Managing Microsoft Teams

Version 3.0

Plan and Configure a Microsoft Teams Environment

Question Set 1

QUESTION 1
Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

Your company has a Microsoft 365 subscription.

You plan to configure the environment to allow external users to collaborate in Microsoft Teams by using guest access.

The company implements a new security policy that has the following requirements:

Only guest users from specific domains must be allowed to connect to collaborate by using Microsoft Teams.
Guest users must be prevented from inviting other guests.

You need to recommend a solution to meet the security policy requirements.

Solution: From the Microsoft Teams admin center, you modify the global meeting policy.

Does this meet the goal?

A. Yes
B. No

Correct Answer: B
Section: (none)
Explanation

QUESTION 10
You are a Microsoft Teams administrator for your company.

All the teams used by the company's legal department must meet the following compliance requirements:

Each team must expire 365 days after it is created.
All team content must be deleted when the team expires.
An administrator must be able to restore deleted team content for 30 days.

What should you do?

A. From the Microsoft Teams admin center, modify the teams policy.
B. From PowerShell, run the `New-AzureADMSGroupLifecyclePolicy` cmdlet.
C. From the Security & Compliance admin center, create a data loss prevention (DLP) policy.
D. From the Microsoft 365 admin center, modify the Office 365 group settings.

Correct Answer: B

QUESTION 11
Your company has a Microsoft 365 subscription that contains 20 teams.

You need to ensure that a team named Team1 is identified as Highly Confidential in the Microsoft Teams client.

What should you use?

A. a classification label in the Azure Active Directory admin center

B. a sensitivity label in the Security & Compliance admin center
C. a supervision policy in the Security & Compliance admin center
D. a teams policy in the Microsoft Teams admin center

Correct Answer: A
Section: (none)
Explanation

Explanation/Reference:

QUESTION 12
Your company has a Microsoft 365 subscription.

You attempt to review call quality by location.

When you sign in to the Microsoft Call Quality Dashboard, you discover that no locations are defined.

You need to ensure that all the call quality information in the dashboard is segmented by location.

What should you do first?

A. From the Microsoft Teams admin center, configure reporting labels.
B. From an administrator's computer, run the Network Testing Companion.
C. From PowerShell, run the `Set-CsQoEConfiguration` cmdlet.
D. From the Microsoft Teams admin center, run the Network Planner.

QUESTION 14
Your company uses Microsoft Teams.

The company has the departments and teams shown in the following table.

Department name	Team name
Sales	Team1
Research and Development	Team2
Finance	Team3

You need to recommend a solution to prevent the users in each department from inviting users from other departments to their team.

What should you include in the recommendation?

A. app permission policies
B. Azure Information Protection
C. supervision policies
D. information barrier policies

Correct Answer: D
Section: (none)
Explanation

QUESTION 15
Your company has a Microsoft 365 E5 subscription.

The company uses Microsoft Skype for Business Online and plans to upgrade to Microsoft Teams.

The network contains the following devices:

100 computers that run Windows 10
50 Android devices
50 iPhone devices

All the devices have the Skype for Business app installed.

You need to deploy Microsoft Teams to all the devices.

What should you do?

A. From the Microsoft Teams admin center, set Download the Teams app in the background for Skype for Business users to **On**.
B. Create a Group Policy Object (GPO) that contains an app package, and then link the GPO.
C. From the Microsoft Teams admin center, create an app setup policy that includes the Microsoft Teams app, and then assign the policy to all users.
D. From the Microsoft Intune, push Microsoft Teams to all the devices.

Correct Answer: A
Section: (none)
Explanation

Explanation/Reference:

QUESTION 16
Your company has a Microsoft 365 subscription that contains several teams.

The company's security policy states that an administrator must be notified when a new team is created by using the Build a team from scratch option.

You need to configure the environment to meet the security policy requirement.

What should you do?

A. From the Security & Compliance admin center, create a supervision policy.
B. From the Security & Compliance admin center, create an alert policy.
C. From the Azure Active Directory admin center, create a protection notification.
D. From the Microsoft Teams admin center, modify the global teams policy.

Correct Answer: B
Section: (none)
Explanation

Explanation/Reference:

QUESTION 17
Users report poor quality during Microsoft Teams audio conferences.

You run a network trace during an audio conference from a user's device as shown in the following exhibit.

```
Frame Details:                                                    X
        Checksum: 0 (0x0)
        SourceAddress: 10.10.10.110
        DestinationAddress: 52.114.188.31
0-Tcp: Flags=...A...., SrcPort=50008,    DstPort=HTTPS(443), PayloadLen=0,
        SrcPort: 50008
        DstPort: HTTPS(443)
        SequenceNumber: 4077031237 (0xF3028F45)
      E AcknowledgementNumber: 223214542 (0xD4DFD5E)
    E B DataOffset: 80 (0x50)
      O Flags: ...A
        Window: 1025 (scale factor 0x8) = 262400
        Checksum: 0x524, Disregarded
        UrgentPointer: 0 (0x0)
```

What causes the poor quality of the audio conferences?

A. The source port range for audio is too narrow.
B. The source port for audio is above 50,000.
C. The UDP traffic is being limited.
D. The TLS traffic is being limited.

Correct Answer: C

QUESTION 18
Your company has a Microsoft 365 subscription.

All users have a computer that runs Windows 10 and has Microsoft Teams installed.

A user reports the following issues:

Users lose their connection during screen sharing.
The user selection process takes too long to complete.
The Microsoft Teams client crashes and restarts automatically.

You need to view the Microsoft Teams debug logs to troubleshoot the issues.

What should you do?

A. From the Microsoft Teams client, select **F1**. Open the ETL files in the **%Appdata%\Microsoft\Teams**folder.
B. From the Microsoft Teams client, select **Ctrl+Alt+Shift+1**. Open the log files in the **%Userprofile%\Downloads** folder.
C. From Event Viewer, open the Application log and filter the log for a keyword of MSTeams.
D. Right-click the Microsoft Teams icon in the application tray, and then select **Get logs**. Open Logs.txt in the **%Appdata%\Microsoft\Teams** folder.

Correct Answer: B

QUESTION 36
Your company deploys a Quality of Service (QoS) solution to its network.

You recently deployed Microsoft Teams for all users. Each user uses a domain-joined computer that runs Windows 10.

The users report poor audio quality when they use Microsoft Teams from the network.

You discover that the media traffic from Microsoft Teams is **NOT** processed by the QoS solution.

You need to ensure that all the media traffic is processed by the QoS solution.

Which two actions should you perform? Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

A. From the Microsoft Teams admin center, set Insert Quality of Service (QoS) markers for real-time media traffic to **On**.
B. From the Microsoft Teams client, select a certified Microsoft Teams audio device.
C. From PowerShell, run the `Set-CsQoEConfiguration` cmdlet.
D. From Group Policy Management, create a Group Policy Object (GPO) that contains the Policy-based QoS settings, and then link the GPO to the domain.
E. From the Microsoft Teams admin center, turn on logging for the device configuration profile.

Correct Answer: AD

QUESTION 37
Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

Your company has 10 offices in North America and Europe.

The company has 5,000 users.

You plan to deploy Microsoft Teams for all the users.

You run a pilot project for the planned deployment.

You need to identify the network packet loss from the pilot computers to Microsoft Teams during calls.

Solution: From the Microsoft Teams admin center, you review the Microsoft Call Quality Dashboard.

Does this meet the goal?

A. Yes
B. No

Correct Answer: A

Testlet 2

Case study
This is a case study. **Case studies are not timed separately. You can use as much exam time as you would like to complete each case.** However, there may be additional case studies and sections on this exam. You must manage your time to ensure that you are able to complete all questions included on this exam in the time provided.

To answer the questions included in a case study, you will need to reference information that is provided in the case study. Case studies might contain exhibits and other resources that provide more information about the scenario that is described in the case study. Each question is independent of the other questions in this case study.

At the end of this case study, a review screen will appear. This screen allows you to review your answers and to make changes before you move to the next section of the exam. After you begin a new section, you cannot return to this section.

To start the case study
To display the first question in this case study, click the **Next** button. Use the buttons in the left pane to explore the content of the case study before you answer the questions. Clicking these buttons displays information such as business requirements, existing environment, and problem statements. If the case study has an **All Information** tab, note that the information displayed is identical to the information displayed on the subsequent tabs. When you are ready to answer a question, click the **Question** button to return to the question.

Overview

Contoso, Ltd. is a pharmaceutical company that has 3,000 users in offices across North America.

Existing Environment

Active Directory

The network contains an on-premises Active Directory domain. All user accounts are in departmental organizational units (OUs).

Microsoft Office 365

All users are assigned a Microsoft Office 365 E5 license and are enabled for the following services:

- Microsoft Yammer
- Microsoft Exchange Online
- Microsoft SharePoint Online
- Microsoft OneDrive for Business
- Azure Active Directory (Azure AD)
- Azure AD dynamic group membership

Microsoft Skype for Business

Contoso has an on-premises deployment of Microsoft Skype for Business Server 2015. All the latest cumulative updates are installed on all the servers. The following services are used in Skype for Business Server 2015:

- Meetings
- PSTN calling
- Instant messaging (IM)
- Federation to external companies

Departments

Contoso has the following departments:

- IT
- Sales
- Human resources (HR)
- Research and development (R&D)

All groups are created by using dynamic group membership that use the department attribute.

Requirements

Business Goals

Contoso identifies the following business goals:

- Migrate the maximum number of users to Microsoft Teams.
- Minimize administrative effort.

Device Requirements

Contoso identifies the following device requirements:

- Replace Skype for Business IP phones with Microsoft Teams phones.
- All Microsoft Teams phones must be set to lock automatically after 60 seconds.

Meeting and Live Event Requirements

Contoso identifies the following meeting and live event requirements:

- Requirement1: Guest users must be able to join live events.
- Requirement2: Guest users must always wait in a meeting lobby.

- Requirement3: Contoso users must always bypass the meeting lobby when they join meetings by using the Microsoft Teams client.
- Requirement4: After the upgrade to Microsoft Teams, all meetings must be scheduled by using Microsoft Teams.

Calling Requirements

Contoso identifies the following calling requirements:

- Migrate all existing auto attendants and response groups to Office 365.
- Minimize the on-premises PSTN infrastructure.

Technical Requirements

Guest users must be prevented from making private calls.

Security Requirements

Contoso has the following security requirements for the Microsoft Teams deployment:

- The number of ports allowed on the company's firewall must be limited.
- Team names must be prevented from containing the name of any products produced by Contoso.
- Users in the R&D group must be prevented from sending chat messages to users in other departments.
- To meet the company's compliance policy, users in the sales department must continue to use on-premises Skype for Business for IM and calling only.

Pilot Project

Contoso begins a pilot project for the upgrade to Microsoft Teams.

You identify the following issues during the pilot project:

- Microsoft Teams users report that they often receive continuous notifications from the Microsoft Teams client for 20 minutes.
- Two pilot users in the HR department report that they are not members of the HR team.

QUESTION 1
You need to configure the environment to meet the security requirements for the R&D group.

What should you do first?

A. Start the information barrier policy application.
B. Add an identity provider.
C. Create two information barrier segments.
D. Create one information barrier policy.

Correct Answer: C
Section: (none)
Explanation

Explanation/Reference:
Explanation:
Create information barrier segments first, then create information barrier policy based on the segments then start the information barrier application.

Reference:
https://docs.microsoft.com/en-us/microsoft-365/compliance/information-barriers-policies

QUESTION 2
You need to configure the user accounts of the sales department users to meet the security requirements.

What should you do for each user?

A. From the Microsoft Teams admin center, set the Microsoft Teams upgrade policy to **Skype for Business with Teams collaboration and meetings** coexistence mode.
B. From PowerShell, run the `Grant-CsTeamsUpgradePolicy -PolicyName SfBWithTeamsCollab` cmdlet.
C. From PowerShell, run the `Grant-CsTeamsUpgradePolicy -PolicyName Islands` cmdlet.
D. From the Microsoft Teams admin center, set the Microsoft Teams upgrade policy to **Skype for Business only** coexistence mode.
E. From PowerShell, run the Grant-CsTeamsUpgradePolicy -PolicyName SfBWithTeamsCollabAndMeeting cmdlet.

Correct Answer: A
Section: (none)
Explanation

Explanation/Reference:
Reference:

Overview

General Overview

Litware, Inc. is an international manufacturing company that has 4,000 users. The company has the following four departments:

- IT
- HR
- R&D
- Sales

Physical Locations

Litware has two main offices. The offices are located in New York and London.

All offices connect to each other by using a WAN link. Each office connects directly to the Internet.

Existing Environment

All user accounts have an Azure Active Directory Premium Plan P1 license.

Litware has a Microsoft 365 subscription that has Office 365 Enterprise E3 licenses for all users. All the E3 products and services are enabled for each user.

Litware uses Microsoft Skype for Business Online.

Requirements

Planned Upgrade

Litware identifies the following requirements for a planned upgrade from Skype for Business Online to Microsoft Teams:

- Provide high quality audio, video, and online meeting experience for Microsoft Teams end users.
- Implement a data retention solution in Microsoft Teams.
- Minimize costs and administrative effort.
- Use the principle of least privilege.

For the sales department, Litware plans to create a team that dynamically updates its membership when users leave and join the department.

Department Upgrade Requirements

Litware plans to implement upgrade requirements for the departments as shown in the following table.

Department name	Requirement
Sales	Must use Microsoft Teams and Skype for Business. Must receive incoming chats and calls by using the same client that initiated the communication.
HR	Must use Microsoft Teams for collaboration and meetings. Must maintain Skype for Business as the preferred client for chat and calling.
IT and R&D	Must use only Microsoft Teams for chat, meetings, calling, and collaboration.

Microsoft Teams Requirements

All teams must meet the following requirements:

- Only users in a partner company that uses a domain named fabrikam.com must be able to collaborate in teams by using guest accounts.
- Only users in the compliance department of Litware must be able to create teams.

Planned Network Tasks

Litware identifies the following network validation tasks:

- An administrator named Admin5 must be able to review the required bandwidth to support audio conferencing, video conferencing, and screen sharing in Microsoft Teams.
- An administrator named Admin6 must be able to review network issues that cause poor call quality reported by users.

Data Retention Requirements

Litware identifies the following data retention requirements:

- Requirement1: All messages in team collaborations must be deleted after seven years.
- Requirement2: all files used in team collaborations must be retained for five years.
- Requirement3: All files used in personal chats must be retained for five years.

Device Requirements

You provide Microsoft Teams-certified IP phones to users in the IT and R&D departments. Each device must meet the following requirements:

- The time zone on the phones used by the R&D department must be set to UTC-8.
- The time zone on the phones used by the IT department must be set to UTC-5.
- All phones must lock automatically after 60 seconds of inactivity.

Voice Pilot Requirements

Litware wants to pilot Phone System as a calling solution for 20 IT department users. The pilot project will receive phone numbers from Microsoft.

Collaboration and Meeting Requirements

Litware identifies the following collaboration and meeting requirements:

- Cloud recording must be disabled for all Microsoft Teams meetings organized by users in the HR departments only.
- Meeting email invitations must be customized to include the Logo URL, Legal URL, and Help URL of Litware.

QUESTION 1
HOTSPOT

You need to recommend a solution to perform the network validation tasks for the planned upgrade.

Which tool and role should you recommend for each user? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Hot Area:

Answer Area

User name	Tool	Role
Admin5	Microsoft Call Quality Dashboard Network Monitor Network Planner Network Testing Companion	Teams Communications Administrator Teams Communications Support Engineer Teams Communications Support Specialist
Admin6	Microsoft Call Quality Dashboard Network Monitor Network Planner Network Testing Companion	Teams Communications Administrator Teams Communications Support Engineer Teams Communications Support Specialist

Correct Answer:

QUESTION 2
You need to implement a solution to meet the Microsoft Teams requirements for the compliance department.

What should you do first?

A. Add all the compliance department users as members of an org-wide team.
B. Add all the compliance department users to a universal security group.
C. Add all the compliance department users to an Office 365 group.
D. Assign the Teams Communications Support Engineer role to all the compliance department users.

Correct Answer: B
Section: (none)
Explanation

Explanation/Reference:

QUESTION 3
You need to configure the IP phones to meet the device requirements.

What is the minimum number of configuration profiles you should create?

A. 1
B. 2
C. 3
D. 4

Correct Answer: B
Section: (none)
Explanation

Manage Chat, Calling, and Meetings

Question Set 1

QUESTION 1
Your company has a Microsoft 365 subscription.

You need to prevent users from using Microsoft Teams to communicate with users in a partner company that uses an email domain named litewareinc.com.

What should you do from the Microsoft Teams admin center?

A. Turn off guest access.
B. Create a new messaging policy.
C. Modify the External access settings.
D. Create a new meeting policy.

Correct Answer: C
Section: (none)
Explanation

Explanation/Reference:

QUESTION 2
Your company has a Microsoft 365 subscription.

The company has a main office in Chicago.

The company opens a new office in Toronto that has 500 users.

You need to ensure that the correct address is available to emergency responders.

What should you do?

A. Create a configuration profile and assign the profile to the device of each user.
B. Add an emergency address, and then modify each phone number.
C. Add an emergency address, and then modify each user.
D. Create a calling policy and assign the policy to each user.

Correct Answer: B

Section: (none)
Explanation

Explanation/Reference:

QUESTION 3
Your company has a Microsoft 365 tenant.

Guest users report that they cannot access files or Microsoft OneNote from Microsoft Teams. The guest users can access channels, chats, and conversations.

You need to ensure that the guest users can access the files and OneNote from Microsoft Teams.

For what should you configure external sharing?

A. Microsoft Teams
B. Microsoft SharePoint Online
C. Microsoft OneDrive for Business
D. Microsoft Yammer.

Correct Answer: B
Section: (none)
Explanation

Explanation/Reference:

QUESTION 4
Your company has a Microsoft 365 subscription that uses Phone System and Calling Plans.

You plan to implement a toll phone number for the helpdesk.

You need to implement the following call features for the helpdesk phone number:

Must include a greeting and hold music
Must bypass menu options when a call is established to the helpdesk

What two resources should you create? Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

A. a call queue
B. a call park
C. an auto attendant
D. a resource account
E. a calling policy

Correct Answer: AD
Section: (none)
Explanation

Explanation/Reference:
Reference:
https://docs.microsoft.com/en-us/microsoftteams/create-a-phone-system-call-queue

QUESTION 5
You have a Microsoft 365 subscription. There are three users that are assigned the global administrator role.

You create an org-wide team named Team1.

You need to configure Team1 to meet following requirements:

Ensure that only the three global administrators to create new posts in the General channel.
Prevent @mentions for the org-wide team members.

Which two actions should you perform from the Microsoft Teams client? Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

A. From the Team1 settings, clear **Give members the option to edit their messages**.
B. From the General Channel settings of Team1, set the channel moderation preference to **Anyone can post; show alert that postings will notify everyone (recommended for large teams)**.
C. From the General Channel settings of Team1, set the channel moderation preference to **Only owners can post messages**.
D. From the Team1 settings, disable all the Fun stuff settings.
E. From the Team1 settings, set Show members the option to @team or @[team name] to **Off**.

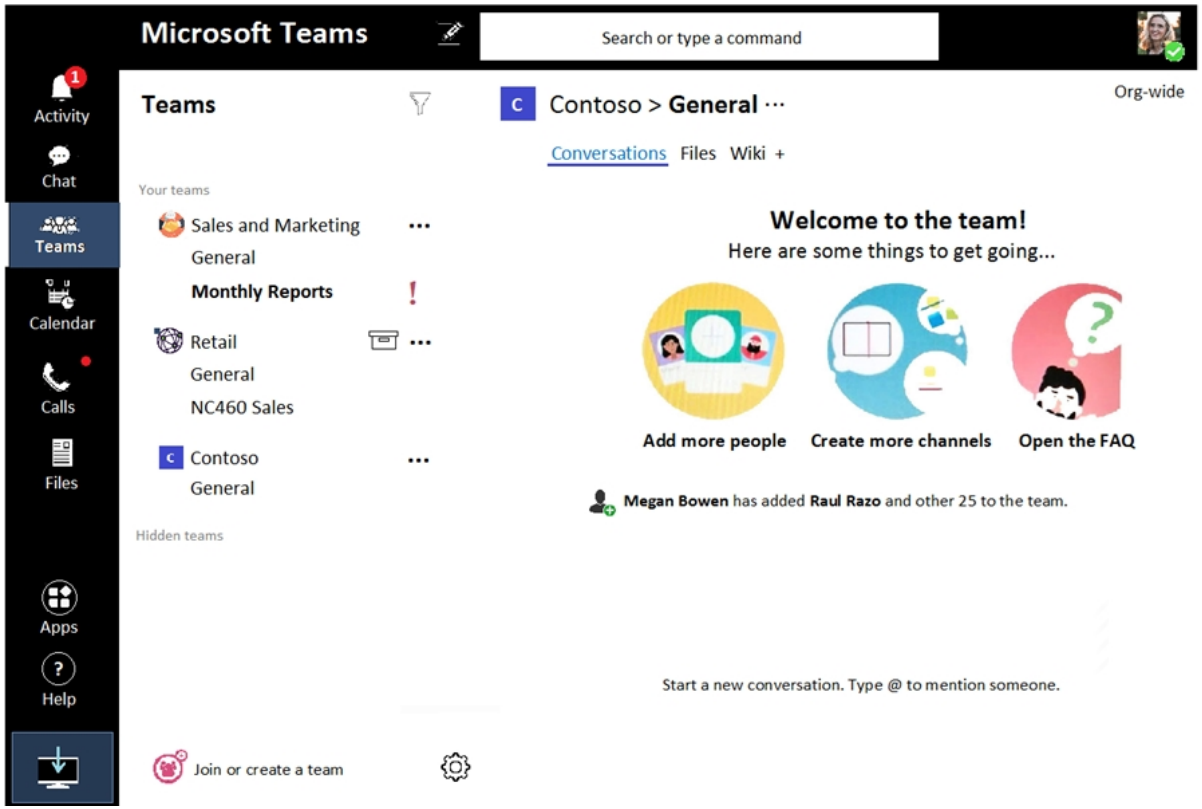
Correct Answer: CE
Section: (none)
Explanation

Explanation/Reference:

Reference:
https://docs.microsoft.com/en-us/microsoftteams/create-an-org-wide-team

QUESTION 6
Your company has a Microsoft 365 subscription.

From the Microsoft Teams client, you review the teams shown in the exhibit.



Members of the Retail team report that they cannot create channels.

You need to ensure that the Retail team members can create channels.

Which two actions should you perform? Each correct answer presents a complete solution.

NOTE: Each correct selection is worth one point.

A. From the Azure Active Directory admin center, change the membership type of the Office 365 group for the Retail team to **Assigned**.
B. From the Microsoft Teams client, promote all the Retail team members to an owner role.
C. From the Microsoft Teams admin center, unarchive the Retail team.
D. Instruct the Retail team owner to restore the team by using the Microsoft Teams client.
E. From PowerShell, modify the information barrier policy.

Correct Answer: CD
Section: (none)
Explanation

Explanation/Reference:

QUESTION 7
Your company has a Microsoft 365 subscription.

The Microsoft 365 tenant uses a domain named contoso.com.

You need to ensure that team channels can receive email only from users in the company and email addresses that use an email domain named @fabrikam.com.

What should you modify?

A. the External collaboration settings in the Azure Active Directory admin center
B. the list of accepted domains in Microsoft Exchange Online
C. the org-wide Teams settings
D. the global teams policy

Correct Answer: C
Section: (none)
Explanation

Explanation/Reference:

QUESTION 8
HOTSPOT

You have a Microsoft 365 subscription.

You need to create the call queues shown in the following table.

Queue name	Description
CQ1	Balances incoming calls so that each call agent gets the same number of calls.
CQ2	The first call in the queue rings all call agents simultaneously.

Which routing method should you configure for each call queue? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

QUESTION 10
You plan to implement a pilot project on Phone System for 100 users.

The pilot project will use a Microsoft Calling Plan.

You need to ensure that the users can establish calls to the PSTN.

Which cmdlets should you run?

A. `Set-AzureADUserLicense`, `Set-CSUser`, and `Set-AzureADUser`
B. `Grant-CsOnlineVoiceRoutingPolicy`, `Set-CsOnlineVoiceUser`, and `Set-CSUser`
C. `Set-AzureADUser`, `Grant-CsOnlineVoiceRoutingPolicy`, and `Set-CsOnlineVoiceUser`
D. `Set-AzureADUserLicense`, `Set-CsOnlineVoiceUser`, and `Set-CSUser`

Correct Answer: B

QUESTION 11
HOTSPOT

Your company has a Microsoft 365 subscription that uses Phone System.

Two employees have the user account shown in the following table.

User name	Phone number	PSTN connectivity
User1	425-555-1212	Calling Plans
User2	425-555-1213	Direct Routing

The employees are leaving the company.

You need to ensure that the phone numbers can be reassigned to other employees as quickly as possible.

What should you use for each employee? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

QUESTION 12
Your company has a Microsoft Office 365 subscription.

Users in the company's sales department frequently invite guest users to meetings.

You need to ensure that when the sales department users invite guest users to meetings, the guest users are admitted by default. The solution must only apply to the sales department users.

Which two actions should you perform? Each correct solution presents part of the solution.

NOTE: Each correct selection is worth one point.

A. In the global meeting policy, set Automatically admit users to **Everyone**.
B. Create a new meeting policy and set Automatically admit users to **Everyone**.
C. Apply the policy to the sales department users.
D. In the global meeting policy, set Automatically admit users to **Everyone in your organization**.

QUESTION 15
Your company has a Microsoft Office 365 subscription.

The company has the departments and teams shown in the following table.

Department name	Team name
Sales	Teams1
Finance	Teams2
HR	Teams3

You need to recommend which policies must be created to meet the following requirements:

Users in the HR department must be prevented from sending messages marked as Urgent.
Users in the finance department must be able to send messages marked as Urgent.
Users in the finance department must be able to delete sent messages.

The solution must only affect the HR department users and the finance department users.

What is the minimum number of policies you should recommend?

A. two messaging policies
B. one messaging policy and one permission policy
C. one permission policy only
D. two permission policies
E. one messaging policy only

Correct Answer: A

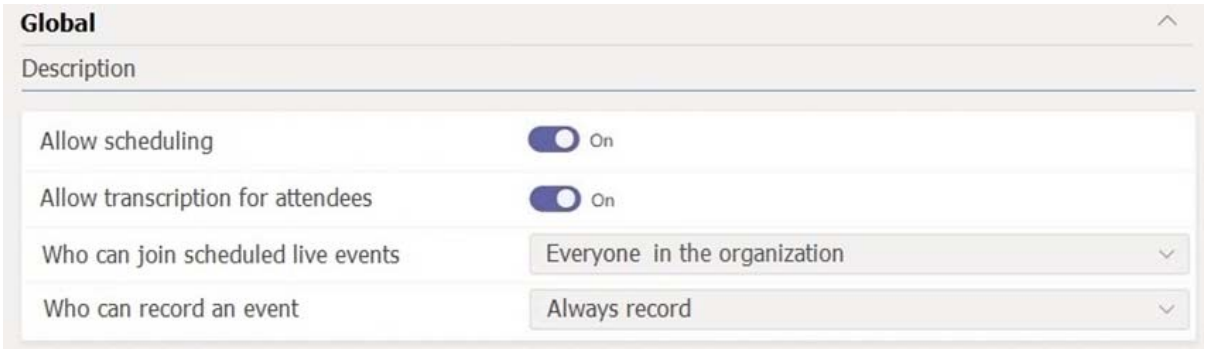
QUESTION 23
HOTSPOT

Your company has a Microsoft 365 subscription. You add guest users to the organization.

The company's global live event policy is configured as shown in the following exhibit.



Use the drop-down menus to select the answer choice that completes each statement based on the information presented in the graphic.

NOTE: Each correct selection is worth one point.

Hot Area:

Answer Area

[Answer choice] can access live events.

- Users who have an Azure AD account, external access users, and guest users
- Only users who have an Azure AD account and external access users
- Only users who have an Azure AD account and guest users
- Only users who have an Azure AD account only

[Answer choice] can schedule live events.

- All users who have an Azure AD account
- All users who have an Azure AD account and guest users
- Only global administrators
- Only team owners

Correct Answer:

Answer Area

[Answer choice] can access live events.

- Users who have an Azure AD account, external access users, and guest users
- Only users who have an Azure AD account and external access users
- **Only users who have an Azure AD account and guest users**
- Only users who have an Azure AD account only

QUESTION 25
Your company has a Microsoft 365 subscription.

You need to ensure that users from a partner company named Contoso, Ltd. can collaborate with your company's users in teams. The solution must ensure that the Contoso users can exchange chat messages in channels.

Which three actions should you perform before you add the Contoso users to teams? Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

A. From the Services & add-ins settings in the Microsoft 365 admin center, set Let group members outside the organization access group content to **On**.
B. From the Guest access settings in the Microsoft Teams admin center, set Allow guest access in Microsoft Teams to **On**.
C. From the External collaboration settings in the Azure Active Directory admin center, add Contoso's domain to the list of target domains.
D. From the External access settings in the Microsoft Teams admin center, add Contoso's domain to the Allowed list of domains.
E. From the External collaboration settings in the Azure Active Directory admin center, set Guest users permissions are limited to **No**.
F. From the Services & add-ins settings in the Microsoft 365 admin center, set Let group owners add people outside the organization to groups to **On**.

Correct Answer: BDF

Testlet 2

Case study
This is a case study. **Case studies are not timed separately. You can use as much exam time as you would like to complete each case.** However, there may be additional case studies and sections on this exam. You must manage your time to ensure that you are able to complete all questions included on this exam in the time provided.

To answer the questions included in a case study, you will need to reference information that is provided in the case study. Case studies might contain exhibits and other resources that provide more information about the scenario that is described in the case study. Each question is independent of the other questions in this case study.

At the end of this case study, a review screen will appear. This screen allows you to review your answers and to make changes before you move to the next section of the exam. After you begin a new section, you cannot return to this section.

To start the case study
To display the first question in this case study, click the **Next** button. Use the buttons in the left pane to explore the content of the case study before you answer the questions. Clicking these buttons displays information such as business requirements, existing environment, and problem statements. If the case study has an **All Information** tab, note that the information displayed is identical to the information displayed on the subsequent tabs. When you are ready to answer a question, click the **Question** button to return to the question.

Overview

Contoso, Ltd. is a pharmaceutical company that has 3,000 users in offices across North America.

Existing Environment

Active Directory

The network contains an on-premises Active Directory domain. All user accounts are in departmental organizational units (OUs).

Microsoft Office 365

All users are assigned a Microsoft Office 365 E5 license and are enabled for the following services:

- Microsoft Yammer
- Microsoft Exchange Online
- Microsoft SharePoint Online
- Microsoft OneDrive for Business
- Azure Active Directory (Azure AD)
- Azure AD dynamic group membership

Microsoft Skype for Business

Contoso has an on-premises deployment of Microsoft Skype for Business Server 2015. All the latest cumulative updates are installed on all the servers. The following services are used in Skype for Business Server 2015:

- Meetings
- PSTN calling
- Instant messaging (IM)
- Federation to external companies

Departments

Contoso has the following departments:

- IT
- Sales
- Human resources (HR)
- Research and development (R&D)

All groups are created by using dynamic group membership that use the department attribute.

Requirements

Business Goals

Contoso identifies the following business goals:

- Migrate the maximum number of users to Microsoft Teams.
- Minimize administrative effort.

Device Requirements

Contoso identifies the following device requirements:

- Replace Skype for Business IP phones with Microsoft Teams phones.
- All Microsoft Teams phones must be set to lock automatically after 60 seconds.

Meeting and Live Event Requirements

Contoso identifies the following meeting and live event requirements:

- Requirement1: Guest users must be able to join live events.
- Requirement2: Guest users must always wait in a meeting lobby.

- Requirement3: Contoso users must always bypass the meeting lobby when they join meetings by using the Microsoft Teams client.
- Requirement4: After the upgrade to Microsoft Teams, all meetings must be scheduled by using Microsoft Teams.

Calling Requirements

Contoso identifies the following calling requirements:

- Migrate all existing auto attendants and response groups to Office 365.
- Minimize the on-premises PSTN infrastructure.

Technical Requirements

Guest users must be prevented from making private calls.

Security Requirements

Contoso has the following security requirements for the Microsoft Teams deployment:

- The number of ports allowed on the company's firewall must be limited.
- Team names must be prevented from containing the name of any products produced by Contoso.
- Users in the R&D group must be prevented from sending chat messages to users in other departments.
- To meet the company's compliance policy, users in the sales department must continue to use on-premises Skype for Business for IM and calling only.

Pilot Project

Contoso begins a pilot project for the upgrade to Microsoft Teams.

You identify the following issues during the pilot project:

- Microsoft Teams users report that they often receive continuous notifications from the Microsoft Teams client for 20 minutes.
- Two pilot users in the HR department report that they are not members of the HR team.

QUESTION 1
You need to resolve the notification issues identified during the pilot project.

What should you modify?

A. the global meeting policy
B. the global messaging policy
C. the org-wide Teams settings

D. the app permission policy

Correct Answer: A
Section: (none)
Explanation

Explanation/Reference:
Reference:
https://docs.microsoft.com/en-us/microsoftteams/messaging-policies-in-teams

QUESTION 2
You need to configure the environment to meet the technical requirements for guest users.

What should you modify from the Microsoft Teams admin center?

A. the global app permission policy
B. the Org-wide settings
C. the global meeting policy
D. the global messaging policy

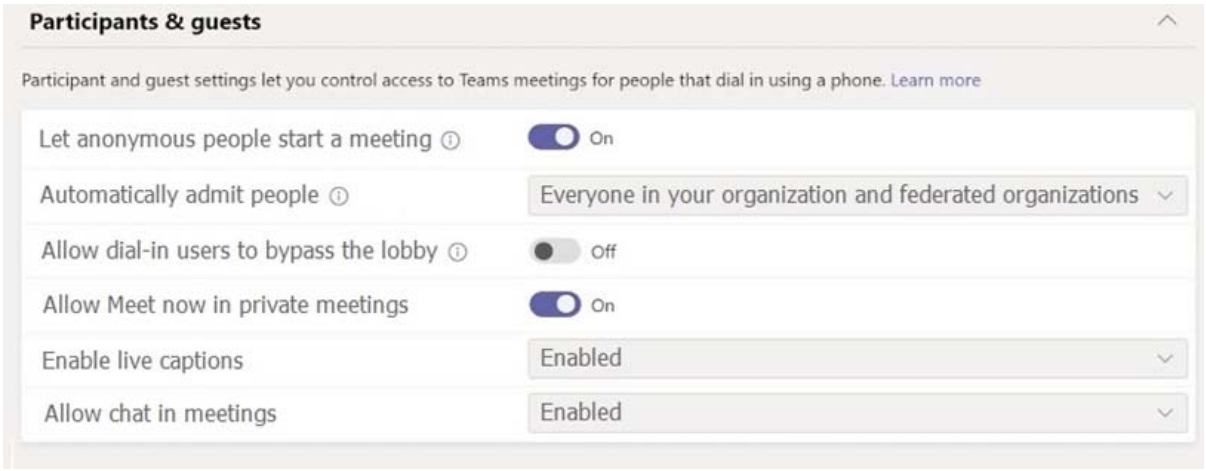
Correct Answer: B
Section: (none)
Explanation

Explanation/Reference:
Explanation:
Microsoft Teams admin center > Org-wide settings > Guest access > Make private calls = off.

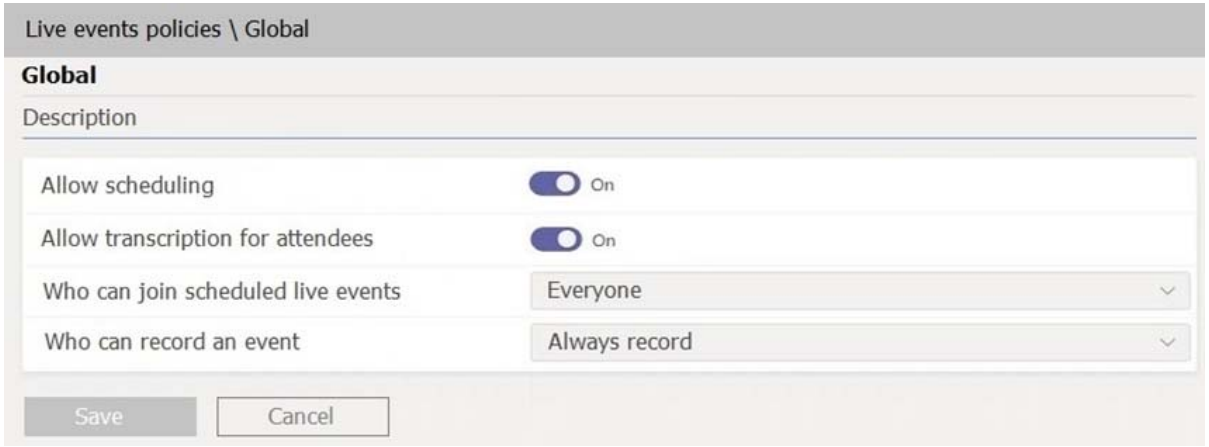
QUESTION 3
HOTSPOT

During the pilot project, you review the global policies in the Microsoft Teams admin center.

Contoso has a global meeting policy configured as shown in the following exhibit.



Contoso has a global live events policy configured as shown in the following exhibit.



For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

Hot Area:

Answer Area

Statements	Yes	No
The policies meet Requirement1 for meeting and live events.	○	○
The policies meet Requirement2 for meeting and live events.	○	○
The policies meet Requirement3 for meeting and live events.	○	○

Correct Answer:

Answer Area

Statements	Yes	No
The policies meet Requirement1 for meeting and live events.	○	○
The policies meet Requirement2 for meeting and live events.	○	○
The policies meet Requirement3 for meeting and live events.	○	○

Overview

General Overview

Litware, Inc. is an international manufacturing company that has 4,000 users. The company has the following four departments:

- IT
- HR
- R&D
- Sales

Physical Locations

Litware has two main offices. The offices are located in New York and London.

All offices connect to each other by using a WAN link. Each office connects directly to the Internet.

Existing Environment

All user accounts have an Azure Active Directory Premium Plan P1 license.

Litware has a Microsoft 365 subscription that has Office 365 Enterprise E3 licenses for all users. All the E3 products and services are enabled for each user.

Litware uses Microsoft Skype for Business Online.

Requirements

Planned Upgrade

Litware identifies the following requirements for a planned upgrade from Skype for Business Online to Microsoft Teams:

- Provide high quality audio, video, and online meeting experience for Microsoft Teams end users.
- Implement a data retention solution in Microsoft Teams.
- Minimize costs and administrative effort.
- Use the principle of least privilege.

For the sales department, Litware plans to create a team that dynamically updates its membership when users leave and join the department.

Department Upgrade Requirements

Litware plans to implement upgrade requirements for the departments as shown in the following table.

Department name	Requirement
Sales	Must use Microsoft Teams and Skype for Business. Must receive incoming chats and calls by using the same client that initiated the communication.
HR	Must use Microsoft Teams for collaboration and meetings. Must maintain Skype for Business as the preferred client for chat and calling.
IT and R&D	Must use only Microsoft Teams for chat, meetings, calling, and collaboration.

Microsoft Teams Requirements

All teams must meet the following requirements:

- Only users in a partner company that uses a domain named fabrikam.com must be able to collaborate in teams by using guest accounts.
- Only users in the compliance department of Litware must be able to create teams.

Planned Network Tasks

Litware identifies the following network validation tasks:

- An administrator named Admin5 must be able to review the required bandwidth to support audio conferencing, video conferencing, and screen sharing in Microsoft Teams.
- An administrator named Admin6 must be able to review network issues that cause poor call quality reported by users.

Data Retention Requirements

Litware identifies the following data retention requirements:

- Requirement1: All messages in team collaborations must be deleted after seven years.
- Requirement2: all files used in team collaborations must be retained for five years.
- Requirement3: All files used in personal chats must be retained for five years.

Device Requirements

You provide Microsoft Teams-certified IP phones to users in the IT and R&D departments. Each device must meet the following requirements:

- The time zone on the phones used by the R&D department must be set to UTC-8.
- The time zone on the phones used by the IT department must be set to UTC-5.
- All phones must lock automatically after 60 seconds of inactivity.

Voice Pilot Requirements

Litware wants to pilot Phone System as a calling solution for 20 IT department users. The pilot project will receive phone numbers from Microsoft.

Collaboration and Meeting Requirements

Litware identifies the following collaboration and meeting requirements:

- Cloud recording must be disabled for all Microsoft Teams meetings organized by users in the HR departments only.
- Meeting email invitations must be customized to include the Logo URL, Legal URL, and Help URL of Litware.

QUESTION 1
You need to identify the requirements for the voice pilot project.

Which two actions should you perform? Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

A. Assign an additional license and phone number to each user.
B. Deploy a Session Border Controller (SBC) for Litware.
C. Purchase a Calling Plan for each user.
D. Create a dial plan for Litware.
E. Purchase a Calling Plan for Litware.

Correct Answer: AC
Section: (none)

Manage Teams and App Policies

Question Set 1

QUESTION 1
Your company has a Microsoft 365 subscription that contains a team named Sales.

You need to recommend a solution to ensure that all guest users who are members of Sales receive an email message each year to verify that they want to remain in the team.

What should you include in the recommendation?

A. an identity provider
B. a Microsoft Outlook add-in
C. a supervision policy
D. an access review

Correct Answer: D
Section: (none)
Explanation

Explanation/Reference:

QUESTION 2
HOTSPOT

Your company has a Microsoft Office 365 subscription.

The company has three departments. Each department contains a group as shown in the following table.

Department name	Type
HR	Distribution
R&D	Global security
Sales	Universal security

You plan to create a team for each group.

You need to ensure that a team can be created for each group. The solution must minimize administrative effort.

What should you do to each group? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

QUESTION 4
Your company has a Microsoft 365 subscription.

You have a team that uses the following dynamic rule.

```
(user.department -contains “Sales” -or user.department -contains “Marketing”) -and (user.userType -Contains “Guest”) -and (user.country -eq “US”)
```

Which user will be included in the group?

A. A guest user in a department named Global Sales that has the `country` attribute set to US.
B. A member user in a department named Marketing Division that has the `country` attribute set to US.
C. A member user in a department named Marketing/Sales that has the `country` attribute set to US.
D. A guest user in a department named US Marketing Division that has the `country` attribute set to US.

Correct Answer: D
Section: (none)
Explanation

Explanation/Reference:

QUESTION 5
Your company has a Microsoft 365 subscription.

The company has a group named Sales.

You need to configure Microsoft Teams for the Sales group. The solution must meet the following requirements:

Ensure that only the Activity, Shifts, Chat, and Calling apps are always visible in the app bar of the Microsoft Teams client.
Prevent only the users in the company’s sales department from adding other apps to Microsoft Teams.

Which two actions should you perform for the Sales group? Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

A. Modify the global app setup policy.
B. Modify the global app permission policy.
C. Create an app setup policy.
D. Modify the org-wide Teams settings.
E. Create an app permission policy.

Correct Answer: AC

Manage Teams and App Policies

Testlet 2

Case study
This is a case study. **Case studies are not timed separately. You can use as much exam time as you would like to complete each case.** However, there may be additional case studies and sections on this exam. You must manage your time to ensure that you are able to complete all questions included on this exam in the time provided.

To answer the questions included in a case study, you will need to reference information that is provided in the case study. Case studies might contain exhibits and other resources that provide more information about the scenario that is described in the case study. Each question is independent of the other questions in this case study.

At the end of this case study, a review screen will appear. This screen allows you to review your answers and to make changes before you move to the next section of the exam. After you begin a new section, you cannot return to this section.

To start the case study
To display the first question in this case study, click the **Next** button. Use the buttons in the left pane to explore the content of the case study before you answer the questions. Clicking these buttons displays information such as business requirements, existing environment, and problem statements. If the case study has an **All Information** tab, note that the information displayed is identical to the information displayed on the subsequent tabs. When you are ready to answer a question, click the **Question** button to return to the question.

Overview

Contoso, Ltd. is a pharmaceutical company that has 3,000 users in offices across North America.

Existing Environment

Active Directory

The network contains an on-premises Active Directory domain. All user accounts are in departmental organizational units (OUs).

Microsoft Office 365

All users are assigned a Microsoft Office 365 E5 license and are enabled for the following services:

- Microsoft Yammer
- Microsoft Exchange Online
- Microsoft SharePoint Online
- Microsoft OneDrive for Business
- Azure Active Directory (Azure AD)
- Azure AD dynamic group membership

Microsoft Skype for Business

Contoso has an on-premises deployment of Microsoft Skype for Business Server 2015. All the latest cumulative updates are installed on all the servers. The following services are used in Skype for Business Server 2015:

- Meetings
- PSTN calling
- Instant messaging (IM)
- Federation to external companies

Departments

Contoso has the following departments:

- IT
- Sales
- Human resources (HR)
- Research and development (R&D)

All groups are created by using dynamic group membership that use the department attribute.

Requirements

Business Goals

Contoso identifies the following business goals:

- Migrate the maximum number of users to Microsoft Teams.
- Minimize administrative effort.

Device Requirements

Contoso identifies the following device requirements:

- Replace Skype for Business IP phones with Microsoft Teams phones.
- All Microsoft Teams phones must be set to lock automatically after 60 seconds.

Meeting and Live Event Requirements

Contoso identifies the following meeting and live event requirements:

- Requirement1: Guest users must be able to join live events.
- Requirement2: Guest users must always wait in a meeting lobby.

- Requirement3: Contoso users must always bypass the meeting lobby when they join meetings by using the Microsoft Teams client.
- Requirement4: After the upgrade to Microsoft Teams, all meetings must be scheduled by using Microsoft Teams.

Calling Requirements

Contoso identifies the following calling requirements:

- Migrate all existing auto attendants and response groups to Office 365.
- Minimize the on-premises PSTN infrastructure.

Technical Requirements

Guest users must be prevented from making private calls.

Security Requirements

Contoso has the following security requirements for the Microsoft Teams deployment:

- The number of ports allowed on the company's firewall must be limited.
- Team names must be prevented from containing the name of any products produced by Contoso.
- Users in the R&D group must be prevented from sending chat messages to users in other departments.
- To meet the company's compliance policy, users in the sales department must continue to use on-premises Skype for Business for IM and calling only.

Pilot Project

Contoso begins a pilot project for the upgrade to Microsoft Teams.

You identify the following issues during the pilot project:

- Microsoft Teams users report that they often receive continuous notifications from the Microsoft Teams client for 20 minutes.
- Two pilot users in the HR department report that they are not members of the HR team.

QUESTION 1
You need to resolve the membership issues for the two pilot users.

What should you do?

A. Modify the department attribute of both users.
B. Invite both users to the HR team.
C. Add both users to the HR group.

D. Modify the privacy level of the HR team.

Correct Answer: A
