(c) Mobility (Valsalva)			Patent	Patent	Patent	
(d) Nose, Throat and Sinuses			NAD/			

7 Gynecological Exam N/A

8. **Certificate for commutation of pension.** I have carefully examined 744210K Sgt Nitin Bihari Jaiswal Rad Fit of 14 Wing AF. The individual claimed disability for Low Back Ache at Para 2 & 5 of Part-I. He was adequately treated in Service hospital from 23 Jun 17 to 05 Jul 17. His hospitalisation document does not reveal any history of injury as the cause of his disease. The treating specialist Col Manish Sharma, Neuro Surgeon at CHEC Kolkata has recorded in his opinion dtd 30 Jun 17 that the disease process is due to early degenerative changes without any significant damage. Such conditions are usually either inherent or due to lack of physical exercise. His claim for Compensation on the grounds of sustaining injury while on duty sometimes back could not be substantiated. I am of the opinion that the individual is in good bodily health and has prospect of an average duration of life. He is fit for discharge from service in Medical Category A4G1.

Place: 14 WING, AF
Date: 12 Jul 17
