) What is homeostasis? **(2 marks)**

……

……

b) Name **three** processes in the human body in which homeostasis is involved **(3marks)**

……

……

……

31. (a) Explain the term binomial nomenclature **(2 marks)**

……

……

……

(b) State the importance of classification. **(3 marks)**

……

……

……

32. State two external features found in the class Mammalia only. **(2 marks)**

……

……

FORM 3 MIDTERM 1 EXAMS

SERIES 1

BIOLOGY

PAPER 2

TIME: 2 HOURS

NAME……. ADM NO; …….

CLASS…… DATE…….

QUESTIONS

1. Study the diagram of the organism shown below then answer the questions that follow.

(a) State the phylum to which the organism belongs. **(1mark)**

……

(b) With reasons state the class to which the organism belongs. **(1 mark)**

……

……

c) Name **two** diseases of the respiratory system. **(2 marks)**

……

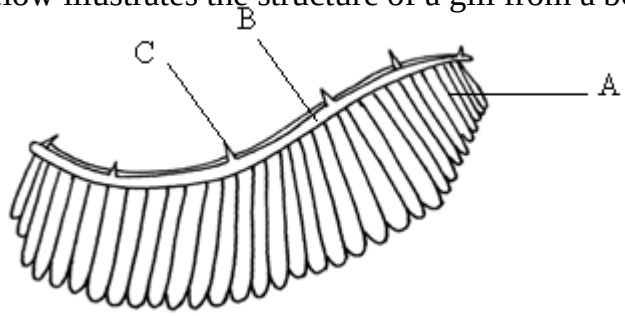

……

2. (a) Name the gaseous exchange structure in the following organisms.

(i) Amoeba .....(1 mark)

(ii) Grasshopper.....(1mark)

(b) The diagram below illustrates the structure of a gill from a bony fish.

(i) Name the parts labelled **A, B, C** **(3 marks)**

A ……

B ……

C ……

(ii) State the function of the part labelled C **(1 mark)**

……

……

(iii) How is part A adapted to carry its functions **(2 marks)**

……

……

……

3.The table below shows the number of Leopards and Impala in a grassland park over a period of six years.

Time in years	1	2	3	4	5	6
Number of Impala	360	498	546	216	120	72
Number of Leopard	11	17	25	7	3	2

(a) (i) What is the average number of Impala in the park during the six years. **(2marks)**

……

……

……

……

(ii) Account for the decrease in the number of leopards between the 4th and 6th year? **(2marks)**

……

……

……

(b) Identify the trophic level occupied by

(i) Leopards **(1 mark)**

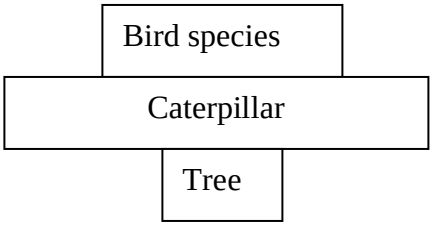

……

(ii) Tick feeding on the leopard. **(1 mark)**

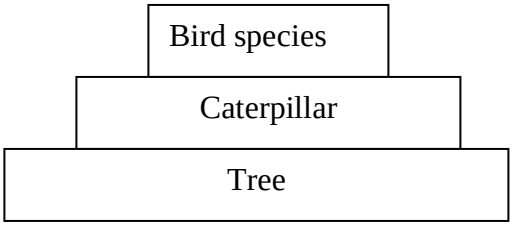

……

(c) The two pyramids shown were obtained in the park.

I

II

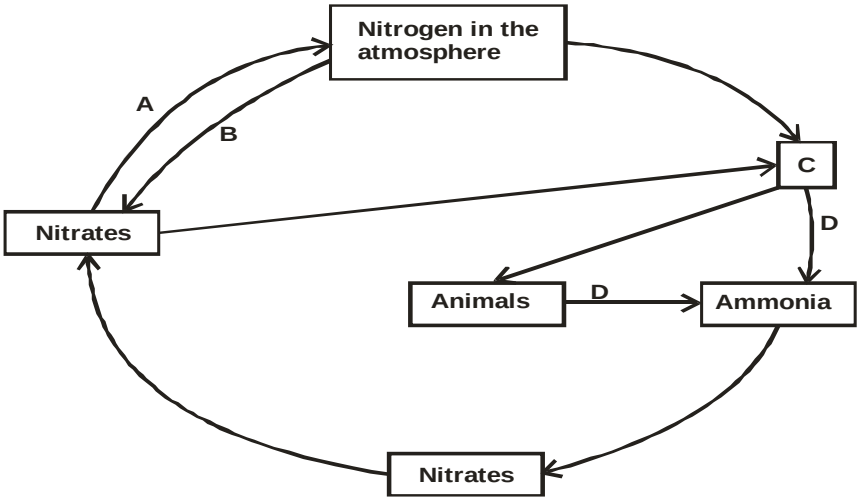

(i) Identify each type of pyramid. **(2 marks)**

I: ……

II:……

4. The diagram below represents a simplified nitrogen cycle.

a) Name the group of bacteria represented by: **(2 marks)**

A. .....

B. .....

b) i) Name the group of organisms represented by **C.** .....**(1 mark)**

c) Give the reasons for your answer in b (i) above. **(2 marks)**

.....

.....

d) Define the term nitrification. **(1 mark)**

.....

.....

e) Explain how excessive use of pesticides will affect nitrification. **(2 marks)**

.....

.....

.....

5.(a) State **three** structural differences between an artery and a vein of a mammal. **(3 marks)**

Artery	Vein

(b) How are the capillary suited to their function? **(3 marks)**

……

……

……

(c) (i) What is blood transfusion? **(1 mark)**

……

……

(ii) A person whose blood group is A died shortly after receiving blood from a person of blood group B. Explain the cause of death. **(2 marks)**

……

……

Answer question 6 (Compulsory) and EITHER question 7 or 8 in the spaces provided

6. An experiment was carried out in which red blood cells were put in salt solutions of different concentrations. The table below shows the percentage of cells which were destroyed by haemolysis in different salt concentration.

Salt concentration (g/dm^3)	**% of RBC destroyed By haemolysis**
0	**100**
1	**100**
2	**100**
2.5	**100**
3.0	**100**
3.5	**96**
3.7	**80**
4.0	**60**
4.5	**16**
4.7	**0**
5.0	**0**
6.0	**0**

(a) Draw a graph of percentage of red blood cells haemolysed against salt concentration **(6 marks)**

(b) Explain haemolysis of red blood cells. **(3marks)**

……

……

……

……

(c) From the graph, state:

(i) The salt concentration at which 50% red blood cells were haemolysed. **(1 mark)**

……

a) The highest salt concentration when the largest number of red blood cells were haemolysed. **(1 mark)**

……

……

(b) (i) Suggest the normal salt concentration in the blood of the mammal from which the red blood cells were obtained. **(2 marks)**

……

……

……

(ii) Give a reason for your answer in (d) (i) above. **(1 mark)**

……

……

(iii) What term is used to describe the solution with equal solute concentration as that of the cells**?** **(1 mark)**

……

(e) Name the process in the human body that ensures that haemolysis of red blood cells is prevented. **(1mrk)**

……

……

……

(f)State the role of osmosis in organisms. **(4 marks)**

……

……

……

……

(7) Describe the adaptation of the skin to its functions **(20mks)**

(8) **a)** Describe how the digestion of a protein is achieved in the following portions of the alimentary canal.

(i) Stomach **(4 marks)**

(ii) Duodenum **(4marks)**

(b) **(i)** Describe the process of absorption at the root hair to the xylem of the root**. (8mks)**

(ii) Describe how temperature and light intensity affect the rate of transpiration**. (4 mks)**

BIOLOGY

PAPER 3

PRACTICAL

TIME: 2 HOURS

NAME…… ADM NO; …….

CLASS…… DATE…….

INSTRUCTIONS TO CANDIDATES:

1. You are provided with food substance labeled solution G. The reagent provided are Iodine solution, Benedicts solution, 2M HCl acid, 10% Sodium hydroxide solution Copper (II) sulphate and 10-% Sodium hydroxide solution.
   (a) Perform food tests and fill in the table below. **(12 mks)**

Food substance	Procedure	Observation	Conclusion

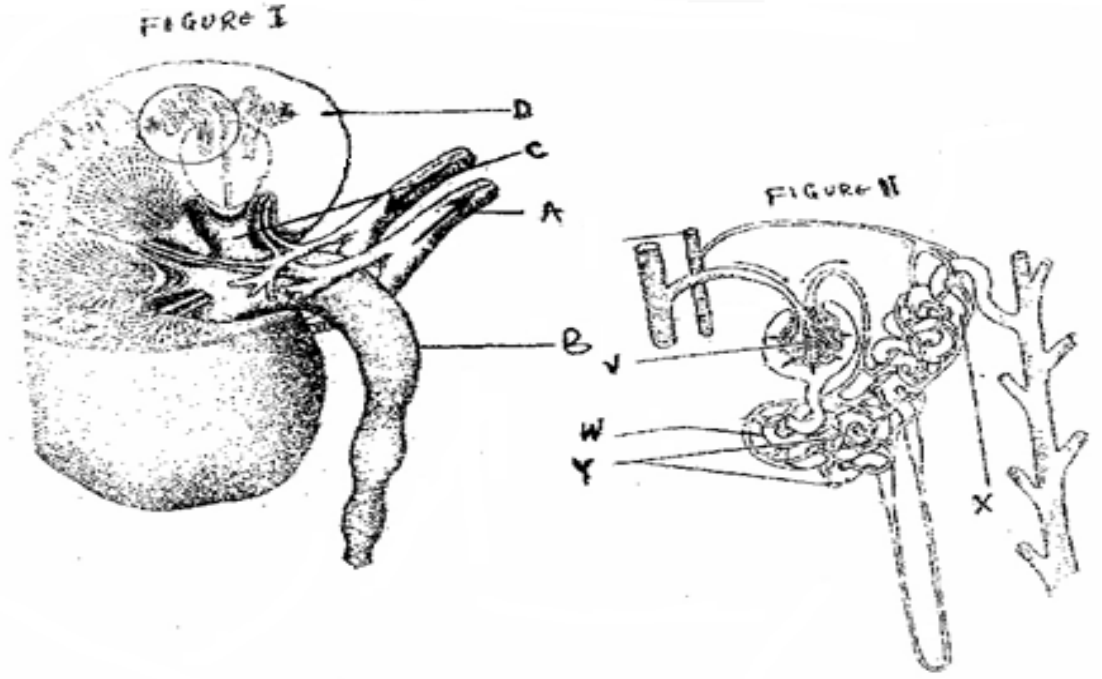

(b) (i) Name the enzyme responsible for digestion of food substance present in G in two named regions of the human alimentary canal. **(2 mks)**

……

(ii) Name three deficiency diseases in children that may result from lack of one of the food substances in G. **(1 mk)**

……

2. Study the kidney diagrams below.

(a) (i) Name the parts labeled **A**, **B**, **C** and **D** in figure **1**. **(4 marks)**

……

……

……

……

(ii) Name the processes that take place in the parts labeled. **V and W** **(2 marks)**

……

……

(b) State **two** adaptations of the part labeled **W**. **(2 marks)**

……

……

……

(c) On the diagram name the part where counter current flow occurs. **(1 mark)**

(d) State **two** homeostatic functions of the diagram above. **(2 marks)**

……

……

……

(e) Explain what will happen to the process of urine formation in absence of vasopressin hormone. **(4 marks)**

……

……

……

……

……

3. The photographs on the leaf attached are of animals belonging to the same taxonomic unit (class).

a) i) Name the class to which the organisms in the photographs belong. **(1mk)**

ii) State three reasons for your answer in a) (i) above. **(3mks)**

……

……

……

b) State three economic importance of organisms in this class. **(3mks)**

……

……

……

c) Use the following characteristics to prepare a two step dichotomous key of the animals in the photographs. **(4mks)**

……

……

……

……

……

……

……

FORM 3 MIDTERM 1 EXAMS

SERIES 1

CHEMISTRY

PAPER 1

TIME: 2 HOURS

NAME……. ADM NO; …….

CLASS…… DATE…….

Answer All questions in the spaces provided.

1. (a) Give the main allotrope of sulphur. **(2mks)**

……

(b) Define transition temperature. **(1mk)**

……

……

2. (a) Define crystallization. **(1mk)**

……

……

3. A student added some pure potassium nitrate crystals to cold water and stirred the mixture. A few of the crystals did not dissolve at room temperature.

a) Give a reason why some crystals did not dissolve. **(1mk)**

……

……

b) What would happen if the contents of the mixture in a beaker were warmed? Explain. **(2mks)**

……

……

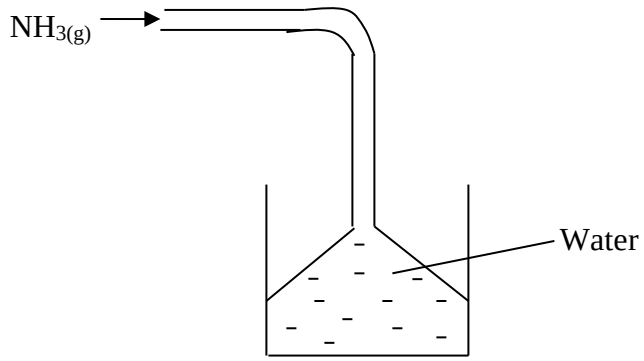

……

c) Name two substance that can be reacted to give copper (II) sulphate**.** **(1mk)**

……

……

4. Ammonia gas was passed into water as shown below.

a) When a red litmus paper was dropped into the resulting solution, it turned blue. Give a reason for this observation. **(1mk)**

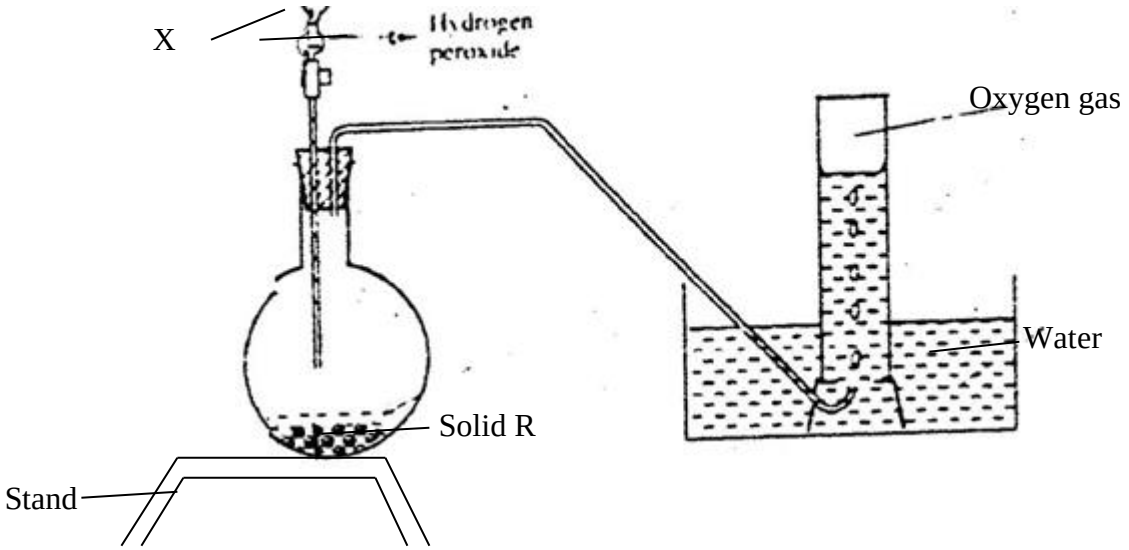

……

……

b) What is the function of the funnel? **(1mk)**

……

5. The diagram below is set-up for the laboratory preparation of oxygen gas.

a) Name solid R. **(1mk)**

b) Name the apparatus X. **(1mk)**

c) Write an equation for the reaction that takes place in the flask. **(2mks)**

6. An element Y has electronic arrangement of 2.8.5.

a. State the period and the group which the element belong. **(2mks)**

……

b. Write the formula of the most stable ion formed when the element Y ionizes. **(1mk)**

……

……

c. Lithium has two isotopes with mass number 6 and 7. If the R.A.M (relative atomic mass) of Lithium is 6.94, determine the percentage abundance of such isotope. **(3mks)**

……

……

……

7. Give the name of each of the following processes described below when salts are exposed to air for some time.

a) Anhydrous copper (II) sulphate becomes blue.

b) Magnesium chloride forms an aqueous solution.

c) Fresh crystals of sodium carbonate $Na_2CO_3.10H_2O$ covered with a white powder of formula $Na_2CO_3H_2O$.

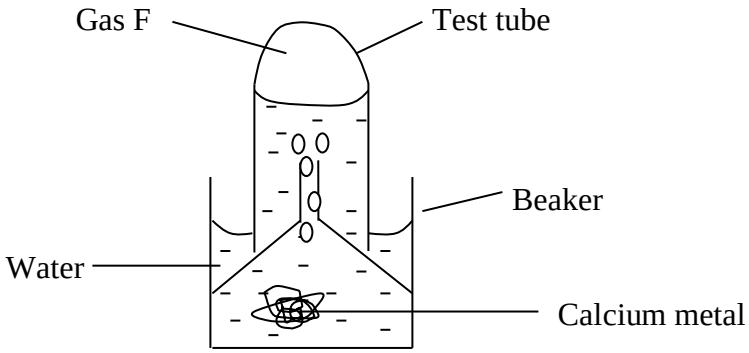

8. A hydrated salt has the following composition by mass;

Iron 20.2%, oxygen 23.0%, sulphur 11.5%, water 45.3%. Its relative formula is 278. (Fe=56, S=32, O=16)

a) Determine the formula of hydrated salt. **(3mks)**

b) When magnesium is burnt in air it reacts with oxygen and nitrogen gas giving a white ash. Write two equations for the two reactions that take place. **(3mks)**

9. The set-up was used to collect gas F, produced by the reaction between water and calcium metal.

a) Name gas F. **(1mk)**

b) At the end of the experiment, the solution in the beaker is a weak base. Explain. **(2mks)**

……

……

……

c) Give the laboratory use of solution of solution formed in the beake**r.** **(1mk)**

……

……

10. The grid below sow part of the periodic table. The letters are not the actual symbol of the element.

				G			K	
				H			I	
F								

a. Select;

i) Element which has the largest atomic radius. **(1mk)**

ii) Most reactive non-metal. **(1mk)**

b. Show on the grid the position of element 'J' which forms J^{-2} ions with electronic configuration of 2.8.8.8. **(1mk)**

c. Write the equation between element F and I. **(2mks)**

11. Use dots (.) and crosses (x) to represents electrons. Draw diagram to show bonding in

a) (i) NH^{+}_{4} **(1mk)**

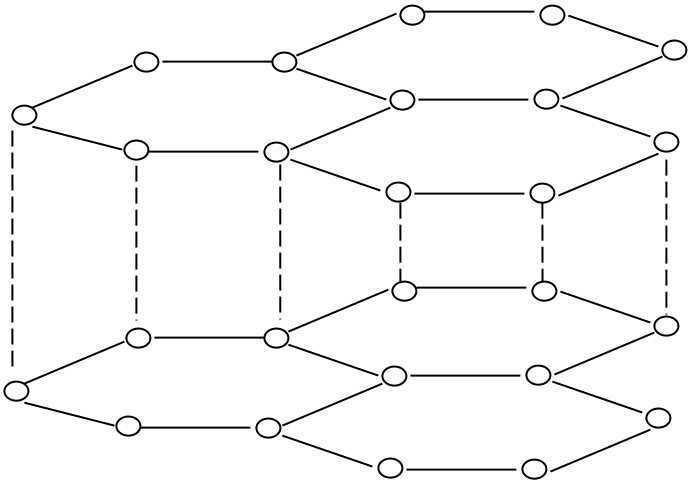

(ii) H_3O^{+} **(1mk)**

(iii) CO_2 **(1mk)**

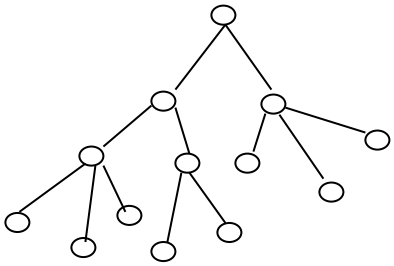

12. In terms of structure and bonding, explain why graphite is used as a lubricant.

(2mks)

13. The following diagram, show the structure of two allotropes of carbon. Study them and answer the questions that follow.

Allotrope M

Allotrope N

a) Name the allotropes. **(2mks)**

M - ……..

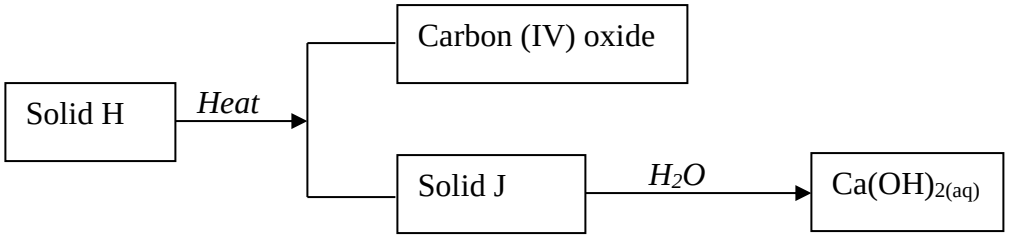

N - ……..

b) Give one use N. **(1mk)**

……

……

14. Use the scheme below to answer the questions that follow.

a) Identify the solids J and H. **(2mks)**

……

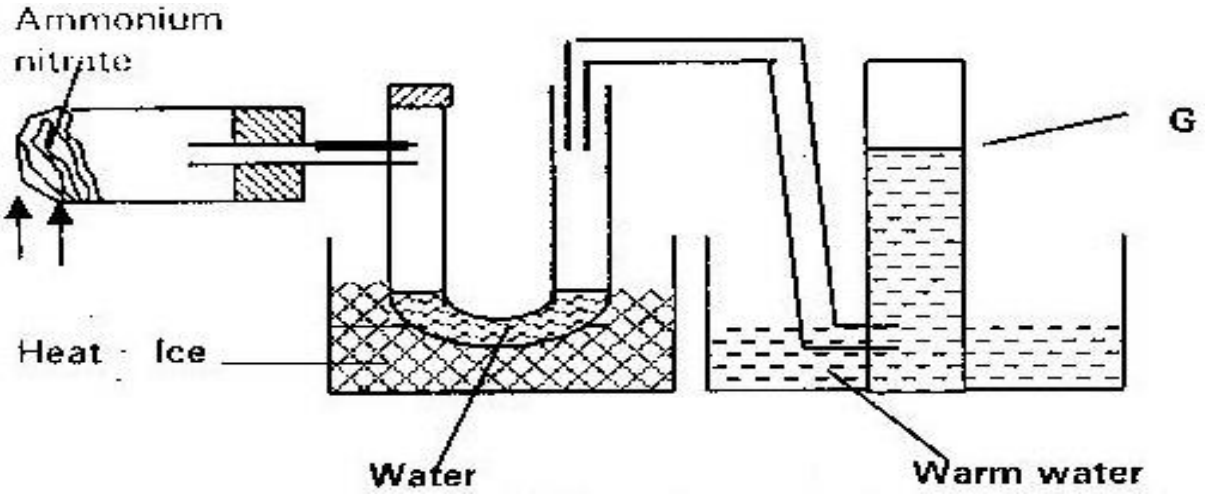

……

b) State one commercial use of solid H. **(1mk)**

……

……

15. Ammonium nitrate was gently heated and the products collected as shown in the diagram below.

Describe one chemical test and physical properties that can be used to identify gas G. **(3mks)**

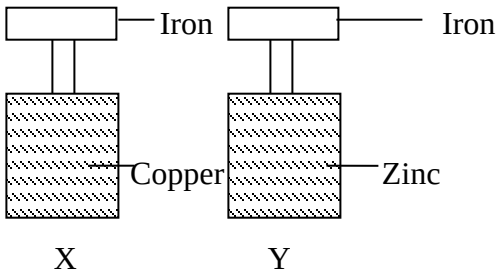

……

……

……

……

16. Form three student in an attempt to prevent rusting, put copper and zinc in contact with iron as shown below.

State what would happen in the set up X and Y. **(2mks)**

……

……

……

17. Explain how you would separate a mixture of ammonium chloride and sodium chloride into its pure components. **(2mks)**

……

……

……

18. Calculate the mass of lead (II) nitrate that must be heated to give 22.^{3}g of lead (II) oxide. (pb = 207, N=14, O=16) **(3mks)**

……

……

……

19. 0.84g of aluminium reacted completely with chlorine gas. Calculate the volume of gas used. (Molar gas volume is 24dm^3, Al=27) **(3mks)**

……

……

……

……

20. State Gay Lussac's Law. **(1mk)**

……

……

21. In an experiment 20cm^3 of sulphur (IV) oxide are found to react completely with 10cm^3 of oxygen to produce 20cm^3 of sulphur (VI) oxide. Determine the equation for thereaction.**(3mks)**

22. Define absolute temperature. **(1mk)**

……

……

23. At 27^{o}C and 740mmHg pressure, a sample of nitrogen gas occupies 30cm^{3}, what will be its volume at standard temperature and pressure (s.t.p) **(3mks)**

……

……

……

……

24. Complete the following equation and balance. **(3mks)**

$NH_4NO_2 \xrightarrow{\text{Heat}}$

$KNO_3 \xrightarrow{\text{Heat}}$

$Pb(NO_3) \longrightarrow$

25. The molecular formula of gas R is 28 and its empirical formula is CH_2. (C=12, H=1)
Determine the molecular formula of gas R. **(2mks)**

26. (a) Define the terms:

i) Electrolyte - **(1mk)**

……

……

ii) Electrolysis - **(1mk)**

……

……

(b) Explain the difference in conductivity between magnesium and molten magnesium chloride.

(1mk)

……

……

27. $30cm^3$ of hydrogen gas were reacted with $40cm^3$ of oxygen according to the equation.

$2H_{2(g)} + O_{2(g)} \longrightarrow 2H_2O_{(g)}$

Identify the gas that was in excess and by how much volume? **(2mks)**

……

……

……

NAME……. ADM NO; …….

CLASS…… DATE…….

INSTRUCTIONS.

Answer all the questions in the spaces provided.

1. The grid below shows part of the periodic table. The letters do not represent the actual symbols. Use it to answer the questions that follow.

								T
	K					**U**		
X	**Y**		**M**			**Q**	**W**	
J								**Z**

a. How is the atomic radius of element X and Y compared? **(2mks)**

……

……

……

b. Using crosses (x) to represent electrons, draw the atomic structure of element Q. **(1mk)**

c. State the period and the group to which element Q belong. **(2mks)**

.....

d. The ionic configuration of element G is 2.8 G forms an ion of the type G^{-1}. Indicate in the grid the position of element G. **(1mk)**

ii. To which chemical family does element G belong? **(1mk)**

.....

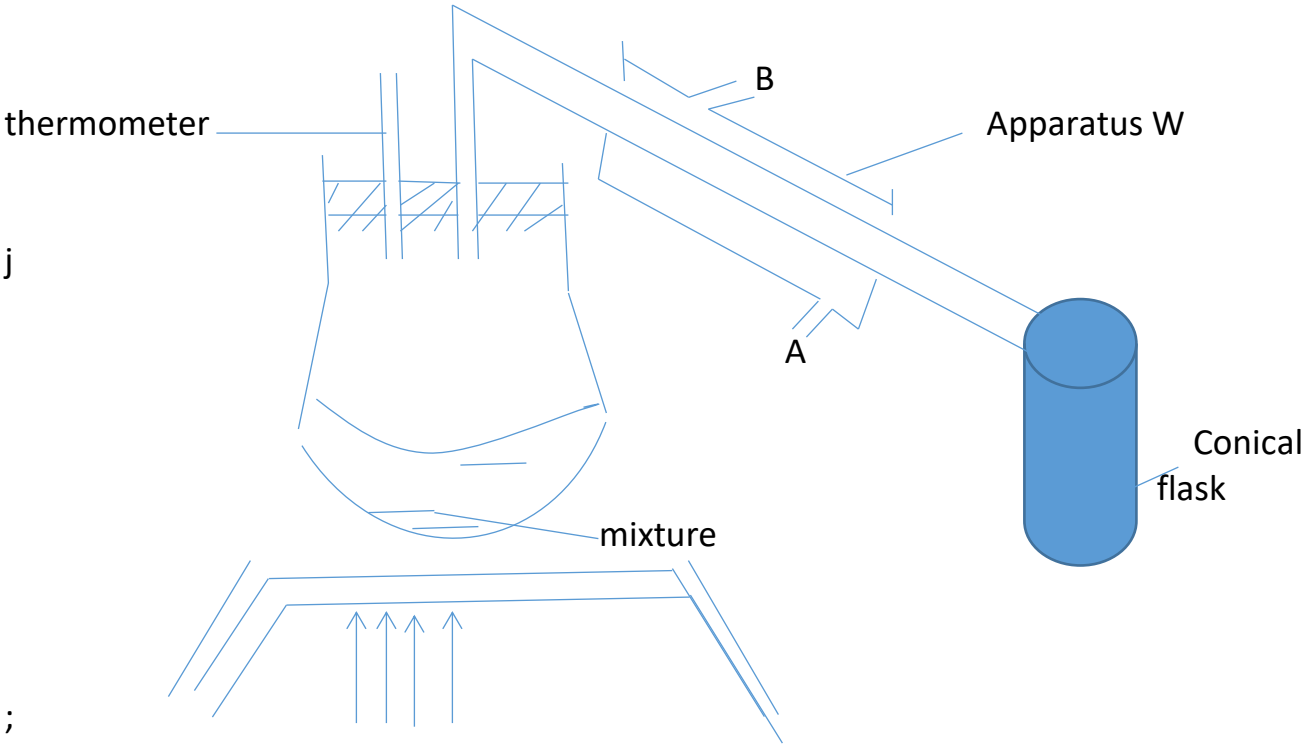

iii. State one use of element U. **(1mk)**

.....

iv. Write the equation that would take place when Y is heated with air. **(2mks)**

.....

2. A student left some crushed fruit mixture which fermented to form water and ethanol with boiling point of $100^{O}C$ and $78^{O}C$ respectively. The set up of the apparatus below were used to separate the mixture.

;

a. Name the apparatus labeled W. **(1mk)**

i. What is the purpose of the thermometer in the set-up? **(1mk)**

ii. At what end of the apparatus W would tap water connected? **(1mk)**

iii. Which liquid was collected first as a distillable? Explain **(2mks)**

……

b. i. What is the name given to above method of separating **mixture?** **(1mk)**

……

ii. State two application of the above method of separating mixtures. **(2mks)**

……

……

iv. What properties of the mixture make it possible to be separated by the above method? **(1mk)**

……

……

3. a. State one use of graphite. **(1mk)**

……

……

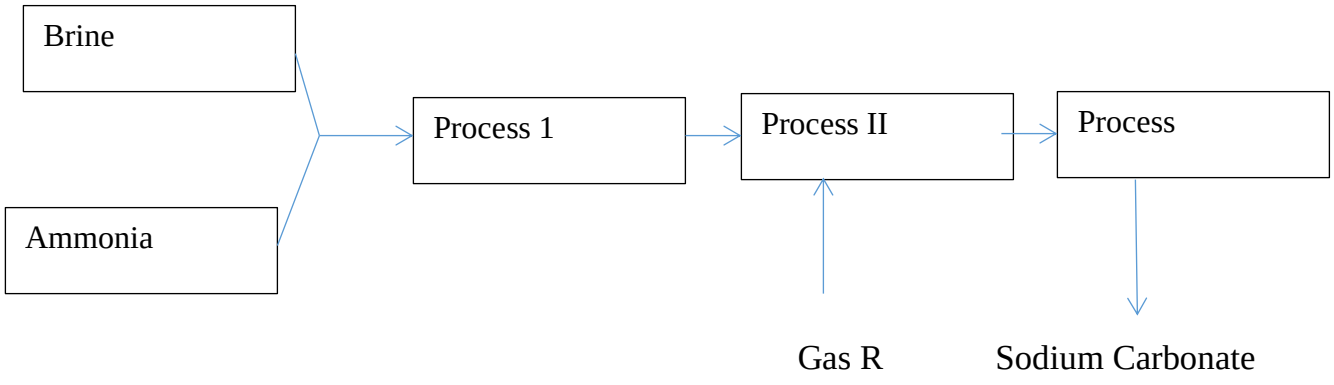

ii. Both graphite and diamond are allotrope of element carbon. Graphite conduct electricity whereas diamond does not. Explain. **(2mks)**

……

……

……

b. Below is a simplified scheme of solvery process. Study it and answer the questions that follow.

i. Identify gas R. **(1mk)**

ii. Write an equation for the process III. **(1mk)**

iii. Name the process II. **(1mk)**

c. Give two uses of sodium carbonate. **(2mks)**

……

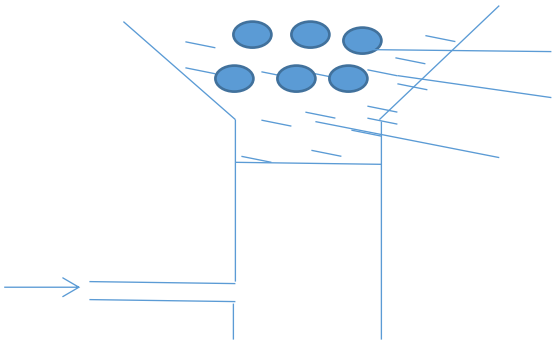

……

d. The diagram below shows a charcoal stove with different region.

C

B

A

i. Write an equation for the formation of product B. **(1mk)**

ii. How would one prevent the production of product at B? **(2mks)**

……

……

4. An unknown mass X, of an hydrous potassium carbonate was dissolve in water and the solution made up to 200cm^3. 25cm^3 of this solution required 18cm^3 of 0.22M nitric acid for complete neutralization. (K=39,C=12,O=16)

i. Write an equation for the reaction that took place **(2mks)**

……

……

ii. Calculate the number of moles of nitric (V) acid that reacted with anhydrous potassium carbonate. **(2mks)**

……

……

……

iii. Calculate the number of moles of anhydrous potassium carbonate that was neutralized by acid. **(2mks)**

……

……

……

iv. Determine the value of X. **(2mks)**

……

……

……

5 a. Describe the process by which oxygen can be obtain from air. **(4mks)**

……

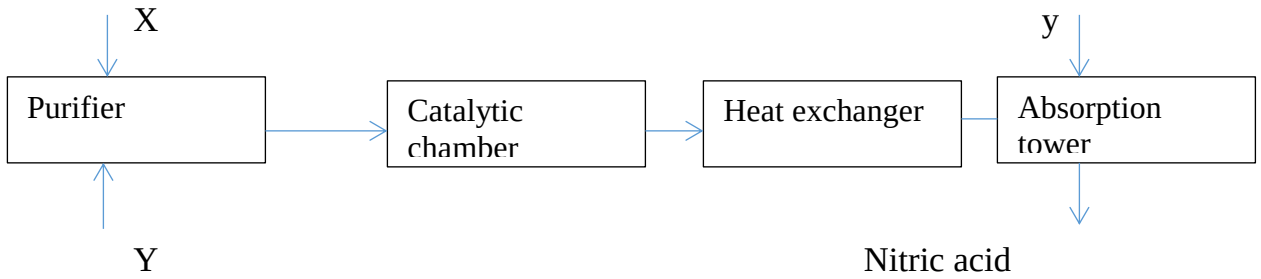

……

……

……

……

a. The flow chart below shows industrial manufacture of nitric (V) acid.

i. Identify substance X and Y. **(2mks)**

……

……

ii. Write an equation for the reaction taking place in the absorption tower. **(2mks)**

……

……

b. The concentration of acid obtain is 60%. How can this concentration be increased to about 65%. **(1mk)**

……

……

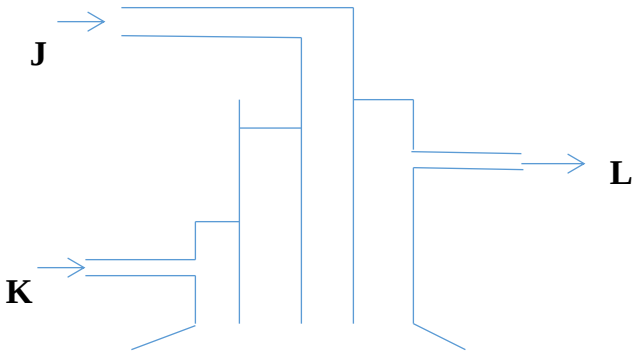

ii. A factory uses nitric (V) acid and ammonia as the only reaction for the production of a fertilizer. If a mass of 9600kg of fertilizer was produced. Calculate the mass of ammonia gas needed. **(N=14, H=1, O=16)** **(3mks)**

……

……

……

5. Sulphur is extracted from underground deposits by process in which three concentric pipes are sink down to the deposit as shown.

i. Name the process represented above. **(1mk)**

……

ii. What is passed down through pipe J? **(1mk)**

……

……

iii. Name two allotropes of sulphur. **(2mks)**

……

……

b. Commercial sulphuric acid has a density of $1.8gcm^{-3}$.

i. Determine the molarity of the acid. **(3mks)**

……

……

……

ii. Determine the volume of commercial acid in a above that can be used to prepare $500cm^3$ of $0.2M H_2SO_4$ solution. **(3mks)**

……

……

……

iii. Oleum is an intermediate product in the industrial manufacture of sulphuric acid. How is oleum (H2S2O7) converted into sulphuric acid. **(1mk)**

……

……

iv. Give two use of sulphuric (VI) acid. **(2mks)**

……

……

6. Two reagent that can be used to prepare chlorine gas are manganese(IV) oxide and conc. Hydrochloric acid.

a. Write an equation for the reaction. **(2mks)**

……

ii. Give the formula of another reagent that can be reacted with conc. Hydrochloric acid to produce chlorine gas. **(1mk)**

……

……

iii. Describe how chlorine gas could be dried and collected in the laboratory. **(2mks)**

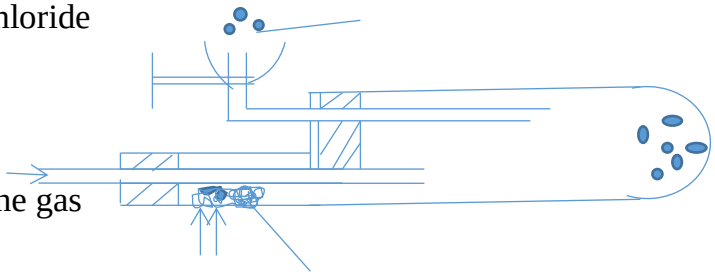

……

……

……

b. In an experiment, dry chlorine gas was reacted with aluminium as shown in the diagram below.

Calcium chloride

Dry chlorine gas A

Aluminium

i. Name substance A **(1mk)**

ii. Write an equation for the reaction that took place in the combustion tube. **(2mks)**

iii. State the function of calcium chloride. **(1mk)**

c. Give the properties of substance A. **(1mk)**

……

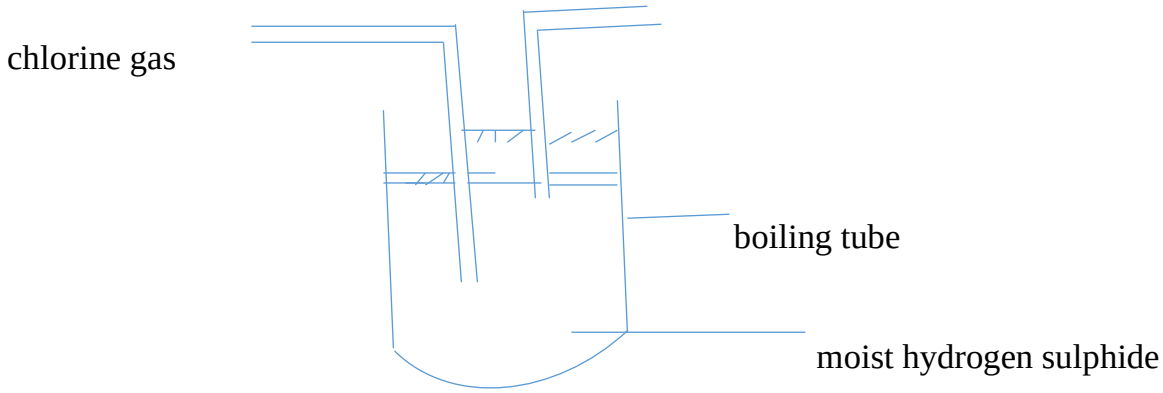

ii. Name other three substances that behavior as A. **(3mks)**

……

……

……

7. In an experiment, chlorine was passed into moist hydrogen sulphide in a boiling tube as shown below.

i. What observation was made in the boiling tube? **(1mk)**

……

……

ii. Write an equation for the reaction that took place in the boiling tube. **(2mks)**

……

……

CHEMISTRY

PAPER 3

TIME: 2 HOURS

NAME……. ADM NO; …….

CLASS…… DATE…….

Answer all the questions in the spaces provided.

1. PROCEDURE.

- Pipette 25cm^3 of solution C into a 250ml flask.
- Add 2-3 drops of phenolphthalein indicator.
- Fill the burette with solution B 0.5MHcl then titrate.
- Repeat this procedure two more times.
- Record your result in the table.

Titration	***I***	***II***	***III***
Final burette reading			
Initial burette reading			
Volume of solution B used			

Calculate:

i. The average volume of solution B used. **(2mks)**

……

……

……

ii. Calculate the number of moles of sodium hydroxide solution C pipetted. **(3mks)**

……

……

……

iii. Calculate the number of moles of hydrochloric acid solution B that reacted with sodium hydroxide in (II) above. **(3mks)**

……

……

……

iv. Calculate the molarity of hydrochloric acid solution B. **(3mks)**

……

……

……

2. You are provided with solid T. Carry out the experiment in the table and record the results in the spaces provided.

i. Put all of T in boiling tube. Add 20cm^3 of distilled water and stir gently, filter the product and divide the filtrate into three portion. Retain the residue.

Observation (1mk)	**Inference (1mk)**

ii. To the first portion add a few drops of 2M NaOH solution and then in excess.

Observation (2mks)	***Inferences (2mks)***

iii. To the second portion add few drops of 2M ammonia solution and then in excess.

Observations (2mks)	**Inferences (2mks)**

iv. To the third portion add a few drops of barium chloride solution followed by dilute hydrochloric acid.

Observations (2mks)	**Inferences (1mk)**

3. Add $2cm^3$ of dilute hydrochloric acid to the residue. Ensure some residue remains undissolved. Decant to get a solution. Divide the solution into two portion. Carry out the following experiments.

i. To the first portion add a few drops of sodium hydroxide solution and then in excess.

Observation (2mks)	**Inferences (1mk)**

ii. To the second portion add a few drops of ammonia solution and then in excess.

Observation (2mk)	**Inferences (1mk)**

Divide the residue into two portions. Carry out the following experiment.

i. To the first portion add a few drops of dilute nitric (IV) acid.

Observation (1mk)	**Inferences (2mks)**

ii. To the second portion, add acidified potassium dichromate (IV).

Observation (1mk)	**Inference (1mk)**

FORM 3 MIDTERM 1 EXAMS

SERIES 1

PHYSICS

PAPER 1

TIME: 2 HOURS

NAME…… ADM NO; …….

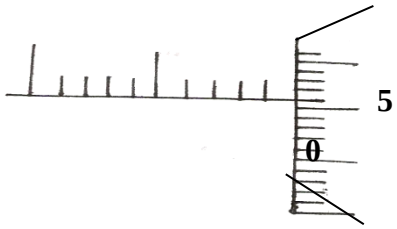

CLASS…… DATE…….

Answer all questions in section A and B.

(take acceleration due to gravity g=10m/s^2)

SECTION A: 25 MARKS

1. The micrometrer screw gauge shown in figure below was found to have an error of + 0.04

(i) Give the correct reading of the micrometer **(1mk)**

2. State an advantage of using mercury than alcohol as a thermometric liquid **1mk**

……

……

3. State the principle involved when determining of the centre of gravity of regular lamina using a plumb **line** **(1mk)**

……

……

4. A uniform metre rule of mass 200g is pivoted at the)cm mark, calculate the force which would be applied vertically upward at the 65cm mark to keep the rule horizontal**.** **(3mks)**

……

……

……

5. Distinguish between the terms gravitational potential energy and elastic potential energy. **(2mks)**

……

……

……

6. Describe a simple experiment to demostrate that the pressure in liquid increase with depth. **(3mks)**

……

……

……

……

7. An arrow of mass 100g is shot into a block of wood of mass 400g lying at rest on the smooth surface of an ice rink. If at the moment of impact the arrow is traveling horizontally at 15m/s. calculate the common velocity after the impact. **(3mks)**

……

……

……

……

8. State **two** evidences that matter is made up of small particles **(2mks)**

……

……

9. Distinguish between conduction and convection **(1mk)**

……

……

……

10. A pump forces 12kg of water through a hose every minute. If the water is being raised vertically through 20m and ejected at the nozzle at 10m/s, calculate the power of the pump. **(3mks)**

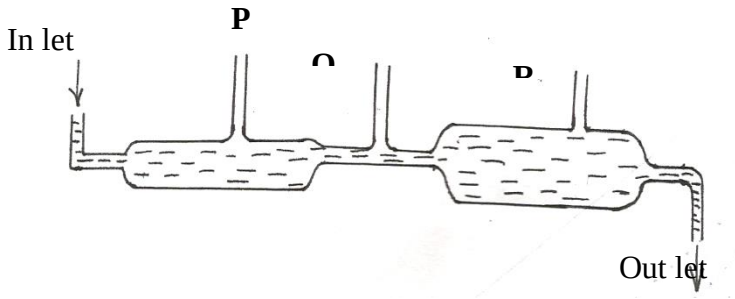

……

……

……

……

11. Determine the manometer which will have the lowest level between **P,Q** and **R** in the figure below. Explain your answer. [assume the water is flowing continuously from the tap to the tap to the outlet. **(2mks)**

12. A block of metal A having a mass 40kg requires a horizontal force of 100N to drag it with uniform velocity along a horizontal surface. Calculate the co-efficient of friction **(3mks)**

……

……

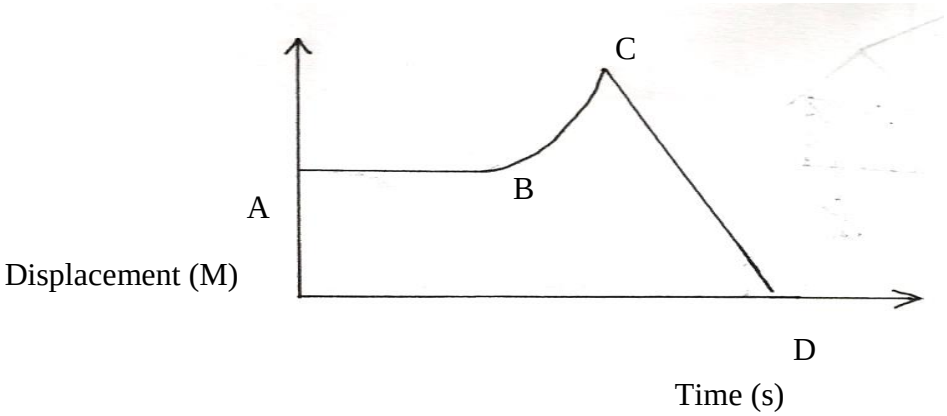

……

……

……

SECTION B (55 MARKS)

13. a) The figure below shows the displacement – time graph of the motion of particle.

(a) State the nature of the motion of the particle between

(i) A and B **(1mk)**

(ii) B and **C** **(1mk)**

(iii) C and D **(1mk)**

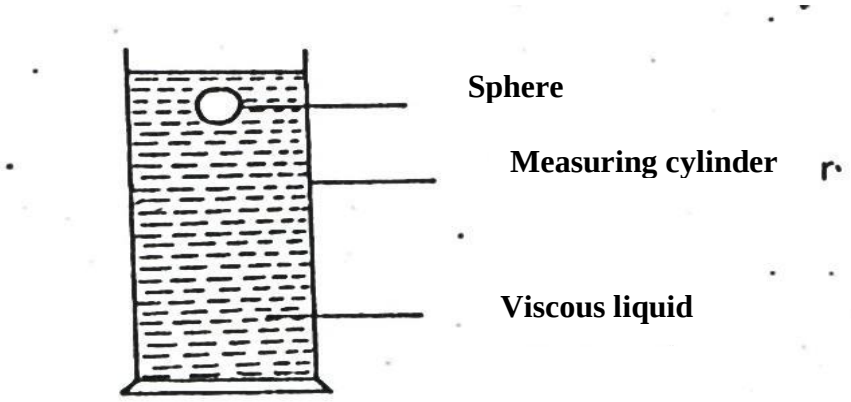

(b) A ball is thrown horizontally from top of a vertical tower and strikes the ground at a point 50m from the bottom of the tower. Given that the height of the tower is 45m, determine the

(i) Time taken by the ball to hit the ground. **(2mks)**

(ii) Initial horizontal velocity of the ball **(2mks)**

(iii) Vertical velocity of the ball just before striking the ground. **(2mks)**

c) The diagram in below shows a sphere moving in a viscous liquid in a tall measuring cylinder. Show on the diagram the forces acting on the sphere. **(3 marks)**

14. In an experiment to estimate the size of oil molecule an oil drop of diameter 0.05cm spreads over water to form a circular patch whose diameter is 15cm.

a) Determine in SI units:

i) Volume of the drop. **(2 marks)**

ii) Area of the patch. **(2 marks)**

iii) Size of the oil molecule. **(3 marks)**

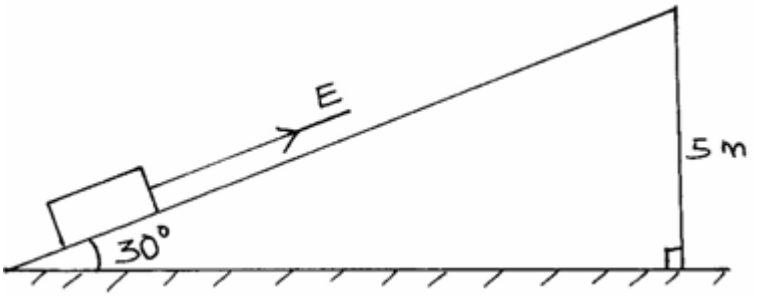

c) State **two** assumptions made in b)(iii) above. **(2 marks)**

……

……

15. (a) Define the term velocity ratio of a machine. **(1 mark)**

(b) A man pushes an 80kg mass load on an inclined plane and raises the load through a vertical height of 5m as shown in the diagram below. The inclined plane is 30° to the horizontal. (Take g to be 10N/kg).

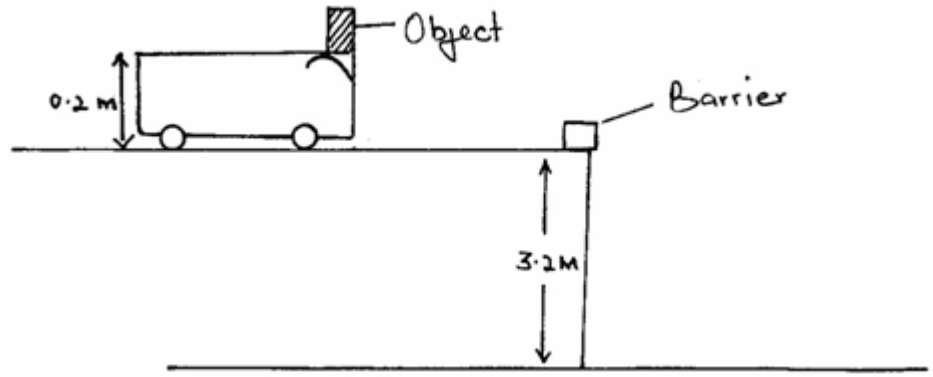

(i) Determine the velocity ratio of the inclined plane. **(2 marks)**

ii. If the efficiency of the inclined plane is 75% determined.

I) the mechanical advantage. **(2 marks)**

II) the effort E, needed to pull the load up the plane. **(2 marks)**

b) A trolley of height 0.2m moving on a horizontal bench of height 3.2m strikes a barrier at the edge of the bench. The object on top of the trolley flies off on impact and lands on the ground 2.5m from the edge of the bench as shown in the figure below.Use this information to answer the questions that follow.

(i) Give a reason why the object on the trolley flies off on impact. **(1 mark)**

(ii) Determine the time taken by the object to reach the ground. **(2 marks)**

16. a) A boy throws a tennis ball vertically upwards from a truck moving at a constant velocity. Give the reason why the ball lands back exactly the same point where it was projected. (1 mark)

……

……

b) Define momentum and state its SI unit **(2mark)**

……

……

c) A trailer of mass 30 tonnes travelling at a velocity of 72km/h runs onto a stationary bus of mass 10 tonnes. The impact takes 0.5seconds before the two vehicles move off together at a constant velocity for 15 seconds. Determine,

i) The common velocity. **(3 marks)**

ii) The distance moved after the impact. **(2 marks)**

iii) The impulsive force on the trailer on impact. **(3 marks)**

……

……

……

……

d) Give a reason why when a passenger jumps from a floating boat, the boat moves backwards. **(1 mark)**

……

……

e) Give the reason why a safety seat belt used in a vehicle:

i) Should have a wide surface area. **(1 mark)**

ii) Should be slightly extensible. **(1 mark)**

……

……

……

17. (a) State Hooke's Law. **(1mk)**

……

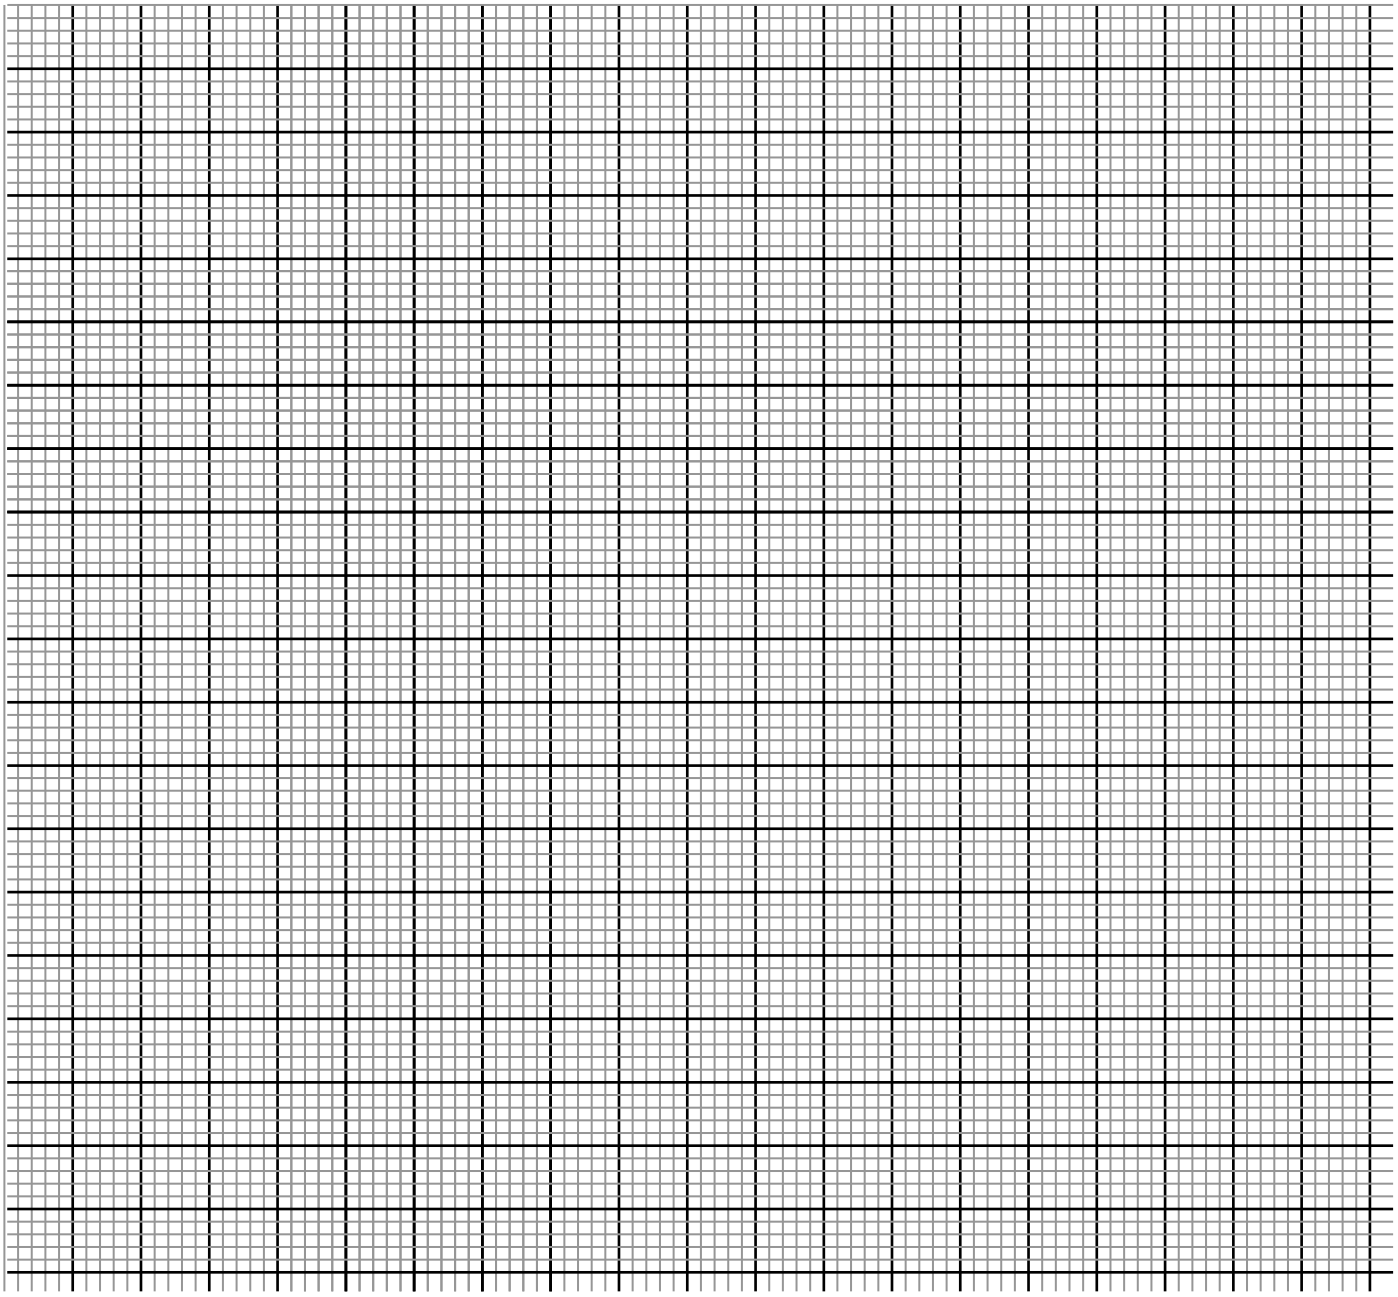

……

(b) The following results were obtained in a experiment to verify Hooke's law when a spring was extended by hanging various loads on it.

(I) Complete the table for the extension e above. (1mk)

Load (N)	0.00	1.00	2.00	3.00	4.00	5.00	6.00
Length of spring in cm	10.00	11.50	13.00	14.50	16.00	18.00	24.00
Extension							

(II) Plot a graph of load (y-axis) against extension (3mks)

(III) From the graph determine the springs constant. **(2mks)**

……

……

(IV) Calculate the energy stored when the spring is stretched to 16 cm**.** **(3mks)**

……

……

FORM 3 MIDTERM 1 EXAMS

PHYSICS

PAPER 2

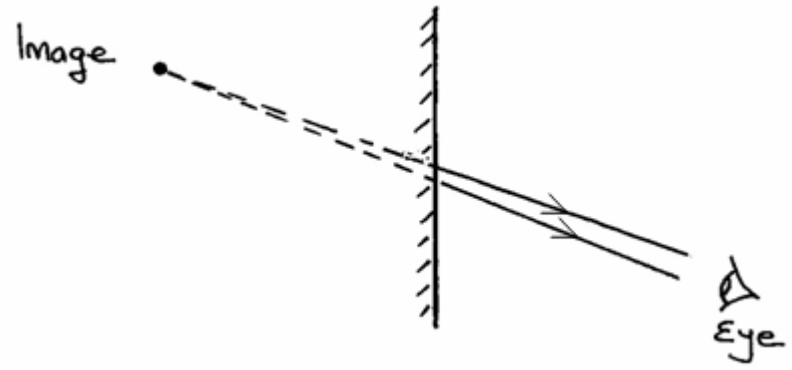

TIME: 2 HOURS

NAME…… ADM NO; …….

CLASS…… DATE…….

SECTION A: (25 MARKS)

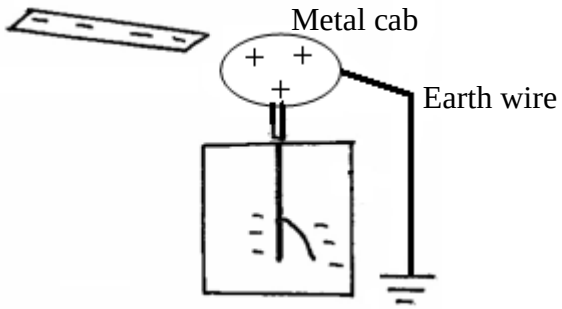

1. (a) Figure 1 shows an image formed in a plane mirror.

By drawing incident rays for the rays shown, locate the position of the object.(2 marks)

(b) Explain how an enlarged hole in a pin hole camera produces a blurred image. (1 mark)

2. The figure 2 below shows an electroscope being charged by induction.

(i) State the reason why the cap of the electroscope is made circular.(1 mark)

(ii) On the same diagram, show the direction of the flow of electrons on the earth wire. 1mk

3. (a) the figure below shows a current carrying conductor placed perpendicularly between the poles of a magnet. Show on the diagram The direction of net force on the conductor.**(1 mark)**

4. Using domain theory, describe how a nail can be magnetised through hammering. (2 marks)

……

……

……

5. State **two** properties of an image formed by a concave mirror that makes it suitable for use by barbers. **(2 marks)**

……

……

6. State **two** defects of a simple cell and how each can be corrected. **(2 marks)**

……

……

7. An object is placed 20cm in front of a concave mirror of focal length 10cm and another identical object is place 20cm infront of a plane mirror

(i) Give one similarity of the image formed. **(1mk)**

(ii) Give one difference between the image formed. **(1mk)**

8. Figure 1 show a method used to charge conductors. The procedure follows steps a, b and c

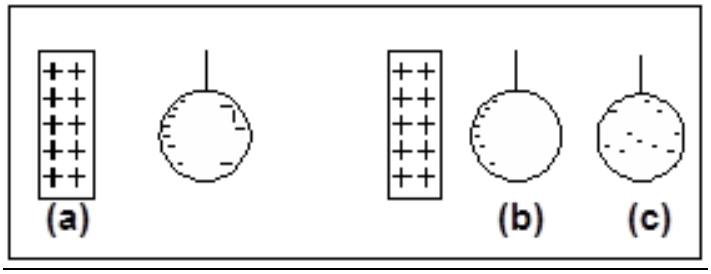

Fig 1

i)State the method of charging above. **(1 mark)**

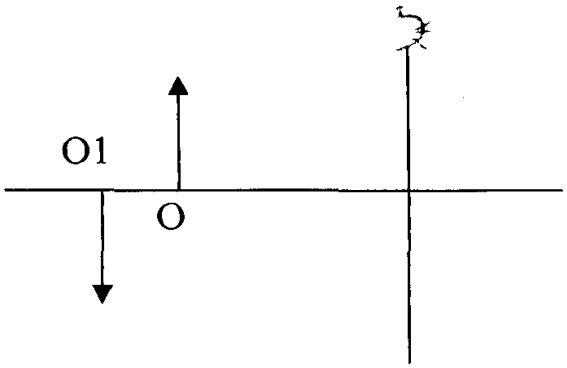

……

ii) Explain what happens in step (b) above. **(1 mark)**

……

……

9. The figure below shows the object O and its image O1 formed by a concave mirror. Locate theposition of the principle focus. **(2marks)**

10. A current of 0.8A flows through an electric circuit. Determine the quantity of charge that passes a point in the circuit in 6 minutes. **(2 marks)**

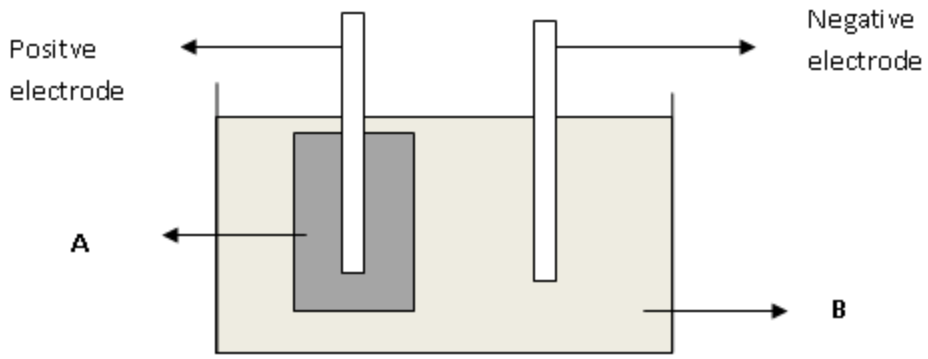

……

……

……

11. A mine worker stands between two vertical cliffs 500m from the nearest cliff. The cliffs are **x**metres apart. Every time he strikes the rocks, he hears the echoes. The first one comes after **2.5.s** while the other comes **3s** later. Calculate the distance between the cliffs. **(3 mks)**

12. Figure below show a Leclanche cell

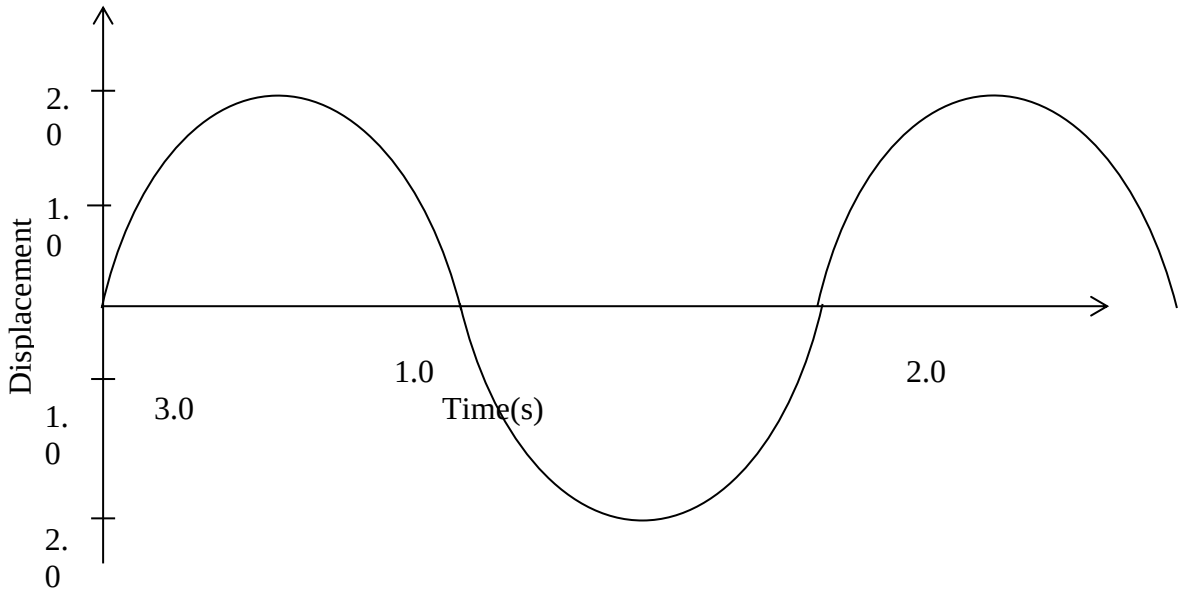

Name the chemical substances in the parts labeled **(2mks)**

A.....

B.....

SECTION B:55 MARKS

13. The figure **below** represents an oscillation taking place at a particular point when a sound wave in a gas passes the point. The vertical axis represents displacement.

(i)Explain what is meant by displacement in this context. **(1 mark)**

……

……

(ii) From the graph, determine.

(i) Amplitude **(1mk)**

(ii) Period **(1mk)**

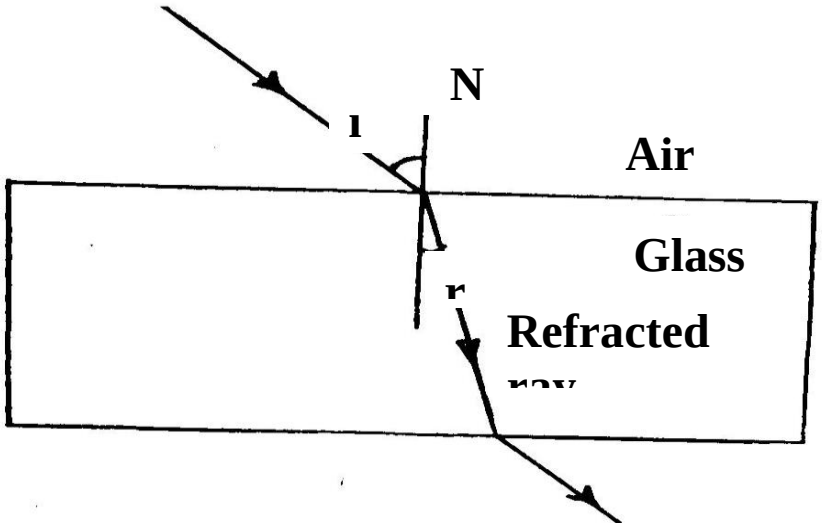

(iii) Frequency **(2mks)**

(iii) Calculate the wavelength of the sound wave in the figure above. (Speed of sound in gas is 340m/s). **(3 marks)**

(iii) State **two** factors that increases the speed of sound in solids.(**2 marks)**

(iv) Distinguish between transverse and longitudinal waves. **(2mks)**

14. (a) A ray of light makes a glancing angle of incidence i=60^o with a flat glass surface as shown below

Given that the critical angle for glass is 42^o determine;

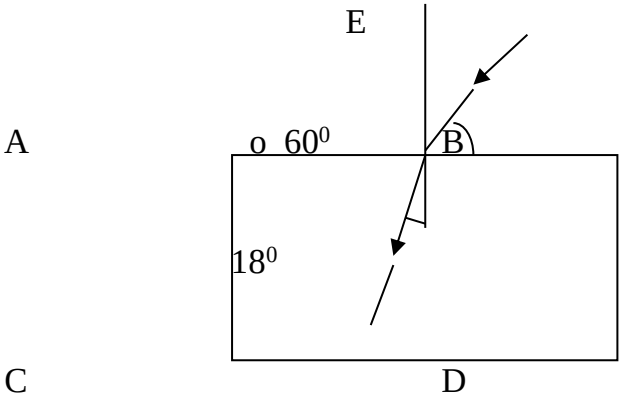

(i) The angle of refraction **r** **(3mks)**

(ii) Given that speed of light in air 3.0×10^8 m/s, find the speed of light in glas**s(2mks)**

(b) A microscope is focused on a mark on a horizontal surface. A rectangular glass block 30mm thick is placed on the mark. The microscope is then adjusted 10mm upwards to bring the mark back to focus. Determine the refractive index of the glass. **(3mks)**

c) State the conditions to be satisfied for total internal reflection to occur**.** **(2mks)**

(d) A ray of light traveling in the direction EO in air enters a rectangular block at an angle of incidence 30^0. The resulting angle of refraction is 18^0.

Find:-

(i) The refractive index of the block. **(2mks)**

(ii) The critical angle C of the block. **(3mks)**

15. (a) Define the term principal focus in relation to convex mirror **(1mk)**

(ii) Distinguish between real and virtual image **(2mks)**

(b) The table below shows the object distance u, and the corresponding image distance V for an object placed infront of a concave mirror

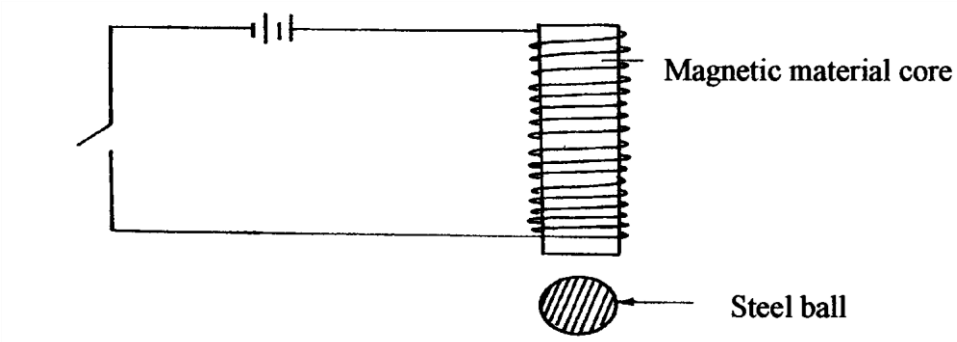

U(cm)	20	25	30	35	40	45
V (cm)	60.0	37.5	30.0	26.3	24.0	22.5
$^{I}/_{U}$ cm^{-1}						
$^{I}/_{V}cm^{-1}$						

(i) Complete the table **(2mks)**

(ii) Plot a graph of $^{I}/_{V}$ against $^{I}/_{U}$ **(5mks)**

(iii) From the graph determine the focal length **(2mks)**

16. a) The set up in figure 4 below can be used in a laboratory for lifting and releasing a steel ball.

i) State the material which is suitable for use in the core. **(1 mark)**

ii) If a slightly larger ball is to be lifted, it is necessary to make an electromagnet stronger. Name **two** ways of increasing the strength of the magnet. **(2 marks)**

b)Figure 4 shows a rectangular coil in a magnetic field rotating in a clockwise direction. The direction of induced current is as shown by the arrows.

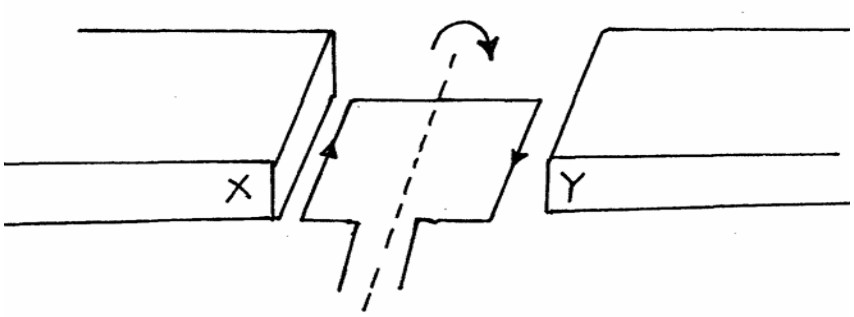

Fig. 4

i) Indicate the poles X and Y of the magnets **(2 mark)**

X _____ Y _____

ii) Suggest <u>one</u> way of increasing the magnitude of the force in such a coil **(1mark)**

c) What is meant by the term 'direction of a magnetic field' **(1mk)**

d) State one property of magnets. **(1mk)**

e)) Repulsion is the surest test for polarity of a magnet. Explain **(1mk)**

f) State the difference between magnetic properties of steel and soft iron **(1mk)**

……

……

g) A steel bar was being magnetized by electrical method. It was noted that the strength of the magnet depended on the amount of current. The current was increased steadily until it was noted that the strength of the magnet could not increase further .Explain the observation **(2mks)**

……

……

……

h) State **two** ways of demagnetizing a magnet **(2mk)**

……

……

……

INSTRUCTIONS TO CANDIDATES

- *Write your name and Index Number in the spaces provided above.*
- *Sign and write date of examination in the spaces provided above.*
- *Answer all questions in the spaces provided*
- *All working must be clearly shown*
- *Non-programmable silent calculator may be used*

FOR EXAMINERS USE ONLY

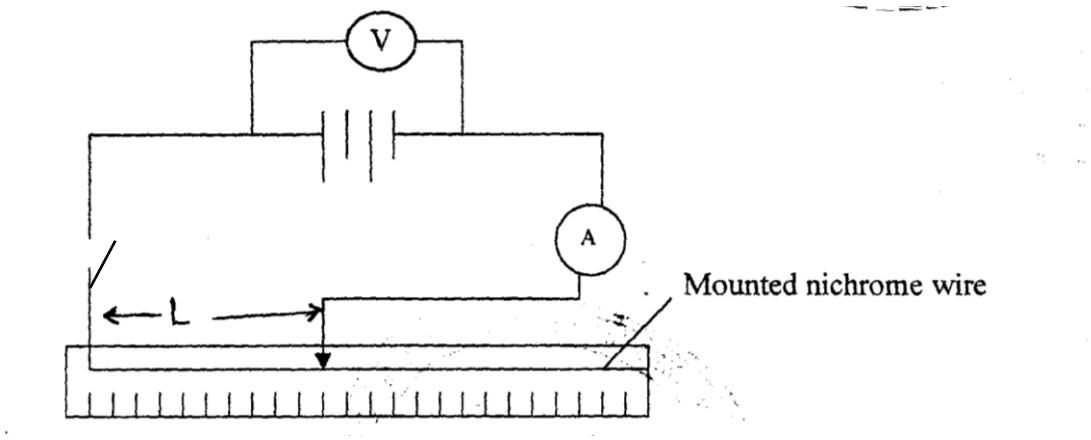

Question	Maximum	Candidates Score
1	20mks	
2	16mks	
ii)	4mks	
Total		

1.You are provided with the following apparatus

- *Two new dry cells and a cell holder*
- *A voltmeter (0-3v) or (0-5v)*
- *A ammeter(0-1A)*
- *5 connecting wires – at least two with crocodile clips*
- *1m length nichrome wire mounted on a mm scale (SWG 32)*
- *A micrometer screw gauge*
- *A switch*

In this experiment you are required to determine the resistivity of the wire

Connect the apparatus as shown in the diagram below

ii) Slide the wire mounted on the meter rule to give a set of readings for values of I and V respectively for length L ranging from 10cm to 70cm .Record the results in the table below (6 marks)

LEGTH L(cm)	LEGTH L(m)	Current I(A)	Voltage (V)	R=V/I
0.1				
0.2				
0.3				
0.4				
0.5				
0.6				
0.7				

iii)from the table what relationship is there between length of the wire and **R.** **(1mk)**

……

……

iv)use the micrometer screw gauge provided to measure the diameter of the wire

d=……mm d = ……m (1 mk)

Hence find the cross sectional area A of the wire mounted on the ruler that you use**d.(2mks)**

……

……

……

v)Using the results from your table to plot a graph of R against L. **(4mks)**

vi)From the graph find the value of I when L=0.2 m and V =1.8V. (**2MKS)**

……

……

……

(VII) Calculate the slope of the graph **(2mks)**

……

……

……

(viii) Hence calculate the resistivity of the wire given that $\mathbf{R=\frac{pL}{A}}$ **(2mks)**

……

……

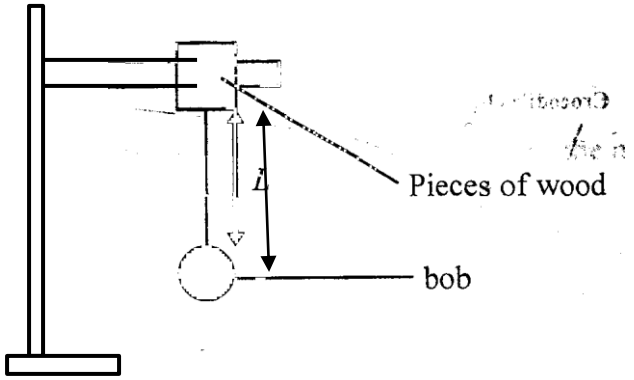

……

QUESTION 2

2. You are provided with the following apparatus
- A pendulum bob
- A cotton thread 1m long
- Two small pieces of wood
- A retort stand and clamp
- A metre rule
- A stop watch
- Some cello tape

Proceed as follows

(a) Clamp the pendulum as shown starting with L= 80cm

You are required to determine the constant 'b' using a simple pendulum

(a) Give the bob a small displacement 0 and record the time't' for 20 oscillations. .Record also the periodic time T, for one complete oscillation

(b) Repeat (b) for values of L as shown in the table. Enter your readings in the table. Work out also T^2 and enter these values in the table.

Length L(cm)	Time for 20 oscillations	Period T	T^2(s^2)
80			
70			
60			
50			
40			
30			
20			

(9 mks)

(c) Plot a graph of T^2 against L. **(5 mks)**

(d) Determine the slope of the graph and state its units. **(3 mks)**

……

……

……

(e) The equation for the graph is given by

$$T^2 = \frac{4\pi^2 L}{b} + C$$

Where b and C are constants. Determine the value of b stating its significance. **(3 mks)**

AGRICULTURE

PAPER 1

TIME: 2 HOURS

NAME…… ADM NO; …….

CLASS…… DATE…….

SECTION A (30 MARKS)

Answer all Questions in this section

1. Give four advantages of practicing crop rotation **(2mks)**

……

……

……

……

2. Name any four records that should be kept by a poultry farmer **(2mks)**

……

……

……

……

3. Give two areas of study that make agriculture to be regarded as a science **(1mk)**

……

……

4. A farmer has the option of growing either wheat or maize in his one hectare of land. Wheat gives a return of sh 20000 while maize gives a return of sh.35000. What will be the opportunity cost? **(1mk)**

5. State any two conditions under which opportunity cost is zero

……

……

6. Give two practices that are commonly used in hardening seedlings in a nursery of kales (**1mk)**

……

……

7. Outline four advantages of tissue culture **(2mks)**

……

……

……

……

8. Name any four farming practices aimed at minimum tillage **(2mks)**

……

……

……

……

9. Outline four factors that determine the depth of planting **(2mks)**

……

……

……

……

10. State three factors that determine the quality of compost manure **(1 ½mks)**

……

……

……

11. Distinguish between under sowing and over sowing as used in pasture establishment **(1mk)**

……

……

12. State two disadvantages of shifting cultivation **(1mk)**

……

……

13. Name any four methods of treating seeds before planting **(2mks)**

……

……

……

……

14. Give four reasons why seeds may be preferred in crop **propagation** **(2mks)**

……

……

……

……

15. Differentiate between soil structure and soil texture **(1mk)**

……

……

……

16. State four reasons why burning of fields is discouraged in crop production **(2mks)**

……

……

……

……

17. Name three diseases that attack cabbage **(1 ½ mks)**

……

……

……

18. State four characteristics that make a crop suitable for green manure **(2mks)**

……

……

……

……

19. State four different types of irrigation that can be used by **farmers** **(2mks)**

……

……

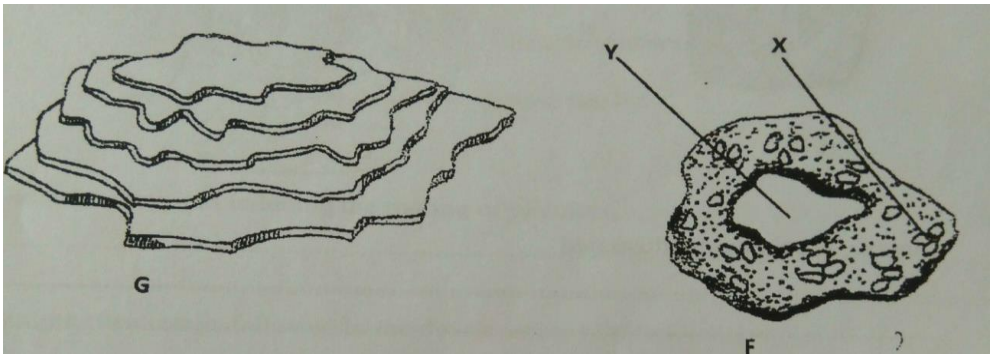

……

……

SECTION B (20 MARKS)

Answer all questions

20. The diagram below illustrates some soil structures. Study it and answer the questions that follow.

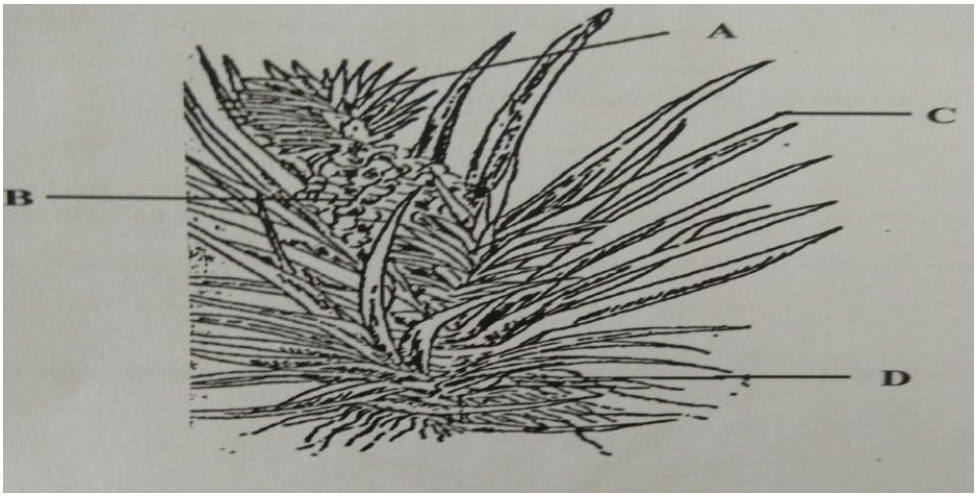

a) Identify the soil structures F and G **(2mks)**

b) Name the parts labeled X and Y in diagram F **(1mk)**

c) Sate two ways through which structure G influences crop production (2mks)

21. The diagram below illustrates a type of fruit. Study nit and answer the questions that follow.

a) Identify the fruit (1mk)

b) Name the parts A-D ((4mks)

……

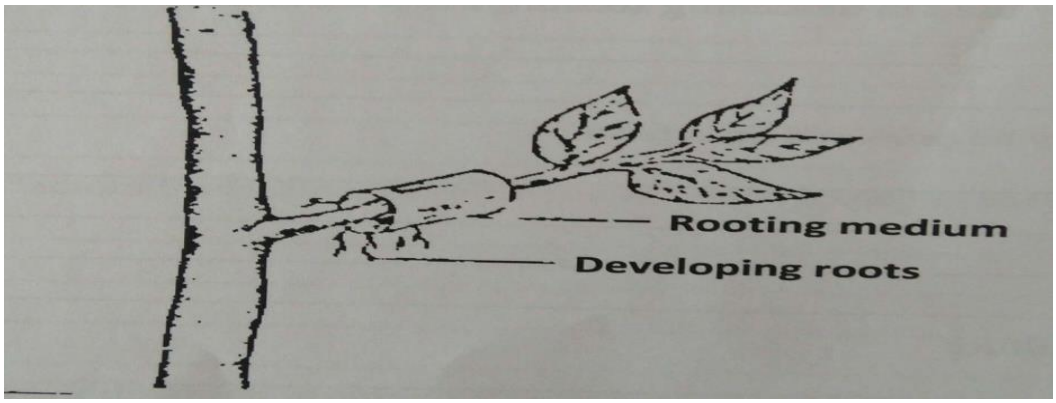

……

……

……

c) Name two crops propagated by the part labeled D (1MK)

22. The diagram below shows a method of layering. Study it and answer questions that follow

a) Identify the method of layering illustrated above **(1mk)**

b) State one circumstance in which this method of layering is recommended **(1mk)**

23. A maize farmer was advised to apply 150 kg CAN per hectare while topdressing the maize crop. CAN contains 21%N. calculate the amount of Nitrogen applied per hectare**. (3mks)**

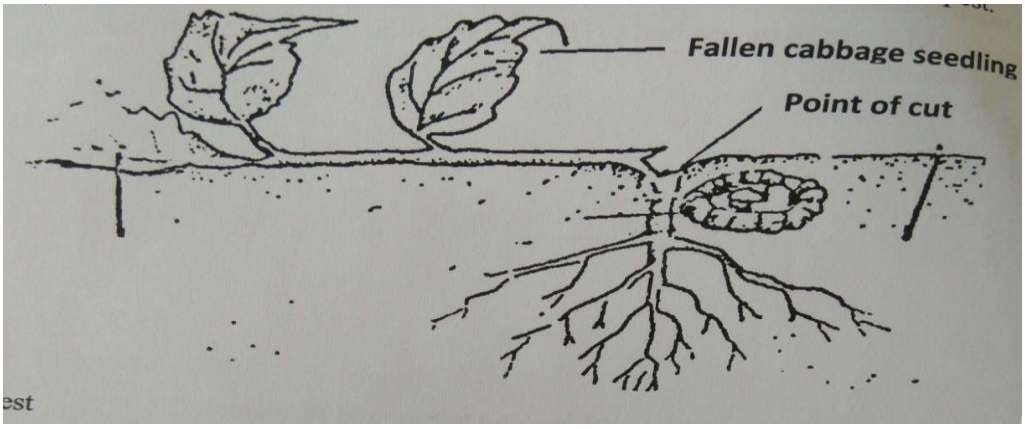

……

……

……

……

24. The diagram below shows a seedling attacked by a certain pest.

a) Identify the pest **(1mk)**

b) Name any two types of vegetable crops likely to be attacked by the pest**s** **(2mks)**

c) State two methods of controlling the above **pest** **(2mks)**

SECTION C (40 marks)

Choose any two questions from this section

25. a)Outline the effects of wind on agricultural products **(11mks)**

……

……

……

……

……

……

……

……

……

……

……

b) Briefly mention the importance of soil organic matte**r** **(9mks)**

……

……

……

……

……

……

……

……

……

26. a) Describe the advantages of using seeds as planting materials **(5mks)**

……

……

……

……

……

c) Give reasons for raising vegetable seedling through a nursery **(5mks)**

……

……

……

……

……

d) Outline the process of chemical water treatment for use in the farm **(10mks)**

……

……

……

……

……

……

……

……

……

……

26. a) Explain five factors that determine spacing to be used in crops **(10mks)**

……

……

……

……

……

……

……

……

……

……

b) Describe six management practices carried out on a nursery **bed** **(6mks)**

……

……

……

……

……

……

c) Explain four advantages of grafting **(4mks)**

……

……

……

……

……

……

……

CLASS…… DATE…….

SECTION A (30 marks)

Answer all questions from this section

1) State any four signs of parturition shown by a **cow** **(2mks)**

……

……

……

……

2) State the uses of the following tools and equipments **(4mks).**

(a) Secateurs

(b)Sickle

(c)Bolus gun

(d)Strip cup

3) State four maintenance practices carried out on a wheelbarrow **(2mks).**

……

……

……

……

4) Name the breed of rabbit which is white with one or more of the ears, paws or tail being black **(1mk).**

5) State four conditions considered in citing an apiar**y** **(2mks)**

……

……

……

……

6) State four properties of a good **vaccine** **(2mks)**

……

……

……

……

7) State any four disadvantages of natural mating in livestock production **(2mks)**

……

……

……

……

8) Outline four roles played by proteins in livestock **nutrition** **(2mks)**

……

……

……

……

9) State any four benefits of steaming up in livestock **(2mks)**

……

……

……

……

10) Name four reasons for castrating male calves **(2mks)**

……

……

……

……

11) Name any four dairy breeds of goats **(2mks)**

……

……

……

……

12) List any four farm structures that are necessary for handling dairy animals **(2mks)**

……

……

……

……

13) Give four reasons why young rams should be docked **(2mks)**

……

……

……

……

14) State two roles of a drone be**e** **(1mk)**

……

……

15) Give two advantages of using wood in construction of farm buildings **(2mks)**

……

……

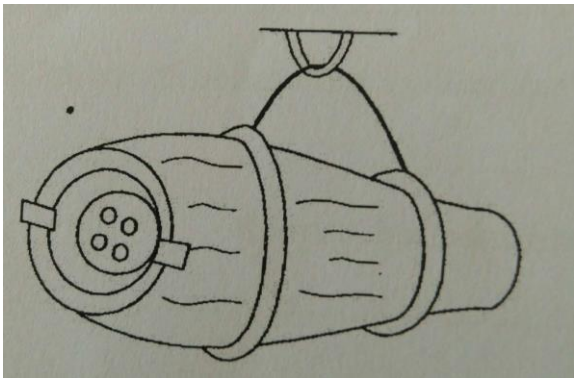

……

……

SECTION B (20 MARKS)

Answer all questions from this section

16. Below is a diagram illustrating a type of a hive

a) Identify the type of hive illustrated above(1mk)

……

……

b) Why is it necessary to keep it in a slanting position (1mk?)

c) State one disadvantage of the hive above (1mk)

d) Name any other two types of bee hives (1mk)

d) List down four factors causing the swarming of bees (2mks)

……

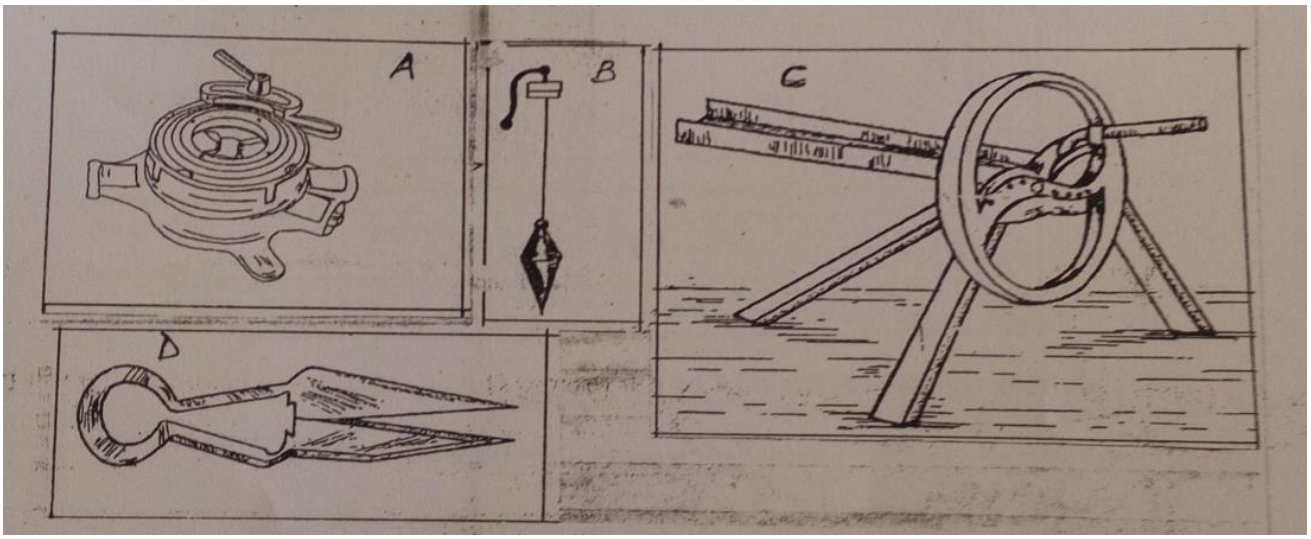

……

……

……

e) Name one type of disease affecting bees (2mks)

17. The diagrams below represent some farm tools and equipment

a) Identify the tools (2mks)

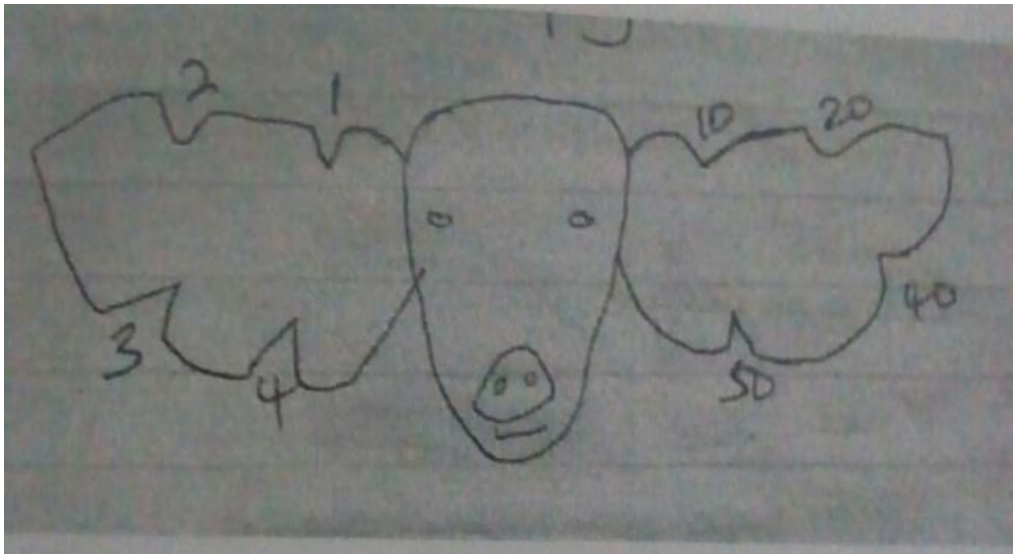

b) State the use of each of the tools labeled C and D (2mks)

c) State one maintenance practice carried out on tool D (1MK)

18. A ration containing 20% DCP is to be prepared the available maize contains 7% DCP and fish meal 62% DCP. Calculate using Pearson square method, the amount in kgs required to prepare 100 kg of the feed **(5mks)**

a) Apart from Pearson square method, name any other method that can be used to prepare rations **(1mk)**

19. The diagram below shows a certain practice carried on pigs.

a) Identify the practice (1mk)

b) Name the tool used to carry out the practice above (1mk)

c) State any other two methods of identifying piglets (1mk)

SECTION C (40marks)

Answer any two questions from this section

20a) Describe six signs of furrowing in a sow **(6mks)**

c) Explain six benefits of the Kenya Top bar hiv**e** **(6mks)**

d) describe 8 factors considered when citing farm structures **(8mks)**

21. a) Describe five reasons for maintaining farm tools and equipments **(5mks)**

b) State five differences between ruminants and non-ruminant**s** **(5mks)**

b) Describe the various methods of treating timber for construction **(10mks)**

22. a) Discuss five human factors influencing agriculture **(10mks)**

b) Explain any five post harvest practices on cereal crops **(10mks)**

BUSINESS STUDIES

PAPER 1

TIME: 2 HOURS

NAME…… ADM NO; ……

CLASS…… DATE……

Answer All The Questions

1. Name the discipline described below that is part of the subject Business Studies **(4mks)**

……

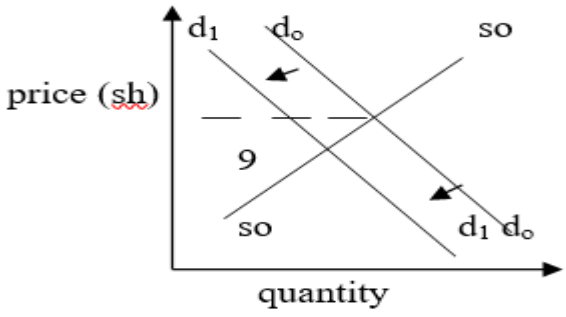

……

……

……

2. The diagram below shows a shift of the demand give of a commodity from dodo to d1d1.

Outline any four factors that could have led to the shift **(4mks)**

……

……

……

……

3. Highlight four factors that may make communication in an organization to be ineffective **(4mks)**

……

……

……

……

4. Give four circumstances under which a cooperative society may be dissolved **(4mks)**

……

……

……

……

5. Outline any four characteristics of an imperfect competition market **(4mks)**

……

……

……

……

6. Write down the meaning of the following terms as used in **business** **(4mks)**

……

……

……

……

7. Give four benefits of electronic filing in an office **(4mks)**

……

……

……

……

8. Give four reasons why business firms advertise their products **(4mks)**

……

……

……

……

9. Mr Kigen is the managing director of Mbau furniture ltd, which has a large, well equipped workshop with expensive machines. The company handles large sums of money. Outline four insurance policies that the company may have. **(4mks)**

……

……

……

……

10. Outline four benefits to a firm that uses modern technology in its production activities **(4mks)**

……

……

……

……

11. Highlight four benefits to a retailer who uses a public warehouse to store goods **(4mks)**

……

……

……

……

12. A business wishes to communicate the arrival of much waited stock of goods to its customers. Give four reasons why it might describe to write a short text message(sms) to the customers instead of a business letter. **(4mks)**

……

……

……

……

13. Outline any four advantages of using intermediaries in the chain of distribution **(4mks)**

……

……

……

……

14. List down four assumptions of the circular flow of income in a two sector economy **(4mks)**

……

Instructions

Answer all questions in Section A

Answer Question 6 and any other Two questions in section B

1. (i) Name two theories of the origin of the earth **(2mks)**

(ii)Name four layers of the earths atmosphere **(4mks)**

2. (i) What is weather forecasting **(2mks)**

ii) Give three elements of weather **(3mks)**

3. State four uses of savanna vegetation **(4mks)**

4. (i) Name three components of soil **(3mks)**

(ii) State three characteristics of desert **soils** **(3mks)**

5. Outline four characteristics of a river in its youthful stage **(4mks)**

6. a) Study the map of Kijabe 1:50,000(sheet 134/3) provided and answer the following questions.

i) Give two types of scales used in the map extract **(2mks)**

ii) Give the map **title** **(1mk)**

iii) Measure dry weather road (D38) from grid square 3800 to the eastern edge of map extract. Give your answer in kilometres **(2mks)**

b) (i) What is the bearing of Air photo principal point in grid square 9025 from the cattle dip in grid square 2692. **(2mks**

(ii) Identify two human features I grid square 3890 **(2mks)**

c) Draw a rectangle measuring 14cm by 10cm to represent the area enclosed by easing of 30 and 37 and northings of 90 and 95. On the rectangle mark and label **(5mks)**

i) Railway line

ii) Thicket

iii) River Matathia

iv) Cattle dip

d) Explain how relief has influenced the distribution of settlement on the area covered by the **map** **(4mks)**

e) Describe the drainage of the area covered by the **map** **(4mks)**

f) Give the social functions of Kijabe **town** **(3mks)**

7. a) (i)What is a rock? **(1mk)**

(ii) Describe the three ways through which sedimentary rocks are formed **(6mks)**

b) Describe the following characteristics of minerals

i) Colour **(2mks)**

ii) Cleavage **(2mks)**

c) Give two types of igneous rocks **(2mks)**

d) Suppose you were to carry out a field study of rocks within the vicinity of your school

i) Name three secondary sources of information you would use to prepare for the field study**(2mks)**

ii) State three activities you would carry out during the field study **(2mks)**

iii) State three problems you are likely to experience during the field study **(2mks)**

e) Explain three significance of rocks to huma activities in Kenya **(4mks)**

8. a) (i) Define the term hydrological cycle **(2mks)**

(ii) Give three factors that influence the occurrence of surface runoff **(3mks)**

(iii) State the significance of the hydrological cycle **(4mks)**

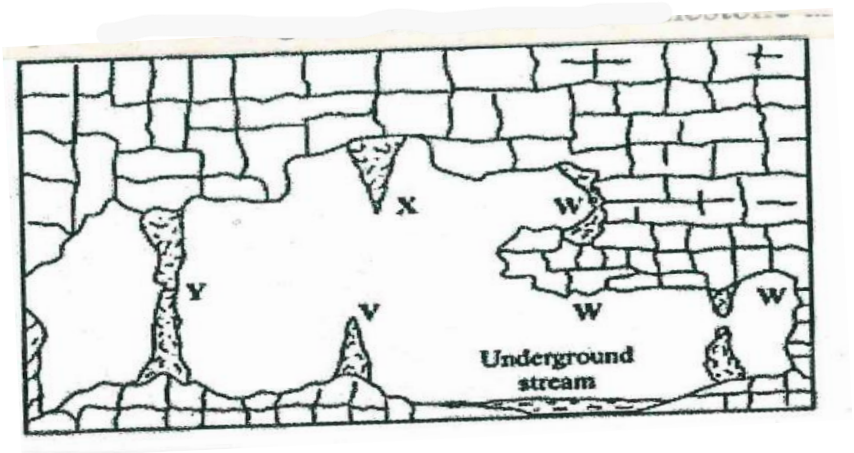

b) (i) What is a lake **(2mks)**

(ii) Give three reasons why some lakes in Kenya have saline water **(3mks)**

c) Explain how Lake Victoria influences the climate of the surrounding areas. **(6mks)**

d) State five economic uses of lakes **(5mks)**

9. The diagram below represents underground features in a limestone area. Use it to answer question (a)

a) (i) Name the features marked X, V and W **(3mks)**

(ii) Describe how the feature marked y is **formed** **(6mks)**

b) (i) What is an artesian basin? **(2mks)**

(ii) Explain three factors which influence the formation of features in limestone areas **(6mks)**

c) Give four reasons why there are few settlements in Karst **landscapes** **(4mks)**

d) State four significance of the Karst **Region** **(4mks)**

10. a) (i) What are earthquakes**?** **(2mks)**

(ii) Name two types of earthquake waves **(2mks)**

(iii) State four ways in which the earth's crust is affected by earthquakes **(4mks)**

b) (i) Name three types of **faults** **(3mks)**

(ii) Apart from compressional forces explain two other processes that may cause faulting. **(4mks)**

c) With the aid of diagrams, describe how compressional forces may have led to the formation of the Great Rift valley**.** **(8mks)**

d) Apart from the Rift Valley name two other relief features that were formed as a result of faulting **(2mks)**

QUESTIONS

1) a) State how the values of minerals influence the exploitation of some minerals**.** **(2mks)**

b) Apart from solution method, give three other methods of underground mining**.** **(3mks)**

2) a) Explain in two ways in which soils influence the distribution and type of natural forest. **(2mks)**

b) State three characteristics of temperate hardwood forests**.** **(3mks)**

3) a) What is a photograph? **(2mks)**

b) State three characteristics of ground horizontal close – up. **(3mks)**

4) a) What is Agriculture? **(2mks)**

b) Name three types of Agriculture**.** **(3mks)**

5) a) State three characteristics of a bar graph. **(3mks)**

b) State two disadvantages of using a wind – rose as a method of representing statistical data. **(2mks)**

SECTION B : 25MKS

6) The table below shows the value of key domestic exports from Kenya between 2013 and 2016 in Ksh. Million.

EXPORT	**2013**	**2014**	**2015**	**2016**
TEA	105,000	94,000	123,000	124,000
HORTICULTURE PRODUCE	89,000	97,000	101,000	110,000
TOURISM	94,000	87,000	85,000	100,000

a) Using a Vertical scale of 1cm to represent Ksh. 15 Billion, draw a comparative bar graph to present the data in the **table.** **(10mks)**

b) i) In which year Kenya export the highest produc**e?** **(1mk)**

ii) What is the difference of the produce Kenya exported between year 2014 and **2016** **(1mks)**

iii) Calculate the percentage increase of produce between year 2013 and **2015.** **(2mks)**

c) Give three reasons why a comparative bar graph is more suitable for presenting these statistics than the comparative line graph. **(3mks)**

d) i) State three limitations of using observation as a method of collecting data. **(3mks)**

ii) State four ways through which statistics is important. **(4mks)**

7) a) Give four ways in which minerals occur. **(4mks)**

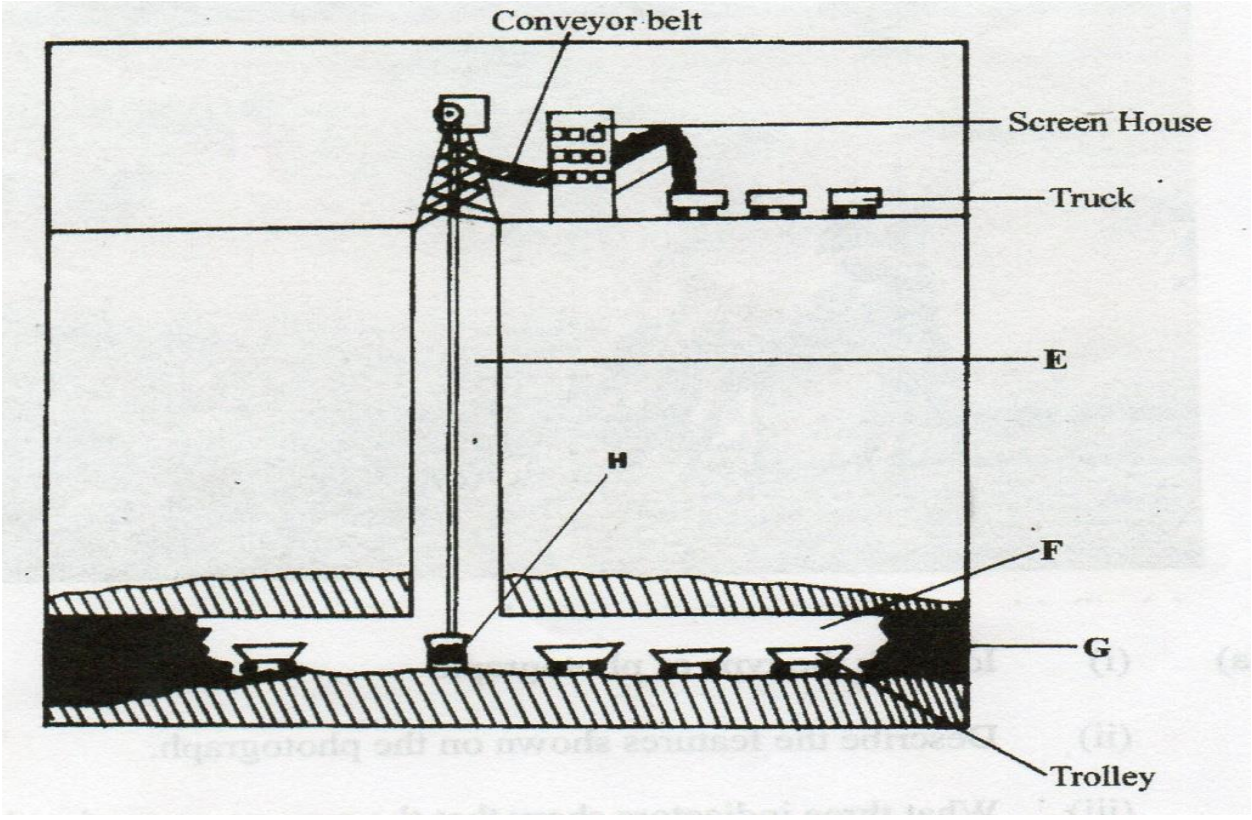

b) Explain how the following factors influence the formation of minerals**.** **(4mks)**

i) Volcanicity

ii) Weathering

c) State four problems facing the mining industry in Kenya**.** **(4mks)**

d) The diagram below shows shaft mining. Use it to answer the question that follows:

i) Identify the parts labeled FG H **(3mks)**

ii) Describe how minerals are extracted using solution methods. **(6mks)**

e) Explain two ways in which trona mining has benefited the economy of Kenya. **(4mks)**

8) a) Define the following terms. **(4mks)**

i) Forest

ii) Forestry

iii) Natural forest.

iv) Cultivated forest.

b) Explain four problems facing in Canada. **(8mks)**

c) State three ways in which the Kenyan government has taken to conserve forests. **(3mks)**

d) i) State four factors that has influenced the exploitation of softwoods in Canada**.** **(4mks)**

ii) State three characteristics of softwood forest in Canada. **(3mks)**

f) State three importances of forest products**.** **(3mks)**

Read the passage below and fill in each blank space with the most appropriate word .

Passing National Examination in Kenya has become a matter of life and 1_____ .This is primarily because, more often than not,examination 2_____ the future of the student. From our collective experience this is very clear. A standard eight pupil must 3_____ well to secure a place in a good 4_____ school. Similarly, a form four candidate must not just pass, but must also be among the students who join public 5 _____ .The reverse often has painful consequences for the student , 6_____ means falling by the wayside and in a country with limited employment 7 _____ , chances of a decent livelihood become severely compromised .It is precisely because of those stark realities that students find 8_____ under seething pressure to pass 9_____ . On the other hand , parents who know all too well that failing to score good grades could mean that the end of the road of their children's 10_____ are willing to cut all corners to ensure the children pass their exams.

3. ORAL SKILLS (30mks)

(a) Read the narrative below and answer the questions that follow.

The cock and the kite

(The setting of the story is in Kibiro , Uganda in the Western Rift Valley near Lake Albert)

A long time ago, there lived cock and his family as well as kite and his family .The former was hard working while the latter was lazy .It happened that the place was hit by a famine .People from far used to travel a long way to go to Kibiro to barter food for salt .It also happened that both families ran out of salt. Cock's wife informed her husband that they had ran out of salt and asked him to take some finger millet to Kibiro .He agreed , went to Kibiro , obtained salt and set upon the return journey .

The other family got wind of this .Mrs.Kite also asked her husband her husband to go to Kibiro and try to get salt since the lazy family did not have anything to take to Kibiro .On the way , he met the cock resting on his way home with the salt behind him .He was standing on one leg having hidden one of his leg in his wing , as cocks do many times when resting .Kite asked cock how he managed to get the salt , where upon cock told kite that the salt miners ad cut off one of his legs in exchange for the salt .Kite accepted the lie and proceeded towards Kibiro ready to do the same .Cock continued on his journey and got home safely .

On arrival at Kibiro, Kite offered his leg for a bundle of salt which the miners readily accepted .His leg was consequently amputated , rendering him immobile , even unable to carry home salt .poor kite flew back home, where he was received by his family in much grief , especially when he narrated to them the ordeal he went through . Later, kite's family was to receive the traumatizing news that cock had actually ill-advanced Kite, leading to loss of his leg.

Hence forward, great enmity ensued between the two families with Kite's family swearing to retaliate by hunting Cock's family down and eat them. This goes -+on to date.

(i) The narrator notices signs of inattentiveness among the audience during the story telling session what could be the proble**m?** **(3mks)**

SERIES 1

ENGLISH

PAPER 2

TIME: 2½ HOURS

NAME……. ADM NO; …….

CLASS…… DATE…….

QUESTION 1.COMPEREHENSION PASSAGE(20 MARKS)

Read the following passage and answer the questions that follow

You may think that expecting food to change your life is too much to ask. But have you considered that eating the right food at the right time will increase your energy, help you manage weight and ward off major illness?

Researchers have found that eating a meal with plenty of protein leaves you feeling more satisfied for longer when compared to a meal loaded with low-quality carbohydrates. your body takes longer to digest protein, leading to a gradual increase in blood sugar. The high protein breakfast will therefore carry you through the morning and ,more importantly ,through your tea break. Many high-carbohydrate meals are absorbed quickly and send blood sugar on a roller coaster ride, taking your appetite with it and depleting your energy.

Many foods contain antioxidants neutralize molecules known as free radicals before they damage arteries and body cells. This protects you from heart diseases, high blood pressure, cancer and diabetes; you can now see why antioxidant foods should be consumed in generous portions. Actually, forget pills-antioxidants work best when consumed in foods. In fact, nutritionists recommend that we eat five portions of fruit and vegetables a day. Its less daunting than it sounds: a portion equals a piece of fruit, three tablespoons of cooked vegetables or a glass of flesh juice.

And do you desire to relieve yourself of some baggage? calcium is the latest weight –loss star to appear on the scene. Scientists stumbled on its magic by accident. From a study that measured the blood pressure of obese people, it was discovered that those who took one large tub of yoghurt a day in their diet lost an average of eleven pounds of body fat in one year, even though they did not eat less.

A follow-up study found that people high-calcium diet lost more weight and fat than did people on a low calcium diet- and again, both consumed the same number of calories.

Researcher*believe calcium encourages fat cells to stop "getting fatter". Instead, the cells burn extra fat without you having to go anywhere near a gymnasium.

It probably sounds strange to say that you can eat more in order to lose weight .Obviously, the question you should ask immediately is, "Eat more of what?"We are talking about foods rich in fibre . They have what is refer to as low energy density; that translates to few calories relative to weight. This means that you can down a mountain without fear of calorie overload.

Fibre also aids weight loss because its filling. Most high fibre foods take a lot of chewing triggering your bodies fullness sensors. Moreover, you absorb the food more slowly so you feel full longer. Will the wonders of food ever cease? Not if researchers in nutrition keep up their pace. Let them keep the good news flowing-such as the fact we don't have to starve ourselves to lose weight and keep disease at bay.

Questions

a. From the information given in the first paragraph, how can you improve your life?**(2 marks)**

……

……

……

b. In not more than 35 words, summarize the effects of eating **carbohydrates.** **(4 marks)**

……

……

……

……

c. Explain how free radicals contribute to the occurrence of high blood pressure and cancer.

(2 marks)

……

iii. Down a mountain-

QUESTION 2

Read the following extract from the play "The Samaritan"by John Lara and then answer the questions after. *(25 marks)*

Seymour: (Springing to his feet with clenched fists) That cannot be possible. Nobody can write that kind of thing about me in this world!

Harvester: (Looking at Ted and Seymour) Copies of indisputable documentary evidence to that effect were all over today's newspapers and are being shared in all media platforms.

Seymour: (Resuming his seat and swearing with trembling voice) Those are fake documents! These are all barefaced falsehoods! And I can assure you one thing: Those behind the allegations now have their appointment with fate! Certainly!

Ted : (Sitting properly and looking up for the first time) **Supply of air?** I am beginning to think this is serious.Could we end up in Baneta Express Prison?

Harvester:(Turning pages of his note book)But that is only one of the allegations ,there are many more ,including drug trafficking,grabbing of public land,**inflation** of the cost of municipal projects, use of proxies to secure municipal tenders, undertaking shoddy public works, murder and gang warfare. The information is very detailed on the people and companies involved .

Mossi: There is a lot of personal information on municipal leaders on that evil thing , too; including lifestyles of individual municipal officials,where they live, the kind of houses they live in, their businesses, the vehicles they own, other properties in their possession, when the properties were acquired, and a lot of other personal details I don't want to mention here. (Looking at Bembe) There was a lot of talk yesterday on the Madingo Golf Club, with everyone Wondering where you got the money to put it up.

Bembe: (Sitting up with an expression of horror on his face) The Madingo Golf Club? No! I have always been very **discreet** about my private affairs! How did they get the Information it is mine?

Mossi: You see, there is hardly anything on earth you can do without somebody knowing About it. You should also remember that those we regard as our friends are Sometimes wolves in sheep's clothing. And they may have a lot of information About us,which could be damaging!

Bembe: This might be our worst nightmare!

Mossi: What worries me most is the recent formation of a lobby group,an amorphous virtual group, comprising mostly of lawyers,calling itself *The Samaritan*. It is calling upon the people to volunteer as witnesses and help in the prosecution of those involved in corruption and abuse of office in the Municipality.They are also planning to **petition** the Local Government Minister ,the Prime Minister,and the Chief Justice to take action.The situation is not pretty at all.

Ted: (Looking at Justice Jaden)Can such online allegations form a strong basis for prosecution and conviction?

Jaden: (Adjusting his eyeglasses) Yes, they can;provided there are valid documents supporting the allegations.

Bembe: (Throwing his hands in the air) I think we have no choice other than ban that thing within Maracas Municipality! The Municipal Council needs to pass a by-law to that effect urgently. I will enforce it immediately!

Jaden: (Adjusting his eyeglasses and then his tie) I think we need to be careful and strategic. On what basis do you ban it? And how can you police the use of mobile phones to

ensure the ban is effective?

Seymour: We can think creatively about that.For example, we can claim that municipal authorities are concerned that suspect Apps,particularly spy Apps, are finding their way into our municipality. This may lead to theft of confidential information such as bank account details.We can also cite issues of cyberbullying and the sharing of pornographic materials in schools

QUESTIONS

a)What is Seymour referring to at the beginning of the excerpt **?** **(2mks)**

……

……

……

b)Identify and illustrate two aspects of style in this excerpt**.** **(4mks)**

i)Supply of air ……

ii)inflation ……

iii)discreet ……

iv)amorphous……

v)petition……

Read the poem below and answer the following questions that follow.

A TAXI DRIVER ON HIS DEATH BED (By Timothy Wangusa)

When with prophetic eye I peer into the future
I see that I shall perish upon this road
Driving men that I do not know
This metallic monster that I now dictate,
This docile elaborate horse,
That in silence, seems to simmer and strain
Shall surely revolt some tempting day.
Thus I shall die: not that I care
For any man's journey,
Nor for the proprietor's gain.

Nor yet the love of my own.
Not for these do I attempt the forbidden limits.
For these defy the traffic man and the cold cell,
Risking everything for the little, little more.

They shall say, I know, who pick up my bones,
"Poor chap, another victim to the ruthless machine"
Concealing my blood under the metal.

Questions

a) What is the poem about? **(3mks)**

……

……

……

b) What is the attitude of the persona towards his fate? **(2mks)**

……

……

c) With illustrations, identify the persona in the poem **(2mks)**

……

……

d) What is the irony in the poem? **(2mks)**

……

……

e) With illustrations, identify and comment on any other two stylistic devices used in the poem **(6mks)**

……

……

……

……

……

……

f) Comment on the following line **(2mks)**

"Poor chap, another victim to the ruthless machine"

……

……

g) How will the persona's death come about? **(2mks)**

……

……

h) Give the poem another title (**1mk)**

QUESTION 4

a. After each of the following words, write a word that is gender sensitive. (3 marks)

i. Spokesman-

ii. Airhostess-

iii. Cleaning lady-

b. Use the correct form of the word in brackets to complete each of the following sentences. (3 marks)

i. Owino did not know that a tree had…….(strike) his house

ii. Nobody expected the company to make ……..(lose)

iii. The three……..(passer-by)were arrested.

c. <u>Fill in the blank spaces below with the correct form of the verb in brackets.(3 marks)</u>

i. The team was…….…..…... for coming late.(qualify)

ii. They were……..…..……attacked by the gangsters.(vicious)

iii. The ……..of the matter brought the president to their county.(grave)

d. <u>Fill each blank space in the following sentences with the correct preposition.(6 marks)</u>

i. Sometimes it is quicker to go……..……..foot than……..bus.

ii. Sign your name……..…the dotted line……...the bottom of the page.

iii. There is something exciting……...…football.

Throughout Kenya, football matches are played……..…..capacity crowds.

CLASS…… DATE…….

1. UFAHAMU (ALAMA 15)

Soma makala yafuatayo kisha ujibu maswali.

Hulka ya binadamu katika maisha yake ni matarajio ya kupata mambo mazuri zaidi kwa kadiri anavyozidi kuishi duniani. Hulka hiyo haiepukiki kwa mtu yeyote ilimradi yungali hai duniani. Wapo watu wanaofanya kazi kufa na kupona ili kubadili maisha yao au kujiletea hali, watu hawa matumaini yao ni kuona wanaishi vizuri zaidi kesho kuliko walivyoishi jana.

Kadhalika wavivu nao ambao wana tabia ya kutopenda kujishughulisha kutafuta maisha, mawazo yao yanabaki palepale kutarajia maisha bora. Mtazamo huo wa matarajio ya maisha bora uko pia kwa vyombo vyenye dhamana kwa maisha ya watu katika jamii kama vile serikali. Tofauti na mtu binafsi, ambaye huota ndoto hizo peke yake, serikali hushirikisha mipango inayojiwekea ya kuleta hali bora katika jamii, inafanikiwa.

Ndani ya serikali kuna wadau (washika dau) mbalimbali wenye majukumu ya kuhakikisha kuwa mipango inayowekwa inasimamiwa na kutekelezwa katika muda unaotakiwa, ili kukidhihaja ya kuleta maendeleo katika jamii, tofauti na mtu binafsi ambaye wakati mwingine husimama peke yake katika kutekeleza malengo yake hayo.

Serikali ina nafasi nzuri ya kutekeleza malengo kwa kutumia rasilimali zake wakiwemo watu, madini, misitu, ardhi na nyingine nyingi. Matumizi haya ya rasilimali katika kuleta maendeleo, ni jambo muhimu sana katika kutekeleza mipango yake. Kuna sababu kadha zinazotufanya tuishi miaka nenda miaka rudi tukiwa na kiu ya maendeleo na ndoto ambazo zinashindwa kutimia.

Tatizo kubwa lililopo ni kwamba pamoja na kuwa na wataalamu wazuri na sera nzuri, tumeshindwa kuzitekeleza, badala yake tumekuwa mabingwa zaidi wa kuelezea sababu za kushindwa kutekeleza sera hizo kuliko kujikosoa kwa uzembe unaotufanya na kusababisha kushindwa kutekelezwa kwa sera hizo. Jambo hilo limechangia kurudisha nyuma maendeleo ya

nchi yetu kwa miaka mingi. Mipango mingi inayopangwa na serikali, mara nyingi imekwama, matokeo yake badala ya kutafuta udhaifu uliokwamiza kutekelezwa kwa mipango hiyo, nguvu zaidi zinaelekezwa kuhalalisha sababu za kushindwa.

Tunapaswa kujiuliza ni kwa nini tumefikia hapo? Tukipata jibu tukae chini tusioneane aibu, tunyosheane vidole usoni. Tusioneane haya katika kuleta maendeleo.

(Kutoka gazeti la Majira, Oktoba 31, 2003)

Maswali

a) Upe ufahamu huu anwani mwafaka. **(alama 1)**

b) Binadamu wote wana hulka moja. Ifafanue. **(alama 2)**

2. : MUHTASARI (Alama 15)

Soma taarifa ifuatayo kisha ujibu maswali yanayofuata.

UFUPISHO

Katiba mpya imeipa lugha ya Kiswahili hadhi nyingine kuifanya kuwa lugha rasmi kando na kuwa ni lugha ya taifa. Mabadiliko haya muhimu yana changamoto kadhaa.

Kwanza kabisa lugha ya Kiswahili sasa itashindania nafasi sawa na ile ya Kiingereza katika shughuli za kikazi. Swala hapa linahusu majukumu ambayo lugha hizi zitatekeleza. Je, lugha hizi zinatumika mtawalia katika shughuli za kikazi au zitatengewa majukumu maalum?

Lugha ya Kiswahili itachukua nafasi ipi? Kiingereza kitaachiwa nani tukizingatia kuwa kwa muda mrefu lugha ya Kiingereza ndiyo imekuwa lugha tawala katika mazingira haya? Je, wananchi wataweza kufanya maombi kwa lugha ya Kiswahili kando na kuendesha mawasiliano ya kiofisi kwa lugha hii? Kwa kifupi ili kusitokee mgongano wa matumizi ya lugha hizi mbili ni muhimu sana kwa watunga - sera kueleza kinagaubaga mawanda ya matumizi ya lugha hizi mbili katika mazingira ya kikazi.

Changamoto nyingine na muhimu ni kiwango cha maandalizi ya wananchi katika kuyapokea mabadiliko haya. Kwanza, wananchi wanafaa wafahamishwe kuhusu haki yao ya kutumia

lugha hii katika mazingira ya kazi. Si ajabu kuwa wao hawana habari kuhusu mabadiliko haya ya kisera. Watumishi wa umma nao wanastahili kupewa mafunzo maalumu kuhusu mbinu za mawasiliano katika Kiswahili ili waendeshe shughuli zao vizuri.

Kwa upande mwingine, vyuo vikuu pamoja na taasisi nyingine za mafunzo zinastahili kutoa kozi ya lazima katika lugha ya Kiswahili kwa wanafunzi wanaojiunga nazo ili kuwaandaa kwa mahitaji haya mapya ya kikatiba. Kadhalika, serikali inastahili kuwaandaa wataalamu zaidi wa lugha ya Kiswahili ambao watahusika katika kuwafunza wanaohusika na utekelezaji sera.

Kuna haja pia ya wataalamu wa lugha kuandika vitabu zaidi kwa lugha ya Kiswahili ambavyo vitatoa mafunzo kuhusu mbinu mbalimbali za mawasiliano. Shughuli hii iambatane na ile ya kutafsiri vitabu vilivyoandikwa kwa lugha nyingine kwa ile ya Kiswahili.

Kwa muda mrefu sasa, kumekuwa na tatizo la mitazamo hasi miongoni mwa wananchi kwa lugha ya Kiswahili. Baadhi ya wananchi wamekuwa na sababu zao za kutoitumia lugha hii wakishikilia kuwa lugha yenyewe ni ngumu.

Aidha, wananchi wengine wamekuwa na uzoefu wa kuzungumza lugha ya kiingereza au lugha nyingine za kigeni huku wakitoa nafasi finyu kwa lugha ya Kiswahili. Serikali Inastahili kutafuta njia ya kuwahimiza wananchi wote kuionea fahari lugha ya Kiswahili, waipende na kuielewa vizuri.

Ni muhimu kufanywe kila juhudi kuhakikisha kuwa wananchi wanatumia Kiswahili sanifu ili wasije wakakivuruga kwa kukiendeleza visivyo au kwa kukiharibu kwa kijilugha cha sheng au kwa lugha za kienyeji.

Vile vile, ni muhimu wananchi watambue kuwa nchi yetu ya Kenya ndiyo kitovu cha lugha hii na hivyo basi wafanye kila juhudi kuitumia ipasavyo ili tusionekane kuwa watumwa katika lugha yetu asili. Tunahitaji viongozi vielelezo nchini ambao wanazungumza Kiswahili sanifu kwa madoido na ufasaha sio tu katika ulingo bali pia katika nyanja nyingine za maisha.

Kwa hivyo viongozi wetu wajiepushe na matumizi ya Kiswahili chapwa ili wananchi wahimizike kuzungumza Kiswahili kwa ufasaha. Ingekuwa hata bora ikiwa wangepewa kipaumbele katika kupokea mafunzo kabambe katika lugha hii. Pengine tungejifunza mengi kutoka nchi jirani ya Tanzania ambayo kwa kiasi kikubwa ilifaulu kurasmisha Kiswahili na kuleta umoja wa kitaifa.

MASWALI

a) Fafanua changamoto zinazoikumba lugha ya Kiswahili kama lugha rasmi. (Maneno 70)

CLASS…… DATE…….

SEHEMU YA A: FASIHI SIMULIZI.

1. a) Eleza umuhimu wa nyimbo katika usimulizi wa hadithi. (al.4)
b) i)Eleza maana ya misimu. (al.2)
ii) Taja mifano yoyote miwili ya misimu. (al.2)
c) Taja sifa tatu za vitanza ndimi. (al.3)
d) Taja sifa tatu za vitendawili. (al.3)
e) Fafanua umuhimu wa vitendawili. (al.6)

2. SEHEMU YA B: USHAIRI.

Soma shairi lifuatalo kisha ujibu maswali yote.

Akosaye shukurani, zako juhudi hajali,
Hata mfanyie nini, haoni huyo hajali,
Hata mpe milioni, matusi ndio stahili,
Aona huna akili, ni yeye ndiye mshindi.

Patia kila la shani, bure unajisumbua,
Takuona kama nyani, tena atakunyambua,
Akuona punguani, chochote hutaambua,
Usingoje shukurani, tenda wema wende zako.

Utafute kwa juhudi, bila kukata tamaa,
Mpe apate faidi, wala asipate njaa,
Hatachoka kukaidi, atakuletea baa,
Na mawazo yakujaa, maishayo hafikiri.

Mpe vyote vya haluwa,wenzako wamtamani,
Hatakupa ya muruwa, juhudi haioni,
Ataka kuzidishiwa, asubuhi na jioni,
Ufanyacho hathamini, aongeze ya karaha.

Si ndugu wala si mwana, si rafiki si jirani,
Shukrani kiwa hana, jua uko hatarini,
Hadharani tatukana, aulize ndiwe nani,
Ambe kama hajaona, kinyangarika kamawe.
Hebu yeye msaili, amepata toa nini?
Haweziye kukubali, kukupa hata thamani,
Ni bure wake ukali, akutia mashakani,
Yake wala hayaoni, mwovu hana shukurani.

Mfadhili watengaje, jana alikuopoa,
Mwaema wambwekeaje, mabaya wayachokoa,
Mzazi wadharauje, mbali alishakutoa,
Sasa jaribu kupoa, ujifunze shukurani.

Maswali

1. Lipe shairi hili anwani mwafaka. (al.1)
2. Hili ni shairi la aina gani? Thibitisha. (al.2)
3. Eleza dhamira ya mshairi katika shairi hili. (al. 2)
4. Bainisha mifano mitatu ya uhuru wa mshairi katika shairi hili. **(al.6)**
5. Andika ubeti wan ne kwa lugha nathari. (al. 4)
6. Taja na utolee mfano tamathali zozote mbili za usemi katika shairi. (al.4)
7. Eleza maana ya neno hili kama lilivyotumika katika shairi hili. (al1)
Shani

3. TAMTHILIA: BEMBEA YA MAISHA- TIMOTHY AREGE

Elimu ni mafundisho muhimu yanayotolewa katika jamii. Jadili kwa kurejelea tamthilia ya Bembea ya maisha. **Alama 20**

Marks									

GRAND TOTAL

1. Without using mathematical tables or calculators, evaluate the following leaving your answer as a fraction in its simplest form. **(3mks)**

$$3\sqrt{\frac{0.119\times 0.256}{0.068\times 7}}$$

2. Two boys and a girl shared some money .The elder boy got $\frac{4}{9}$ of it, the younger boy got $\frac{2}{5}$ of the reminder and the girl got the rest. Find the percentage share of the younger boy to the girl's share. **(4mks)**

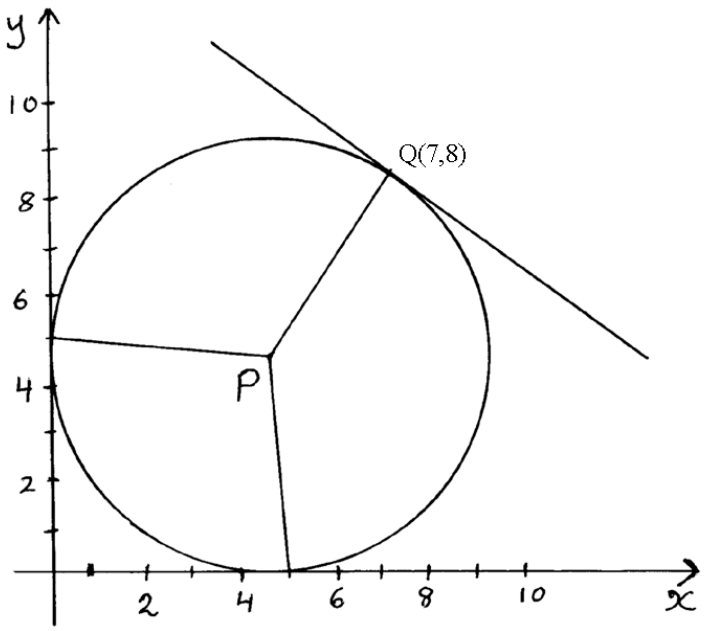

3. From a point A, the angle of elevation of top of a watch tower is 20^0.From another point which is 25m from the base of the tower, the angle of elevation of the top of the tower is 26^0.Giving your answer to three decimal places, determine the height of the tower and hence calculate the distance between the points A and B if they are both on the same side of the tower and lie on a straight line with the base of the tower. **(3mks)**

4. If X is a positive integer, find all possible values of x given that $1<\frac{2}{5}x^2<7$. **(3mks)**

5. A train whose length is 60 metres is travelling at 40km/h in the same direction as a bus whose length is 20m.If the speed of bus is 80km/h and moving parallel to the train, calculate the time it takes the truck to overtake the train completely in seconds. **(3mks)**

6. A positive two digit number is such that the product of the digits is 20.When the digits are reversed , the number so formed is greater than the original number by 9.Find the number.

7. The diagram below shows a circle with centre P(5,5) and radius 5 units

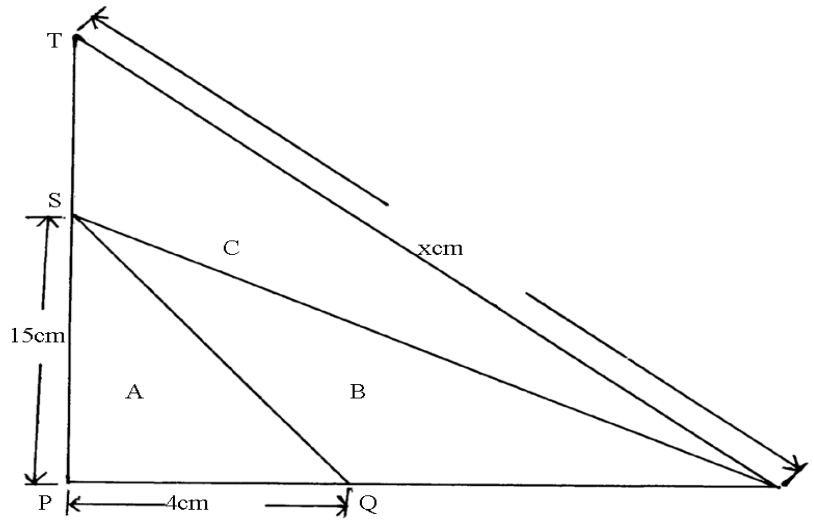

(a) Write down in terms of x and y the equation of the circle in the form $ax^2+by^2+cx+dy+e=0$ where a,b,c,d and e are constants. **(1mk)**

(b) Determine the gradient of PQ **(1mk)**

(c) Find the equation of the tangent at Q in the form ax+by=c. **(2mks)**

8. Find the value of x in the following figure given that area A =Area B=Area C(Give your answer to 2 decimal places) **(4mks)**

9.Odhis car Hire company hires out as follows; sh. 2500 per day and sh. 270 per kilometer covered. They offer a discount of 30km free each day of hire.Makori hires a car for 5 days and drives for 480km.Calculate the total cost. **(2mks)**

10.Omwando borrows sh. 90,000 for 5 years at 6 ½ % simple interest p.a.What amount does he have to pay at the end of that time? **(3mks)**

11. Solve for t in the equation

$9^{t+1} + 3^{2t} = 30$. **(3mks)**

12. Given the curve $y = x^2 - 2x + 6$, find the coordinates of the point on the curve at which the gradient is 4. **(2mks)**

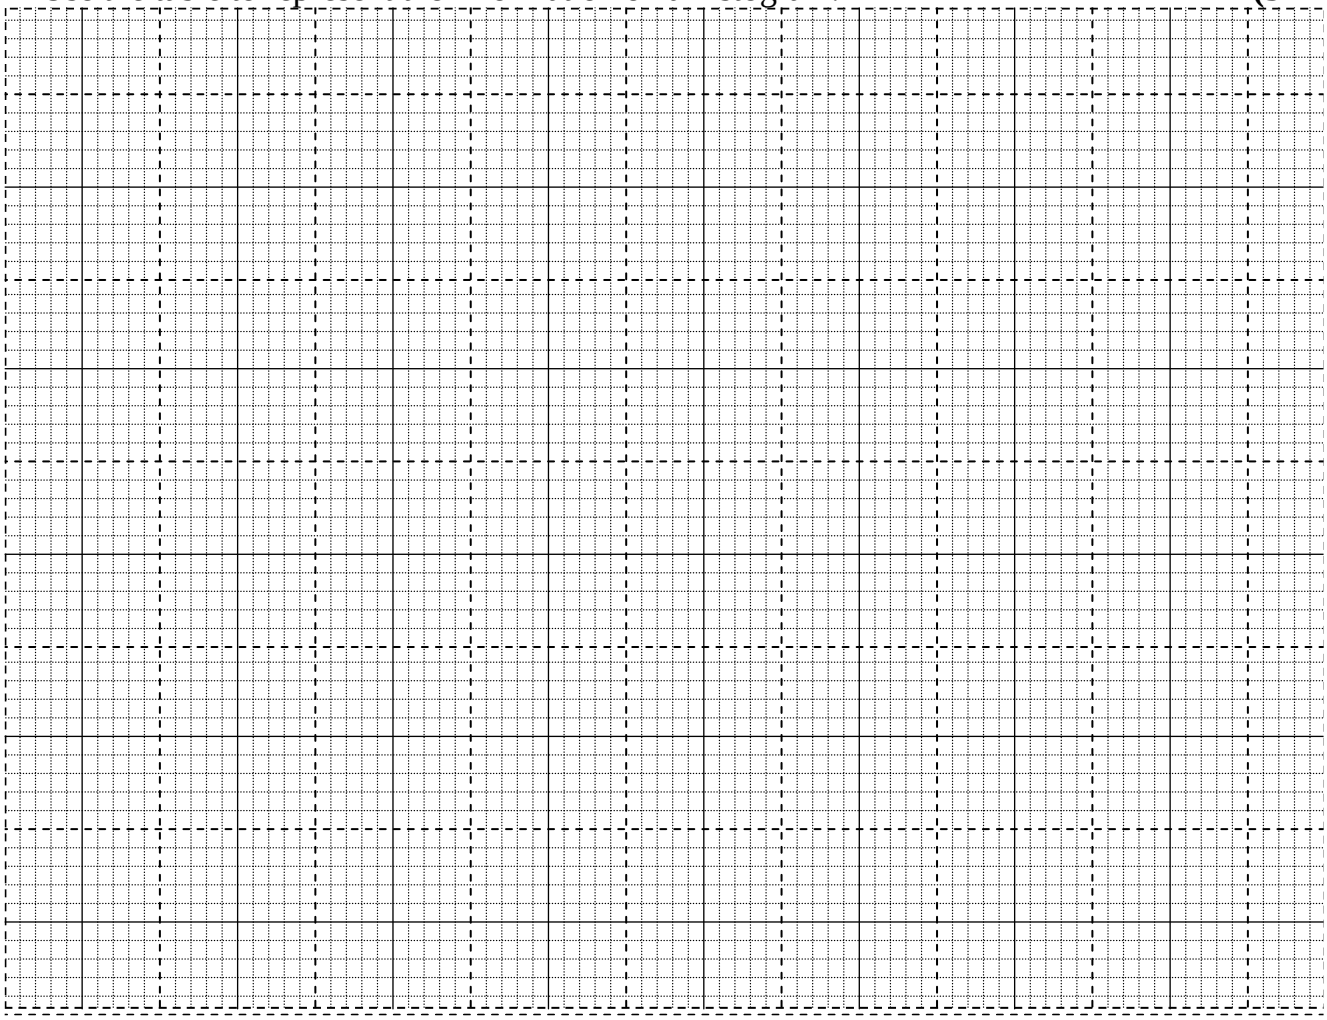

13.Mary has some money in two denominations only. Fifty shilling notes and twenty shilling coins. She has three times as many fifty shilling notes as twenty shilling coins. If altogether she has sh. 3400, find the number of fifty shilling notes and 20 shilling coins.

14. In Ngamongo village, a piece of work can be completed by 45 workers in 10 days .They worked for 4 days after which 15 workers were laid off. How many days would it take the remaining workers to complete the work? **(3mks)**

15. The table below shows marks obtained by a form three class in a certain school.

Marks (x)	$8 \le X < 9$	$9 \le X < 11$	$11 \le X < 13$	$13 \le X < 16$	$16 \le X < 20$	$20 \le X < 21$
No. of students (y)	2	6	8	3	2	1

Use the table to represent the information on a histogram. **(3mks)**

16. Find the inverse of the matrix $\begin{pmatrix} 2 & 1 \\ 3 & 2 \end{pmatrix}$ and hence solve the simultaneous equations below.

(4mks)

2x+y=21

3x+2y=34

SECTION II (50 MARKS)

ANSWER ANY FIVE QUESTIONS.

17. A bag contains 5 red , 4 white and 3 blue beads. Two beads are selected at random.

(a) Draw a tree diagram and list the probability space. **(3mks)**

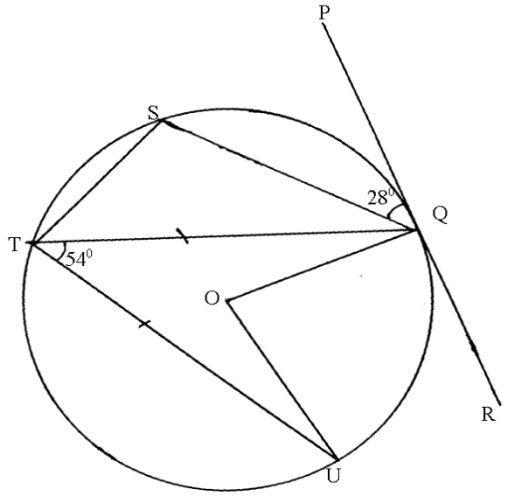

(b) Find the probability that

(i) The last bead selected is red. **(2mks)**

(ii) The beads selected were of the same colour **(2mks)**

(iii) At least one of the selected beads is blue. **(3mks)**

18. In the figure below,O is the centre of the circle.PQR is a tangent to the circle at Q. Angle PQS=28^0,angle UTQ=54^0 and UT =TQ.

Giving reasons , determine the size of

(a) Angle STQ. **(2mks)**

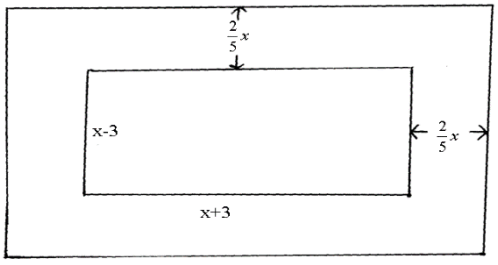

(b) Angle TQU. **(2mks)**

(c) Angle TQS **(2mks)**

(d) Reflex angle UOQ . **(2mks)**

(e) Angle TQR. **(2mks)**

19. The following figure represent a dancing floor with a carpeted margin all around of $\frac{2}{5}x$ wide leaving a dancing space of (x-3)m by (x+3)m

If the total area of the entire room is $315m^2$

(a) Calculate the value of x. **(5mks)**

(b) Calculate the area of the carpeted margin. **(3mks)**

(c) If the carpet cost sh. 750 per m^2,calculate the total cost of the sealed margin. **(2mks)**

20. John bought 3 brands of tea, A B and C. The cost price of the three brands were sh 25, sh 30, sh 45 per kg respectively. He mixed the three brands in the ratio 5:2:1 respectively: After selling the mixture he made a profit of 20%.

(a) How much profit did he make per kilogram of the mixture? **(4 mks)**

(b) After one year the cost price of each brand was increased by 10%

(i) For how much did he sell one kilogram of the mixture to make a profit of 15%? (Give your answer to the nearest 5 cents) **(3 mks)**

(ii) What would have been his percentage profit if he sold one kilogram of the mixture at sh. 45. **(3 mks)**

21. A car accelerates from rest for 10 seconds until it reaches a velocity of 12 metres per second.It then continues at this velocity for the next 40 seconds after which it brakes and comes to rest until a constant retardation of 1.5 meres per second

(a) Determine

(i) The acceleration over the first 10 seconds **(2mks)**

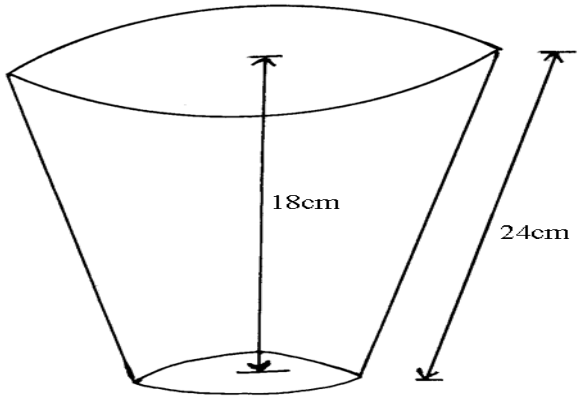

(ii) The time taken during the retardation **(2mks)**

(b) Draw the velocity time graph for the journey and use it to determine.

(i) The total distance covered by the car **(4mks)**

(ii)The percentage of the total distance which was covered during the first 15 seconds. **(2mks)**

22. The diagram below shows a flower vase of depth 18cm.The ratio of the top and bottom diameters is 5:2 (Take $\prod$ =3.142)

Calculate

(a) The volume of the flower vase **(7mks)**

(b) The curved surface area of the flower vase **(3mks)**

23. Given that x-y=3 and 3x+y=17, find without solving for X and Y the value of

(a) $2xy-x^2-y^2$ **(2mks)**

(b) $6xy+y^2+9x^2$ **(2mks)**

(c) $3x^2-2xy+y^2$ **(3mks)**

(d) $\frac{3x^2-4xy+y^2}{9x^2-y^2}$ **(3mks)**

24. Three Kenyan warships A,B and C are at sea such that ship B is 450km on a bearing of 030^0 from ship A. ship C is 700km from ship B on a bearing of 120^0.An enemy ship D is sighted 1000km due south of ship B.

(a) Taking a scale of 1cm to represent 100km locate the position of the ships A,B,C and D **(4mks)**

(b) Find the compass bearing of :

(i) Ship A from ship D **(1mk)**

(ii) Ship D from ship C **(1mk)**

(c) Use the scale drawing to determine

(i) The distance of D from A **(1mk)**

(ii) The distance of C from D **(1mk)**

(d) Find the bearing of :

(i) B from C **(1mk)**

(ii) A from C **(1mk)**

FORM 3 MIDTERM 1 EXAMS

SERIES 1

MATHEMATICS

PAPER 2

TIME: 2½ HOURS

NAME…… ADM NO; …….

CLASS…… DATE…….

INSTRUCTIONS TO CANDIDATES:

- *Write **your name** and **admission number** in the spaces provided above*
- *This paper contains **two sections;** Section **I** and section **II.***
- *Answer **all** the questions in section **I** and only **five** questions from section **II.***
- *All workings and answers **must** be written on the question paper in the spaces provided below each question.*
- *Marks may be given for correct working even if the answer is wrong.*
- *Calculators and KNEC mathematical tables may be used EXCEPT where stated otherwise*
- *Show all the steps in your calculations, giving your answers at each stage in the spaces below each question*

For Examiner's Use Only;

Section I

Questions	1	2	3	4	5	6	7	8	9	10	11	12	13	14	15	16	**TOTAL**
Marks																	

Section II

Questions	17	18	19	20	21	22	23	24	**TOTA**
Marks									

GRAND TOTAL

1. Evaluate without using tables or calculators. **(3mks)**

$$\frac{\sqrt{0.8064} \times 6.048}{1.008 \times 0.1344}$$

2. Evaluate $\frac{-4 \text{ of } [(-4 + -5 \div 15) + -3 - 4 \div 6)]}{84 \div -7 + 3 - - 5}$ **(2mks)**

3. Solve for θ without using table given that $0 \leq \theta \leq 90^o$ and that $\sin(2\theta - 30^o) - \cos 4\theta = 0$ **(3mks)**

4. Solve for x given that $5^{2x+2} - 20 \times 5^{2x} = 625$ **(3mks)**

5. The angle of a quadrilateral ABCD in order are 2 (x -10), 4 (x + 5), 5(x+4) and (x-20) in degrees. Find the exterior angles of the quadrilateral. **(4mks)**

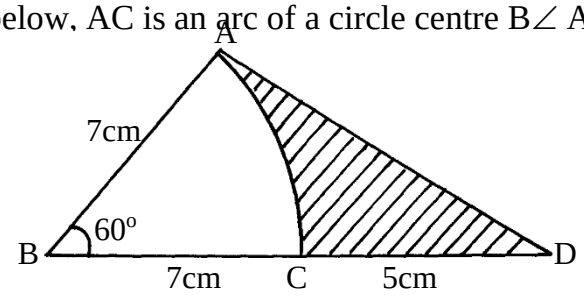

6. A radio costing kshs. 1240 is marked to sell at a price calculated to give a profit of 40 %. What will be its selling price in sale when 25% is taken off the marked price? **(3mks)**

7. Show that if OA = - i+ 7j, OB = 3i – 5j and OC = 4j, then points AB and C are collinear.**(4mks)**

8. Four men can dig 2 acres of land in 3 days working 4 hour a day. How many men are required to dig 5 acres of land in 4 days working 3 hours a day at the same rate. **(3mks)**

9. The surface area of two similar bottles are 12 cm^2 and 108cm^2 respectively. If the larger one has a volume of 810 cm3. Find the volume of the smaller one. **(3mks)**

10. In the figure given below, AC is an arc of a circle centre B∠ ABD = 60º, AB = BC = 7cm and CD= 5 cm.

Calculate

a) The area of triangle ADB **(2mks)**

b) The area of the shaded region. **(2mks**

11. Solve the inequalitites and represent the information on the number line. **(3mks)**

$-3+2x<3x+2<4(x-5)$

12. Make x the subject of the formula in $3s=2p\sqrt{\frac{x}{3x-5}}$ **(3mks)**

13. Given x = 13.4cm and y = 4.3 cm. calculate the percentage error in $\frac{x}{y}$ correct to 4 d**.p(3mks)**

14. A straight line through the point A (2, 1) and B (4,m) is perpendicular to the line whose equation is $3y = 5 - 2x$, Determine the value of m. **(3mks)**

15. Okoth deposited some money at 10% compound interest compounded annually. How long will it take to double the amount to the nearest year? **(3mks)**

16. Chebet has 5 brown chicken and 3 black ones. She picks two of them for slaughter at random, one after the other. What is the probability that the two are of different colours.**(3mks)**

SECTION II

Answer only five questions.

17. A bus left Nairobi at 8.00am and traveled towards BUsia at an average speed of 80km/hr. At 8.30 am a car left Busia for Nairobi at an average speed of 120km/hr. Given that the distance between Nairobi and Busia is 400km.

Calculate:

a) The time the car arrived in Nairobi. **(2mks)**

b) The time the two vehicles met. **(4mks)**

c) The distance from Nairobi to the meeting point. **(2mks)**

d) The distance of the bus from Busia when the car arrived in Nairobi. **(2mks)**

18. A triangle whose vertices are A (1,4) B (2,1) and C (5,2) is given the following transformation:

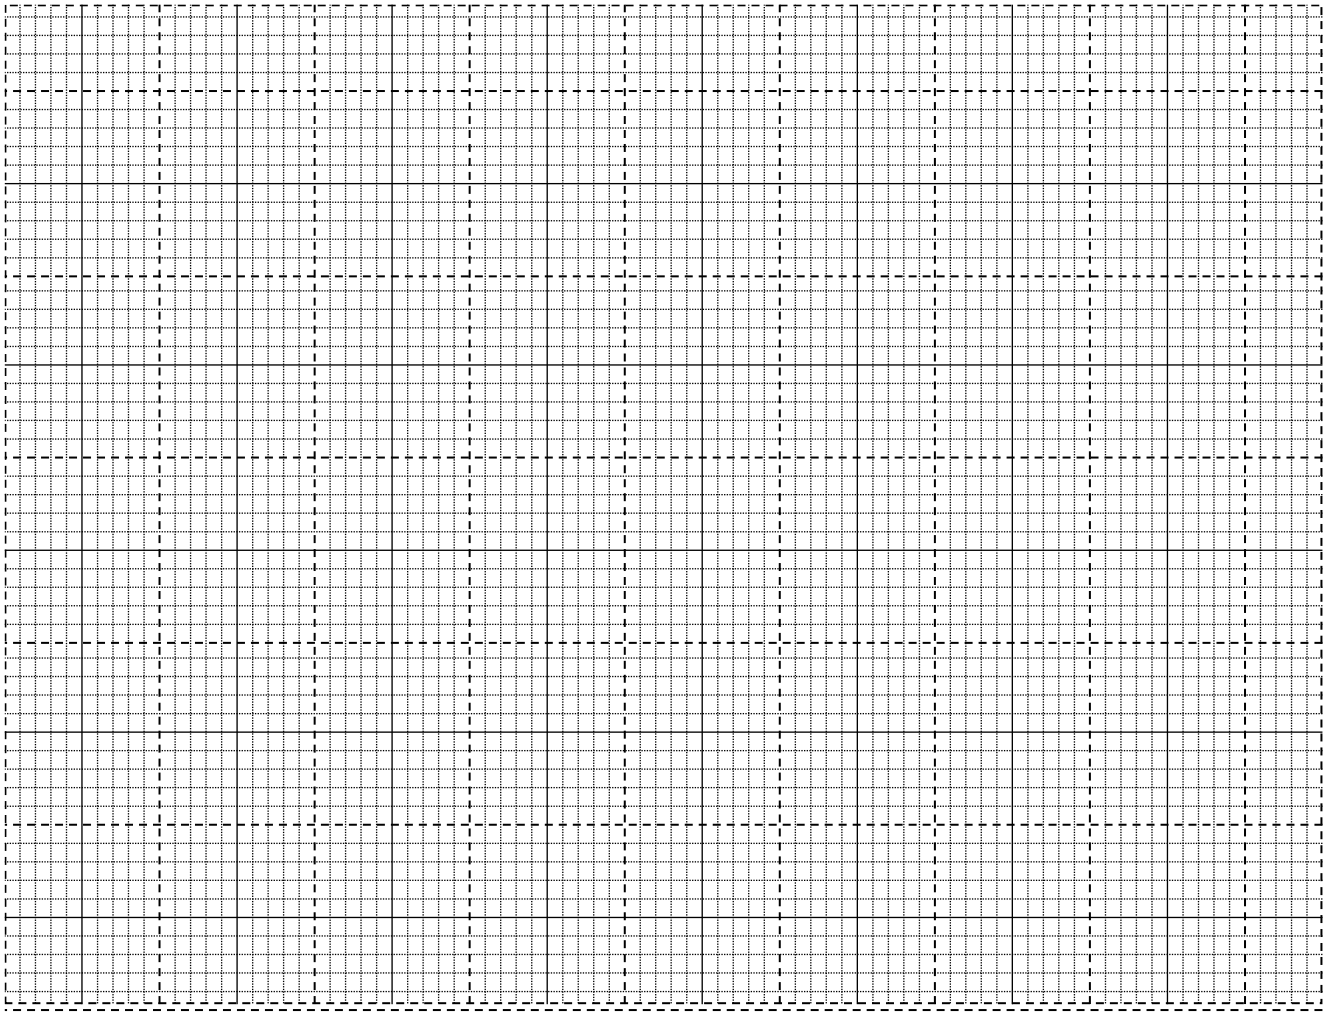

i) Reflection in the line y = -x to $A^1B^1C^1$

ii) $A^1B^1C^1$ is then given rotation of + 90° about the origin to $A^{11}B^{11}C^{11}$

iii) $A^{11}B^{11}C^{11}$ is then given a translation vector $\begin{pmatrix} -2 \\ 1 \end{pmatrix}$ to $A^{11}B^{11}C^{11}$

iv) $A^{11}B^{11}C^{11}$ is then given an enlargement scale factor – 2 centre (0, 0) to $A^{IV}\,B^{IV}\,C^{IV}$.

On the given grid plot a triangle ABC and it's images $A^1B^1C^1$, $A^{11}B^{11}C^{11}$, $A^{111}B^{111}\,C^{111}$ and $A^{IV}\,B^{IV}\,C^{IV}$. And give coordinates of $A^{IV}\,B^{IV}\,C^{IV}$. **(10mks)**

19. A Post OT stand vertically on level ground John moves from O, the foot of the flag post to point R, on the level ground. The points T, O and R from a right angled isosceles triangle whose perimeter is 56m. S is another point on the level ground 35m from O calculate:

a) The angle of elevation of T from S. **(6mks)**

b) The distance ST. **(2mks)**

c) Find the maximum possible distance between R and S. (**2mks)**

20. A salesman received a basic salary of sh. 50,000 a year together with a commission of 6 % on the value of goods sold and a car allowance of sh. 2.50 per km.

a) Find the total amount he received in a year in which he sells goods worth sh. 625,000 and travels

10,000km. **(4mks)**

b) The next year he travels 12,000km and receives a total of shs. 134,000

i) Calculate the value of goods sold. **(4mks)**

ii) Calculate the percentage increase in the value of the goods sold. **(2mks)**

21. Two airports a and B are such that B is 500km due east of A. two plane P and Q take off from A and B respectively and at the same time.

Plane P files at 360km/hr on a bearing of 030^o

Plane Q flies at 240km/hr on a bearing of 315^o

The two planes land after 90 minutes.

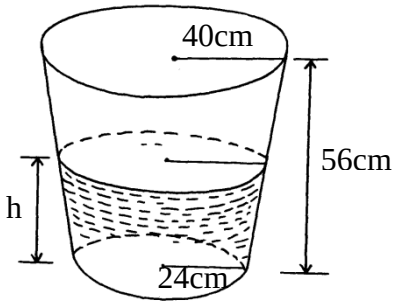

Using a scale of 1: 10,000,000

a) Show the positions of the planes after 90 min. **(6mks)**

b) Find the distance between the planes after 90 min. **(2mks)**

c) Find the bearing of plane Q from plane P after 90 minutes **(2mks)**

22. The figure below shows a container in form a frustrum of an open top radius 40cm and base radiu24 cm.the depth is 56 cm.

a) Calculate the volume of the container in litres. **(4mks)**

b) Of the container is ¾ full of water by volume,

Calculate the radius of the meniscus. **(6mks)**

23. Use a ruler and compass only in this question.

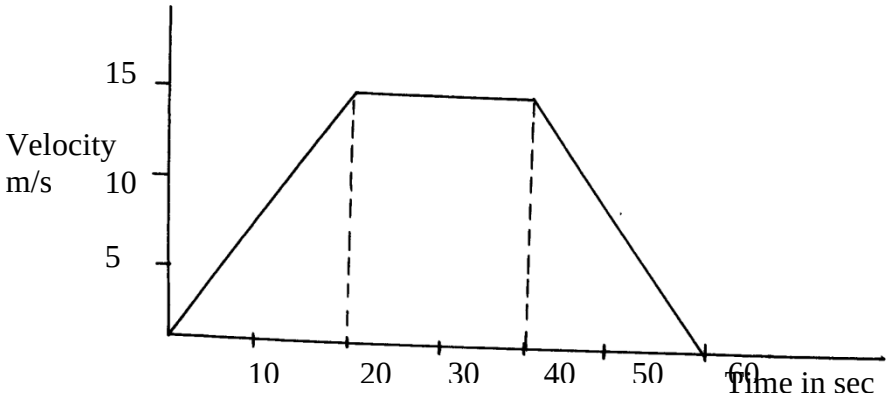

a) Construct Δ ABC such that AB = 6cm AC= 8.5 cm and ∠ BAC = 120^o **(3mks)**

b) Construct the locus ℓ, of points equidistant from A and B **(2mks)**

c) Construct the locus ℓzof points equidistant from AB and BC **(3mks)**

d) Find the points of intersection, P_1 and P_2, of 1_1 and 1_2 and measure P_1P_2 **(2mks)**

24. The diagram below shows the graph of a moving matatu from one bus stop to another.

a) Find the acceleration of the matatu. **(2mks)**

b) Find the deceleration of the matatu **(2mks)**

c) Calculate the distance the matatu while accelerating. **(2mks)**

d) Calculate the distance the matatu covered while traveling at an acceleration of $0m/s^2$ **(2mks)**

e) Find the distance between the two bus stops. **(2mks)**
