

Homeschool for Free

*An In-Depth list of Free
Homeschool Geography
Curriculum & Resources!*

Prepared by Sharla Fossen, [Minnesota Country Girl](#)

1. [Geography 4 Kids](#) - Website that teaches the basics of geography and earth sciences to all ages. It has sections on earth energy, earth structure, the atmosphere, the hydrosphere, the biosphere, climates, and BGC cycles (biogeochemical).
2. [Edmund's World Geography Lesson Plans and Resources](#) - Hundreds of resources, lesson plans, activities & more!
3. [Tennessee History for Kids](#)
4. [National Geographic Study Corner](#) - Contains free lesson plans, challenges, games, and more
5. [GeographyNow](#) on YouTube - Lots of good geography topics!
6. [Archived Information](#) - Helping Your Child Learn Geography. Ideas for free or inexpensive materials to teach your child geography.
7. [Country Reports](#) - Cultural, historical and statistical country information.
8. [Free Geography Resources](#) - Homeschool Creation has free printables for both world and United States geography.
9. [Geography Worksheets and Printables](#) - Pages of free geography printables at Education.com.
10. [Geography.com](#) - Several online geography resources & maps.
11. [Free Geography Worksheets](#) - TLSBooks has free printables for maps, word searches, National Parks, and more!
12. [Knowledge Quest](#) - The free Globalmania eBook promises to teach world geography in just 7 months. I have used other KQ products and they are high quality. Globalmania makes use of an organized plan and online resources to help students master world geography. It also includes several quality world maps. The eBook is a PDF download that will require going through the checkout process but does not require any payment information. Checkout will show a \$0 due and will process the order without payment.
13. [Fun With Geography ~ FREE Geography Printables](#) - Heidi of Starts at Eight has awesome printable geography games like Bingo and scavenger hunt.
14. [Life on the Great Plains](#) - In this four-part lesson, students examine the concept of geographic region by exploring the history of the Great Plains.
15. [New Mexico History](#) - See the menu on the left side with the categories: Native Americans, Hispanic culture, New Mexico government, state symbols, geography, coloring book, state songs, other links, and past NM Secretaries of State.
16. [JumpStart](#) - Tons of worksheets & geography lesson plans!
17. [Animated Atlas](#) - Animated Atlas portrays large chapters of American history quickly by animating maps and geographic features. For school, home and

genealogy use.

18. [EduPlace Outline Maps](#) - This site has some handy outline maps you can print out.
19. [Australian Animals and Biomes](#) - Lesson Plans for grades 4-12.
20. [TLS Books](#) - Free geography worksheets for preschool through 5th grade.
21. [I Like to Learn Geography](#) - Allows you to not only learn about the countries and capitals of the world, but also the mountains and bodies of water.
22. [Global Bros](#) - Chronicles the adventures of two real-life kids, Stefan and Tyler, as they update readers about their year-long family trip around the world with their Mom and Dad. Kids can get to know them through the intro and follow them as they chat about their adventures through a blog. Talk about the ultimate homeschooling adventure!
23. [Sheppard Software](#) - Free U.S. geography games for teachers. Whether you're learning for school, studying for college or working to improve yourself on your own, our learning tools will help you learn and grow. From our online games to our software packages, we make learning fun!
24. [Your Child Learns](#) - This site is all about geography: Printable maps, online map puzzles, quizzes, etc.
25. [Creative Geography Cards](#) - Add some creativity to geography class! Make decorated country flash cards that will familiarize your students with the culture of the country. Add important geography facts to the back and use for quizzing! Ages 8 and up.
26. [Map Maker](#) - Find specific countries, areas, etc & print the exact area you need through National Geographic's interactive mapping. Awesome geography tool!
27. [Maps Education](#) - A site with online map games & quizzes.
28. [Geography](#) - Names of states, map identification, short answers, & lessons.
29. [Maps, Etc.](#) - Historic maps for students & teachers. A site of historic maps you can print out.
30. [Action Quiz Geography](#) - Do this free geography quiz and let's see how much you know about geography. Can you tell a country or city by a marking on a map of Africa, Asia, America, Oceania, Europe, the USA or the World? And how well do you know country shapes? Or capital cities? Other geography themes include license plates, flags, left driving countries, airlines and currencies. Each of these fun and free geo quizzes contain plenty of questions, so you can play this geography game again and again. Besides, your play against other computer opponents every time, so each geo quiz you take is a new challenge. Will you make it to the geography quiz final and win?
31. [Seterra](#) is a challenging educational geography program with 70 different

exercises. Learn about countries, capitals, flags and cities in Africa, Europe, South America, North America, Asia and Australia, using outline map exercises!
Freeware download.

32. [Animated Atlas](#) - Growth of a Nation is a free, ten minute movie which depicts the geographic history of the United States from the beginning of the nation to fifty states. Geographic elements are interactive, as is the timeline." The movie can be watched as one long piece.
33. [Geography Tests](#) - This site has an online practice geography test for high schoolers.
34. [Human Migration: The Story of the Cultural Landscape](#) - This lesson will help students understand key concepts of human migration through the examination of maps and census data. They will then research and document the impact of migration on a region's cultural landscape. Students will examine migration patterns on a global and national scale as a class and then apply that understanding to telling a migration story about their own community. Grades 6-8 from Xpeditions, National Geographic Society.
35. [Enchanted Learning](#) - Dozens of map and geography resources for elementary students.
36. [Enchanted Learning](#) - Activities and information on Canada's geography. Links to explorers, artists, fossils, and crafts.
37. [World Atlas](#) - World atlas has flags of all countries, states and territories as well as a list of continents, countries, dependencies, islands, territories, lakes, rivers, seas, oceans, mountains, and the highest, lowest, biggest, smallest, tallest, deepest, oldest, youngest, richest, poorest places on the planet. Free maps test are available for teachers and if you are looking for an outline map that isn't listed, you can email them and they will send it to you by email. They offer a daily geography quiz (with a cash prize) which starts with one question and additional clues are added each day until someone wins. Once there is a winner a new quiz is posted the next day.
38. [Fantastic Journeys: Yellowstone National Park](#) - Explore Yellowstone National Park, a place unlike any other on earth. See strange marvels. Go underground to find out what causes them. And trigger an eruption of the world famous geyser Old Faithful!
39. [A to Z Teacher Stuff](#) - Over 100 free social studies lesson plans.
40. [Mr. Donn's Site for Kids & Teachers](#) - Tons of geography resources, activities, & lesson plans on all kinds of things from learning latitude & longitude to countries, continents, habitats such as oceans, rainforests, & etc. I use Mr. Donn on a regular

basis!

41. [Mission Geography: Continents](#) - National Geographic unit about continents.
42. [National Geographic](#) - The lesson plans on this site were written by educators and have been tested in the classroom. Together, they address all of the U.S. National Geography Standards, the five geography skills, and the main geographic perspectives. Serving a variety of needs, the plans include a wide range of teaching strategies. The assessment component of each lesson focuses on the knowledge and skills that students will use to answer a guiding geographic question as they address real-world issues. K-12th Grade
43. [Education World](#) - Tons of geography lessons, games, activities & more.
44. Discovery Education - Free [understanding geography lesson](#) for grades K-8. U.S. A [“northeast” geography lesson plan](#) for grades K-5. A [“midwest” geography lesson plan](#) for grades K-5. A [“south” geography lesson plan](#) for grades K-5. An [“around the world” geography lesson plan](#) for grades K-5. An [“exploring the world’s geography” lesson plan](#) for grades K-8. A [“west” geography lesson plan](#) for grades K-5.
45. [Teachers Pay Teachers](#) - Free geography lessons, activities & more.
46. [Arizona Geography Alliance](#) - Large selection of map games for countries, states, capitals, continents, and more.
47. [Berkeley](#) - Learning about the world’s biomes: aquatic, deserts, forests, grasslands, tundras & more!
48. [GeoBee](#) - Test your geography smarts right here online. Each day we’ll post ten questions from the National Geographic Bee. Some of them are real stumpers, but it’s okay if you miss a few--you can play as often as you like. Come back everyday for a brand new quiz and another chance to beat the Bee!
49. [Atlapedia Online](#) - Contains full color physical maps, political maps as well as key facts and statistics on countries of the world
50. [Google Earth](#) - Want to know more about a specific location? Dive right in -- Google Earth combines satellite imagery, maps and the power of Google Search to put the world’s geographic information at your fingertips.
51. [Zoom School](#) - Geography info on Antarctica the frozen continent.
52. [Play Kids Games](#) - Name the Continents game.
53. [Great Globe Gallery](#) - Hundreds of photos, maps, and reference resources of earth.
54. [National Park Service](#) - Explore different geological locations across the United States. Coastal geology, landscapes, geologic wonders, landforms, caves & karst, paleontology, tectonic plates, geologic time, & geoheritage.
55. [GeoNet](#) - A complete Social Studies and Geography game for both the United States

and the World. Includes questions related to the World and US in Spatial Terms, Places and Regions, Physical Systems, Human Systems, Environment and Society, and the Uses of Geography.

56. [National Geographic Society](#) - CopyCat Continents game.
57. [Sheppard Software](#) - Free and fun to play geography games. There are various levels of play so that your beginners and advanced students alike can find something to hold their interest.
58. [To Timbuktu](#) - Known as one of the great travelers of all time, Ibn Battutam traveled the entire Moslem world of his day plus Ceylon, Byzantium, China, and southern Russia. An estimated to be 75,000 miles.
59. [Blank fill in map of the U.S.](#)
60. [National Geographic Maps Online](#) - Dynamic maps, atlas maps, and flags and facts.
61. [Owl & Mouse Educational Software](#) - Free maps and map puzzles to learn United States and World geography with Maps that Teach. Free interactive maps and map puzzles to learn continents, countries, states, capitals, borders, physical features and cultural monuments. Maps are vital to our understanding geography and the world we live in. Interactive and fun, Maps that Teach help students learn basic geography.
62. [National Geographic Bee](#) - "Each year thousands of schools in the United States participate in the National Geographic Bee using materials prepared by the National Geographic Society. The contest is designed to encourage teachers to include geography in their classrooms, spark student interest in the subject, and increase public awareness about geography. Schools with students in grades four through eight are eligible for this entertaining and challenging test of geographic knowledge... Bee registration is open to schools and homeschool associations with students in grades four through eight who are not over the age of 15 by the time of the national level. A student must be enrolled in a school or homeschool association that is registered with the Bee. Also, students of the eligible grade levels must be following a school schedule and academic course load comparable to the majority of the student's grade-mates and age-mates. A student may not be enrolled in more than two academic courses at the high school and/or college level during each school year of the competition." Registrations must be received by October 15, 2007.
63. [Quick Maps of the World](#) - Small GIF maps of the countries of the world are added to this site, one at a time, in order of demand.
64. [Homework Helper](#) - Homework Helper From National Geographic. Research for pictures, articles, maps, and more on our top subjects: Animals, History/Culture,

Maps/Geography, Places, Science/Nature, and Art/Photo's.

65. [Another blank U.S. map.](#)
66. [National Geographic Kids](#) - This large sub-site of National Geographic online is a wonderful destination for kids. The site features appealing video, photos and profiles about animals in the Creature Features area. Additionally, there are People & Places profiles of countries, interactive adventures and brain teasers to sharpen students' skills in a fun, engaging way.
67. [Enchanted Learning](#) - Italy's Geography.
68. [Lizard Point GeoQuiz](#) - Test your Geography Knowledge Click on an area of the map to select a quiz.
69. [Xpeditions Atlas](#) - Maps made for printing and copying from the National Geographic. Xpeditions activities offer younger and older Xpeditioners the opportunity to use geography to complete a variety of missions. Parents, teachers, and friends can lend a hand. Xpeditioners are encouraged to use the "X-tras"--maps, games, stories, Web sites, and interactive features--to complete the tasks and to visit related annexes in Xpedition Hall once their mission is through. All activities are based on the U.S. National Geography Standards, and complementary lesson plans are available for educators.
70. [Color Landform Atlas of the U.S.](#) - Each state link brings up a menu of links to maps and other online information about the state.
71. [Continents and Oceans Online Quiz](#) - Test your geography knowledge of continents and oceans
72. [TedEd](#) - 100+ geography lessons.
73. [ScoilNet](#) - A lot of geography resources, activities & lessons.
74. [2-minute Geology](#) is a collection of two-minute videos that addresses the geology of locations around the world. The presenter is clever, the taping professional, and the experience mesmerizing as students are immersed in the importance of geology around the world -- in just two minutes.
75. [Continents Explained](#) is a four-minute humorous video that discusses the difficulty of defining continents on our planet (with a brief cameo from a Minecraft-like character). I came away scratching my head, wondering how the heck the experts ended up with the seven continents we all accept rather than four -- or twelve. The video is engaging, energizing, and informative. This is a must for any discussion on continents.
76. [Earth Alerts](#) is a site that tracks natural disasters around the world in real-time. This includes earthquakes, tsunamis, volcanic eruptions, and tropical storms. You can view the site as a map of the world or zoom in on geographic areas such as

- the Pacific Rim of Fire (a popular location for volcanic activity). It also includes webcams, a natural disaster catalog, and more. This is well-suited not only for geography lesson plans, but discussions on natural disasters and critical thinking.
77. [Geography Games](#) is a wonderful collection of varied games that teach about world geography. Topics include continents, atmosphere, bodies of water, landforms, straits, and volcanoes. You can even delve into capitals, metropolitan areas, and flags. Included are all 193 member nations of the UN plus more. The games are presented in a quiz format with detail provided to support the correct answers.
 78. [GeoGuessr](#) is a free, web-based geographic discovery game that requires users to guess where they are in the world based on clues and the Google Street View image. It can be played alone or in challenge mode. The game is intuitive to learn, incredibly simple to play, and addictive. If you loved “Where in the World is Carmen Sandiego,” you’ll want this game.
 79. [Google Lit Trips](#) - Building a story based on geography is a no-brainer. All stories have settings which are critical to the story’s plot. With Google Lit Trips, students map out the geographic locations of the story and unpack the plot from that perspective. While many websites assist with that, Google Lit Trips is one of the earliest and most thorough. It includes suggestions for creating your Google lit trip, a library of completed ones, and a place you can suggest a lit trip for a future post.
 80. [Scribble Maps](#) makes it easy to create and customize maps by adding text, handwritten notes, graphics, videos, placemarks, shapes, and more. Completed maps can be saved/exported as image files, PDFs, KMLs (for Google Earth), and more (some tools and save functions require an upgraded account). You don’t have to log in unless you want to save your map or access premium tools. It works well on desktops as well as iPads and Chromebooks. Scribble Maps is great for exploring geography related to other topics, digital storytelling, and mapping out community locations for youngers and special needs students.
 81. [Straetris](#) - I don’t hear enough chatter about Statetris, but I should. It’s like the hugely popular Tetris, but instead of blocks, students must put states or countries in their proper position. This is another great option to fill in empty minutes of the day and teach the factual pieces of geography that could be boring and repetitive without a tool like Statetris (or a few of the others included in this list).
 82. [Geo Lounge](#) is an information site about all things geography. Find information here about physical and human geography as well as guides for learning about geography and developing a career in geography. There’s also a couple free lesson

plans as well.

83. [Teaching Ideas](#) - Quite a few lesson plans, fact sheets & cards, and quite a few other things.
84. [Canadian Geographic](#) – Find several different lesson plans and activities on a variety of geography-related subjects curated by The Canadian Atlas Online. You can also narrow your search by teaching level and province or territory.
85. [Discovery Education Canada](#) - This website has a variety of resources for many subjects – including geography. Search under the social studies subject to find geography resources for students in kindergarten up to grade 12.
86. [Seeds Foundation/Connection](#) – Check out this website to find a wealth of lesson planning ideas and resources put together with a theme of environment, energy and education.
87. [The Canadian Encyclopedia](#) If you're looking for some reading to assign your students, The Canadian Encyclopedia has a lot of options. Under the geography section, find articles spanning several topics that also include links to suggested additional reading.
88. [YouTube](#) video on how to read and interpret maps.
89. [Geography Now](#) is the first and only Youtube Channel that actively attempts to cover profiles on every single country of the world. They're going down the list of each and every country from A-Z so stay updated on the new videos that come out!
90. [Countries of the World Song on YouTube](#) - Learn about the countries of the world with this fun animated educational music video!
91. [Landforms Geography for Kids](#) - 7 YouTube videos that teach about landforms.
92. [Geography for Kids](#) - 11 YouTube videos that teach about various geography topics.
93. [Maps, Landforms, Geography for Kids](#) - A collection of 30 YouTube videos on various geography topics.
94. [Basic Geography for Kids](#) - 14 geography videos for Pre-K & Kindergarten kiddos.
95. [Geography for Kids](#) - 48 videos on various geography topics.
96. [Geography for Kids](#) - 32 videos on various geography topics.
97. [Kids Learning Tube: World Geography](#) - 66 geography videos.
98. [World Trade Press](#) - Free “Locate the Countries of Central Asia” geography lesson plan. At the bottom of the short description there's a small link that states “download this free lesson plan.” It's not really something you see right away so I just wanted to point it out.
99. [TeachWire](#) - 7 of the Best Geography Lesson Plans. Really fun lesson plans but to

download them, the site does require that you sign up for their email newsletter.

100. [Teacher Created Resources](#) - 15 free geography lesson plans for grades 1-8.
101. [The Ordnance Survey](#) website is based in the UK, but it contains some brilliant kid-friendly activities that are sure to encourage students to learn more about geography. They also have relevance worldwide, not just to the UK. Students can practice map skills, play geography-related games, and use Geographic Information Systems (GIS) to learn more about their world. And it's all presented in a bright, friendly and colorful way.
102. [GeogSpace](#) - There is a wealth of information about fieldwork, using ICT, teaching geography and lots of examples of teachers sharing best practice. Strongly recommended if you are new to teaching geography - it will give you some ideas to make your lessons exciting and fun.
103. [Geography for Geographers](#) - A collection of resources for teachers who are teaching Human Geography (Including Advanced Placement), Geographic Information Systems (GIS), International Studies, and World Geography. Includes course specific resources, general geography resources, geography standards, learning environments, games & activities, and videos & series.
104. [Larry Ferlazzo's](#) - An awesome article, "The Best Geography Sites for Beginning and Intermediate English Language Learners" has an awesome list of really great sites for teaching geography! He also has another article on [The Best Websites for Learning & Teaching Geography](#) that's really good!
105. [Geography.com](#) - This website is designed specifically for the study of Geography. Enter as a student or teacher and find verified links for any type of content or activity you want. For those classrooms using Genius Hour, this is a great tool for product development.
106. [World Geography Games](#) - Another great site for skills and content practice, this one has every topic possible for your students to play to learn all about World Geography.
107. [The World Geography](#) - Not your traditional Geography fact-finding website, but instead this one offers amazing images and imaginative stories to bring Geography alive for your students.
108. [Fact Monster](#) - Speaking of facts, the FactMonster has it all. With a long list of Geographic topics, you can find many options for immersing your students in research!
109. [Social Studies for Kids](#) - While not a visually appealing website, this one does have good, solid content for studies the basics of Geography. Whether you need to know the major bodies of water or how to read longitude and latitude, this one

has the answers with easy to read explanations.

110. [Science Kids Geography](#) - For those who integrate Science and Social Studies, this is the site for you. From basic Geographic facts to the Scientific explanation behind our world's geography, this is the site!
111. [Top Site List Planet](#) - Another awesome list of geography teaching resources!! This one has some really good sites on teaching geography!!
