Ref. No: E/M/C Tgram1/2024

To whom it may concern

Subject: - Job opening for night shift & weekend general practitioner (GP)

JBY Ebor Medium Clinic located in front of Bole Michael Church is looking to hire a general practitioner for night and weekend shifts. The clinic serves 30-40 clients on monthly on the night shift and plans to have a GP to ensure quality of care. The working hours for the night shifts are from 2PM to 2AM (12hr shift), and weekend shifts are from 2AM to 2PM (12hr shift). Open shift includes all 30 days for night and all weekends. An arrangement for two physicians could be made to team up and cover those hours. We are open to considering new graduates for both positions.

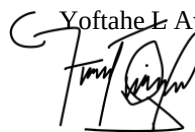

The basic duties include providing a diagnosis and treatment for routine visits, emergency cases and follow-up during the day-weekend shift and emergency care during the night shift. Further detail will be provided by the medical director (Dr Sara) of the clinic on hire. As a result of the low patient census on these shifts, the compensation for the positions is rated below. All payments are taxed according to Ethiopian federal finance law and the clinic will provide a written work experience up on termination.

Night duty 2PM to 2AM: 540

Weekend from 2AM to 2PM: 650

Lump offer: for 15 nights and 4 weekend days= 8,100 + 2,600=10,700

Application is Now Closed
