Job Vacancy: Research Assistant

Organization: Axon Neurology Specialty Center

Position: Research Assistant

Location: Axon Neurology Center

Job Type: Full-time

Duration : Permanent

Application Deadline: 28/02/2025

Job description

About the Role:

We are seeking a highly motivated and detail-oriented **Research Assistant** with a strong background in **Statistics** to support ongoing research projects. The successful candidate will assist in data collection, analysis, and interpretation, ensuring accuracy and reliability in statistical findings.

Key Responsibilities:

- Assist in designing research studies and experiments.
- Collect, clean, and manage datasets.
- Perform statistical analysis using software such as SPSS and Stata.
- Interpret results and contribute to research reports, presentations, and publications.
- Conduct literature reviews and summarize relevant research findings.
- Support faculty and senior researchers with project-related tasks.
- Ensure compliance with ethical guidelines in research.

Job requirements

Qualifications and Skills:

- **Education:** MD, MPH, Bachelor's or Master's degree in Statistics with healthcare background
- **Technical Skills:** Proficiency in statistical software (e.g., R, Python, SPSS, Stata, SAS) and experience with data visualization tools.
- **Analytical Skills:** Strong ability to analyze and interpret complex datasets.
- **Research Skills:** Experience in research methodologies and experimental design.
- **Communication:** Strong written and verbal communication skills for reporting research findings.
- **Attention to Detail:** High level of accuracy in data handling and analysis.
- **Time Management:** Ability to manage multiple tasks and meet deadlines efficiently.

Preferred Qualifications:

- Experience in academic or heath research projects.
- Knowledge of database management (SQL) and data processing.

Benefits:

- Competitive salary.
- Opportunities for professional growth and development.
- Exposure to cutting-edge research projects.
- Collaborative and dynamic research environment.

How to Apply:

Interested candidates should submit the following:

1. A cover letter outlining relevant experience and interest in the role not more than one page.
2. An updated resume/CV.
