Read the following story and then answer questions 26 -38.

The government has more or less attained its objective of sending all standard Eight leavers to secondary school. Statistics released indicated that more than million learners have joined Form one. This is no mean feat.

For years, the country has grapped with huge wastage in the school system as thousands of Kenya Certificate of Primary Education (KCPE) graduates **perennially** failed to progress to secondary school due to lack of places as well as crippling poverty.

The 100 percent transition policy has significantly enhanced enrolment and put universal basic eduacation internationally recognised as at least 12 years of schooling-within reach. All international chapters, like Education For All (EFA) and Sustainable Development Goals (SDGs), commit nations to do that.

Henceforth the discourse should shift from access to equity and quality. Equity means that all learners,

boys and girls and all regions should have access to primary and secondary education. And it must be quality education. For it is meaningless to push every learner to school but they fail to acquire relevant knowledge, skills and attitudes to enable the individual to thrive in a dynamic and competitive environment.

Quality is determined by several variables, among them the availability of adequate and well-trained teachers; an appropriate and vibrant curriculum; a conducive learning environment with sufficient learning and teaching resources and effective management structure. Add to this security and safety of learners.

At present, there is an acute shortage of learning and teaching facilities. Expansion has led to congestion, with most schools putting more than 60 learners in a classroom. In the context of acute teacher shortage and inadequate funding for schools, matters are getting out of hand.

Umewadia mwaka mwingine mpya ambapo shule anuwai zimeanza maandalizi ya kujinyakulia nafasi katika mashindano ya drama katika kitengo cha taifa. Si kusaka nafasi ya kufuzu tu, bali pia kujinyakulia tuzo belele. Maandalizi haya huchukua muda wa wanafunzi darasani. Isitoshe, walimu ambao huwaongoza wanafunzi wakati mwingine hukosa kufika darasani. Huenda wanaungama kuwa ukiona vyaelea jua vimeundwa.

Katika mazingira ya shuleni nyakati kama hizi **zogo na zahama** huzuka miongoni mwa walimu na wanafunzi. Endapo mwanafunzi anayeshiriki katika shughuli hizi adorore au akose kutekeleza majukumu yake ya darasa ipasavyo yeye hupitia machungu mikononi mwa baadhi ya walimu. **La kuajabia zaidi ni wanafunzi wasioshiriki drama na wana makosa kama hayo hukosa kuadhibiwa**. Walimu kama hawa wanastahili kukosolewa pakubwa.

Walimu nao hawajaachwa nyuma. Wanapojihusisha na maandalizi ili kuboresha na kukuza talanta baadhi ya vipindi vyao darasani hukosa kuhudhuriwa. Huu huwa chanzo cha mzozo baina yao na uongozi wa shule. Wao huweza kusimamishwa kazi au kuadhibiwa kwa mujibu wa sheria.

Ni wazi kuwa endapo kutakuwa na uhusiano mzuri wa kikazi baadhi ya matatizo kama haya yatapungua. Wanafunzi wanastahili kutenga muda wao vyema kulingana na shughuli mbalimbali walizonazo shuleni. Endapo alikuwa nje ya darasa wakati wa kipindi kwa minajili ya kuikuza talanta yake, atenge muda wa kuonana na walimu kwa usaidizi wa baadaye. Aidha muda wake wa kusoma auchukulie kwa uzito.

Walimu nao wasichukulie nafasi hiyo ili kulaza damu darasani. Ajaribu kadri awezavyo kutekeleza majukumu yote kwa upeo wa juu. Hili litaleta uaminifu wa kikazi na heshima. Endapo hataweza kuhudhuria kipindi ashauriane na walimu wenza. Hiyo ndiyo njia bora zaidi. Pia, anaweza kufunza mapema au kubadilishana vipindi na walimu wengine.

Washikadau wote shuleni wanapaswa kujua kuwa, shughuli zozote shuleni zinachangia ufanisi wa shule. Pia sio wote wenye elimu ya kufuzu katika mtihani ndio wenye uwezo mkubwa wa kuendeleza uchumi. Kila shughuli inayoweza kufanikisha maisha ya mwanafunzi ishikiliwe kikiki mradi uwe chanya.
