Answer all questions on the test paper.

Question (1) **(20 marks)**

Read the following and mark the statements as true or false:

The Great Communication

We can communicate with other people in many different ways. We can talk and write, and we can send messages with our hands and faces . There is also the phone (including the mobile), the fax, and e-mail. Television, film, painting, and photography can also communicate ideas.

Animals have ways of exchanging information, too. Bees dance and tell other bees where to find food. Elephants make sounds that humans can't hear. Whales sing songs . Monkeys use their faces to show anger or love. But this is nothing compared to what people can do. We have language-about 6000 languages, in fact. We can write poetry, tell jokes, make promises, explain, tell the truth, or tell lies. And we have a sense of past and future, not just present.

Communication technologies were very important for the development of all the great old societies.

Radio, film, and television have had a great influence on society in the last hundred years. And now we have the Internet, which is infinite. But what is this doing to us?

We can give and get a lot of information very quickly. But there is so much information that it is difficult to know what is important and what isn't. Modern media is changing our world every minute of every day.

1. People could communicate in more than six ways. _____.

2. Animals do not communicate with each other. _____.

3. People us language only when they tell the truth._____.

4. The television was made hundreds of years ago. _____.

5. Bees communicate through dancing . _____.

6. People can easily hear elephant's songs. _____.

7. People use their hands and faces to send messages. _____.

8. Communication is important for development. _____.

9. Painting is a way to communicate ideas. _____.

10. Media is changing our world slowly. _____.
