Frequently Asked Questions (F.A.Qs.)

Where is the school located?

The school is located in Kiambu County, along the Thika – Mang’u Road, 6 kilometers off the Thika Superhighway.

Why build a school instead of investing in already existing schools?

The M-PESA Foundation has made significant investments in existing educational institutions. The Academy is in keeping with our continued commitment to transforming lives in Kenya.

How is your school different?

We invest in continuous research to ensure that we cover the academic concepts required in exciting and innovative ways. It is learner-centered incorporating the use of ICT to deliver the curriculum. We also focus on entrepreneurship and leadership giving students time to learn outside the classroom, explore the arts and take part in sports.

The school has a capacity of 750 students, with an average class size of 24 students per class, from form 1 to 4. It is the intention of the school to adopt a student-centered learning approach through the International Baccalaureate curriculum. This curriculum, ignites passion in our 21st-century learners whereby they are equipped with problem solving skills, and are encouraged to find a practical solutions to global problems/issues. The end results are learners who take thoughtful risks, engage in experiential learning, persist in problem-solving, embrace collaboration, and work through the creative process.

We launched The UONGOZI Centre, a contemporary programme that aims to support our graduate students in their post secondary school journey by enhancing their leadership potential, developing independent living and thinking skills as well as assisting our learners to incubate business ideas and community projects.
