This is Jill Williams and this is a film of her journey across Canada from the Atlantic Ocean to the Pacific Ocean. It's Monday and Jill is here in Peggy's Cove, Nova Scotia. Peggy's Cove is a small town on the Atlantic Ocean. This is the old lighthouse. And this is the museum and the story of the Titanic.

It's Tuesday and Jill's on a train to Montreal. This is Kirsty, her friend in Montreal. Kirsty is from the US but her husband is from Canada. She's an actor but she isn't famous. Montreal is a big modern city. It's very cold here in winter. But this is the underground city, it's warm here all year.

Today is Wednesday and Jill is in the Rockies. The mountains here are great and so are the animals. The bears are her favourite animals but they're quite dangerous.

It's Thursday and Jill's on a plane to Vancouver. Vancouver's a beautiful city near the mountains. Today she's here at the Vancouver aquarium.
It's great!

It's Friday, the last day of Jill's journey across Canada. She's on a boat to Victoria. Victoria is on Vancouver Island. It's very near the Pacific Ocean.
And this is the end of her journey.

My favourite place for a holiday is Cornwall in the south west of England. There are some fantastic tourist attractions there, like the Eden Project and Tintagel Castle, but I like the countryside. It's quiet and there aren't a lot of people. There are a lot of bed and breakfasts. The breakfasts are very good and big. The coast is amazing too, so beautiful.

2

I like Madrid, Rome and Paris, but my favourite city is on the East Coast of the US. New York. There are great hotels. There's Chinese food, Spanish food, Italian food and there are languages from all over the world.
New York is great for culture, but I like shopping. There are really good shops and Macy's is amazing. The buildings are fantastic! There's the Empire State building, the Chrysler building and of course there's the Statue of Liberty.

3

Holidays on the coast are very popular. My favourite holiday is on the coast too, on the beach at Muriwai. Muriwai is on the north west coast of New Zealand. There aren't any big hotels there and there aren't lots of people. There are miles and miles of sandy beaches. It's great for fishing, surfing or just relaxing. It's very beautiful and very romantic.

What do you do in your free time? Do you like reading books or playing chess or watching TV? How boring! We've got ten adventure activities to change your life.

Some people sleep on the beach, but that's boring. Windsurfing is fast and exciting. It's like sailing with no boat.

Skateboarding is like surfing but on wheels. It's cheap and easy to learn, and some skateboarders are amazing.

Snowboarding is now an Olympic sport. It's very difficult but very exciting. You can snowboard inside or outside on real mountains.

Do you like heights? No? Then bungee jumping isn't for you. Bungee jumping is easy but it isn't boring.

Cycling in cities and towns is boring but this is different. BMX racing is exciting. These bikes are fast.

Inline skating is great fun. You can do inline skating in the street or in special skate parks. Some people can do fantastic jumps.

Do you want to see a new world? Then try scuba diving. It's very quiet underwater, but the colours are amazing and the fish are beautiful.

A boat on a lake isn't very exciting, but what about a canoe on a river? Now that's fun, but it isn't always easy.

Can you climb trees? Then you can climb a wall or a mountain. Go on a climbing course and learn to rock climb. It's great.

Birds can fly. Planes can fly. But can people fly? Well, yes they can.

Parascending is exciting. You can see for miles and the countryside is quiet and beautiful.

The UK was a very different place in 1901. This film shows ordinary people: in the street, after work, at a football match, and in their free time. And all of this was over a hundred years ago. Life was difficult. Only one per cent of the population was over sixty-five.

People were at work for twelve hours a day. Today in the UK, students can leave school when they are sixteen. Life for children was very different a hundred years ago.

Lots of children were factory workers when they were only ten.
The city streets were quite quiet. There weren't a lot of vehicles but there was some new technology: the motor car, the electric tram and the bicycle with two wheels.

There weren't any TVs, computers or iPods a hundred years ago, but there were walks in the park, fun fairs and days at the sea.
Rugby was popular and so was football. This old film from 1902 shows Manchester United, the score was 2-1 to Manchester. Some things don't change!

N: Finding a job isn't always easy but Elika has got a lot of experience. Here are her tips for finding a job.

E: There are loads of places you can go to look for a job. Try the Job Centre, looking online or looking in local newspapers. You can use the phone book to find potential employers in your local area.

N: Her first tip is: look online. The Internet is a great place to find jobs and there are a lot of things you can do to find a job on the Internet.

E: Most employers advertise online so make sure you've got Internet access. Make sure you do your research and find out exactly what skills and qualifications you will need before you apply. Try your local library as they often have free Internet access. Set up an email address with a sensible name so that employers can contact you.
Don't forget to update your Facebook, Bebo, MySpace or Twitter profile to boost your online presence.

N: The Internet's important but people are important too, so Elika's next tip is: talk to the people you know. Maybe they can help.

E: Friends and family may be able to help you so tell them you're looking for work. A professional recommendation can be highly beneficial. Get two decent references from previous employers or college tutors.

N: Elika's last tip is: get busy. Try to get work experience, write a good CV and go to job agencies. And apply for lots of jobs.

E: Doing work experience or volunteering is a great way to show employers that you've got what it takes. You should also register with local recruitment agencies who will ask to see a copy of your CV. You should never have to pay a recruitment agency to find you a job. Chase up your submitted application forms by calling or emailing the company. Cast your net wide and apply for as many jobs as possible.

P1: We're here in Coventry to help one family exchange this for the wide open spaces of New Zealand. I wonder why?
P2: Well I think I can see why.
N: Paul and Judy Goddard live and work in Coventry. Coventry is an old British city with a population of over 300,000 people. They both work very hard. Paul's a mechanic. Judy's a personal trainer and they've got two children, Zoe and Sam. But Paul and Judy want to change their lives. They want to have more space, more free time and they want to have more time with their children.
So they're going to move to the other side of the world, to New Zealand. New Zealand has two main islands, North Island and South Island. It's a beautiful country with high mountains and sandy beaches. The weather is warm and sunny and the population is only 4.4 million. So, with good weather, lots of space and the low cost of living it's perfect. Before the Goddards can leave their old house they have a lot of packing to do. There are lots of things to take with them from pictures to toys. The Goddards are going to move to a new country …
P1: Hello.
N: … and a new house. And this is it!
J: Aren't we organised?
P1: Have you got beds?
J: We've got everything. You name it we'd got it. We've got beds, we've got a settee, we've got a table.
P1: Can we look?
J: Honestly they are so nice here.
P1: Judy, show me.
N: They've got their old things from England with them and lots of new things too. And now it's time to put their new furniture into their new house. So now Paul, Judy, Zoe and Sam are living a new life in New Zealand. It's all very different from their life in the UK. It's going to be a lot of hard work but New Zealand is a great place for kids and the Goddards are very happy with their new life.
