Abado Primary School English model exam for Grade 8th in 2020(For afan oromo Students)

Reading passing

The discovery of anesthesia

It was in 1846 that the pain of surgery was **eliminated** this was because an early from of anesthesia was first used by **dentist** William marton and surgeon john warren at Massachusetts general hospital in baston an October 16,1846 anaesthesia is a way to control the patients breathing blood pressure blood, flow, and heart rate and rhythm a patient under the effects of anesthetic drugs is referred to as being anesthetized. Anesthesia enables the painless performance of medical procedures that would otherwise cause the patient serve or Intolerable pain .There are three **broad** categories of anesthesia these include local anesthesia, regional anesthesia and general anesthesia, localanesia is an anesthetic drug which can be given as an injection, **a spray** or an antiment, It **numbs** only small, specific area of the body such as a foot, a hand, or a patch of skin with local anesthesia, a person is awake or sedated, depending on what is needed local anesthesia lasts for a short period of time and is often used for patients who come to a hospital or clinic for surgery and can go home the same day, the medicine used can numb the area during the procedure and for a short time after words to help control post- surgery **discomfort.**

Regional anesthesia is an anesthetic drug that is injected near a cluster of a nerves, numbing a larger area of the body such as below the waist as do epidural given to women in labor it is generally used to make a person more comfortable during and after the surgical procedure general anesthesia on the other hand is used to make and keep a person completely **unconscious** or asleep during the operation, with no awareness or memory of the surgery. It suppresses the control nervous system activity and result in unconsciousness and total lack of sensation, it can be given through sticking a needle in to a vein, usually in the arm or the patient can be asued to **inhale** gasses or vapours by breathing in to a mask or tube.

I. Choose the correct meaning for the following words based on the contexts in the reading passage
