

**Addis Ababa University**  
**Addis Ababa Institute of Technology**  
**School of Chemical and Bio Engineering**  
**Class Schedule, 2024-25**

**2<sup>nd</sup> Year Semester II    A/Y 2024/25**

**Section: A**

| Time            | Monday                                             | Tuesday                                                               | Wednesday                                          | Thursday                                                             | Friday                                          |
|-----------------|----------------------------------------------------|-----------------------------------------------------------------------|----------------------------------------------------|----------------------------------------------------------------------|-------------------------------------------------|
| 8:30 - 10:00 AM | Engineering Mechanics II (Dynamics) SMIE TBA (030) | Engineering Biology Dr. Shimeles S. (E122)                            |                                                    | Applied Mathematics III Maths Dept (E122)                            | Engineering Biology Dr. Shimeles S. (030)       |
| 10:30 -12:00 AM | General and Inorganic Chemistry Keresa D. (030)    | Chemical Engineering Thermodynamics I Dr. Anteneh M./ Hanan E. (E122) | Engineering Mechanics II (Dynamics) SMIE TBA (030) | Introduction to Chemical Engineering Dr. Shumet S. (030)             |                                                 |
| LUNCH           |                                                    |                                                                       |                                                    |                                                                      |                                                 |
| 1:30 - 3:00 PM  | General and Inorganic Chemistry Lab Tiringo T.     | Introduction to Chemical Engineering Dr. Shumet S. (027)              | Applied Mathematics III Tutorial Maths Dept (028)  | Chemical Engineering Thermodynamics I Dr. Anteneh M./ Hanan E. (027) | General and Inorganic Chemistry Keresa D. (027) |
| 3:30 – 11:00 PM |                                                    |                                                                       |                                                    |                                                                      |                                                 |
