The creation of Israel state and the Arab –Israeli war 1948-1949

The origin of problem went back to the year 71-AD when most Jews driven out of Palestine by the romans, only small communities of Jews stayed behind in Palestine

In 1897 some Jews living in Europe founded the world Zionist organization at Basel in Switzerland, believed Jews ought to be able go back to Palestine to create Jews state.

Jews people had suffered persecution in Germany, France and Russia. After 1917 Palestine became a British mandate and large number of Israelis begun to arrive in Palestine, Arabs protested bitterly to British that they need

- 1- An independent Palestine for the Arabs
- 2- An end of Jews immigrant

By 1940s about half of the population in Palestine were Jews. In 1945 USA pressed Britain to allow 100,000 Jews into Palestine.

Jews begun terrorist campaign against both Arabs and British, the British asked the UNO to deal with the issue, the UNO divided Palestine among Arabs and Jews.

Early 1948 the British withdrew from Palestine. in May 1948 David bin Gurion one of the Jews leader declared the independence new Jews state of Israel , it immediately attacked by Egypt , Syria , Jordan, Iraq and Lebanon

The war and its result

Most people expected the Arabs to win easily but the Israelis defeated Arabs and even captured more land than UN partition had given them.

The Israelis won because of

- 1- They fought desperately

- 2- Arab states were divided and poorly equipped

The Suez war of 1956

Who was to blame for the war?

- 2- The communist block blamed Britain and France accusing them of trying to control the Canal

 - c- Nationalized the Suez canal in 1956
 - d- He signed an arms deal with Czechoslovakia in 1955 to get Russian fighters , bombs , tanks and military experts
- 2- The Americans felt great anger and considered Egypt just as a communist country
- 3- Britain believed that Nasser was going to unite Arabs under communism
- 4- Secret talks took place b/w Britain, France and Israel and a plan was set. Israel would invade Egypt whereupon Britain and France would occupy the Canal Zone on the pretext that they were protecting the Canal from damage of fighting.

The war began as planned Israeli invasion of Egypt 29 Oct. 1956 they soon captured Sinai Peninsula, while Britain and France troops bombed Egyptian airfields and landed near Suez. The attack caused an outcry from the rest of the world USA, USSR and UNO all announced ceasefire, they all prepared to send a UN force

- 2 – In Syria, Ba'ath party came to power in 1966, it supported El-Fatah the Palestinian liberation organization PLO, and they began to bombard Jewish settlements from the Golan Heights.
- 3 – Nasser began to move troops up to frontier in Sinai
- 4 – The Russian promised Nasser that they would send help if war came
- 4 – Syria, Jordan and Lebanon massed troops along their frontiers with Israel.

The Israelis decided to attack rather than wait to be defeated. They launched series of devastating airstrikes which destroyed nearly all the Arab air force. Israeli troops also moved with speed capturing more land, **Gaza strip, Sinai, Jerusalem, West Bank and Golan heights**

The war – Egyptian and Syrian forces attacked early on the feast of the Yom Kippur a Jewish religious festival hoping to catch Israelis off guard. The Israelis succeeded in hanging on to all territory they had captured in 1967, although that Arabs got a brilliant victory at first.

Both USA and USSR decided to intervene and acting with UNO, they organized a ceasefire which both side accepted.

In peace settlement in Geneva the Israeli's agreed to move their troops back from the Suez Canal (**closed since 1967**) Egyptians opening the canal in **1975** but not Israeli ships.

- 2 – It was foolish to keep waiting Egyptian resources in fruitless war
- 3 – He took it great courage to be first Arab leader to meet Israelis face to face
- 4 – Sadat offered to go to Israeli and talk to the Knesset the Israeli parliament

B – 1 – the Israelis were suffering economic problems

- 2 – USA was pressing Israelis to settle their difference with at least some of the Arabs

Israelis accepted Sadat offer, he visited Israel in Nov. 1977, and Menachem begin the Israeli prime minister visited Egypt the following month.

Outcome of Oslo conference of 1993 b/w Arabs and Israelis

- 1- Israel formally recognized the PLO
- 2- The PLO recognized Israel's right to exist and promised to give up terrorism
