Infographics

You can add and edit some **infographics** to your presentation to present your data in a visual way.

01 Choose your favourite infographic and insert it in your presentation using Ctrl C + Ctrl V or Cmd C + Cmd V in Mac

02 Select one of the parts and **ungroup** it by right-clicking and choosing “Ungroup”

03 **Change the color** by clicking on the paint bucket

04 Then **resize** the element by clicking and dragging one of the square-shaped points of its bounding box (the cursor should look like a double-headed arrow). Remember to hold Shift while dragging to keep the proportions

05 **Group** the elements again by selecting them, right-clicking and choosing “Group”

06 Repeat the steps above with the other parts and when you’re done editing, copy the end result and paste it into your presentation

07 Remember to choose the **“Keep source formatting”** option so that it keeps the design. For more info, please visit **our blog**
