Owl Letter Match

This game includes 4 game boards and 1 set of lowercase baby owl letter cards. Please note that there are two baby owl cards for the letters f and s because these letters are each represented on two different game boards.

Directions for Construction:

1. Print the game boards and letter cards on paper or cardstock. Laminate for durability and cut out the letter cards.

2. You may choose to add Velcro® next to each owl on the game boards and to the back of each letter card. You may also add magnets to the back of the baby owl letter cards if you wish to use the game boards on a cookie sheet or magnetic board.

Ideas for Play:

1. Simple Letter Matching: Spread the letter cards face up in the middle of the table. For younger students, you will want to use a smaller quantity of cards at a time. Children should select a game board, name the letters on the board, find the matching baby owl letter cards, and place a baby owl with the matching mama owl on each game board.

2. Letter Matching Game: Each child in a group selects a game board. Spread the baby owl letter cards face down in the middle of the table. Children take turns selecting a letter card and determining the letter on the card. Then, all the children determine which child has the mama owl with the matching letter on his or her board. The letter card is given to the child with the matching mama owl and the next child takes a turn. If nobody has the matching mama owl, the letter card should be returned to the middle of the table face down. If two children have a matching mama owl (letters f and s), the child who selected the card will determine which child's mama owl gets the card. The child who fills his or her game board first is the winner.

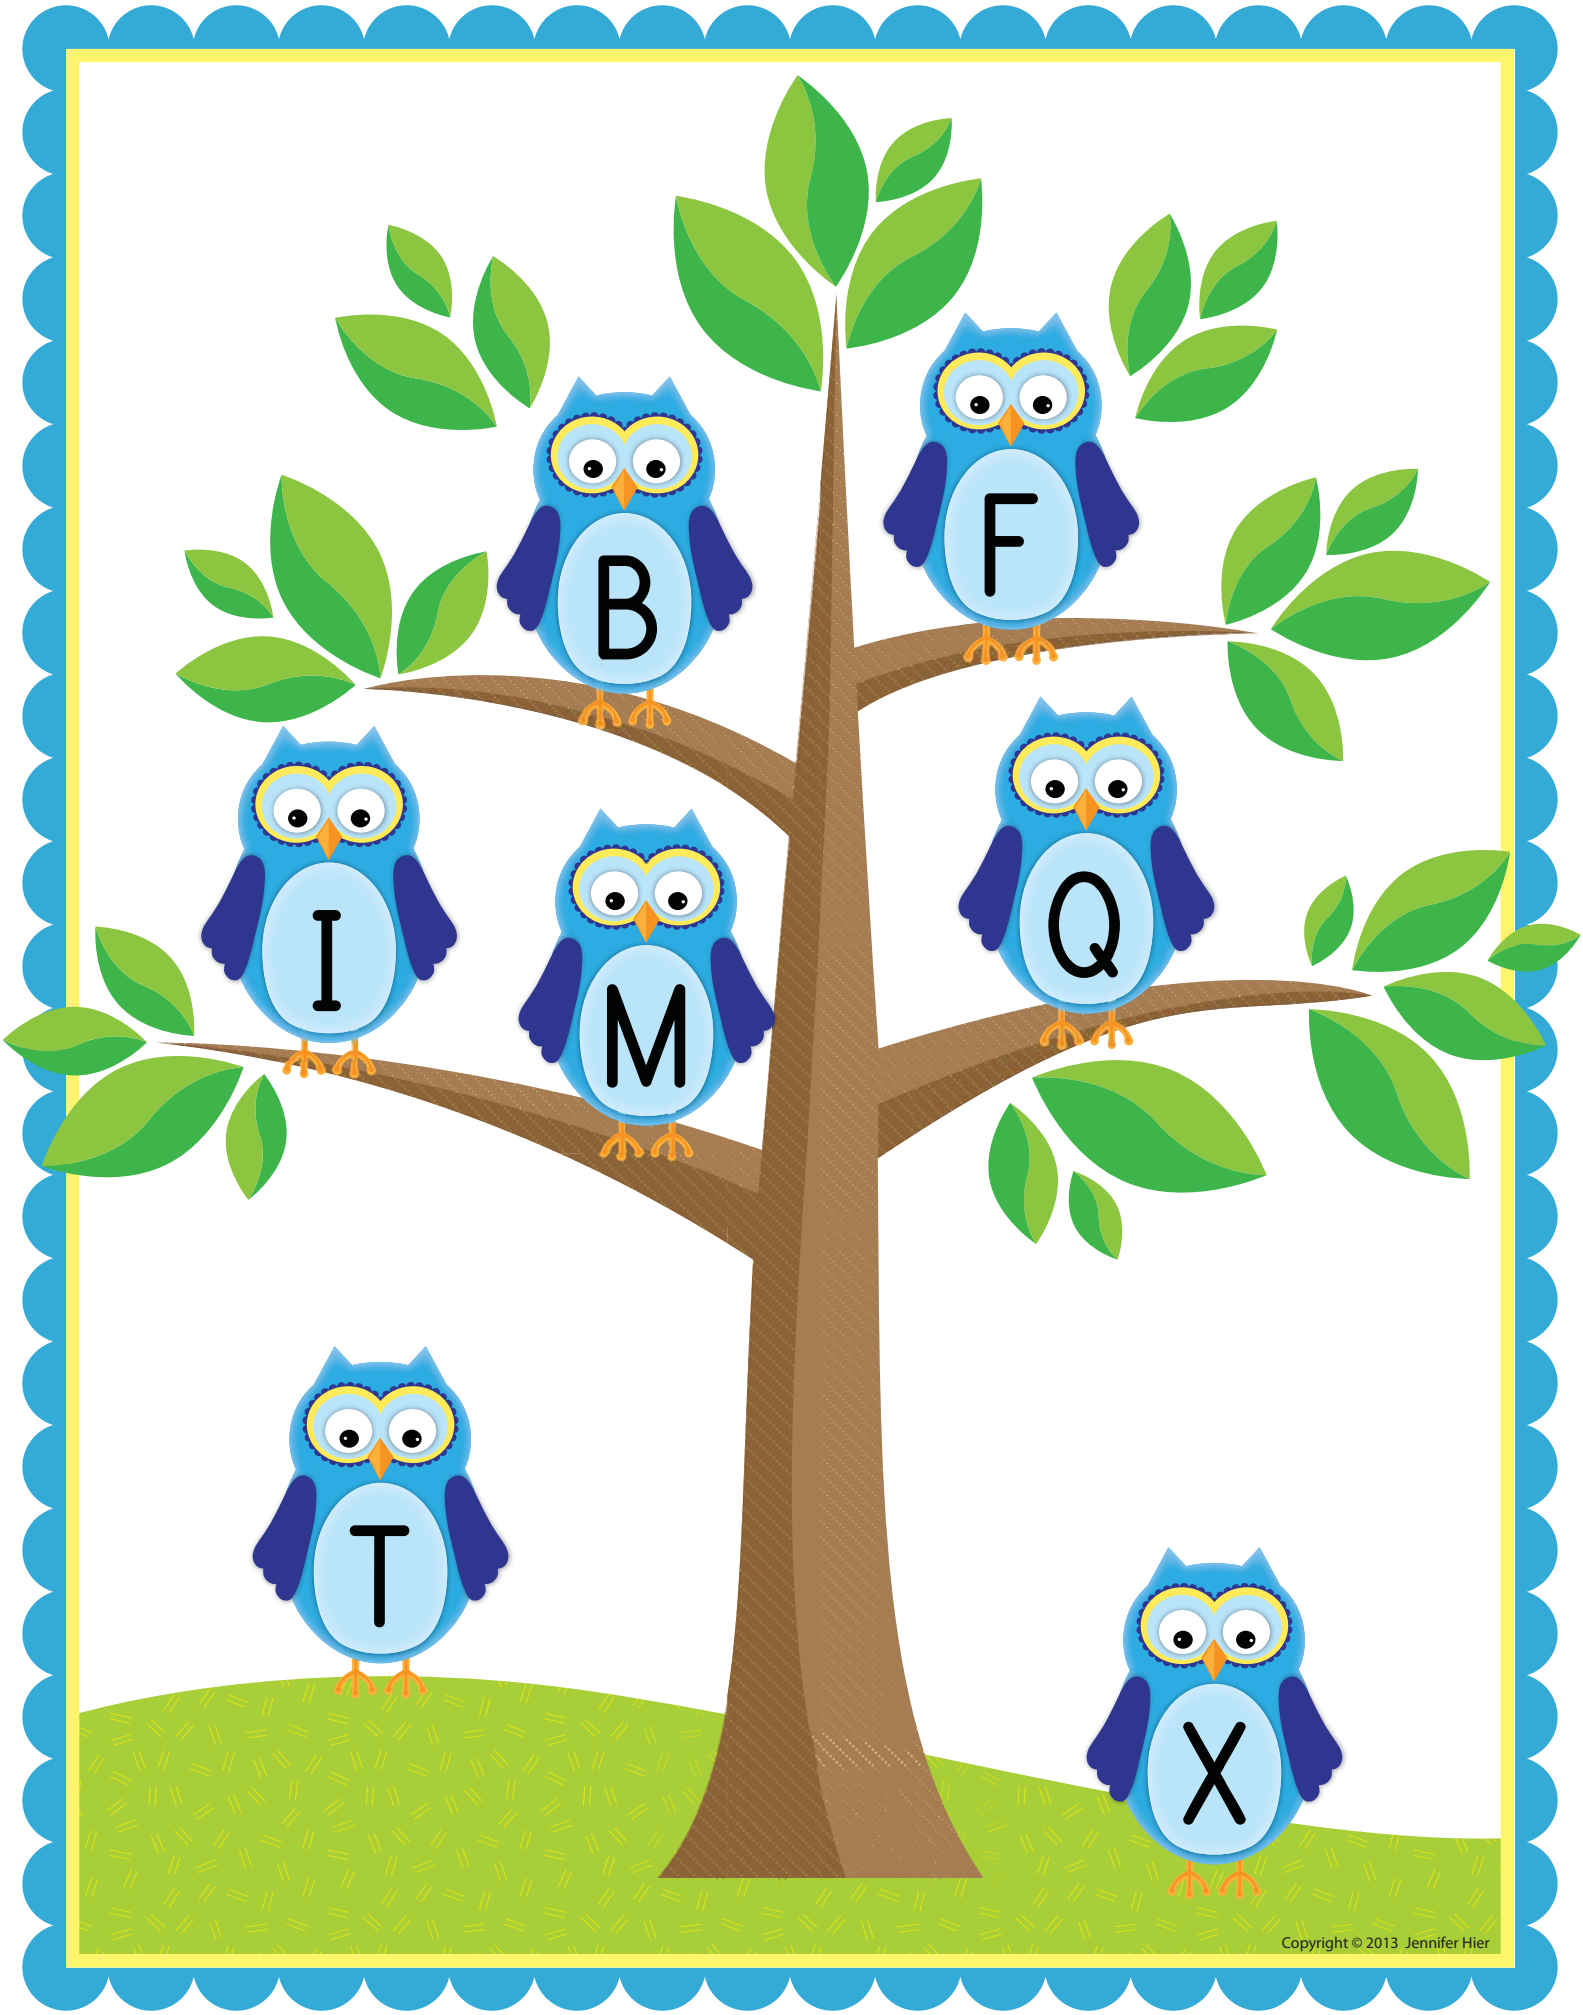

Additional Ideas:

- Use the letter cards to spell names or words.
- Sort the letter cards by type of letters (letters with curves, letters with straight lines, tall letters, short letters, uppercase letters, lowercase letters, etc).
- Using two sets of letter cards play memory match.
