GST203

TMA1 10/10

Which of the following definitions is synonymous to Lexical definition?

- Vocabulary
- Intentional
- Theoretical
- **Dictionary**

What is the Latin name for the fallacy of Appeal to Force?

- Argumentum ad Veracundiam
- **Argumentum ad Baculum**
- Argumentum ad Missericordiam
- Argumentum ad Populum

That which is defining in a proposition or statement is known as

- Definer
- **Definiens**
- Definienedum
- Definiensus

What fallacy is committed when in an argument, the premises makes us to doubt the conclusion of the argument?

- Uncommon
- **Relevance**
- Composition
- Division

How would you describe the Era of the Ionians in philosophy?

- Foundation
- **Era of pregnancy**
- Origin
- Era of delivery

What law of taught will apply to the statement “Segun is Segun and not Bola”

- Equality
- Sameness
- **Identity**
- Repetition

How would you describe the argument “Jumai is a tailor or Imam is a scholar, Jumai is not a tailor, therefore, Imam is a scholar?

- Categorical syllogism
- Constructive syllogism
- Destructive syllogism
- **Disjunctive syllogism**

Which of the following is true about defining of philosophy?

- Singular
- **Numerous**
- Definite
- Universal

Identify a Modus Ponens proposition in the options below

- P v q, p, therefore q
- If p the q, not p, therefore not q
- **If p then q, p, therefore, q**
- P v q, not p, therefore q

What is the function of a language that is directed towards producing an action?

- Emotive
- Instructive
- Active
- **Directive**

TMA2 5/10

Who named philosophy as the “first science”?

- Democritus
- **Aristotle**

- Plato
- Socrates

The idea of indubitable truth is found in philosophical ideas of

- Aristotle
- Immanuel Kant
- **Rene Descartes**
- Heraclitus

The Medieval age of philosophy was mostly characterised by

- **Religious ideas**
- Doctrinal ideas
- Philosophical ideas
- Political ideas

- **Appeal to pity**
- Argumentu ad veracundiam
- Petito pricipii
- Appeal to force

What was the focus of the major questions on the mind of the three Ionian thinkers?

- Source of reality
- Source of philosophy
- **Foundation of the earth**
- Source of beings

Which of the following was not part of Aristotle’s initial writings?

- Logic
- **Biology**
- Metaphysics
- Physics

Who among the under listed is NOT a member of the Greek philosopher scientists?

- Pythagoras

- Epicurean
- Plato
- **Democritus**

The contemporary Natural Science discipline was birthed by

- Physics
- Scientific studies
- Nature
- **Natural philosophy**

Which of the following supports the empiricist’s position on the acquisition of knowledge?

- Logic
- **Experience**
- Epistemology
- Reason

The likes of Chemistry, Physics and Biology evolve from

- Pure science
- Study of Nature
- **Natural science**
- Natural philosophy

TMA3

One germane nature of philosophy is

- Logical
- Sceptical
- Open-endedness
- Doubtful

Which of the following stands as the source of all things in Anaximenes philosophy?

- Air
- Fire

- Water
- Apeiron

One of the following is NOT a traditional branch of philosophy

- Metaphysics
- Aesthetics
- Logic
- Epistemology

Economic belong to the group of

- Single Social Science
- Double Social Science
- Mixed sciences
- Natural sciences

The set of scholars who do not accept issues hook-line and sinker are known as

- Philosophers
- Empiricist
- Thomas
- Sceptics

Whose philosophical work was used as an encyclopaedia in the middle age?

- Plato
- Aristotle
- Socrates
- Karl Marx

Who among the following is believed to have discussed almost all disciplines in his philosophical treatise?

- Karl Marx
- Aristotle
- Socrates
- Plato

Who did not document his philosophical ideas during his lifetime?

- Descartes

- St Augustine
- Plato
- Aristotle

Which of the following was central to philosophical discussions in the ancient time?

- Religion
- Racism
- Race
- Motion

The two parent disciplines that broke away from philosophy are

- Political science and Physics
- Natural science and social science
- Ethics and politics
- Religion and Culture

TMA1 10/10

One of the factor that is making open distance learning an indispensable element in Nigeria is ____

- Life-long learning
- **Lifelong learning**
- Lifelong education
- Life-long education

The assessment that focuses on supporting metacognitive development in learners is ___

- Assessment of Learning
- **Assessment as Learning**
- Assessment for Learning
- Assessment in Learning

Learning environment encompasses ONE of the following

- **Modes of learning**
- learning ability
- Mode of teaching
- Skills acquisition

An ill learner is barred by what type of learning barrier

- Physical barrier
- Ecological barrier
- **Physiological barrier**
- Environment barrier

Flexibility too can be examined in areas like place, time and ___

- space
- signal
- speed
- **pace**

The primary medium of learning considered in laguage skill is ____

- reading

- speaking
- writing
- **listening**

When teaching and learning process involves an interaction among the teacher, the students and the content is called ___

- teacher's centred
- learner-teacher centred
- **learners' centred**
- teacher-learner centre

Selective reading which involves the reading of major ideas is referred to as

- **Skimming**
- Previewing
- Scanning
- Matching

There are two ways students listen in the classroom either in general or ___

- for reason purpose
- general purpose
- **for specific purpose**
- for instructional purpose

Distance in time can only occur when _____

- learners and teachers are in the same state
- learners and teachers are in the same country
- **learners and teachers are not in the same country**
- learners and teachers are not in the same state

___ Listening involves listening for pure pleasure and for enjoyment

- Comprenship
- **Appreciative**
- Adaptive
- emphatic

Which of these is NOT part of interactivity?

- learner-teacher
- **Teacher-learner**
- learner-learner
- Learner-to-content

Learning environment encompasses ONE of the following

- learning ability
- Skills acquisition
- **Modes of learning**
- Mode of teaching

The assessment that focuses on supporting metacognitive development in learners is ___

- Assessment of Learning
- Assessment for Learning
- **Assessment as Learning**
- Assessment in Learning

Which of these is NOT part of interactivity?

- Learner-to-content
- learner-learner
- learner-teacher
- **Teacher-learner**

Which of these is NOT a technique for effective study?

- Watching videos
- Reading with music
- **Divulging information**
- Summarising concepts on note cards

****

In ODL the three demographic elements include gender, age and ___

- colour

- [x] **employment**
- [ ] birth
- [ ] status

The last ‘R’ in the acronym SQ3R denotes?

- [ ] Recite
- [ ] Renew
- [ ] Recall
- [x] **Review**

Which of the following best explain synchronous learning? ******

- [ ] Facilitation
- [ ] Distance
- [ ] Interactive
- [x] **Real time**

When the students make use of technology to access the instructional content is referred to as ___

- [ ] technology-learner
- [ ] learner-ICT
- [x] **learner-technology**
- [ ] ICT-learner

The third global stage of distance education was characterized by _____

- [ ] Computer stage
- [x] **Computer Technology Stage**
- [ ] Technology Stage
- [ ] Information Technology stage

The full meaning of ICT is ___ ****

- [ ] Information Communication Transfer
- [x] **Information and Communication Technology**
- [ ] Information and Communication Transfer
- [ ] Information Communication Techology

Which commission anticipate the creation of open and distance learning?

- The National Assembly
- The National Commission on Education
- The National University Commission
- **The National Policy on Education**

The person who learns by physical activity is a/an?

- Aural learner
- **Tactile learner**
- Audio learner
- Active leaner

The place where we can find the most successful open universities in the world is in ____ countries

- **Asia**
- America
- Europe
- Africa

The mode of operation in National Open University of Nigeria is referred to as ___

- Double
- Tripple
- **Mono**
- Dual

******

In online education teacher serves as ___

- technologist
- administrator
- **instructor**
- educator

Which of these is recognised as one the functions of the teacher as an instructor?

- correcting

- **motivating**
- assessing
- teaching

u-Learning simply means ___

- unlimited learning
- utmost learning
- **ubiquitous learning**
- utility learning

The four basic language skills include listening, speaking, writing and ____

- communicating
- **reading**
- tracing letters
- spelling

TMA2 8/10

The process of making a value judgement about the worth of a student's performance is referred to as __

Evaluation

The type of listening that is marked by the intention to learn is known as

- Academic listening
- Analytical Listening
- **Appreciative Listening**
- Attentive listening

The preferable time for any students to ask question during teaching /interaction is

- **When the teaching is going on *******
- Before the teaching ended
- When the teaching start
- When the teaching has ended

In project writing, what chapter do you appraise your work

- chapter one
- **chapter two**
- chapter three
- chapter four

In what chapter of a project write up can Research Design be found?

- Chapter One
- **Chapter Three**
- Chapter Four
- Chapter Two

What is current number of approved dual mode institutions?

- 5
- 10
- 15
- **20**

Advantages of Learning through reading include vocabulary expansion, improved language skills and ____

- fluency in speaking
- expansion of reading
- **exploration of new ideas**
- imroveved writing skill

____ refers to the confirmation of certain characteristics of an object, person, or organization

- Authorisation
- Freedom
- Liberation
- **Certification**

Which of the following requires persuasiveness and validity?

- Narrative Essay
- **Expository Essay**
- Argumentative Essay
- Descriptive Essay

Your reading will be more memorable if you ___ along the reading

- **question**
- digest
- memorise
- finish

___ refers to as ability to recognize and use individual sounds to create words

- Phonetics
- **Phonemics**
- Sound mix
- Sound track

What you do first before reading a book is _____

- **identify**
- survey
- scan
- purchase

SQ3R is an acronym for the five stages of ____

- writing process
- speaking process
- **reading process**
- communication process

When checking for words, sentences, paragraphs and illustrations that are irrelevant in writing process is referred to as ____

- **Editting**
- validating
- Correcting
- Vetting

Which of these examinations did not hold at the study centres?

- pen-on- paper
- Seminars and SIWES defence

- **computer marked**
- E-examination

A Verbal learner is also referred to as __

- Study and writing
- Listens and study
- Writing and remembering
- **Reading and writing**

___ is the feedback from the student to the instructor about the student's learning

- **Assessment**
- Examination
- Evaluation
- Result

The full meaning of SMART is ____

- Specific, Measure Attainable Relevant and Timely
- **Specific, Measurable, Attainable, Relevant and Timely**
- Specific Measure Attainable Relevant and Time
- Specific, Measurable, Attainable, Relevant and Time

One of these is an individual study activity____

Note making

All students in online learning environments must possess the following EXCEPT____

self-expression

The essay that tell a story is called ___

Narrative Essay

The scope of evaluation involves____

value judgement

A compromise in the mental/physical state of an individual implies____

Physiological Barriers

The four basic of writing are Descriptive, Narrative, Argumentative and __

Expository

The first support service of the university that response to students' issues is___

Faculties and Departments

The second mode of open and distance learning in Nigeria is known to be __

Correspondence and Open Studies Institute

To formulate questions that will guide your reading the following should be considered EXCEPT __

length of the material for reasonable manner

TMA3 10/10

Which of these is referred to as formative assessment?

Assessment for learning

__ serves as a source of reflection and pondering upon what has been taught or learnt.

self-Assessment

Which of these gives room for chronological comparisons or contrast of ideas and topics?

Charting method

___ is a unit of thought comprising one or more sentences

Paragraph

The ability to read with speed, accuracy and an understanding of the expressions make you a ___

fluency person

__ was the first to offer degrees through distance education

The University of London

The second stage of development of distance education is referred to as __

Sound and Video Signal Stage

Which of these is referred to as formative assessment?

Assessment for learning

The first Nigerian University to operate dual modes of open and distance learning system is _

University of Lagos

How many chapter can you find in a research project?

- 7
- 4
- **5**
- 6

The concept that has its scope evolving around value judgement is ____

- Classification
- Value Placement
- Assessment
- **Evaluation**

_____ facilitates learning through the mediation of the standard and uniform elements of course materials and learning resources for individual settings

- **Cognitive Function**
- Affective function
- Psychomotor function
- Constructive function

____ with peers in the discussion groups can be an effective way to motivate learners to stay on task

- Presentation
- Conjunction
- Practical
- **Collaboration**

What to aviod during exams include poor presentation, using time badly and ____

- seeking assistance from the peers
- seeking information from the peers
- **not using material from the course**
- using material from the course

The main purpose of examination is to measure the extent of _____ in terms of educational objectives

- **achievement of learners**
- instructional delivery
- study habbit of learners
- programme compliance

Pruning your write up means_____

- correcting
- vetting
- **Editing**
- formating

____ is a mix of humour, stories and illustrations of experiences and serious issues

- Pervarship speaking
- Encourage speaking
- **Entertainment Speaking**
- Relaxation speaking

Which stages of distance education has Nigeria been part of since inception?

- Sound and Video Signal Stage
- **Printed Materials Stage *******
- Computer Technology Stage
- **Correspondence Stage *******

_____ is basically the way a word is articulated

- Semmatic
- Articulation
- Sentence
- **Pronunciation**

GST104

TMA1 10/10

The library sends Ada list of all recent resources in phonetics based on her field of specialization, what service is her library offering?

- CAS
- Referral
- **SDI**
- Document delivery service

Kayode is just five years old and needs to register in a library with his grandmother, what type of library can serve them both.

- School
- Academic
- **Public**
- Special

Mr Ayetoro is a physics teacher and needed a book on atoms what tool should he consult first?

- Open Educational Resources
- **Catalogue**
- Subscribed databases
- Shelf-list

Dr Chinyere Abah walked into a library and needed to eat but didn't know where, what type of query will she posed to the reference librarian?

- Search Questions
- Research Questions
- Vertical questions
- **Ready/quick reference question**

Library Y compiles the list of all its users and using that list, sends their updated accession list to them all, what service is library Y offering?

- **CAS**
- User Education
- SDI
- Referral

How many copies of books published by individual authors should be deposited under legal deposit law?

- 4
- 1
- 2
- **3**

Twenty-five copies of all government publications should be sent to

- Public Library
- **National Library**
- Academic Library
- Research Library

Mr Ibrahim is an Agricultural Science Student who needed to use another library for his project what service will he be requiring?

- **Referral**
- User Education
- Inter-library loan
- Translation

What library caters for the homogeneous interest of its users?

- Academic
- School
- **Special**
- Public

Dr Okpala needs assistance on her research topic title 'The effectiveness of digital library: Librarians' perspective', what type of query would she pose?

- Search
- **Research**
- Vertical
- Ready/Quick

Book selection in the library is the role of

a. Circulation librarian

b. Cataloguer

C. Acquisition librarian.....ans

d. Reference librarian

Mr adetayo bisi is analysing president buhari's speech, what type of information will generate?

a. Secondary information.....ans

b. Primary information

c. Information literacy

d. Tertiary information

What type of information would an anthropologist he needing often?

a. Objective information

b. current

c . Historical.....ans

d. Subjective information

Mr Tunde is a librarian working in the circulation selection,below are all his roles in the library except.

a. Keeping statistics of books consulted

b. Cataloguing.....ans

c. Books shelving

d. Charging and discharging of books

Under what source of information would the paintings of president Muhammadu buhari be categorized?

a. Secondary

b. Primary.....ans

c. Print

d. Tertiary

What type of resources are in public domain at no cost?

a. Date base

b. Open educational resources (OER).....ans

c. Textbooks

d. Journal

Why would a library user prefer to browse the open shelve instead of using the catalogue?

a. It is less stressful

b. In order to assess other relevant material on same topic.....ans

c. In order to see all work by the same author

d. It saves time

In the course of your research work,when do you consult the catalogues?

a. Analysing the literature

b. Literature identification.....ans

c. Synthesizing the literature

d. Writing the review

Generally libraries are funded by

a. Philanthropist

b. Parent institution.....ans

c. NGOs

d. Community

Mrs charity abiodun is analysing the literature in her present research work,what will be her next stage?

a. choosing an appropriate topic

b. Synthesizing the literature.....ans

c. Writing the review

d. Identify the literature

GST8071,2&

TMA1 10/10

The age range of most Open and Distance Learning students in India is

- 41-60 myears
- 10 to 20 years
- Above 70 years
- **21 to 40 years**

The most basic level of the use of ear is

- listening
- touching
- **hearing**
- sensing

Who postulated that the emergence of the increasingly student-centred learning activities is facilitated by new instructional technology?

- Dobbin
- **Beandoin**
- Fraser
- Mishra

How could ODL studnets' isolation problem be reduced to bearest minimum?

- Little facilitation
- studying course material
- interacting with group
- **creating learning network**

Self behaviours to be possesed by open and distance learning students are as follows EXCEPT

- Initiative
- Monitoring
- **Studying**
- Management

What is the result of peripheral participation in collaborative discussion?

- having independent isolated characteristics
- **not allowing for active mastery of concepts**
- using technology to facilitate learning
- ensure participation in discussion only

When the job of a teacher is no longer the dispenser of knowledge to ensure student-centredness, he therefore serve as a

- technologist
- specialist
- **facilitator**
- leacturer

What do you refer to as physical location, contexts, culture and software that facilitate learning?

- Learning open systems
- Learning demography
- **Learning Environment**
- Learners' facilitation

Which of the following does not show empathy to the speaker?

- **jumping in when the speaker is talking**
- not interrupting the speaker
- waiting to the end to present disagreement
- keeping quiet when the speaker is laying emophasis

In order to make Tabita intrinsically motivated, she must

- compulsorily attend facilitation class
- disociate from discussion group
- neglect reading other materials
- **connect with other classmates**

Reading for plaesure involves

- silence and technicality
- recreational and academics

- **leisure and independence**
- freedom and comprehension

The distinctive feature of a language construction is

- anaxiety
- frequent practice
- **grammar**
- mother tongue

The following are ways to develop fluency EXCEPT

- ability to read with speed
- **full and rich understanding**
- phonic skills
- phonemic awareness

The third chapter in most research project report is

- Design
- Recommendation
- **Methodology**
- Introduction

The mode of note taking that is drawn up based on two unequal columns is referred to as

- **Cornell**
- outline
- mapping
- chanting

Which of these is NOT true of skimming?

- Thourough overview of a text
- quickly getting a genral idea of tectual meaning
- **retrieving information that is relevant to a purpose**
- quite a fast process

The assessment that makes learners to diagnose the rpoblem they encounter during learning process is

- assessment to learning

- assessment of learning
- **assessment for learning**
- assessment as learning

ow many individual units of sound has the world 'mop'?

- 4
- 2
- **3**
- 1

What involves conveying information or expressing feelings to listeners using vocals?

- vocabulary
- **receptive**
- fluencing
- Listening

xploration of new ideas in learning through reading involves

- developing new knowledge base
- **creating new perspectives on a concept**
- developing new vocabulary of expression
- improving new language skills

Microprocessors as switching devices are for which generation computers

- Third Generation Computer
- Second Generation Computer
- First Generation Computer
- **Fourth Generation Computer**

In latest generation computers, the instructions are executed

- **Parallel only**
- Both sequentially and parallel
- Bitwise only
- Sequentially only

UNIVAC is

- Universal Array Computer
- Unvalued Automatic Computer
- **Universal Automatic Computer**
- Unique Automatic Computer

Which of the following does not store data permanently?

- ROM
- **RAM**
- Hard disk
- Floppy disk

ASCII stands for

- **American Standard Code for Information Interchange**
- American Standard Case for Institutional Interchange
- American Stable Code for International Interchange
- American Standard Code for Interchange Information

CD-ROM stands for

- Compactable Disk Read Only Memory
- Compactable Read Only Memory

- Compact Data Read Only Memory
- **Compact Disk Read Only Memory**

IBM 704 and 7094 are

- Fourth Generation Computer
- **Second Generation Computer**
- Third Generation Computer
- First Generation Computer

Which of the following is first generation of computer?

- **ENIAC**
- ICL-2900
- CDC-1604
- IBM-1401

VGA is

- **Video Graphics Array**
- Video Graphics Adapter
- Volatile Graphics Array
- Visual Graphics Array

The computer size was very largest in

- Third Generation Computer
- **First Generation Computer**
- Fourth Generation Computer
- Second Generation Computer

TMA2 10/10

Which of the following is NOT one of the four major data processing functions of a computer?

analyzing the data or information

When a Computer is switched off, anything held in RAM is _

Lost

The CPU and memory are located on the __

Motherboard

Magnetic disk is an example of

Secondary memory

Select the Odd one

Operating system

To access properties of an object, the mouse technique to use is

Right-clicking

Where does most data go first in a computer memory hierarchy?

RAM

does all PC's thinking and runs the programs as requested

Processor

A DVD is an example of a

Optical disc

_ Store data or information temporarily and pass it on as directed by the control unit

Register

TMA3 9/10

By default, your documents print in ____ mode

- Landscape
- Page setup
- Print view
- **Portrait**

Which key is used in combination with another key to perform a specific task?

- Function
- Arrow
- Spacebar

- **Control**

The first computer was programmed using _____

- Functional language
- **Machine language**
- Assembly language
- Source code

A _____ is a software program used to view Web pages

- Link
- Site
- **Browser**
- Host

The box that contains the central electronic components of the computer is the _____

- Motherboard
- **System Unit**
- Peripheral
- RAM

Which of the following refers to a small, single_site network?

- **LAN**
- DSL
- RAM
- USB

The smallest unit in a digital system is a _____

- Kilobyte
- Character
- Byte
- **Bit**

An email account includes a storage area, often called _____

- Hyperlink
- None of the options
- IP address

- **Mailbox**

Microcomputer hardware consists of three basic categories of physical equipment _____

- System unit, Input/output, Memory
- Keyboard, monitor, hard_drive
- System unit, input/output, secondary
- **System unit, primary storage, secondary storage**

The operating system called Windows 7 is typically used for _____

- Laptop computers
- Desktop computers
- Super computer
- **All of the options ********

(D)trade mechanism

Correct Answer: price mechanism

3). A budget line is ----------

(A)downward sloping

(B)slanting

(C)positively sloped

(D)upward sloping

Correct Answer: downward sloping

4). In economics the central problem is ---------.

(A)allocation

(B)money

(C)production

(D)scarcity.

Correct Answer: scarcity.

5). Controlled or Planned economies are usually associated with -------where government determines the wages of workers, the prices of goods and services and level of output.

(A)Socialism and Communism

(B)capitalism and Communism

(C)Socialism and facsism

(D)Socialism and authoritharianism

Correct Answer: Socialism and Communism

6). The following are determinants of demand elasticity except ------

(A)time

(B)proportion of income spent on the commodity

(C)number of uses the product could be put

(D)technology

Correct Answer: technology

7). price ceiling is always fixed ---------- equilibrium price

(A)above

(B)below

(C)beyond

(D)beside

Correct Answer: below

8). The following are features of perfect competitive market except ------

(A)homogeneous goods

(B)firms are price taker

(C)perfect mobility of factors

(D)single seller, many buyers

Correct Answer: single seller, many buyers

9). The amount of satisfaction derive from consumption of a particular commodity is -----

(A)satisfactor

(B)utility

(C)marginal utility

(D)satisfactory

Correct Answer: utility

10). In a controlled economy, it is the ------ that makes the economic decision and it is solely done meaning that there are no ----- sector initiatives

(A)private/ government

(B)government / banking

(C)private / public

(D)government / private

Correct Answer: government / private

1. The amplifier is a solid-state device that amplifies by

Ans: controlling the flow of current carriers through its semi-conductor material

2. The amplifier gain with negative feedback is given by

Ans:A'= A/(1+BA)

3. In CLASS A amplifier, the output transistor gets very hot even when there is no input signal present so some form of ..... required.

Ans: heat sinking

4. ..... coupling is gene8 applied in power amplifiers

Ans: Transformer

5. The Common Base Configuration has..... output impedance

Ans: very high

6. If a transistor amplifier draws 2mA when input voltage is 10V, then it's input impedance is

Ans: 5kilo ohms

7. Which of the following transistor congratulations has a LOW INPUT impedance?

Ans: Common Base Configuration

8. Which among the following classes of amplifier the maximum theoretical efficiency of less than 40%

Ans: CLASS A

9. Which of the following is a disadvantage of a negative feedback?

Ans: Low input impedance

10. Feedback is the process of .....

Ans: transferring energy from a high-level point in a system to a low-level point in a system

1. In order to make Tabita intrinsically motivated, she must

a.

neglect reading other materials

b.

compulsorily attend facilitation class

c.

=connect with other classmates

d.

disociate from discussion group

2. Self-behaviors to be possessed by open and distance learning students are as follows EXCEPT

a.

=Studying

b.

Initiative

c.

Monitoring

d.

Management

3. The following statements are advantages of learning through listening EXCEPT?

a.

=Disability to Block out Distractions

b.

Large Vocabulary Development

c.

Improved Communication Skills

d.

Increased Academic Understanding

4. What mode of listening Dauda listen in a social setting?

a.

listen to get information

b.

listening for a specific purpose

c.

=listening in general

d.

listen to get information or direction

5. Which of the following does not show empathy to the speaker?

a.

keeping quiet when the speaker is laying emophasis

b.

not interrupting the speaker

c.

waiting to the end to present disagreement

d.

=jumping in when the speaker is talking

6.How could ODL student’s' isolation problem be reduced to bearest minimum?

a.

Little facilitation

b.

studying course material

c.

=creating learning network

d.

interacting with group

7. What characterized early correspondence courses, as the first recorded form of distance learning?
Exemplified participant interaction through the material through the mail”

a.

=distribution of printed material

b.

asynchronous document

c.

online facilitation

d.

synchronous material

8. The first University to offer degrees through distance education is

a.

National Open University of Nigeria

b.

=University of London

c.

Leeds University

d.

University of Wales

9. A good listener puts down important points while listening to enable him to the following EXCEPT

a.

remember

b.

clarify

c.

=preconceive

d.

summarise

10. What is the forerunner of open and distance learning?

a.

Flexible learning

b.

Conventional education

c.

=Distance education

d.

Graduate study

1. The FOLLOWING ARE THE main functions of cost accounting except:

Ans: helps in preparation of financial statement

2. All but one of the following is not true of cost and management accounting

Ans: Cost accounting assists and evaluates the profit while management accounting merely assists the management with function.

3. One of the following cost is not regarded as cost for planning and control

Ans: Explicit cost

4. The following are the essentials of an ideal cost accounting system

Ans: Accountability

5. Serving as a guide to price fixing of products ----------

Ans: Is a function of cost accounting

6. The type of cost which depend on the output produced is called?

Ans: Variable Costs (VC)

7. Total cost is the combination of ----------

Ans: fixed cost and Variable Cost.

8. one of the following is not a FUNCTION OF MANAGEMENT ACCOUNTING

ans: financial reporting

9. all but One of the following cost is not regarded as cost for planning and control

Ans: Explicit cost

10. The advantages of cost accounting to employees

Ans: it helps by merit rating techniques which is conducted by scientific process.

1). Former Soviet Union, Cuba, Germany, Russia, North Korea etc are close examples of ------ economies

(A)free enterprise

(B)capitalism and Communism

(C)Controlled or Planned

(D)mixed economy

Correct Answer: Controlled or Planned

2). Free market economy is an economic system where the basic economic decisions are made by the buyers and sellers, individual households and businesses in the economy through the ------.

(A)cost mechanism

(B)price mechanism

(C)market mechanism

(D)trade mechanism

Correct Answer: price mechanism

3). A budget line is ----------

(A)downward sloping

(B)slanting

(C)positively sloped

(D)upward sloping

Correct Answer: downward sloping

4). In economics the central problem is ---------.

(A)allocation

(B)money

(C)production

(D)scarcity.

Correct Answer: scarcity.

5). Controlled or Planned economies are usually associated with -------where government determines the wages of workers, the prices of goods and services and level of output.

(A)Socialism and Communism

(B)capitalism and Communism

(C)Socialism and facsism

(D)Socialism and authoritharianism

Correct Answer: Socialism and Communism

6). The following are determinants of demand elasticity except ------

(A)time

(B)proportion of income spent on the commodity

(C)number of uses the product could be put

(D)technology

Correct Answer: technology

7). price ceiling is always fixed ---------- equilibrium price

(A)above

(B)below

(C)beyond

(D)beside

Correct Answer: below

8). The following are features of perfect competitive market except ------

(A)homogeneous goods

(B)firms are price taker

(C)perfect mobility of factors

(D)single seller, many buyers

Correct Answer: single seller, many buyers

9). The amount of satisfaction derive from consumption of a particular commodity is -----

(A)satisfactor

(B)utility

(C)marginal utility

(D)satisfactory

Correct Answer: utility

10). In a controlled economy, it is the ------ that makes the economic decision and it is solely done meaning that there are no ----- sector initiatives

(A)private/ government

(B)government / banking

(C)private / public

(D)government / private

Correct Answer: government / private
