UFAHAMU (ALAMA 15)

Soma kifungu kifuatacho kasha ujibu maswali.

Suala la mahusiano ya wanadamu katika jamii, uainishaji wake na uathihirikaji wake limewashughulisha wataalamu wa elimu jamii kwa dahari ya miaka. Suala hili huwatafakarisha wataalamu hao kutokana na umuhimu wake katika maisha ya binadamu msingi mkuu wa uainishaji wa mahusiano hayo ni kukichunguza kipindi cha mahusiano yenyewe. Yapo mahusiano baina ya waja ambayo yanachukua muda mfupi, kwa mfano saa au dakika chache, na mengine ambayo huenda yakachukua miaka ayami.

Mahusiano ya muda mrefu kabisa ni yale yanayojulikana kama mahusiano ya kudumu. Inamkinika kudai kuwa miundo ya kijamii, kisiasa na kiuchumi huweza kuyadhibiti mahusiano hayo kwa kiasi kikubwa. Watu wengi huitikadi kuwa uhusiano uliopo baina ya mtu na jamaa yake utachukua muda mrefu, na kwa hivyo ni uhusiano wa kudumu. Hali hii hutokana na uhalisi kuwa tunahusiana na jamaa zetu kwa kipindi kirefu labda tangu ukembe hadi utu uzima wetu. Uhusiano huu hautarajiwi kuvunjwa na umbali wa masafa baina yetu; tunaendelea kuwasiliana kwa barua au, katika enzi hii ya utandawazi, kwa kutumia nyenzo za teknohama kama mtandao na simu za mkononi, na kudumisha uhusiano wetu wa kijamaa. Hata hivyo, inawezekena baadhi ya mahusiano ya kijamaa yasiwe ya kudumu. Mathalan, uhusiano uliopo baina ya mke na mume, na ambao unatarajiwa kuwa wa kudumu au kipindi kirefu, unaweza kuvunjwa kwa kutokea kwa talaka. Talaka hiyo inavunja ule uwezekano wa uhusiano wa kudumu unaofumbatwa na sitiari ya pingu za maisha.

Katika ngazi ya pili, mahusiano ya koindi cha wastani, kuna mahusiano yanayohusisha marafiki zetu maishani, shuleni au kwenye taasisi zozote zile, majirani zetu, wenzetu katika mwahali mwa kazi, washirika kwenye sehemu za ibada au za burudani na wenzetu kwenye vyama tofauti na makundi ya kujitolea. Inawezekana kudahili kuwa baadhi ya mahusiano haya, hususan baina ya marafiki na majirani huweza kuwa ya miongo na daima. Hali hii huweza kutegemea muundo na mfano wa jamii. Kwa mfano, kwa majirani wanaoishi kwenye janibu, fulani mahususi, na kwa miaka tawili bila ya kuhajiri. Uhusiano wao na majirani huweza kuwa wa kudumu. Hali hii **inasigana** na hali iliyoko kwenye maisha ya mijini. Maisha ya mijini yana sifa ya kubadilkikabadilika. Isitoshe, kutokana na mfumo wa maisha ya kibepari **yameghoshi** ubinafsi mwingi. Mawimbi ya mabadiliko na ubinafsi uweza kuumomonyoa ukuta wa uhusiano wa kudumu.

Mwelekeo wa maisha ya siku hizi ya uhamaji kutoka maeneo au viambo walikoishi watu unasababisha kupombojea kwa mahusiano ya kudumu baina yao na majirani zao. Uhusiano kati ya wenza katika mazingira ya kazi unahusiana kwa kiasi fulani na ule wa majirani. Vimbunga vya ufutwaji kazi, ubadilishaji wa kazi, hali zisizotegemewa na mifumo ya kimataifa pamoja na hata mifumo ya kisiasa huweza kuathiri mshikamano wa wanaohusika kazini.

Kiwango cha mwisho cha mahusiano ni uhusiano wa mpito au wa muda mfupi. Mahusiano ya aina hii hujiri katika muktadha ambapo pana huduma fulani. Huduma hizi zinaweza kuwa dukani, kwenye sehemu za ibada, kwenye kituo cha mafuta, kwa kinyozi, kwa msusi na kadhalika. Kuna sababu kadha zinazotufanya kuyazungumzia mahusiano ya aina hii kama ya mapito. Kwanza, uwezekano wa mabadiliko ya anayeitoa huduma hiyo ni mkubwa. Si ajabu kuwa unaporudi kwa

kinyozi au msusi untambua aliyekushughulikia hayupo. Hata hivyo, kuna **vighairi** hususa pale ambapo mtoa huduma anayehusika ni yule mmoja.

Mahusiano ya mpito yanatawaliwa na "uhusiano wa chembe chembe". Uhusiano wa chembe chembe, bidhaa ya mfumo wa kibepari, unamaanisha kuwa kinachomshughulisha mtu ni chembe ndogo tu ya mwenzake. Chembe hiyo inaweza kuwa huduma, kwa mfano, gazeti analokuuzia mtu, kiatu anachokushonea, nguo anazokufulia, ususi anaokufanyia n.k. Mahusiano ya aina hii yametovukwa na hisia za utu na ni zao la mifumo ya kisasa na kiuchumi na kijamii. Mtu anayehusiana na mwenzake kwa misingi ya chembe ndogo tu, huenda asijali kama mwezake amekosa chakula, amefutwa kazi, amefiliwa na kadhalika.

Suala kuu tunalopaswa kujiuliza nji: Je, tunahusiana vipi na jamaa zetu, taasisi zetu, marafiki zetu na majirani zetu? Je, uhusiano wetu na raia wenzetu ni w aaina gani? Je, uhusiano wetu na nchi yetu ni wa mpito au ni wa kudumu?

UFUPISHO (ALAMA 15)

Ujambazi wa kimataifa ni tatizo lililowasumbua walimwengu kwa muda mrefu sana. Serikali nyingi zimetumia mapesa mengi kwa miaka mingi sana zikijitahidi kupambana na janga hili. Hata hivyo, fanaka haijapatikana, wala haielekei kamwe kuwa itapatikana leo au karne nyingi baadaye.

Yumkini tatizo kubwa lililopo ni kuhusu jelezi la dhanaya "ujambazi" tena "wa kimataifa". Hili ni tatizo mojawapo na yapo mengi sana. Tatizo la pili ni kiburi. Kuna wale watu binafsi na hasa viongozi w anchi kubwakubwa na serikali zao zilizojiaminisha kuwa ujambaz ni balaa kweli, tena belua, lakini huo ni wa huko, wala hauwezi kuwagusa licha ya kuwashtua wao.

Kulingana na maoni watakaburi hao, ujambazi ni wa watu 'washenzi' wasiostaarabika, wapatikanao katika nchi zisizoendelea bado. Ujambazi peke wanaouona unafaa kukabiliwa ni dhidi ya mbubujiko wa madawa ya kulevya uliosababishwa na vinyagarika kutoka nchi hizo maaluni za "ulimwengu wa tatu". Kulingana na wastaarabu wa nchi zilizoendelea, vinyangarika hivi ndivyo hasa adui mkubwa wa ustaarabu ulimwenguni na ni sharti vifagiliwe mbali bila huruma. Baada ya kusawasagwa, ulimwengu mstaarabu utazidi kutononoka na ahadi ya mbingu hapa ardhini itakamilika.

Imani ya watu hawa ya kuwa ujambazi wa kimataifa, hata iwapo upo, hauwezi kuwashtua wala kuwatingisha wao ilikuwa kamili na timamu. Ilikuwa kamili na timamu hadi hapo mwezi Septemba tarehe 11 mwaka wa 2001, ndege tatu za abiria zilipoelekezwa katika majumba mawili ya fahari, yenye urefu wa zaidi ya ghorofa mia moja na kuyatwangilia mbali. Mshtuko na kimako! Kimako kwa kuwa, kabla ya siku hiyo, Wamarekani hawangeweza kudhani kwamba ingewezekana taifa lolote au mtu yeyote kuthubutu kushambulia nchi yao, taifa wasifa lililojihami barabara dhidi ya aina yoyote ile ya uchokozi kutoka pembe lo lote la dunia.

Hakuna ulimwenguni mzima, aliyeamini kuwa Marekani ingeweza kushambuliwa. Kwa ajili hiyo, mshtuko uliitingisha ardhi yote na huzuni ilitanda kote, kama kwamba sayari nzima imeshambuliwa, wala sio Marekani pekee.

Mintarafu hiyo, Marekani ilipolipiza kisasi kwa kuwaunguza waliokuwemo na wasiokuwemo kwa mabomu hatari huko Afghanistan, idadi kubwa ya watu duniani ilishangilia na kusherehekea. Kwa bahati mbaya, tafsiri ya shambulizi la minara-pacha na Newyork na lile la Pentagon, uti wa uwezo wa kivita wa Marekani, ulizorota. Kuna wengi waliodhani huo ni mwanzo wa vita vya Waislamu dhidi ya Wakristo na kwa muda, Waislamu wote wakashukiwa kimakosa kuwa ni majambazi wa kimataifa.

Read the oral poem below and respond to the questions that follow.

A BAREFOOT BOY

A barefoot boy! I mark him at his play…
For May is here once more, and so is he,…
His dusty trousers, rolled half to the knee,
And his bare ankles grimy, too, as they:
Cross- hatchings of the nettle, in array
Of feverish stripes, hint vividly to me
Of woody pathways winding endlessly
Along the creek, where even yesterday
He plunged his shrinking body – gasped and shook
Yet called the water 'warm' with never lack
Of joy. And so, half enviously I look
Upon this graceless barefoot and his track,…
His toe stubbed…, his big toe-nail knocked back
Like unto the clasp of an old pocketbook.

(a) COMPREHENSION

Read the passage below and then answer the questions that follow.

Technology is basically the way we execute the discoveries of science and **blend** it with our own needs. Technology is a general term used to refer to the different tools, machines, and equipment we use in everyday life. These tools and equipment have been invented by man to make the tasks faster, easier and more comfortable.

Since the invention of the wheel and the use of microchips in computers and mobiles, technology has come a long way. Man has reached the moon and explored the outer space just because of the advancement in the aeronautics field. Even in primitive occupations such as agriculture, there have been so many technological advancements with modern tools such as traction engine and steam tractor technology which has helped us make progress.

Although there have been countless examples where technology has changed our lives, there are some which are considered as revolution for mankind. The technology used in the field of robotics is one such fine example. Nowadays robots are being used by people and industries all over the world for various purposes. They are also used in places which are otherwise considered harmful for humans thereby protecting us. One such area is the cleaning and managing of radioactive waste.

Artificial Intelligence (AI) is another field which is a classic example of the technological advancement man has achieved. Who could have imagined that a machine would be capable of thinking like us? That is what AI has been successful in doing. It is an intelligent machine

capable of behaving like us. It can do activities such as problem-solving, planning, learning and even reasoning. Today AI is used in all major areas such as warfare, security, healthcare and communication. On top of this, it is far more efficient than us and has a lower rate of error.

Technology has its own importance in our lives. Without technological advancement, our lives would not be simpler and faster. The modernization that the world is witnessing today has all been possible because of the technological developments in different fields. Moreover, it has helped in reducing the risks people had to undertake in many sectors such as mining. With new tools available, the tasks are less risky and are more efficient as well.

Although technological advancements are important for us, it is also true that we seem to be over - dependent on them nowadays. The use of mobiles was meant to be able to keep in touch in difficult times. But now we see kids too much involved in the different applications on mobiles and killing their valuable time. In addition, many crimes have been reported through the misuse of digital technology. Also, it has been seen that many people lack the basic education required to ensure the proper use of the technology available today. In fact, most of them use it for the sake of fashion and hence end up misusing it. People have been so dependent on technology that they no longer want to do any kind of manual activity. Even for small works that can be done manually, people prefer to do it through technology. This has resulted in making humans mentally as well as physically dormant.

Technology is surely a **boon** for mankind. It is all the more important for the economic growth of a country. Modern technologies have in fact succeeded in reducing the human effort and the risk in doing a lot many things. But, still, it is for us to see how best we make use of the technology available to us.

While on one hand we can make use of technological advancements of nuclear energy to generate electricity and help many villages lighten us, on the other hand the same nuclear energy can be used to create bombs which can cause **mammoth** destruction. Similarly, robots and other technological advancements have served as a good servant to us but the moment it becomes the master it can wipe all humanity from the earth.

Nora: (drops her cloak) Someone is coming now! (Goes to the door and listens.) No — it is no one. Of course, no one will come today. Christmas Day — nor tomorrow either. But perhaps— (opens the door and looks out.) No, nothing in the letterbox; it is quite empty. (comes forward) What rubbish! Of course, he can't be in earnest about it. Such a thing couldn't happen: it is impossible — I have three little children. (enter the NURSE from the room on the left, carrying a big cardboard box)

Nurse: At last I have found the box with the fancy dress.

Nora: Thanks; put it on the table.

Nurse: (doing so) But it is very much in want of mending.

Nora: I should like to tear it into a hundred thousand pieces.

Nurse: What an idea! It can easily be put in order—just a little patience.

Nora: Yes, I will go and get Mrs. Linde to come and help me with it.

Nurse: What, out again? In this horrible weather? You will catch cold, ma'am, and make yourself ill.

Nora: Well, worse than that might happen. How are the children?

Nurse: The poor little souls are playing with their Christmas presents, but —

Nora: Do they ask much for me?

Nurse: You see, they are so accustomed to having their mamma with them.

Nora: Yes, but, nurse, I shall not be able to be so much with them now as I was before.

Nurse: Oh well, young children easily get accustomed to anything.

Nora: Do you think so? Do you think they would forget their mother if she went away altogether?

Nurse: Good heavens! - Went away altogether?

Nora: Nurse, I want you to tell me something I have often wondered about how could you have the heart to put your own child out among strangers?

Nurse: I was obliged to, if I wanted to be little Nora's nurse.

Nora: Yes, but how could you be willing to do it?

Nurse: What, when I was going to get such a good place by it? A poor girl who has got into trouble should be glad to. Besides, that wicked man didn't do a single thing for me.

Nora: But I suppose your daughter has quite forgotten you.

Nurse: No, indeed she hasn't. She wrote to me when she was confirmed, and when she was married.

Nora: (putting her arms round her neck) Dear old Anne, you were a good mother to me when I was little.

Nurse: Little Nora, poor dear, had no other mother but me.

Nora: And if my little ones had no other mother, I am sure you would — What nonsense I am talking! (opens the box) Go in to them. Now I must You will see tomorrow how charming I shall look.

TOUCH BY HUGH LEWIN

When I get out
I'm going to ask someone
Touch me
Very gently please
And slowly,
Touch me
I want
To learn again
How life feels

I've not been touched
For seven years
For seven years
I've been untouched
And I've learned
To know now
The meaning of
Untouchable.
Untouchable – not quite
I can count the things
That have touched me.

One: fists
At the beginning
Fierce mad fists
Beating beating
Till I remember
Screaming
Don't touch me
Please don't touch me

Two: paws
The first four years of paws
Every day
Patting paws, searching
Arms up, shoes off
Legs apart-
Probing paws, systematic
Heavy indifferent
Probing away
All privacy.

I don't want fists and paws
I want
To want be touched
Again

And touch.
I want to feel alive
Again
I want to say
When I get out
Here I am
Please touch me.
