Cut-offs

How Competitive Is It Really?

"Why Cut-offs Matter?"

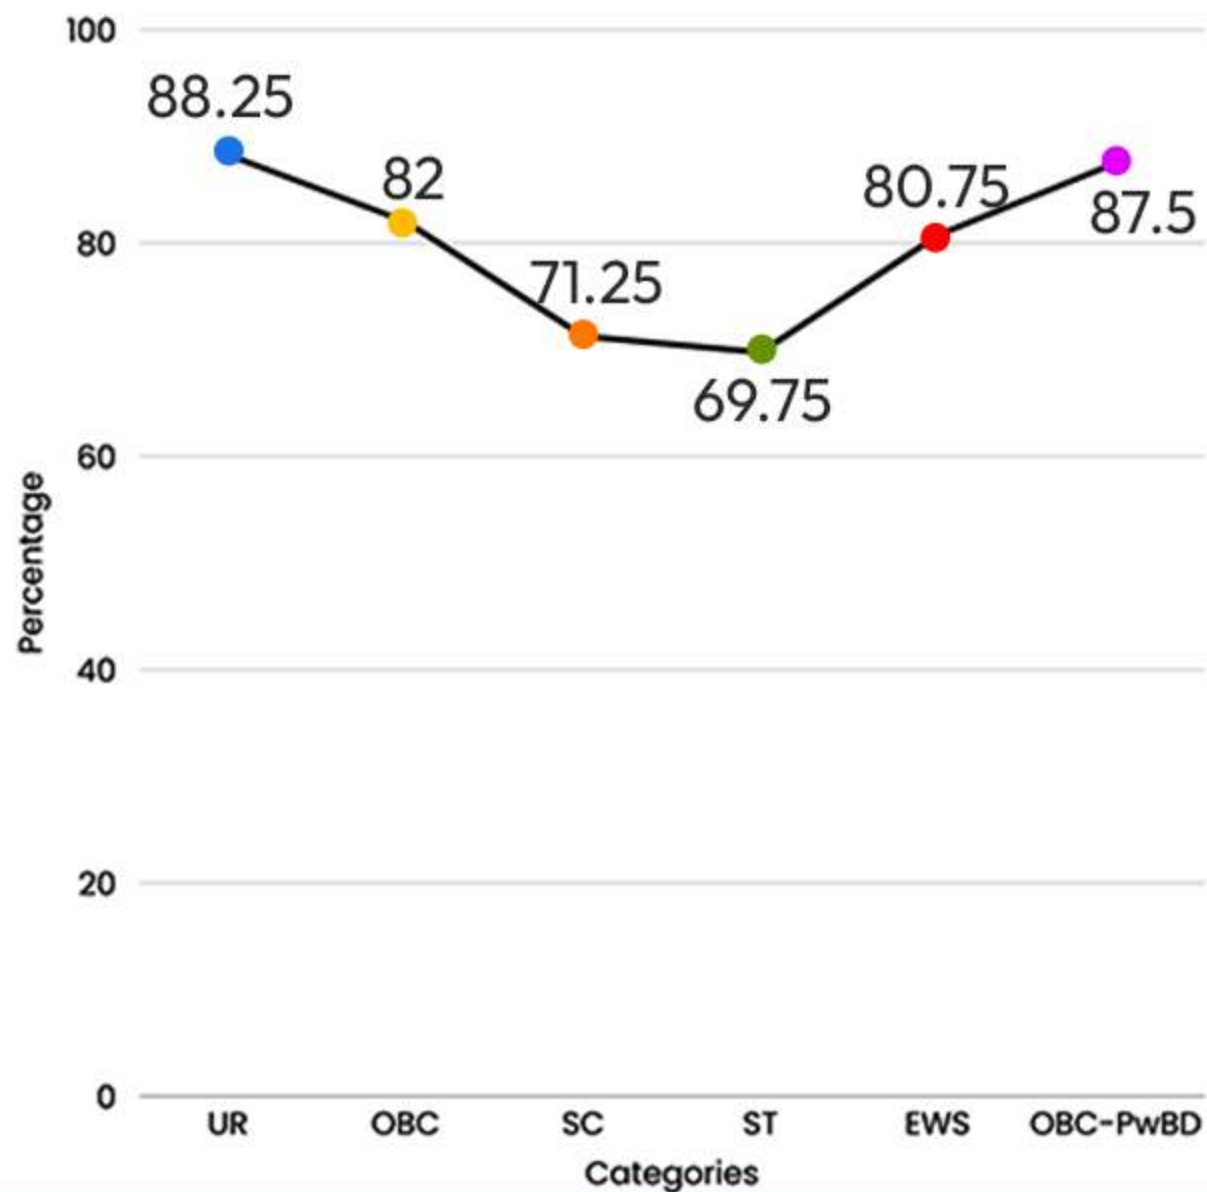

They show you the competition, help you set targets, and prepare smarter.

2024 Cut-offs (All-India)

2024 Cut-offs (Karnataka Domicile)

● UR ● OBC ● ST

SC: ND EWS: ND (ND = Not Declared)

Takeaways From This

- | Competition is rising (General: 86 → 88.25).
- | Domicile advantage exists but is still competitive (2025 Gen: 88.25 vs 80).
- | Category-wise gaps vary; don't aim only for the minimum.

What to aim for

- | Target **well above** the cut-off (think **70–80%+**).
- | Prep for concepts + MCQs + interview for final selection.

Program update

From 2026, M.Phil is set to be replaced by **MA Clinical Psychology (RCI)**.

We shared the cut-off trends so aspirants can understand the competition level and set clear targets for the upcoming MA Clinical Psychology entrance exams.
