Living In The Spirit While In The Flesh

The flesh is weak, it is weak always, but when you Journey too far in God, then you won't feel it's weakness. Do not lose guard therefore, for the very moment you do, you'll begin to realize the weakness of the flesh that pressures or automatically causes one to do evil through the death factor at work in the flesh by the spirit of darkness.

Therefore, you must watch and pray, that is; you must wait, remain and dwell in God's presence always, in His word and in prayers and faithfulness to willingly live in obedience to God's word in spirit and in truth.

It is by the spirit of God the flesh is subdued. And that's why we keep in the presence, to remain constant in the spirit and filled even more by the holy spirit else, you'll see the flesh overcome the will of the holy spirit.

It is through God's word we are strengthened and by His spirit, the flesh is tamed and quickened to remain in God's presence.

The weakness of the flesh, it hides (subdued) where the holy spirit prevails, that is; but becomes visible, dominant where the holy spirit begins to fade and depart. We must be filled constantly by the holy spirit.

If you find yourself falling to sin at times or consumed by it, it's because, you do not willingly do enough for God's word to assist you by His spirit to subdue the flesh. We all have flesh corrupted and weak in sin and death. However, those who aren't tamed by the flesh live in the spirit, by the holy spirit, even though in the flesh. And so therefore, they cannot sin, because the weakness of the flesh has been swallowed up and put to death completely by the holy spirit through God's word.

If you must walk in the spirit to subdue the flesh, you must constantly pray for hours and feed on God's daily.

If you're not dosed by the holy spirit, the moment you step into flesh, the holy spirit in you begins to degenerate, how much you're filled or baptized in the holy ghost will determine how much the flesh will eat up to get to your heart. Anyone who falls into darkness, is not really dosed with the holy spirit, and so when the flesh begins to bore through his spiritual barrier, it gets to his heart in time.

The holy spirit dwells in us and he also expands continuously as a spiritual barrier, you must pray and feed on the word to keep this barrier expanded else, it'll be you're own fault for falling into sin. Receiving Jesus is not enough, you must

grow his spirit in you to fortify your heart. And as I said earlier, to do this, you must pray for hours and feed on God's life (word) daily.

Any who refuses to spend more time in God than in the world, cannot be dosed by the holy spirit. Such casualty is seen in our world today at a greater scale in the confession people makes;

" It's not possible to live without sin."

Yes it is, by God's spirit, if you deny this, then you've made God a liar and have blasphemed the death of Jesus on the cross for the total salvation and restoration of man back to His original relationship with God.

If you're reading this, and your heart is not yet configured by the holy spirit, now is the time to do so, else it'll be too late. You don't have much time than you think you do.
