

(NSC224_22)

Question 1

Not yet answered

Marked out of 1.00

🚩 Flag question

Administered insulin promotes glucose uptake and inhibits:

- ☐ a. Proteolysis
- ☐ b. Lipolysis
- ☐ c. Gluconeogenesis
- ☒ d. All of the above

Clear my choice

Medical Biochemistry II

(NSC224_22)

Question 2

Not yet answered

Marked out of 1.00

🚩 Flag question

Niacin deficiency causes the disease:

- ☐ a. Cirrhosis of liver
- ☐ b. Cheilosis
- ☒ c. Pellagra
- ☐ d. Beriberi

Clear my choice

Medical Biochemistry II

(NSC224_22)

Question 3

Not yet answered

Marked out of 1.00

🚩 Flag question

Removal of the amino group from amino acids is accomplished by the following processes:

- ☐ a. Non oxidative deamination
- ☐ b. Transamination
- ☐ c. Oxidative deamination
- ☒ d. All of the above

Clear my choice

Medical Biochemistry II

(NSC224_22)

Question 4

Not yet answered

Marked out of 1.00

🚩 Flag question

The following are examples of Essential amino acids except:

- ☐ a. Phenylalanine
- ☒ b. Alanine
- ☐ c. Valine
- ☐ d. Tryptophan

Clear my choice

Medical Biochemistry II

(NSC224_22)

Question 5

Not yet answered

Marked out of 1.00

🚩 Flag question

Deficiency symptoms of Vitamin B6 include all except:

- ☒ a. Neuropathy
- ☐ b. Convulsions
- ☐ c. Mental confusion
- ☐ d. Irritability

Clear my choice

Medical Biochemistry II

(NSC224_22)

Question 6

Answer saved

Marked out of 1.00

🚩 Flag question

Toxic minerals include all except:

- ☒ a. Barium
- ☐ b. Lead
- ☐ c. Aluminum
- ☐ d. Mercury

Clear my choice

Medical Biochemistry II

(NSC224_22)

Question 7

Not yet answered

Marked out of 1.00

🚩 Flag question

Macrominerals represent about
..... of body organic matter

- ☐ a. 76%
- ☐ b. 75%
- ☒ c. 80%
- ☐ d. 70%

Clear my choice

Medical Biochemistry II

(NSC224_22)

Question 8

Not yet answered

Marked out of 1.00

🚩 Flag question

Amino acids whose degradation products make possible a net synthesis of glucose are called

- ☐ a. Ketogenics
- ☒ b. Glucogenic
- ☐ c. Aminogenic
- ☐ d. Serotogenic

Clear my choice

Medical Biochemistry II

(NSC224_22)

Question 9

Not yet answered

Marked out of 1.00

🚩 Flag question

The following applies to Type 1 Diabetes mellitus except:

- ☐ a. Ketoacidosis is common
- ☐ b. Insulin deficiency is always present
- ☐ c. Onset of symptoms is usually abrupt
- ☒ d. Obesity is common

Clear my choice

Medical Biochemistry II

(NSC224_22)

Question 10

Not yet answered

Marked out of 1.00

🚩 Flag question

Dietary iodine is efficiently absorbed and transported to the.....where it is stored.

- ☐ a. Pineal gland
- ☒ b. Thyroid gland
- ☐ c. Pituitary gland
- ☐ d. None of the above

Clear my choice

Medical Biochemistry II (NSC224_22)
