1. Em relação a casas, destaco que em geral as pessoas passam a vida pagando por uma moradia que nunca será delas. Em outras palavras, compra-se uma casa nova a cada tantos anos, incorrendo, cada vez, em um novo empréstimo de trinta anos sobre a casa anterior

2. Apesar de poderem deduzir os juros da hipoteca para fins de imposto de renda, as pessoas pagam todas as demais despesas com o dinheiro que sobra depois de pago o imposto, mesmo depois que liquidam a hipoteca.
3. Impostos sobre a propriedade. Os pais de minha mulher ficaram chocados quando os impostos sobre a propriedade relativos a sua residência aumentaram para US\$1.000 mensais. Isso ocorreu após sua aposentadoria, de modo que o aumento pressionou seu orçamento e eles se viram obrigados a mudar de casa.
4. O valor dos imóveis nem sempre aumenta. Em 1997, enquanto escrevo este livro, eu tenho amigos que devem US\$1 milhão por imóveis que só conseguiriam vender por US\$700 mil.
5. As maiores perdas são as das oportunidades que não foram aproveitadas. Se todo o seu dinheiro está comprometido com o imóvel onde mora, você pode ser obrigado a trabalhar mais porque todo o seu dinheiro continua saindo na coluna das despesas (o padrão clássico do fluxo de caixa da classe média) em lugar de aumentar a coluna dos ativos. Se um jovem casal destinasse uma soma maior à aquisição de ativos, mais tarde teria maiores facilidades, especialmente estaria preparado para pagar os estudos superiores de seus filhos. Seus ativos teriam aumentado e estariam disponíveis para cobrir despesas. Com excessiva frequência, um imóvel residencial só serve como meio de incorrer em empréstimos hipotecários para pagar despesas crescentes.

P" 13" p4—it 13—2ps—y. p—s t —a2p1 a—t a—113y 3" y" 3At—it 1ys t. .ryp—r p1—s t" py14t" —3vpl s t r—" t9pl p u—t" p1 3" a—t2u3y—s t p2yÁ1" py1 rts —4a it z3s yrp—y. s. yÁ3 3—s t 2i11 u—t" p1I

1. Perda de tempo, porque outros ativos poderiam ter registrado aumento em seu valor.
2. Perda de capital adicional, que poderia ter sido investido em vez de se ter pago as altas despesas de manutenção relacionadas diretamente ao imóvel residencial.
3. Perdas na instrução. Com muita frequência, os casais consideram seu imóvel residencial, as poupanças e o plano de aposentadoria como o total de sua coluna de ativos. Como não têm dinheiro para investir, eles simplesmente não investem. Isso lhes custa a experiência do investimento. Quase nunca conseguem tornar-se o que o mundo dos investimentos denomina um “investidor sofisticado”. E os melhores investimentos são em geral oferecidos aos “investidores sofisticados” que, por sua vez, vendem-

nos às pessoas que buscam a segurança.

Diagrama de Fluxo de Caixa (Diagrama de Fluxo de Caixa)

O diagrama ilustra o fluxo de caixa entre as contas de Renda, Despesa, Ativos e Passivos. A conta de Renda é dividida em duas partes: a superior, rotulada "Renda", com uma seta apontando para cima, e a inferior, rotulada "Despesa", com uma seta apontando para baixo. A conta de Ativos é dividida em duas partes: a superior, rotulada "Ativos", com uma seta apontando para cima, e a inferior, rotulada "Passivos", com uma seta apontando para baixo. O fluxo de caixa é representado por setas: uma seta curva aponta da conta de Ativos para a conta de Renda, e uma seta curva aponta da conta de Despesa para a conta de Passivos. Uma seta horizontal aponta para a direita, saindo da conta de Despesa.

Renda	Trabalha para o patrão
Despesa	Trabalha para o governo

Ativos	Passivos
	Trabalha para o banco

$$N_{it} = \frac{1}{N} \sum_{i=1}^N y_{it} = \frac{1}{N} \sum_{i=1}^N p_{it} \cdot x_{it} = \frac{1}{N} \sum_{i=1}^N p_{it} \cdot \frac{1}{p_{it}} \cdot y_{it} = \frac{1}{N} \sum_{i=1}^N y_{it}$$

1. Você trabalha para alguém. Os esforços e o sucesso da maioria das pessoas assalariadas ajudarão a garantir o sucesso, o enriquecimento e a aposentadoria do dono da empresa e de seus acionistas.
2. Você trabalha para o governo. O governo fica com uma parte de seu contracheque, antes mesmo que você veja o dinheiro. Ao trabalhar mais, você simplesmente aumenta o montante de impostos que o governo arrecada — a maioria das pessoas trabalha de janeiro a maio apenas para o governo.
3. Você trabalha para o banco. Depois dos impostos, sua maior despesa é, em geral, a hipoteca imobiliária e a conta do cartão de crédito.

$$a_{it} = \frac{1}{N} \sum_{i=1}^N p_{it} \cdot x_{it} = \frac{1}{N} \sum_{i=1}^N p_{it} \cdot \frac{1}{p_{it}} \cdot y_{it} = \frac{1}{N} \sum_{i=1}^N y_{it}$$

1. Alfabetização financeira. A capacidade de entender números.
2. Estratégias de investimento. A ciência do dinheiro fazendo dinheiro.
3. O mercado. Oferta e demanda. Alexander Graham Bell deu ao mercado o que este desejava. Bill Gates fez o mesmo. Uma casa de US\$75 mil oferecida por US\$60 mil e que custou US\$20 mil também foi o resultado de perceber uma oportunidade criada pelo mercado. Alguém estava comprando e alguém estava vendendo.
4. A lei. O conhecimento de lei e regulamentos estaduais e nacionais sobre contabilidade e empresas. Recomendo que se jogue dentro das regras.

1. 1. Inspirar as pessoas para que aprendam mais.
2. 2. Mostrar às pessoas que tudo é fácil se o embasamento é sólido.
3. 3. Mostrar que qualquer um pode obter uma grande fortuna.
4. 4. Mostrar que há milhões de maneiras de atingir nossos objetivos.
5. 5. Mostrar que isto não é ciência espacial.

1. O primeiro e mais comum são as pessoas que compram um investimento empacotado. Eles procuram um varejista, seja uma imobiliária, seja um corretor ou um consultor financeiro e compram alguma coisa. Pode ser um fundo mútuo, um truste de investimentos imobiliários, ações ou títulos. É uma forma bem limpa e simples de investir. Pode ser comparado à pessoa que vai à loja e compra um computador direto da prateleira.
2. O segundo são os investidores que criam investimentos. Este investidor em geral organiza o negócio de forma semelhante às pessoas que compram os componentes e montam seu computador. É algo sob medida. Eu não sei como juntar componentes de computador. Mas sei como juntar oportunidades ou conheço gente que sabe.

1. Como encontrar uma oportunidade que ninguém mais viu. Você vê com sua mente o que os outros veem com os olhos. Por exemplo, um amigo comprou uma casa caindo aos pedaços. Era assustador olhar para ela, todos se perguntavam por que ele a teria comprado. O que ele viu e nós não vimos foi que junto com a casa, a compra envolvia mais quatro lotes de terreno vazio. Ele verificou isso indo à imobiliária. Depois de comprar a casa, ele a demoliu e vendeu os cinco lotes para um construtor por três vezes o que tinha pago. Ele ganhou US\$75 mil em dois meses de trabalho. Não é muito dinheiro, mas sem dúvida é muito mais do que o salário mínimo, e não há muitas dificuldades técnicas.
2. Como conseguir dinheiro. Em geral as pessoas só procuram o banco. Esse segundo tipo de investidor precisa saber onde levantar recursos e há muitas formas de fazê-lo sem ir ao banco. Para começar, aprendi a comprar imóveis sem precisar de banco. Não é tanto pelos imóveis, mas pela aprendizagem de como conseguir o dinheiro, o que não tem preço.

1. Não se endivide demais. Mantenha suas despesas reduzidas. Forme seus ativos primeiro. Então compre uma casa maior ou um carro grande. Ficar preso na Corrida dos Ratos não é inteligente.
2. Quando apertado de dinheiro, não se afobe e não gaste suas poupanças ou investimentos. Use a pressão para inspirar seu gênio financeiro a descobrir novas formas de ganhar mais dinheiro e então pague as contas. Você terá aumentado sua habilidade de ganhar mais dinheiro bem como sua inteligência financeira.
