PHILIP CEPHAS

SPIRIT TRANSPORT

As the name implies, spirit transport is another prophetic experience that exist in the realm of God. This may not look common among prophetic people, but was common in scriptures in time past. Men that walked with God in time past had such encounters where they left their bodies to another location, it was like being in dual-locations where you are seen by people in two locations functional and active. This may sound strange, but this manifestation is found among the prophetic manifestations and experiences of God.

Prophetic individuals in time past had this encounters and many travelled in the spirit, with their spirit, soul and body. Spirit transport is the movement from one place to another by the aid and agency of The Holy Spirit and the angels of The Lord. Philip the Apostle was transported after talking with the Ethiopian eunuch. God has no limitation, we men do and this is simply because of our unbelief.

Everything is possible in God if we can just believe. Spiritual transportation and transport in the spirit was common in the life of the prophets of old. It is possible for God to transport people supernaturally from one place to another and this is not an exclusively preserved for certain spiritual elites, but for anyone who dares to believe in God. Jesus Christ after He resurrected came to the apostles passing through the wall as they wondered and surprised at what means of transportation that was. He was known as a man that did terrible signs and wonders, but now they saw even more than a sign and a wonder.

When a man is being transported in the spirit, he sees no limitation in the physical realm. He is not held bound by natural laws and principles. Passing through walls and appearing and disappearing are so possible for him. He is possessed and controlled by the spirit and chariots of heaven. When a man is about to be transported, he is transformed to light and spirit, that is why he cannot not be touched.

Jesus Christ after revealing Himself to them by spirit transport ascended into heaven by the Jordan river where they saw Him lifted up to His father. This encounter they had was enough to motivate them to dare the possibility of spirit transport in God. Paul the apostle said, “I know a man 14 years ago whether in the flesh or in the spirit, he was caught up and transported into the third heaven, this man had encounters and saw things that are unlawful for him to utter.”

It was possible for the apostles to follow suit after Christ Jesus because they saw Him do the same thing and that realm of possibility was opened to them all. It is true that if you can see someone do a thing and follow after the principle and patterns that he followed, you can do the same and even more if you can just believe. After the death of Christ Jesus, The Messiah many years ago, Philip the evangelist was instructed by God to join himself with the chariot of an Ethiopian eunuch who was on a pilgrimage to Jerusalem. He had a scroll that he was reading which contained the prophecies of the prophet Isaiah. This eunuch was finding it hard to comprehend the prophecies written by the prophet of a messiah that will come and die for the sins of mankind. Philip by The Holy Spirit was led to join himself with the eunuch's chariot and ask him, “Understand thou what thou read?”

Philip was able to explain to him what he read and after he comprehended it, he demanded to be baptized believing in the name of Jesus Christ who took away the sins of mankind. When Philip was done with the assignment of talking to the Ethiopian eunuch, he was transported by the spirit as he disappeared to reappears in another region of Azotus to preach and minister as a witness of Christ Jesus.

Transport in the spirit is not limited to when your body is lifted. There are times when your body remains in the location as your spirit and soul tours another realm. It is possible to be in two different places at the same time performing different functions. There have been several encounters of such. I have heard most ministers speak about such encounters at work in their lives.

John the beloved said, he was in the spirit on The Lord's Day when he had a spirit transport encounter to the very presence of God. He was banished to the Island of Patmos after many attempts to kill him failed. Emperor Nero persecuted the apostles unto death in his time. Many of them were martyred, but John the beloved survived and was banished to the Island of Patmos to die a natural death. But instead of dying, he brought another revelation of Christ Jesus to the body of Christ. He was taken to the spirit realm and transported in the spirit to see things that were, are and will be. He saw past, present and future events that will unfold overtime in the body of Christ. Spirit transport is aided by the chariots, angels and presence of The Holy Spirit. This is also common in the Old Testament.

Ezekiel was a prophet called in exile and ordained by God as His prophet to speak to the children of Israel His counsel in those hard and terrible times. He was taken in the spirit and shown things that have passed for many years. He had encounters of the past, present and future. He was transported in the spirit and shown the temple of Jerusalem. He was shown the atrocities and the iniquities committed by the children of Israel in times past which resulted in their present suffering. God shows the prophet past actions of the Israelites that led to their present predicament and revealed to him what they ought to do to be free from that captivity.

There are times when God will not just speak a thing to you, He will want you to see it as it is in the spirit realm. He will take you by the spirit and transport you to the very place where that

reality dwells, then He speaks to you, giving you instructions and commandment of what to do. God did the same thing to John as He did to Ezekiel. For Ezekiel to come into the understanding of Israel as an entity under God, he was taken to see the journey of God with them overtime; how they disobeyed and served other gods until He gave them up to captivity. God revealed to the prophet the promises He made to save them after they repent and turn back to Him.

With such an understanding, the prophet can now lead the people through a time of repentance praying and asking God for His deliverance and mercy upon them. John the beloved went under the same dealing and discipline. He had to be banish by persecution to the Island of Patmos before he was transported by the spirit of God to the very heavens and presence of God.

Elijah the prophet experienced spirit transport after he was done with the contest on Mount Carmel which led to the death of the false prophets and rain upon the land. As he prayed for the heaven to be open so that it can rain again. He told the king to leave and go home for it is about to rain. The king never believed the prophet until he saw the rain coming before he began to saddle his chariots to take him home. The king had the best of chariots in the kingdom, but it was recorded that Elijah ran faster and went ahead of the king's chariots. This was possible by the spirit, angels and chariots of heaven. Elijah was transported by the spirit of God to move faster than the chariots of the king. This had to be supernatural because no normal man moves faster than a chariot. There is a realm in which such a manifestation exists in God, anyone can walk in that realm if there is a need and God sees him fit for it.

When it was time for Elijah to rest in God and he had to exit this realm of reality, it was recorded that he was taken up by a whirlwind by the river Jordan, this was done through spirit transport. His protégé Elisha cried out, “my father, my father the chariots of Israel and the horsemen thereof.” Elisha saw the whirlwind as they took his spiritual father away from him. When a man is being transported by the spirit, he can be seen in the glory of the angels, chariots and presence of the Holy Spirit.

Enoch was a man of faith, he walked with God and it was recorded that he was not found again among men for God took him. He was a man that walked and functioned with God. He has a track record of walking with God. God needed him as a friend even in heaven. He had to transport him to heaven permanently; spirit, soul and body. God always achieves spirit transportation

by the chariots of The LORD. When a person is to exit the earth realm to the heaven, it is done by the chariots of fire. But when transportation is going to be from one place to another within the earth realm, it is done by the chariot of The LORD. Whenever it involves the chariots of fire, there will be a change of realm.

Elisha who was a protege of Elijah who also functioned after the order of his father, had such prophetic experience of spirit transport also. Naaman was an army general that was leprous and he was referred to Elisha for healing and cleansing. Elisha helped him without collecting an offering from him. Gehazi who was supposed to be the protege of Elisha as he served under him as a son, but in his greed went to the army general to collect the offering he brought to Elisha of which he refused to collect. Gehazi went without the consent of Elisha his spiritual covering and father.

Unknown to Gehazi, Elisha was transported in the spirit to see the selfish and greedy transaction that he did with the army general who was healed of leprosy. When he came back home, he was questioned by Elisha about why he had to follow after the army general to collect the gift that was rejected? Gehazi denied that he didn't collect anything from the army general until Elisha let him realized that he was transported in the spirit to see him when he went after the general to collect the gifts in his name. Because of Gehazi's disobedient and lies, the leprosy that was cleansed from the army general came upon him and so he remained a leprous man.

There was another time when the enemy of Israel were planning different strategies that they will use to fight Israel. Whenever they planned, the secrets were being revealed to the king of Israel by Elisha the prophet. The other king thought he was being betrayed by his own people because these meetings were done in the king's chamber of which no unwanted guests are allow entrance. Information got to the king that there is a prophet in Israel who reveals the secret things discussed by the king and his men to the king in Israel. Elisha was transported in the spirit to attend the meeting in the king's chamber, then he goes and relates what transpired in the meeting to the king of Israel. The king sent an army to capture the prophet in Israel, but by supernatural manifestation, the prophet gave the whole army blindness and led them to the very camp of the army of Israel.

God can use spirit transport to reveal to us ancient secrets and code of conduct that were functional in times past which were neglected as people transited in dealing with God. The chariots of God that were saddled with the responsibility of transporting people often in the spirit are the cherubim and Seraphim. Sometimes, a clusters of angelic beings of different ranks work together to achieve this purpose.

The prophet who has numerous experiences of transport in the spirit gave us an understanding of specific beings with wheels

which are referred to as the *owphanims* from the root Hebrew word *owphan* meaning to revolve, a wheel. These beings are also part of the clusters of the spirits that results in the transportation of the spirit.

The Seraphim are beings that burn with fire while the Cherubim have wings and the wheels contains the spirit of the creatures. When these Seraphim and Cherubim join together clustering with other beings of light, a chariot of fire is formed and transport in the spirit can be achieved. This chariot of fire can transport you from one place to another in the twinkle of an eye as seen happen to Philip the evangelist, Elijah the prophet, John the beloved, Enoch, Jesus Christ and many more.

God still transports people in our day and time. I was watching a TV broadcast by Sid Roth, "***Its supernatural***" when he was interviewing a minister of the gospel that was transported by the spirit from one country to another. He spoke and said that he was scheduled to minister in a country and as he went to the airport to board the plane, there was a prompting within him to go to the restroom and worship God for a while before he checked into the flight. As he was worshipping in the restroom suddenly, he was lost in time and after a while he felt the prompting to open the door of the restroom. To his amazement as he went out of the restroom, he realized he was transported spirit, soul and body to the country he was supposed to fly to. This kind of encounter is

rare and requires the aid of The Holy Spirit because it is impossible for anyone to cross to another country spirit, soul and body.

Such an encounter will always be a wonder to even the minister because he cannot accurately explain the details of the encounter for it is beyond the mind. Most supernatural manifestations of God can't relate with our carnal mind that is why the first criteria to walking in the supernatural is to take your mind off your thinking and do as your spirit prompts and informs you. Most times we have the fear of, 'what if it doesn't work?' why don't we get comfort from what if it works!

Most supernatural manifestations will happen in our lives without a plan. You will not have the time to pre-plan and premeditate it because it is not for your glory. God always does the sign and we do the wondering. I have listened to David Hazog talk of the supernatural and relates it to an encounter he had of which he was transported from one location to another spirit, soul and body. He was supposed to go minister in another state which was supposed to take him a long hour drive, but his car broke down on transit. He had to wait and repair the car and this delayed him. When he finally concluded that he can't make it for the meeting which was scheduled to start immediately he arrived. He called the people to inform them that he can't meet up with the timing of the meeting for the day and demanded that his session be shifted to the next day. After the repair he entered the car to

drive and as he was worshipping God, he was lost in time and was transported exactly to the route that connected to the meeting venue. He arrived the meeting just in time supernaturally to the surprise of all. He spoke about transport in the spirit and how God achieved it. He said, “If time is what governs our realm of existence and we require it to take us to places and locations, then if God can just take away the time suppose for us to reach a particular destination, then we will reach it instantly.”

A lady was praying in her room while her friends sat in the sitting room. The same lady that was praying in the room was seen passing through the sitting room making her way outside the door to go pray for someone that was sick in the hospital. She was both at home and the hospital at the same time. Later, the people that sat in the sitting room came to her room to tell her that they saw her go out of the door, they all wondered at what has just happen. This happened when she was praying and interceding for the lady that was sick in the hospital.

Most spirit transport will come as a surprise and a wonder to you, because you will always find it hard to account for the details of the transaction. Just as trance, your senses are fragile and lack control of yourself. Spirit transport is of that manner; you don't have control of such an encounter it just happens for the glory of God. I was transported in the spirit a number of times, most of those times I don't have a detail of the encounters, although I sustain much wisdom and revelations.

God can transport you in the spirit to reveal things to you, He can also transport you in the spirit to talk and speak to another person giving him counsel and instructions in The Holy Spirit. There are times when God transported me in the spirit to speak to people giving them understanding of certain things they lack knowledge in. The people get to call me and inform me of the things I talked to them about and I wonder when such a thing happened of which I lack full knowledge and understanding of.

There are times when as I meditate and pray interceding for others, I feel a switch in realms and time. Most of those times, The Lord takes advantage of it to transport you to minister to others. People get to call and inform you that you came at a particular time to pray with them and speak certain words to them and you get to wonder the truth in their confession. You cannot deny the fact that the words that they confessed are words that you are capable of speaking under God.

Transport reality is an exclusive preserve of The Spirit of God, and God will never want us to glory in it and that is why the understanding of how and when it will happen is conceal from us most times. There are times that as I pray and commune with The Spirit, I realize myself leave my body and travel around other realms of existence, sometimes I see things in the glory of heaven. That makes me wonder and marvel at the creation and supremacy of God and how He puts creation in order far beyond the carnal wisdom of man.

There are other common spirit transport experiences we can relate to in our society. Have you ever seen a minster you know in your dream praying or talking to you? Or have you ever seen yourself whether in a dream, vision or trance traveling and moving from one place to another? Or seen yourself flying on the wings of angels or just flying from place to place? These encounters are not always demonic as many were made to believe, some of these encounters are healthy spiritual prophetic experiences in which God transports you to see things and pray for regions subduing them under God.

Many people have encounters of themselves flying at night to places and locations to pray or attend meetings praying for the sick. Some see themselves move to people's houses at night to pray and watch over the houses. You may not have a good understanding of such an encounter because the understanding is not revealed and given to you by God. Spirit transport reality exists in the spirit realm under God. Not all people that fly in the spirit at night or day are witches and wizards, most of those movement in the spirit are orchestrated by The Holy Spirit under God.

We must learn to discern the prophetic manifestations of The Holy Spirit, so that we don't limit The Holy Spirit in our mind, but to the word of God. There was this minister of the gospel that went to a place to minister and was told that he came and ministered some time ago in the place. To his surprise, he knew

he can't recall himself coming to that place before, but he can't tell the people that they lied because he has an understanding that The Holy Spirit can cause you to be in dual locations at the same time.

I recall a dream I had some years ago where I was being persecuted and chased to be killed. I found myself flying and running from one state to another with a speed I know was beyond my natural capacity. The people got tired of chasing me because I was moving with a speed they can't comprehend. I recall another dream I had of myself and two other prophetic friends of mine being chased and we held hands together flying upon the wings of a big cherub that took us away to a safe zone.

This experiences may look strange, but they are true in God. Spirit transport is not what you do at will, it is orchestrated by God and it mostly occurs in desperate times. You don't have to be a prophet or a prophetic individual for such an experience to happen in your life, a simple love for God is enough for it to happen. In desperate times when believers are heavily persecuted to be slaughtered, God can choose to deliver them by supernaturally transporting them to another location that is safer. I don't believe that this is a hard thing for God to do, God can even do more than that for us.

These are the times of the supernatural and the supernatural will no longer be a strange place and plane of operation for this century, but a normal realm of reality. People are embracing the

supernatural and the experiences of the prophetic. Most people find it easy to believe God in desperate and terrible times when their minds can't think of a solution out of their dilemma because doubt is taken away and unbelief is nowhere to be found.

You don't have to seek to be transported in the spirit, all what God wants from you is to believe in the possibility of that reality and when it is needed for you to be transported, He will cause it to function in your life by His sovereignty. I dare you to believe God the more, as He brings you to the realm of daily supernatural and prophetic encounters in Him. Amen.

Shalom!!!
