KAPEK KENYA MATHEMATICAL OLYMPIAD 2022 (KKMO2022)

The KKMO is a high school mathematics contest organized by the Department of Mathematics, University of Nairobi and sponsored by KAPEK Mathematical Instruments. The contest aims to select a team to represent Kenya in the International Mathematical Olympiad (IMO2023).

The first round will be held on 31st May,2022 and consists of the Junior (Forms 1 &2) and Senior(Form 3 and above) categories. The first round is done in the schools to allow wider participation. Hence you can register as many students as possible. The second and third rounds will be held at the Department of Mathematics, University of Nairobi later in the year for the students who qualify. The top students and their school's mathematics departments will receive cash awards and all participants will receive certificates of participation.
