Question

Which of these is the reason for studying political science

Answer

all of the above

Question

The capacity of the state officials to influence the behaviour of individuals or groups in a country by the use of threat or sactions is _____

Answer

political power

Question

_____ is a body of doctrines dealing with the nature of human beings as well as the origin forms, behaviour and purpose of the state

Answer

political theory

Question

the lecture method is a bad method when _____

Answer

teacher talks only

Question

In a lesson plan, the setting involves the following execpt

Answer

graph

Question

In a lesson plan which of these comes first

Answer

setting

Question

Evaluation process usually come at _____

Answer

all of the above

Question

political culture is not given at birth, it has to be acquired over a period of time, the process by which an individual acquires this is kown as _____

Answer

political socialisation

Question

The right to rule regardless of the ruler is known as _____

Answer

authority

Question

_____ is a set of political institutions which responsibility is to regulate the affairs of the people in a nation

---

Answer

government

Question

Which of the teaching method is more teacher centered

Answer

Lecture method

Question

All the following are parts of curriculum that are called into play EXCEPT

Answer

all of the above

Question

Which of these is not among the major student-oriented methods of teaching political science

---

Answer

none of the above

Question

Work done outside the classroom is called _____

Answer

Field work

Question

The detailed NECO syllabus consist of _____ parts

Answer

24

Question

Curriculum objectives may be derived from studies of the society, the learnes as well as _____

Answer

Subject itself

Question

According to (Banks, 1977) political system cconsists of _____ component

Answer

6

Question

Radio and records are example of____ learning

Answer

audio visual

Question

Which of these is not an example of none-print materials

Answer

costumes

Question

_____ is the oldest type of discovery method

Answer

Socratic method

Question

Which of these is the reason for studying political science

EDU764

Question

All the following are discussion types could be used by Mr Cole to teach geogralgy EXCEPT

Answer

data anlysis

Question

What question allows for many possible answers?

Answer

Divergent

Question

Which of the following terms emphasises the complication level of the media?

Answer

Sophistication

Question

In preparation for using a media in teaching-learning process, which of the follwing is vital?

Answer

teacher self-preparation

Question

Which of the following is NOT a criteria for seleting approprate teaching methods for geography?

Answer

formulation of general objectives

Question

Project and activity method of teaching geography are similar in the sense that

---

Answer

they encourage learners by doing

Question

The clarity and specificity in the statement of objectives assist teachers to decide more easily the appropriate

---

Answer

teaching techniques and methods

Question

The main features of general objectives are that they

Answer

not achievable

Question

The lesson note preparation guide lines deals with age, gender and learners' disability is

---

Answer

learners' characteristics

Question

The following are various types of lessons to be taught in geography EXCEPT

Answer

Content

Question

Which of the following is NOT a unit in map works?

Answer

Mineral resources

Question

On what theme of secondary one curriculum do fold, block and volcanic mountains belong

---

Answer

Major land forms

Question

All these are appropriate recommendations for the implementation of geography in secondary school curriculum EXCEPT

Answer

the school timetable should be rigid for at least one period in geography

Question

Any justification for a curriculum plan depends on

Answer

adoption of recognisable persepective

Question

External processes in physical geography contain

Answer

weathering and mass movement

Question

Geography is referred to as jack-of-all-trades but masters of many because

---

Answer

It borrows from different dsciplines within the school curriculum

Question

Which of the following is NOT a function of educational objectives?

Answer

Indication of the level of acceptable performance

Question

What goal is derived from the breaking down of the mediate goal into smaller components?

Answer

Proximate

Question

The idea that the destiny of man was irrevocably connected with the Natural environment is

---

Answer

geographical determinism

Question

Futa Jallon Highland is in

Answer

West Africa

Question

Question

WWW means

Answer

World Wide Web

Question

In which country did the idea of Internet originate from?

Answer

US

Question

The following are computer tutor applications except _____

Answer

DOS

Question

ARPA means

Answer

Advanced Research Project Agency

Question

The following are areas of benefits of the Internet except _____

Answer

Typing

Question

The following is an advantage of computer based learning

Answer

students learn at their pace

Question

In computer lesson preparation, computer is any of the following except _____

Answer

Task

Question

In selecting a software, the focus should be on

Answer

how well the software appeals to students

Question

Google was developed at

Answer

Stanford University

Question

Spreadsheet should be considered for the following except _____

Answer

Painting

Question

Who writes the system software?

Answer

Manufacturesrs

Question

Who developed the Boolean Algebra

Answer

george Boole

Question

The following are types of LOGIC GATES except _____

Answer

BUT

Question

The following is a function of the CPU

Answer

carries out calculation

Question

Which of the following is referred to as the computer brain

Answer

Central Processing Unit

Question

The following operating system (OS) is used in a network environment

---

Answer

NOVELL

Question

The following are functions of the CPU except ___

Answer

Acts as storage for data

Question

The following are parts of system unit except _____

Answer

Keyboard

Question

What is the full meaning of ROM

Answer

Read Only Memory

Question

What is the full meaning of RAM

Answer

Random Access Memory

Question

WWW means

EDU756

Question

When a theory survives many tests and becomes accepted as true, scientist refer to such theory as _____

Answer

Law

Question

Which of these is not correct:Science is about-

Answer

Conjectures about the future

Question

The science manpower project (1960) provides a definition of science that is most credible because:

Answer

Its main focus is about the dual nature of science

Question

Processes of science entails;

Answer

Stating problems, hypothesizing, designing experiments, interpreting data and synthesizing theories

Question

In terms of numerical figures, science has dual nature which means it is divided into

Answer

2 parts

Question

Science is basically divided into

Answer

process and product

Question

A principal characteristic of science is that it is

Answer

dynamic

Question

Which of the following statements best describes science?

Answer

science is both a body of knowledge and the process of acquiring and refining knowledge

Question

Identify the wrong point. The value of science that must be taught to our students are

---

Answer

the law of conservation of mass

Question

Karl Popper supports the view that

Answer

error will be systematically eliminated by the operation of critical debates in science

Question

The first Government College in the Northern Nigeria was established in _____

Answer

Kaduna in 1938

Question

The _____ of science include knowledge in the form of concept, facts, generalizations, principle, rules and laws

---

Answer

Product

Question

Which of these components is not inclusive in the definition of science.
_____

Answer

context

Question

The first primary school in Nigeria was established by the _____ in the year _____

Answer

Methodist church, 1843

Question

The first secondary school in Nigeria was established by the _____ in the year _____

Answer

CMS, 1959

Question

The development of science education in Nigeria was tied to the work of the colonial masters twofold agenda namely: _____ and _____

Answer

trade and evangelism

Question

The philosophers who initiated speculation and later logic as tools for systematic reasoning and the explanation of events and phenomenon in nature are from _____

Answer

Greeks philosophers

Question

_____ greatly influenced by the early ideas of Science as an enterprise as practised today.

Answer

Greeks philosophers

Question

_____ was the science that was majorly regarded as conceptual science because it was not based on sound data.

Answer

Greeks science

Question

_____ was the first to conceive the atomic theory and the first to use the word atom.

Answer

Democritus (470 - 380 BC)

Question

When a theory survives many tests and becomes accepted as true, scientist refer to such theory as _____

4

Question

The last stage of Piaget intellectual development is

Answer

12 years and above

Question

logico-mathematical begins at what stage of development?

Answer

third stage

Question

At what stage of Piaget does thinking in a reverse way begin in a child?

Answer

third stage

Question

The first stage of intellectual development of a child is age ...

Answer

0-2

Question

Piaget was a researcher from ....

Answer

Frencch-Swiss

Question

Piaget was a ...

Answer

psychologist

Question

to teach the properties of a squarem the entry behaviour requared is...

Answer

counting

Question

The pre-requisite behaviour necessary for the new concept to be learnt is called ....

Answer

entry behaviour

Question

__ sheme of work is arranged on ___ basis

Answer

weekly

Question

What is the educational objective that has to do with psychological behaviour of a child?

Answer

affective domain

Question

The specific classroom instructional objective is called

Answer

behavioral objectives

Question

What does CESAC mean?

Answer

Comparative Education Studies and Adaptation Centre

Question

Which body is responsible for the development of secondary school Mathematics curriculum?

Answer

NERDC

Question

Blaise Pascal published his work in ....

Answer

Essay Comques

Question

Archimedes discovered how to find the area of a/an

Answer

ellipse

Question

____ contributed trimendiously to the study of conics

Answer

Apollonius

Question

Deductive geometry was discovered by....

Answer

Thales of Miletus

Question

The first book was written by....

Answer

Amos

Question

How many digits are there in Hindu-Arabic numerals?

Answer

10

Question

Bruner maintained that learning in general depended on ---- factors

---

EDU754

Question

Which of the following psychologists is not an advocate of psychological theories of learning?

Answer

Pierre Duhem

Question

What is the full meaning of ESCP?

Answer

Earth Science Curriculum Project

Question

What approach is used in the NISP?

Answer

Child centred approach

Question

What is the full meaning of UNESCO?

Answer

United Nations Educational, Scientific and Cultural Organisation

Question

Which of the following is a not primary curriculum reform in science education?

Answer

Ogun State Primary Science Project

Question

Which of the following scientists is not an advocate of scientific law?

Answer

Dalton

Question

Scientific law is

Answer

when a theory survives many tests and becomes accepted as true

Question

The processes of science are as follows except

Answer

dictating

Question

The rationale for training integrated science teachers is ----------

---

Answer

increasing students’ disagreement in superstition

Question

The objectives of teaching integrated science include the following except

---

Answer

To identify those who have the energy to carry responsibilities in science

Question

The roles of integrated science teacher include the following except

---

Answer

Not be to employed ecological approach in the teaching of integrated science

Question

What is guided discovery method of teaching?

Answer

A method where students are required to go through activities for manipulative skills

Question

NISP was developed by STAN in

Answer

1970

Question

The main cause of the lack of uniformity in teaching of science in the past is

---

Answer

non-availability of trained science teachers

Question

Define a module

Answer

A module is defined as a learning package

Question

Characteristics of integrated science include the following except

---

Answer

The course usually serves a specialist’s education function

Question

What is the merit of organizing concepts around themes?

Answer

A deliberate way of removing the subject matter boundaries

Question

What is the full meaning of CBA?

Answer

Chemical Bond Approach

Question

The following are fields in the study of science except

Answer

philosophy

Question

The NSSSP was developed in -------- by the CESAC

Answer

1970

Question

Which of the following psychologists is not an advocate of psychological theories of learning?

Answer

Pierre Duhem

Question

What is the full meaning of ESCP?

Answer

Earth Science Curriculum Project

Question

What approach is used in the NISP?

Answer

Child centred approach

EDU750

Question

_____ of a student while he is performing a task can provide useful information concerning his attitudes about the task

---

Answer

observation

Question

As a science educator, which of the following statement is not correct?

Answer

what a person knows is a good predictor of what the person can do

Question

The primary way that teachers obtain data concerning their students' attainment is by ____

Answer

daily contacts with students

Question

which is an example of a project topic?

Answer

none of the above

Question

Identify from the following the statement that best describes project method?

Answer

it is a planned activity in which students are allowed to investigate on their own.

Question

Which of the following statement is not correct in teaching?

Answer

In order to elicit more students' response, the teacher should lead the discussions

Question

One of the following is true?

Answer

background knowledge is necessary for discussion to be successful

Question

In discussion, the role of the teacher is _____

Answer

direct students' views towards lesson objectives

Question

One of the following is a reason why Biology teachers should avoid the use of lecture method

---

Answer

it does not sharpen communication skills

Question

Which of the following is not true of lecture method?

Answer

students are active participants

Question

A diagrammatic representation of ideas using arrows to indicate their relationship so as to present new knowledge structure is _____

Answer

concept mapping

Question

One of the following is not acceptable

Answer

A laboratory is a room or building set aside stricly for pathological investigations

Question

A display or an exhibition usually carried out by the teacher while the students watch is _____

Answer

concept mapping

Question

Field trip should be encouraged for the following reasons except _____

Answer

none of the above

Question

Which of the following is not a limitation of field trip?

Answer

it helps students to understand man's relationship with his environment

Question

When assessing manipulative skills, which of the following should be looked out for?

Answer

efficient use of working tools

Question

Non-cognitive measures which can be used to asses emotional status of students in various contents are _____

Answer

affective measures

Question

Which technique is said to be very important in assessing processes?

Answer

Observation

Question

_____ of a student while he is performing a task can provide useful information concerning his attitudes about the task

---

Answer

observation

Question

which of the following is not correct in education?

Answer

what a person knows is a good predictor of what the person can do

Question

_____ of a student while he is performing a task can provide useful information concerning his attitudes about the task

---

Answer

observation

Question

As a science educator, which of the following statement is not correct?

Answer

what a person knows is a good predictor of what the person can do

Question

The primary way that teachers obtain data concerning their students' attainment is by ____

Answer

daily contacts with students

Question

which is an example of a project topic?

Answer

none of the above

Question

Identify from the following the statement that best describes project method?

Answer

it is a planned activity in which students are allowed to investigate on their own.

Question

Which of the following statement is not correct in teaching?

Answer

In order to elicit more students' response, the teacher should lead the discussions

Question

One of the following is true?

Answer

background knowledge is necessary for discussion to be successful

Question

In discussion, the role of the teacher is _____

Answer

direct students' views towards lesson objectives

Stimulus discrimination

Question

All these theories employed experiments with some kinds of animals to observe the nature and processes of learning except ____.

Answer

Hall's theory of learning

Question

Some examples of learning S -R Theories include the following except ____.

Answer

Tolman's sign

Question

The phrase, ____ of "Educational Opportunity" is problematic to deal with. It is an evasive phrase that needs lots of analyses and such analyses may be confusing.

Answer

Equality

Question

____ involves clarity in the use of language.

Answer

Reasoning

Question

Repeated presentation of food made the animal to repeat behaviour. This implies ____.

Answer

Reinforcement

Question

____ is devoid of legal or religious sanctions and is by far more open than any other stratification system.

Answer

Class

Question

____ requires purpose and willingness to sacrifice some pleasures for a greater future gain.

Answer

Mobility

Question

____ efforts are made to bridge the gap between Northern and Southern Nigeria.

Answer

All of the above

Question

____ was defined as the science of consciousness on the basis that human beings are conscious of their external environment thence.

Answer

Psychology

Question

The followings are forms of learning except ____.

Answer

Non-verbal learning

Question

____ of Education teaches the student the purposes of education as derived from the opinions of the people.

Answer

Philosophy

Question

____ philosophy seeks to establish standards for appraising art.

Answer

Prescriptive

Question

____ philosophy tends to provide an insight of what education is and the role education should perform at the various stages of growth.

Answer

Education

Question

____ is a process, a product, and a discipline.

Answer

Education

Question

The ____ is a combination of the former modes.

Answer

Analytic Philosophy

Question

____ seeks to discover and to recommend principles for deciding what actions and qualities are most worth- while and why they should be so.

Answer

Prescriptive Philosophy

Question

The truth is that teachers are born and____ .

Answer

Made

Question

Psychology Contributions to Theory of Education in the followings except ____.

Answer

Logical analysis of language and the clarification of the meaning of words and concepts.

Question

____ is viewed as that complex whole which include knowledge, beliefs, arts, morals, laws and any other capabilities acquired by man as a member of a setting.

Answer

Culture

Question

Pavlov observed that his dog salivated in the presence of a small red bell rather than other bells. This implies ____.

Answer

Stimulus discrimination

Question

EDU733

Question

Details of the procedure of the lesson are _____

Answer

Itemized

Question

_____is the next stage in the preparatory activities preceding teaching

Answer

The lesson plan

Question

Which one of these is odd?

Answer

Learning

Question

The teacher should endeavour to employ _____ as the lesson proceeds

Answer

step by step approach

Question

The term illustration is commonly applied to the effective use of --------.

Answer

teaching aids

Question

The blackboard used in most schools are_____

Answer

the chalk

Question

To be able to achieve the aims of teaching one must have a ____of what the syllabus and the scheme of work entail.

Answer

good knowledge

Question

_____in any subject is a clear and orderly statement of the work the teacher proposes to do in a given period.

Answer

Scheme of work

Question

A syllabus is a _____ of the work planned to be done in the course of a year with each class in each subject

Answer

broad outline

Question

The gifted and the talented are identified through the use of _____

Answer

standardized intelligence tests

Question

Behaviour modification depends on _____to effect the desired changes in learners

Answer

classroom management

Question

Programme instruction is the _____ programmes that are presented in carefully structured and the steps depend on the individual student and the nature of materials to be learned.

Answer

Learning

Question

_____of study means ways or approaches to studying

Answer

Methods

Question

_____are no doubt very useful in facilitating learning

Answer

Instructional Materials

Question

Education is about acquisition of knowledge,skills, attitude and values that make citizens to become productive and well behaved members of a _____

Answer

Society

Question

Effective classroom control is largely a function of _____relationships.

Answer

teacher-student

Question

The following are related terms except?

Answer

EDU723

Question

The two types of developmental research are?

Answer

cross sectional and longitudinal

Question

Which type of research design would you apply when your research topic is on the 'Perception of------?

Answer

survey

Question

The two methods of authenticating historical data are called?

Answer

external and internal criticisms

Question

The two characteristics that distinguish experimental studies from all others are?

Answer

randomization and manipulation of variables

Question

Which of these is an independent variable?

Answer

academic achievement

Question

Research conditions giving answers to some questions. Which of these is NOT among the questions?

Answer

why will it be done?

Question

In a research study the knitty- gritty work aspect is called?

Answer

methodology

Question

In a research study, the plan or framework of action is called?

Answer

design

Question

In which of these populations would you want to use all the members as research subjects?

Answer

all traditional rulers in your local Government?

Question

Which of these is a non- probability sampling technique?

Answer

cluster

Question

The most difficult step in the research process is ?

Answer

identification of a problem

Question

Which of these is NOT a secondary source of data in historical research?

Answer

diaries

Question

The type of research which uses both qualitative and quantitative approaches is called?

Answer

eclectic method

Question

A very serious offence in academics is that copying somebody's work without acknowledging him as the source is called?

Answer

plagiarism

Question

In a research report, the section providing an overview of the intention for the study is called?

Answer

purpose

Question

Which of these is used to specify the boundaries to be covered in a research study?

Answer

delimitation

Question

Which of these citations is best situated after a quotation?

Answer

(Ogu,2015: 10)

Question

If A = B. What type of hypothesis applies?

Answer

Ho

Question

Hypotheses are classified as i. scientific, ii. Statistical iii. Inductive iv. Deductive.Which of these is a statement about an unknown parameter.

Answer

ii only

Question

Research is regarded as a process of seeking solutions to problems. Which of these is used in doing these?

Answer

scientific methods
