Suitable applications are hereby invited for:

JOB TITLE: Web Developer (Node JS)

Location: EEDC Corporate Headquarters, Enugu

Department: ICT

Vacancy: One (1)

We are looking for a highly capable Node.js developer to optimize our web-based application performance. You will be collaborating with our front-end application developers, designing back-end components, and integrating data storage and protection solutions.

Responsibilities

- Developing and maintaining all server-side network components.
- Ensuring optimal performance of the central database and responsiveness to front-end requests.
- Collaborating with front-end developers on the integration of elements.
- Designing customer-facing UI and back-end services for various business processes.
- Developing high-performance applications by writing testable, reusable, and efficient code.
- Running diagnostic tests, repairing defects, and providing technical support.
- Documenting processes, including database schemas, as well as preparing reports.

Candidate Profile

- Bachelor's degree in computer science, information science, or similar.
- At least 4+ years' experience as a Node.js developer.
- Extensive knowledge of JavaScript, web stacks, libraries, and frameworks.
- Good Communication and problem-solving skills
- Go getter, ready to work extra effort
- Availability to resolve urgent web application issues outside of business hours.
- Experience in the development of software using MongoDB, PostgreSQL, Js Technologies (Angular js, React Js)
- An understanding and exposure to Team Foundation Server, BitBucket, JIRA.

The duly selected person will be offered a suitable grade/scale matching skill sets, experience, and overall competencies.

Application opening date: 17th December 2022

Application closing date: 22nd December 2022
