

FROM THE DESK OF KEVIN WALLACE

CCIEx2 #7945 Emeritus (Enterprise Infrastructure & Collaboration)

Friends,

I'm thrilled to spend three days with you building a solid foundation for your networking studies.

Specifically, I'll be teaching you my ***CCNA Foundations*** course for free!

The agenda is on the following page.

You *can* get certified and advance your career. You just need to understand the fundamentals and have complex technical concepts simplified for you.

This free course is taught **JUST ONCE PER YEAR**, so this is the only time I'm teaching it in 2020. **Last year, we had over 4,000 students register**, and we had more live attendees than I've ever had in ANY class I've led in my 2 decades as an online Cisco instructor.

It all starts Tuesday, July 28th and goes through July 30th. The full agenda is on the next page.

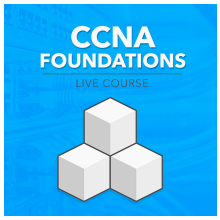

Tune is as much as you want.

You'll want to ATTEND LIVE for several reasons:

- Post-class replays will be taken down on Friday, July 31st.
- You'll have multiple opportunities per session to ask your questions.
- Each day, we'll be giving away of a CCNA book from legendary CCNA author/trainer Todd Lammle, and you MUST BE PRESENT TO WIN.

Until I "see" you on the your ***CCNA Foundations – LIVE*** course, enjoy your studies, and stay curious.

Kevin

CCNA Foundations LIVE!

Kevin Wallace's comprehensive networking fundamentals course covering the theory and operation of multiple networking technologies, all designed to lay a strong foundation for your CCNA studies, and beyond.

Curriculum

All times Eastern Daylight Time (GMT -4)

10 AM – 2 PM Tuesday, July 28, 2020

- Protocols and Reference Models
- Network Devices
- Network Topologies and Categories
- Network Services
- WAN Technologies
- Cables and Connectors

10 AM – 2 PM Wednesday, July 29, 2020

- Ethernet Switches
- Wireless Networks
- Network Addressing
- Routing

10 AM – 2 PM Thursday, July 30, 2020

- Routing (cont.)
- Unified Communications
- Virtualization
- Network Security
- Network Monitoring and Management
- Network Best-Practices
- Network Troubleshooting

ABOUT KEVIN

Kevin Wallace, CCIEx2 #7945 Emeritus (Enterprise Infrastructure & Collaboration), has earned multiple Cisco expert, professional, and associate-level certifications in the Enterprise, Route/Switch, Collaboration, Security, Design, and Data Center tracks.

With Cisco experience dating back to 1989, Kevin has been a *Network Design Specialist* for the Walt Disney World Resort, an instructor of Cisco courses for multiple Cisco Learning Partners (CLPs), and a *Network Manager* for Eastern Kentucky University.

Kevin earned multiple *Distinguished Speaker* awards for his *Cisco Live* presentations, and he has authored/created 16+ books and video courses for Cisco Press/Pearson. Currently, Kevin owns and operates *Kevin Wallace Training, LLC,* a provider of self-paced training materials that simplify IT. Kevin holds a Bachelor of Science degree in Electrical Engineering from the University of Kentucky.
