Semester

Table of Specification

December/2017 e.c

Introduction

How is the Table of Specification organized?

The Table of Specification is organized into three units, each of which covers a specific topic or theme in social studies.

Here's a suggested allocation of questions:

- **Ease** : 12 questions
 - **Moderate** : 20 questions
 - **Difficult** : 8 questions
 - To distribute these questions across the 3 units, consider allocating a certain number of questions per unit based on the total number of questions and the difficulty levels.
-
- 5 true/false questions, 5 matching questions, 25 multiple-choice questions, 3 fill-in-the-blank questions, 2 short-answer questions

Social studies grade 7 Table of Specifications
