EDU314

Question

------ Act raised compulsary to 15 years in Britain.

Answer

1944

Question

In Britain,Inspectors visit schools because of ....

Answer

Direct grant

Question

Fisher's Education Act was enacted in the year -------.

Answer

1918

Question

In Britain, the most expensive institution is-----.

Answer

preparatory

Question

Cambridge University in Britain was founded from old -- school.

Answer

preparatory

Question

In Japan, there are …. categories of tertiary institutions

Answer

Three

Question

factors that influence the study of comparative education

Answer

girls child education

Question

In Japan, Elementary education usually takes place

Answer

3-5 years

Question

Comparative Education has the following qualities except..

Answer

Readiness to visit foreign places

Question

-------number of secondary school are recognised in Britain.

Answer

Four

Question

One of the earliest scholar in comparative education by name...edited international Review of Education in four languages

---

Answer

Friedrich Schneider

Question

During the early stage of comparative education, Prussian educational system and pratices was studied by ...

Answer

Victor Cousin

Question

The comparative Educationist by name...travelled to Europe to study educational system

---

Answer

John Griscom

Question

------is the stage of development in comparative education

Answer

predictive stage

Question

Comparative Education has... stages of development.

Answer

Three

Question

The purpose of Comparative Education in National Open University of Nigeria is ...

Answer

perfect national systems

Question

Comparative Education draw its content from all the following except...

Answer

Physics

Question

One of the following is not a an expert in comparative Education

---

Answer

Peter

Question

Father of comparative education is known as ...

Answer

Horace Mann

Question

Initially Comparative Education was a discipline known as ...

Answer

History of education

Question

------ Act raised compulsary to 15 years in Britain.

Answer

1944

EDU332

Question

_____ are materials that appeal to the sense of sight

Answer

Visual media

Question

Most graphics form of instructional materials are_____

Answer

Visual media

Question

Any activities that tends to produce the desired out come in a particular subject is called_____

Answer

Teaching

Question

The major reason for learning about the community learning resources centres is _____

Answer

The teacher is expected to be a respouceful person

Question

Subset of teaching means_____

Answer

Instruction

Question

The expectation of a teacher after teaching is _____

Answer

Leaning has taken place

Question

The two categories of instructional resources are_____

Answer

design and utilization

Question

Natural resources are good example of _____

Answer

community resource

Question

Drawing technology can be traced to the time of __

Answer

early man stage

Question

The number of stages of development can ascribed to history of educational technology is____

Answer

four

Question

The resource centres established at the primary and secondary schools are called_____

Answer

Learning Resource Centre

Question

_____is a planned teaching / learning experience that uses a wide spectrum of technologies to reach learners interactions and certification of learning

---

Answer

Distance Education

Question

_____ trained the specialists in the field of educational broadcasting

---

Answer

National Educational Technology Centre

Question

E-learning can be either _____or _____

Answer

Asynchronous and Synchronous

Question

_____does not allow the learners to be creative and original in learning

---

Answer

Indoctrination

Question

_____developed the printing machine with which he was reputed to have printed the first Bible

---

Answer

Johann Guttenberg

Question

The acronym NAEMT means_____

Answer

Nigeria Association for Educational Media and Technology

Question

What do you use to represent data and information for comparative purpose in the teaching and learning?

Answer

Pie chart

Question

_____Is the sum total of separate parts working independetly and in interaction to achieve previously specified instructional processes

---

Answer

system

Question

_____is best define as learning using electronic means

Answer

e-Learning

Question

_____ are materials that appeal to the sense of sight

Answer

Visual media

Question

Most graphics form of instructional materials are_____

Answer

Visual media

Question

Any activities that tends to produce the desired out come in a particular subject is called_____

Answer

Question

The resource centres established at the primary and secondary schools are called_____

Answer

Learning Resource Centre

Question

_____is a planned teaching / learning experience that uses a wide spectrum of technologies to reach learners interactions and certification of learning

---

Answer

Distance Education

Question

_____ trained the specialists in the field of educational broadcasting

---

Answer

National Educational Technology Centre

Question

E-learning can be either _____or _____

Answer

Asynchronous and Synchronous

Question

_____does not allow the learners to be creative and original in learning

---

Answer

Indoctrination

Question

_____developed the printing machine with which he was reputed to have printed the first Bible

---

Answer

Johann Guttenberg

Question

The acronym NAEMT means_____

Answer

Nigeria Association for Educational Media and Technology

Question

What do you use to represent data and information for comparative purpose in the teaching and learning?

Answer

Pie chart

Question

_____Is the sum total of separate parts working independetly and in interaction to achieve previously specified instructional processes

---

Answer

system

Question

_____is best define as learning using electronic means

Answer

e-Learning

Question

western education was championed by _____

Answer

Christian missionaries

Question

The first school in Nigeria was established in what year?

Answer

1842

Question

A body of knowledge which when used helps in solving problems is called___

Answer

Technology

Question

Who are angencies that assisted the old Nigerian Broadcasting Corporation now Federal Radio Corporation of Nigeria (FRCN) to establish its Schools Unit in 1960

Answer

the Ford Foundation and the British Broadcasting Corporation

Question

The concepts that is not quite clear in the Nigerian educational system is called_____

Answer

origin of the application of educational technology

Question

The media that marked another landmark in the development of educational technology worldwide?

Answer

Question

The media through which information is disseminated usually to the people / audience that are scattered over a wide distance is what?.

Answer

Broadcast / Telecommunication Media

Question

The relatively permanent change in human behaviour arising from experience can be referred to as _____

Answer

Learning

Question

The media that usually a combination of software and the corresponding hardware is called

---

Answer

Projected media

Question

Which of these concepts we have a lot of misconceptions about?

Answer

Educational technology

Question

The resource centres established at the primary and secondary schools are called_____

Answer

Learning Resource Centre

Question

_____is a planned teaching / learning experience that uses a wide spectrum of technologies to reach learners interactions and certification of learning

---

Answer

Distance Education

Question

_____ trained the specialists in the field of educational broadcasting

Technology

Question

Who are angencies that assisted the old Nigerian Broadcasting Corporation now Federal Radio Corporation of Nigeria (FRCN) to establish its Schools Unit in 1960

Answer

the Ford Foundation and the British Broadcasting Corporation

Question

The concepts that is not quite clear in the Nigerian educational system is called_____

Answer

origin of the application of educational technology

Question

The media that marked another landmark in the development of educational technology worldwide?

Answer

Question

The media through which information is disseminated usually to the people / audience that are scattered over a wide distance is what?.

Answer

Broadcast / Telecommunication Media

Question

The relatively permanent change in human behaviour arising from experience can be referred to as _____

Answer

Learning

Question

The media that usually a combination of software and the corresponding hardware is called

Answer

Projected media

Question

Which of these concepts we have a lot of misconceptions about?

Answer

Educational technology

EDU323

Question

Generalizability of research findings is dependent on all these EXCEPT

Answer

fundamental importance of the population

Question

A very serious offence in academics is to copy someone's work without acknowledging him. This is called?

Answer

plagiarism

Question

Which of these citations is best situated after a quotation?

Answer

(Ogu,2015: 10)

Question

Which of these is NOT a type of hypothesis?

Answer

derived and systematic

Question

Which of these is used to specify the boundaries to be covered in a research study?

Answer

delimitation

Question

In a research report, the section where you provide an overview of your intention for the study is called?

Answer

purpose

Question

Research is regarded as a process of seeking solutions to problems. Which of these methods is used in doing this?

Answer

scientific methods

Question

The type of research which uses both qualitative and quantitative approaches is called?

Answer

eclectic method

Question

Which of these is NOT a primary source of data in historical research?

Answer

books

Question

The most difficult step in the research process is?

Answer

identification of a problem

Question

Which of these is NOT an independent variable?

Answer

academic achievement

Question

The type of research which seeks to establish the type of relationship between two or more variables is called?

Answer

correlational research

Question

The two types of developmental research are?

Answer

cross sectional and longitudinal

Question

The process of authenticating historical information is called?

Answer

criticism

Question

Which type of research design would you apply when your research topic is on "The effect of------?

Answer

experimental

Question

Data treatment in order to summarise them for meaningful interpretation in research is called?

Answer

data analysis

Question

In a research study the knitty- gritty work aspect is called?

Answer

methodology

Question

In a research study, the plan or framework of action is called?

Answer

design

Question

Which of these is a probabilitysampling method?

Answer

cluster

Question

All chemistry teachers in Kano state secondary schools can be described in research as?

Answer

population

Question

Generalizability of research findings is dependent on all these EXCEPT

Answer

fundamental importance of the population

Question

A very serious offence in academics is to copy someone's work without acknowledging him. This is called?

Answer

plagiarism

Question

Which of these citations is best situated after a quotation?

The most difficult step in the research process is?

Answer

identification of a problem

EDU321

Question

One of these is not a physiological need

Answer

Safety

Question

Which of these is a law governing learning

Answer

Law of exercise

Question

‘Man is a philosopher before he is a psychologist’ this assertion was made by

---

Answer

Travers

Question

One of the factors that aided the learning process in Thorndike’s experiment is

---

Answer

The hungry state of the organism

Question

One of these makes an individual to want to strive to overcome challenges, improve oneself, and attain excellence

---

Answer

Achievement motivation

Question

In cognitive theory of motivation, perception of the extent to which an individual can influence the outcome of a situation is referred to as

---

Answer

Controllability

Question

A student who fails an exam and attributes the failure to teacher’s difficult questions is said to be

---

Answer

External locus person

Question

According to Aristotle, learning is

Answer

Association of ideas

Question

Most aspects of human behaviour are

Answer

Instinctual

Question

The organism in Seligman’ experiment could not avoid the shock stimulus because

---

Answer

It had previously learnt that it had no control over the shock

Question

When the acquisition of new learning works backward to impair the retention of the previously learnt material, it is known as

---

Answer

Retroactive inhibition

Question

Which of these is not part of basic needs

Answer

Esteem

Question

Transfer of learning is said to be positive

Answer

When something previously learned benefits performance or learning in a new situation

Question

Which of these does not describe what learning means

Answer

Learning is a relatively permanent change in behaviour brought about as a result of maturation

Question

Consider the cases between Mark and Dele. Mark arrives at work promptly at 8.00 a.m. and seldom leaves before 4.00 p.m., always arrives at meetings on time, and often completes assigned work early. Dele works the minimum hours from 9 to 4p.m., and takes long lunches. He is often late for meetings and frequently requests extensions to complete assignments. The principal difference between these two people is in their

---

Answer

levels of achievement motivation

Question

The role that reinforcement plays in observational learning is t

---

Answer

Enhance the learning process

Question

We are motivated intrinsically when

Answer

We do something because we experience internal compelling force to do it

Question

In Skinner's experiment, the unconditioned stimulus (UCS) functions as a reinforcer because

Answer

It strengthens and maintains the bond between the CS and CR

Question

The schedule in which every response is reinforced is known as

Answer

Continuous schedule

Question

Which of these statements is INCORRECT regarding the tenets of insightful learning

Answer

Complex situations can be tackled through the process of trial and error than insight

Question

One of these is not a physiological need

Answer

Safety

Question

Which of these is a law governing learning

Answer

Law of exercise

Question

‘Man is a philosopher before he is a psychologist’ this assertion was made by

Answer

Travers

Question

One of the factors that aided the learning process in Thorndike’s experiment is

SED324

Question

What is generally the purpose of stock taking in science laboratories?

Answer

In order to place order for purchase of used-up items

Question

Generally, how often should stocking taking be done?

Answer

Once in a year

Question

For purposes of safety, chemical balances are best stored in the ____

Answer

balance room

Question

After each session of practical work, it should be primarily the duty of who to clean the working benches?

Answer

The students who were involved in the practical work

Question

The management of the school science laboratory can be summerised to involve the management of:

Answer

all of the above

Question

In which kind of the school laboratories would you mostly likely find a fume cupboard?

Answer

Chemistry laboratory

Question

The following facilities are more specific to which of the following school laboratories: (i) acquarium (ii) microscopes (iii) refrigerators, deep freezers and specimens

---

Answer

Biology laboratory

Question

Which of neither the following in not an aspect of services in laboratory design and management?

Answer

Shelving system

Question

Why are drainages provided in school science laboratories?

Answer

For disposal of chemicals

Question

Which of the following is most suitable for locating master control switches for gas and electricity in the science laboratory bearing in mind the need for safety?

Answer

Inside the preparation room

Question

Electric fans should be fitted in school science laboratory to:

Answer

supplement natural ventilation

Question

A school science laboratory should have at least:

Answer

two doors

Question

Which of the following is not a feature of design in the school science laboratory?

Answer

Consumable used during experiments

Question

Which of the following is out of place in the application of best safety practice in the school laboratory concerning fire extinguishers?

Answer

It should be kept in the laboratory store and brought out for use when needed

Question

Which of the following is not a conventional fire fighting equipment in school science laboratory?

Answer

Fire blanket

Question

If the clothe that that a student put on during laboratory practical catch fire, what should the victim do to control the danger?

Answer

The victim should roll on the ground

Question

Using the concept of the fire triangle what’s the most practicable thing to do in order to put off any fire outbreak in the school laboratory?

Answer

Remove one of the elements of the fire triangle, thereby suffocating the flame

Question

Which of these three elements must be present together for fire outbreak to occur in the school science laboratory?

Answer

Heat, fuel and air

Question

What is generally the purpose of stock taking in science laboratories?

Answer

In order to place order for purchase of used-up items

Question

Generally, how often should stocking taking be done?

Answer

Once in a year

Question

For purposes of safety, chemical balances are best stored in the ____

Answer

balance room

Heat, fuel and air

SED313

Question

The skills in improvisation do not include

Answer

Evaluation skill

Question

The following can be Improvised by the teacher by using simple production techniques learnt except

---

Answer

Computer

Question

Need for improvisation do not include

Answer

A means of sophisticated application of universality of science.

Question

Improvised material help in the following areas, except

Answer

methodology

Question

Improvisation require considerable development, through

Answer

imaginative planning and good knowledge

Question

Philosophy of improvisation touches the following, except

Answer

Evaluation of improvised materials.

Question

Application of improvised materials in teaching is not guided by

---

Answer

Curriculum presentation

Question

Choice of Improvised materials is guided by

Answer

Lesson objective.

Question

Improvised materials are sourced from

Answer

Locally made materials.

Question

Science teaching requires a lot of

Answer

equipment and materials

Question

Guidelines to follow in chosing improvised instructional material do not include

---

Answer

Background of the learner.

Question

Utilization and processes build up the following, except

Answer

teacher's welfare.

Question

There are numbers of need for improvisation in integrated science these include except

---

Answer

Actual presentation

Question

These are the key words in the definition of utilization, except

---

Answer

method

Question

In teacher preparation, effective application of improvised material is very crucial to objectives of the lesson in the following ways except.

Answer

Data collection

Question

The improvised materials, must be appropriately applied at the following stages except

---

Answer

Storage stage

Question

Improvisation involves several skills such all these except

Answer

Preparation of the learners

Question

Improvisation can be done through

Answer

Construction

Question

Improvised instructional materials preparation start from

Answer

data collection

Question

The use of substitute equipment where the real one is not available is called

---

Answer

improvisation

Question

The skills in improvisation do not include

Answer

Evaluation skill

Question

The following can be Improvised by the teacher by using simple production techniques learnt except

---

Answer

Computer

Question

Need for improvisation do not include

equipment and materials

Question

Guidelines to follow in chosing improvised instructional material do not include

---

Answer

Background of the learner.

Question

Utilization and processes build up the following, except

Answer

teacher's welfare.

Question

There are numbers of need for improvisation in integrated science these include except

---

Answer

Actual presentation

Question

These are the key words in the definition of utilization, except

---

Answer

method

Question

In teacher preparation, effective application of improvised material is very crucial to objectives of the lesson in the following ways except.

Answer

Data collection

Question

The improvised materials, must be appropriately applied at the following stages except

---

Answer

Storage stage

Question

Improvisation involves several skills such all these except

Answer

Preparation of the learners

Question

Improvisation can be done through

Answer

Construction

Question

Improvised instructional materials preparation start from

Answer

data collection

Question

The use of substitute equipment where the real one is not available is called

---

Answer

improvisation

Question

The part of the atmosphere where most atmospheric process take place in relation to gasoeus concentration is _____

Answer

Homosphere and Heterosphere

Question

Which of the following is true of the solid particles of the atmosphere?

Answer

none of the above

Question

The reason for the above answer is _____

Answer

it is none of the above

Question

Take out the odd from the following gases;

Answer

krypton xenon

Question

The cause of global warming can be traced to _____

Answer

excessive amount of carbondioxide in the atmosphere

Question

_____ is required in the formation of the building blocks of proteins and in the formation of nucleotides

---

Answer

Nitrogen

Question

Animals take oxygen and bring out carbondioxide during respiration while plants take in carbondioxide and bring out oxygen during _____

Answer

photosynthesis

Question

Which of the following is not true?

Answer

chrosomes shortens and thickens during metaphase

Question

Why is solar radiation described as life-sustaining?

Answer

it is reqiured for photosynthesis

Question

Which of the following statement is not true?

Answer

The earth is one of the known planets on which life exists

Question

Once solar radiation reaches the earth, it is absorbed and transformed into _____

Answer

heat energy

Question

The earth exchanges energy with its environment mainly through _____

Answer

transfer of electromagnetic radiation

Question

_____ layer reflect radio waves and have influence over radio communications

---

Answer

thermosphere

Question

The bottom layer of the atmosphere between 8Km-16Km is the _____

Answer

Troposphere

Question

Evidence from radiometric dating shows that the earth is _____

Answer

about454 billion years old

Question

Which of the following is the correct Chronological sequence of events?

Answer

precambrian---Hadean Eon---Archean Eon---proterozoic

Question

Geologists have been able to outline ____ historica events ?

Answer

12

Question

The collision between Laurencia and Baltica resulted in the creation of _____

Answer

euramarica

Question

_____ describes the period during which continents drifted about and eventually collected into a single landmass

---

Answer

phanerozoic EON

Question

The solar system began forming during the _____?

Answer

Hadean EON

Question

PED351

Question

Nomads are mostly …….

Answer

cattle rearers

Question

One major factor militating against adult education in Nigeria

Answer

funding

Question

Urban is what is referred to as ……

Answer

township

Question

Rural is referred to as ……

Answer

coutry-side

Question

Community is defined in terms of ……

Answer

population

Question

Facilitators need to keep learners actively .....

Answer

involved

Question

Adults have low ..... for sitting and listening

Answer

tolerance

Question

Basic literacy is a ..... Programme

Answer

1 month

Question

Post literacy programme is organised by the .....

Answer

state ministry of education

Question

Sandwich programme is organised by ……

Answer

institutions of learning

Question

One major characteristics of the adult learner is …….

Answer

experience

Question

_____ retard the progress of adult education programme

Answer

myths

Question

Courses offered to returning learners in Europe is often referred to as …….

Answer

second-chance

Question

Most adult education is .....

Answer

voluntary

Question

_____ add to or hinder the learning experience of the learner

---

PED271

Question

Before a learner is exposed to learning the pupil must grow in all these areas except

Answer

academically

Question

Health education can be viewed from the following perspectives except

Answer

heredity and cultural traits

Question

Health education is about the ----- and practical application of the health knowledge acquired or health information received.

Answer

scientific

Question

The factors that play domonant role in health are these except

---

Answer

tradition

Question

Health is ----- in nature

Answer

dynamic

Question

A clean environment that promotes positive

Answer

health attitudes and habits.

Question

Health affects all of these all of these well-being except

Answer

cultural

Question

Who sees health as a condition or quality of life which enables one to meet his/her responsibilities effectively?

Answer

Udoh (1993)

Question

Health is a state of complete physical, mental and social well-being, not merely the absence of disease or infirmity as defined by ----

---

Answer

WHO (1945)

Question

Who defined health as health is a means to an end and not an end in itself?

Answer

Udoh (1993)

Question

This is an aspect of physical education that deals with physical activities engaged in outside the classroom but within the school facility.

Answer

intramural activity

Question

The medium through which individuals acquire formal knowledge in physical education is known as

---

Answer

instructional actvity

Question

These movement opportunities are realised through the following methods except

---

Answer

narrative

Question

Jumps, half turn in trampoline, tumbling and angular twist in diving all of these are

---

Answer

aerial movement

Question

Physical education involves movement opportunities on these except

PED322

Question

Affixation can be divided into _____ and _____

Answer

prefix and suffix

Question

Teaching pupils to infer is an important_____

Answer

reading strategy

Question

Another strategy for teaching learners to comprehend a reading text is called_____

Answer

context clues

Question

Which method can be used to teach words that do not follow the phonics principle

Answer

look and say method

Question

English language skills help develop effective _____

Answer

communication

Question

The proponents of _____ approach criticise the discreet approach

Answer

whole language

Question

Who has the ability to adjust reading rate to suit the type of text being read?

Answer

efficient reader

Question

_____is a core subjects needed for studying science and technology

---

Answer

Mathematics

Question

The highest level at which a child is able to get meaning from a selection read to him

---

Answer

capacity level

Question

Which of the communication skills are consciously learnt?

Answer

reading and writing

Question

Which approach is derived from the Constructivist learning theory?

Answer

Whole/Global Language

Question

What type of reading goes beyond class reading?

Answer

extensive

Question

One of the defect of look and say method is----

Answer

memorisation

Question

To effective read material from Mathematics, a child must develop competence in the following skills expect

---

Answer

ability to study the environment

Question

All are major skills needed for reading Social Studies materials except

Answer

natures corners

Question

In which level does the child comprehend approximately 75% of reading material?

Answer

Instructional level

Question

_____ is the process whereby new words are derived from the base word

Answer

affixation

Question

Phonics method emphasise the importance of learners having _____

Answer

phonemic awareness

Question

_____ is an effective way of teaching the alphabet

Answer

alliteration

Question

The most fundamental of the communication is _____

Answer

Listening

Question

PED237

Question

A 3 – dimensional solid with six rectangular sides is known as_____

Answer

cuboids

Question

A measure of rotation or turning and its measured in degree is refed to as_____

Answer

angle

Question

Two or more triangles are said to be similar not congruent, when their_____ are alike

Answer

shapes

Question

A_____ triangle possesses three unequal sides

Answer

scalene

Question

A right angle is formed when a vertical line meets or cuts a_____line

---

Answer

horizontal

Question

The Kelvin scale is the temperature scale used in the_____ system

---

Answer

international

Question

The base units for measuring lengths and distances in the metric system are the_____

Answer

meter

Question

There are two aspects of measurement, the measured number and a_____of measurement

---

Answer

unit

Question

When comparing the individual measured values to the average result, if the differences is relative, then measurements have_____

Answer

precision

Question

The degree of agreement between measured value and accepted true value of a quantity is called_____

Answer

accuracy

Question

Different kinds of straight lines that exist include the following except_____

Answer

obtuse

Question

The line that runs straight from top to bottom of paper or the planar or facing the north is called_____

Answer

vertical

Question

There are two main types of uncertainties, these are, random and_____uncertainties

---

Answer

systematic

Question

If a piece of rod weighs 1461lb the mass in kilogram is_____

Answer

66.226kg

Question

Laboratory instruments used to determine the volume of liquids include these except_____

Answer

pyramid sphere

Question

Temperature is measured by means of a_____

Answer

thermometer

Question

Gram is the basic unit for measuring the_____ of an object

Answer

mass

Question

The basic units of area is_____

Answer

Square metre

Question

A negative exponent tells the number of times 1 is divided by_____

Answer

10

Question

A reasonable agreement between average and true value shows that the measurements have_____

Answer

accuracy

Question

A 3 – dimensional solid with six rectangular sides is known as_____

Answer

cuboids

Question

A measure of rotation or turning and its measured in degree is refed to as_____

Answer

angle

Question

Two or more triangles are said to be similar not congruent, when their_____ are alike

A reasonable agreement between average and true value shows that the measurements have_____

Answer

accuracy

Question

A 3 – dimensional solid with six rectangular sides is known as_____

Answer

cuboids

Question

A measure of rotation or turning and its measured in degree is refed to as_____

Answer

angle

Question

Two or more triangles are said to be similar not congruent, when their_____ are alike

---

Answer

shapes

Question

A_____ triangle possesses three unequal sides

Answer

scalene

Question

A right angle is formed when a vertical line meets or cuts a_____line

---

Answer

horizontal

Question

The Kelvin scale is the temperature scale used in the_____ system

---

Answer

international

Question

The base units for measuring lengths and distances in the metric system are the_____

Answer

meter

Question

There are two aspects of measurement, the measured number and a_____of measurement

---

Answer

unit

Question

When comparing the individual measured values to the average result, if the differences is relative, then measurements have_____

Answer

precision

Question

The degree of agreement between measured value and accepted true value of a quantity is called_____

Answer

accuracy

Question

Different kinds of straight lines that exist include the following except_____

Answer

obtuse

Question

The line that runs straight from top to bottom of paper or the planar or facing the north is called_____

Answer

vertical

Question

There are two main types of uncertainties, these are, random and_____uncertainties

---

Answer

systematic

Question

If a piece of rod weighs 1461lb the mass in kilogram is_____

Answer

66.226kg

Question

Laboratory instruments used to determine the volume of liquids include these except_____

Answer

pyramid sphere

Question

Temperature is measured by means of a_____

Answer

thermometer

Question

Gram is the basic unit for measuring the_____ of an object

Answer

mass

Question

The basic units of area is_____

Answer

Square metre

Question

A negative exponent tells the number of times 1 is divided by_____

Answer

10

Question

A reasonable agreement between average and true value shows that the measurements have_____

Answer

accuracy

PED313

Question

The transfer, giving out, or exchange of children among families is known as

Answer

Child Fostering

Question

Who provides children the opportunity to acquire indigenous knowledge?

Answer

Parents and other adults

Question

Which tool of child rearing does the child learn unconsciously and without any formal training?

Answer

Language

Question

Children benefits from these activities in the course of rearing except

---

Answer

Facilitate the child`s interaction with others inside the home- within the community, at school, etc.

Question

Child rearing practices, patterns and beliefs are usually based on a ---------- understanding of what children need and what they are expected to become later in life.

Answer

Culturally-bound

Question

Which of the parenting models looks at a child's internal world and derives the sources of parenting success from there?

Answer

Parenting for everyone

Question

A family model where children are expected to explore their surroundings with protection from their parents is known as

Answer

Nurturant parent model

Question

When parenting is considerd as a single, narrow minded method of parenting, without fulfilling the range of parental duties, the method is known as

Answer

Rules of traffic model

Question

The process of guiding the child through verbal instructions and actions to acquire some behavioural traits and skills is known as

Answer

Direct learning

Question

What is the process by which an infant becomes an acceptable member of his/her society?

Answer

Socialization

Question

hich of these is among one of the most important relationships to the child?

Answer

Relationship between the child and the family

Question

Who defined a child as any person below the age of 18 years, which will thus include adolescents?

Answer

Nigeria’s Child Rights Act 2003

Question

A child’s cultural and historical background is expected to be a reflection of his or her ------- and practices which determine his or her immediate environment and how he or she functions within it

---

Answer

Cultural beliefs

Question

What type of culture relates to people’s forms of social organization in terms of how they interact and organize themselves in groups?

Answer

Social

Question

One of these is not a category of culture

Answer

Products

Question

What is defined as the knowledge, language, values, customs, and material objects that are passed from person to person and from one generation to the next in a human group or society?

Answer

Culture

Question

The social environment of an individual is the cult ure that he or she was educated and/or lives in, and the people and institutions with whom the person interacts.

Answer

Social environment

Question

One of these is not a layer of the atmosphere

Answer

The biosphere

Question

What type of environment is characterized by solid, rocky crust covering entire planet.

Answer

Lithosphere

Question

Who defined environment as “totality of the nature and natural resources as well as the context within which they exist and interact"?

Answer

Okidi (2003)

Question

Graphics

Question

Generalizability of research findings is dependent on all these EXCEPT

Answer

fundamental importance of the population

Question

A very serious offence in academics is to copy someone's work without acknowledging him. This is called?

Answer

plagiarism

Question

Which of these citations is best situated after a quotation?

Answer

(Ogu,2015: 10)

Question

Which of these is NOT a type of hypothesis?

Answer

derived and systematic

Question

Which of these is used to specify the boundaries to be covered in a research study?

Answer

delimitation

Question

In a research report, the section where you provide an overview of your intention for the study is called?

Answer

purpose

Question

Research is regarded as a process of seeking solutions to problems. Which of these methods is used in doing this?

Answer

scientific methods

Question

The type of research which uses both qualitative and quantitative approaches is called?

Answer

eclectic method

Question

Which of these is NOT a primary source of data in historical research?

Answer

books

Question

The most difficult step in the research process is?

Answer

identification of a problem

Question

Which of these is NOT an independent variable?

Answer

academic achievement

Question

The type of research which seeks to establish the type of relationship between two or more variables is called?

Answer

correlational research

Question

The two types of developmental research are?

Answer

cross sectional and longitudinal

Question

The process of authenticating historical information is called?

Answer

criticism

Question

Which type of research design would you apply when your research topic is on "The effect of------?

Answer

experimental

Question

Data treatment in order to summarise them for meaningful interpretation in research is called?

Answer

data analysis

Question

In a research study the knitty- gritty work aspect is called?

Answer

methodology

Question

In a research study, the plan or framework of action is called?

Answer

design

Question

Which of these is a probabilitysampling method?

Answer

cluster

Question

All chemistry teachers in Kano state secondary schools can be described in research as?

Answer

population

EDU321

Question

One of these is not a physiological need

Answer

Safety

Question

Which of these is a law governing learning

Answer

Law of exercise

Question

‘Man is a philosopher before he is a psychologist’ this assertion was made by

Answer

Travers

Question

One of the factors that aided the learning process in Thorndike’s experiment is

Answer

The hungry state of the organism

Question

One of these makes an individual to want to strive to overcome challenges, improve oneself, and attain excellence

Answer

Achievement motivation

Question

In cognitive theory of motivation, perception of the extent to which an individual can influence the outcome of a situation is referred to as

Answer

Controllability

Question

A student who fails an exam and attributes the failure to teacher’s difficult questions is said to be

Answer

External locus person

Question

According to Aristotle, learning is

Answer

Association of ideas

Question

Most aspects of human behaviour are

Answer

Instinctual

Question

The organism in Seligman’ experiment could not avoid the shock stimulus because

Answer

It had previously learnt that it had no control over the shock

Question

When the acquisition of new learning works backward to impair the retention of the previously learnt material, it is known as

Answer

Retroactive inhibition

Question

Which of these is not part of basic needs

Answer

Esteem

Question

Transfer of learning is said to be positive

Answer

When something previously learned benefits performance or learning in a new situation

Question

Which of these does not describe what learning means

Answer

Learning is a relatively permanent change in behaviour brought about as a result of maturation

Question

Consider the cases between Mark and Dele. Mark arrives at work promptly at 8.00 a.m. and seldom leaves before 4.00 p.m., always arrives at meetings on time, and often completes assigned work early. Dele works the minimum hours from 9 to 4p.m., and takes long lunches. He is often late for meetings and frequently requests extensions to complete assignments. The principal difference between these two people is in their

Answer

levels of achievement motivation

Question

The role that reinforcement plays in observational learning is t

Answer

Enhance the learning process

Question

We are motivated intrinsically when

Answer

We do something because we experience internal compelling force to do it

Question

In Skinner's experiment, the unconditioned stimulus (UCS) functions as a reinforcer because

---

Answer

It strengthens and maintains the bond between the CS and CR

Question

The schedule in which every response is reinforced is known as

---

Answer

Continuous schedule

Question

Which of these statements is INCORRECT regarding the tenets of insightful learning

---

Answer

Complex situations can be tackled through the process of trial and error than insight

Question

One of these is not a physiological need

Answer

Safety
