

برعاية معالى وزير التربية والتعليم
السيد الاستاذ / محمد عبد اللطيف
وتوجيهات مساعد الوزير لشئون تطوير المناهج التعليمية
والمشرف على الادارة المركزية لتطوير المناهج

د/ اكرم حسن

اداءات وتقييمات

الصف الخامس الابتدائى

لجنة الاعداد والمراجعة

خبراء مكتب تنمية مادة العلوم

أ/ منى محمد سيد مغربى

أ/ هناء محمد ابوبكرة

اشراف علمى

مستشار العلوم

د/ عزيزه رجب خليفة

Primary five

Science – second term

Effects of gravity (part two)

Weekly test (10) – (A)

Question 1: Complete the following:

- Planets revolve in fixed orbits due to the effect of gravity.

Question 2: Write what the following statement means:

- A type of frictional force generating from the movement of an object in the air.

Question 3: Give reason for the following:

- The sun is the center of motion in the solar system.

Question 4: Correct the underlined:

- Magnets attract wooden objects.
- The force of gravity between two objects increases as the distance between them increases.

Primary five

Science – second term

Effects of gravity (part two)

Weekly test (10) – (B)

Question 1: Complete the following:

- Magnets attract some metals, such as

Question 2: Write what the following statement means:

- The Sun and the planets that revolve around it.

Question 3: Give reason for the following:

- Earth's gravity is stronger than the moon's gravity.

Question 4: Correct the underlined:

- Air resistance affects an object which falling downward in the same direction of Earth's gravity.
- The force that generated between two touching surfaces leads to slow the movement of object is known as magnetism.

Primary five

Science – second term

Effects of gravity (part two)

Weekly test (10) – (C)

Question 1: Complete the following:

- The reduces the speed of an object's movement in the air.

Question 2: Write what the following statement means:

- A force generated between two touching surfaces leads to slow the movement of object.

Question 3: Give reason for the following:

- The Moon revolves around Earth in a fixed orbit.

Question 4: Correct the underlined:

- Earth is the center of motion in the solar system.
- A magnet pulls metal paper clips due to the force of gravity.
