

Revelation - Series 08

- Becoming Light

Creation is a great revealer of heart, because they are Jesus. I mean, through them we see Jesus. Your heart towards others, your heart towards creation is your heart towards Jesus.

Attend to pain immediately, because the pain you feel in actuality is the grief you've caused the holy spirit. Repentance is medicine to restore us from darkness to Jesus who is Light.

Darkness is not without but within. Whenever darkness is revealed in us such as; anger, immorality, unforgiveness, selfishness, self-centeredness, grudges offence... whatever darkness is revealed in us, we should look inwardly and come to realisation that darkness does not come from without but within. I mean; others or whatever external forces does not cause us to act out of God's character but the darkness within.

Darkness revealed in us is allowed by the light of the holy spirit to make us more like Jesus by repentance. When darkness is revealed, we should not make the same mistake as Adam by running away from God, but rather running to God who is Light, When we repent, Jesus replaces our darkness with more of His light. Repentance is grace to become Jesus.

- Prayer

"Lord Jesus, give me grace and love enough to see through the eyes of love. To see only light, to see light beyond every darkness

Lord Jesus, rid my heart of this great darkness within that I shall become more of you who is Light. Rid my heart of this great evil and purge my heart of all impurities with your consuming fire that I shall be holy as you are holy.

Give me grace and love enough to live in love, to live by love and to live through love.

Lord Jesus, give me grace and love enough not to look without, but rather to look unto you who is light so that my eyes may bring light into my bring and not darkness

Lord Jesus, give me grace and love enough to see light beyond every darkness. Give me grace and love enough to see only light in creation

Lord Jesus, give me grace and love enough to see only you who's light in all."

Our eyes brings light and darkness to our being.

If we see darkness in men, they're likely to become the very darkness we see in them.

However, we should see light in them that by the power of the spirit in us, they'll become the light we see in them.

Love them rather than being self-centered. To be self-centered is to see and live in darkness, because self-centeredness is of the flesh and flesh - darkness.

Remember, when you see darkness within, look to Jesus who is light. For light destroys darkness.

For every darkness revealed in our heart is a means to even greater light within.

Greater darkness - Greater light

Darkness is revealed in our heart so that we can become Jesus who is light.
